

**Gateway Portal Channeling  
Divine Mother**

**May 5, 2011**

*My children of Light, I am your very own Divine Mother. I hold you in my own heart.*

**Mother's Thank You for What We Have Done**

I will tell you I am absolutely well pleased with everything that every one of you has done. Everything that every one of you has done to bring us where we are even those of you who are joining us for the first time. It is not a coincidence that you are being brought to your Family of Light – are being brought to your Family of Light to give you a chance to know that you are loved and cherished – to give you a chance to know that whether you are conscious of what you do or not, you are doing a great deal. You are doing a great deal simply by being alive on Earth at this present time in the history of evolution of Earth. Your presence on Earth is making an enormous difference and this is why I say to you, I am well pleased.

You have no idea what you have been through and how much you have done for humankind. Perhaps your aches and pains and the ups and downs of emotions, mental processes can give you a small clue as to how much you are doing, how much your consciousness is doing, how much your subconscious is doing, how much you are accomplishing on behalf of Light, on behalf of your very own Divine Mother in service to Light. But even your aches and pains - even your emotional ups and downs - even the moments that anger comes out of no where or sadness comes out of no where - even in those moments you have no idea that the amount of the dross that you are experiencing through your body compared to the amount of work that you are doing on behalf of Earth and humankind, on behalf of the Masters and your very own Divine Mother, is incomparable. There is no comparison. Even though there are times when you say, 'Well I am going to burst at the seams if I take any more of this.' There are times when you say, 'I don't know why I am sad; I am depressed; I am beside myself. I have no idea why this is happening.'

These are all times when you are taking the dross and creating a Vortex of Light to release it. Those of you who completed the exercises in the Portals of Light Course have a much better understanding that you can actually create a Vortex of Light using your physical body as the embodiment of that Vortex spreading the Light into a Vortex and allowing the dross to be released through the Vortex as you also allow the higher Light to be brought down from higher Realms through that Vortex.

**Agenda for this Session is Threefold**

My agenda for this session, as fast as I can give it to you, is threefold and I want to talk about these three events and issues and then give you a little taste of all three. Even though I wouldn't be able to do justice to any one of the subjects that I wish to cover. I want to anchor the awareness of each of those subjects within your conscious mind to help you understand what you are coping with at this present moment. That is my plan.

**Take Credit for What You are Doing**

My plan is to give you an idea of how much you are doing and also to bring your consciousness to focus on what you are doing so that as you do what you do, you can take credit for what you're doing. You can pat yourself on the back and say, "***This is happening because of us. This is happening because of me and I have been involved in this even when I wasn't consciously aware that I was doing this. In all those times that I felt aches and pains, in all those times that I've been feeling nauseous...***" The nausea is

something you've been feeling for a few days, for a few weeks and some of you, on and off, for a few months. That's when you process through your internal organs.

### **Mother Sends Us Golden Pink Light and Golden Copper Light**

So... and as I'm saying this during this pause, I'm scanning your internal organs and I'm blessing you and sending you Golden Light – Golden Pink Light of Divine Love – Golden Copper Light of Purity and Innocence of your own Divine Mother, the signature energy of Divine Mother. I want you to envision each of you cocooned inside of a blanket of Copper Gold Light and the entire group as one group entity blanketed inside of the Copper Gold of Divine Mother.

### **Importance of the Angels and Elementals**

#### **Angels Carry Divine Will Which Earth Has Lost**

Let me begin with the subject of the Angels and the importance of the Angels – Angels and Elementals. Right now, we are going through a phase where we need to call to Earth an enormous body of Angels. Imagine if there are a hundred, a thousand Angels for each individual soul and count not just human souls but the souls of every animal, including microscopic single cell creatures, every plant, every mineral and every human, of course. How many trillions, how many billions multiplied by trillions of Angels would you need then? And that is what we need and the reason why we need to call these Angelic Beings is that Angels carry Divine Will and Divine Will is what is lost to Earth. Free will has taken its place. Understandably so but when free will goes awry, that's when you need to bring reinforcements from Divine Will – that's when you need to call a hundred, a few hundred, a thousand, a few thousand Angelic Beings to come and reinstate the energies of Divine Will and replace Divine Will for the presently existing free will which is going crazy.

#### **Freedom is our Divine Right**

And I'll give you an example of what I mean when I say, "*Free will is going crazy.*" You see, think of what is going on in the Middle East right now. Every one of these young generations of men and women who have triggered the need for freedom and are calling for a revolution are coming out asking for their Divine rights. Every soul is by Divine right given freedom. Freedom to speak; otherwise, why would you need language? Freedom to act; otherwise, why would you need hands and feet and a brain to give commands to your hands and feet? Freedom to think; otherwise, why you have thoughts? Freedom to love; otherwise, why would you feel love. Freedom to communicate; otherwise, why would you speak to one another? Freedom to live life joyfully; otherwise, why would you strive for joy?

#### **Trillions of Angelic Forces are Necessary Because Free Will Has Gone Awry**

Now, the free will of the leaders and the fact that they are in a position of aggression... They have the bombs. They have the weapons. They have the soldiers. They have the means. That free will has gone so awry that a leader of a country would rather carry the blood of hundreds and thousands of souls – destroy cities and towns and hamlets and homes, children, animals, trees. Because of their own free will, they wish to continue their acts of aggression. This is why we need multiples of trillions of Angelic Forces.

#### **Elementals are Fragile and Helpless Without These Angelic Forces**

This is why we need Angelic Forces to circle the Elementals who are fragile. They have returned. We've talked about the need of Elementals to return and the Elementals have returned but they are helpless. How can the Elementals be effective when human beings – one human being – ten human beings can act so aggressively to destroy towns and cities and lives? How can the Elementals fix that in a short period of time? Which is what we need.

### **Angels and Elementals are Needed to Help Victims (People, Places and Things) of Natural Disasters**

On the other side of the spectrum, we need the Angels and the Elementals to help people who are victims of natural disasters – to help people, places and things that are victims of natural disasters. Those houses that have been destroyed – that land that has been impacted by the tsunami – that land that has been impacted by a tornado - a tornado so strong that it can pull a three-foot wide tree, uprooting it from the Earth and turning it upside down and sticking it back into Earth. That Earth is hurting. That location, that substance of the Earth element in those locations, is hurting. Just as the people who lose their homes are hurting – the people who lose their loved ones are hurting – the people who are losing their memorabilia, their memories are hurting. We need Angelic Beings. We need a hundred, a thousand Angelic Beings – a hundred, a thousand Beings as well as Elementals for every tree that has been uprooted and for every millimeter, every inch of every piece of land, every home that is destroyed, uprooted, every item, sentient or insentient, that is misplaced.

### **Houses Have Their Own Consciousness**

A house has its own consciousness. Believe me, it does. Its consciousness is borrowed from or stems from, is sourced from the consciousness of, first and foremost, those who live in it and then secondarily, those who built it and thirdly, those elements that are in place in the environment where it is built. For example, a house is affected by a brook that runs around it, a stream, a lake, a pond. A house is affected by the birds that sing in the trees nearby. A house is affected by the trees, by the grass, by the rocks, the pebbles, the flowers, the bushes. A house is affected by the minerals that are under the surface of Earth where it sits, under the skin of Earth or even the skin of Earth, because the house recognizes. What is a house made of? Metal and wood and glass. Where do these items come from? Where does metal and wood and glass come from? Earth. So a house that has a structure made of wood framing would recognize and commune with the trees around itself. A house that has metal beams would recognize and commune with other metal elements that it may be sitting on. It can commune with gems. It can commune with Crystals. Quartz is the most prominent crystalline structure that covers, by some scientific research, seventy-five percent – by some even more. The crust of the Earth encased in Quartz. The house sitting on top of a Quartz mound will identify and commune with the Quartz that's underneath the surface of the skin of the Earth.

Now, imagine, suddenly a tsunami hits. Suddenly a tornado hits and that house is no longer. That skin of the Earth feels the pain that the house isn't there - besides the pain of the people who are traumatized - besides the pain of the missing pieces - besides the pain of all the rubble that is sitting on top. It has a consciousness. The crust of the Earth is mourning the fact that the beautiful house that communed with it is now gone. The cars that added a little bit of a special variety specialty, strewn here, there and everywhere, are gone. The stream that was running around is no longer.

We need Angels. We need multitudes and multitudes of Angels – Angels and Elementals. Angels who come and protect the Five Elements. Angels who come and protect everyone who has been in one form or another affected – every soul who has been affected – every creature who has been affected in one form or another. This is a turmoil that Earth is going through.

### **What Is The Lesson That Earth Is Pulling To Herself? Why Has Earth Pulled This Abuse and Pain to Herself?**

In a couple of sessions ago, I said to you, *"I want you to think why Earth has pulled this to herself."* And I said to you, *"Think about it."* You can say humankind is abusing Earth but why would Earth call the type of humankind, the type of souls who would abuse her. Go beyond what's on the surface. Go deeper and ask the questions that look into the root cause. Why would Earth pull that kind of energy to herself? Why would Earth

choose souls and species that would abuse her? That doesn't take away from the responsibility of the souls who are abusing to change the nature of their free will. Every human being, who is in one form or another using the resources of Earth uncaringly, is responsible to turn around and learn to care. That's a given.

### **It Began Many Millions of Years Ago**

But what is the lesson that Earth is pulling to herself? And that's another subject that needs to be looked into and I will briefly go into it. I go into it because I want you to understand why you need to love Gaia.

### **Earth Was Always Ahead of Her Siblings Carrying Higher Illumined Light**

I will go back to many millions of years to just give you a perspective. This planet, from the very beginning of its inception, was an illumined Being of Light. Even in its infancy, it was fully illumined. Those of you who are teachers – those of you who are parents to more than one child or even one child, you know what I mean. Those of you who deal with souls that are fully illumined – souls that you can tell even when they are infants, when they're young toddlers, when they are teenagers, when they're young adults, there's some spark in them. Earth was such a planetary body, always ahead of its own crowd, its own siblings. Always.

### **This Subjected Earth to Much Abuse**

And every time that she rose to a higher status, the Boards – call it the Karmic Board – call it the Galactic Board – call it whatever you want – would say, "Well, in this Quadrant, in this Galaxy, in this Quadrant of planetary bodies, this planet is carrying such illumined Light. It doesn't need that much Light. Let us send some souls who are not of deeper Light because this Quadrant does not merit so much Light.

### **This Abuse Caused Earth To Question Why She Tried So Hard**

And it got to the point – once, twice, ten times, fifteen times, twenty times – when Earth came to that point, the Deity, the energy, the responsibility of carrying this much Light by the Deity, by the energy of Earth finally came to the conclusion, ***"Why am I trying so hard? Why am I trying to be ahead of my own time? The more I try, the more I give, the more it seems as if I am abused. So, I will take the passive path. I will use my free will not to do as much as I have done in the past because every time I raised my quotient of Light – every time I was ahead of every one else, I finished the race and because I was so far ahead of every one else, I was told, 'Okay, you finished the race. Now you can go and do this, this and this. You can run some more because you're ahead of everyone else."***

### **Ultimately Earth Stopped Trying**

And that 'run some more' translated into more renegades, more species that were unwanted by other planetary bodies would be thrown on to Earth. And it got to be that the scars and the grooves of this event became so deep that Earth got used to the idea – that her body is going to be etched with all these scars and grooves and there's nothing she can do about it. And she stopped. Gradually over time, she stopped trying harder and harder and harder.

### **The Answer Is – Earth is Finally Waking Up From Sleep of Forgetfulness/Pacifism**

And so the answer to the question, Why has Earth pulled these souls who are abusive so that now she needs to call to a tornado to rampage through her body – to a tsunami to clear hundred of thousands of homes and lives – to a volcanic eruption to clear the air – to floods to wash away the pain, wash away the dross? The answer is that she's finally waking up from that sleep of forgetfulness – that sleep of pacifism. For eons and eons, she worked harder than any other sibling within this Solar System or within this Galaxy – harder than many siblings. She was the one that would be constantly watched. How would she pull the next event and the next

event? How will she surpass again and again. Each time, she was put through harder tests until she came to a point that if she doesn't try as hard, she won't be tested so hard either.

And that became a gradual process of becoming passive – becoming passive and choosing to do less and letting the environment, the Five Elements become dimmer because she came to the conclusion that if she's dim, no one would be watching so closely and she won't have to carry the burden. You know this analogy – your shoulders can carry a burden for a certain length of time. Finally, you get tired of it and whether you've made it home or not, you drop it. You may drop it for a while just to sit and recuperate or you may drop it and say 'I'm done.' Let's just say that for a while – a while that has taken a few thousand years – Earth has dropped the burden and said, ***"I'm done for now. I'm taking a respite. I'm taking a respite in trying the hardest, harder than any other sibling, any one planetary body in our Quadrant."***

### **Consciousness of Christed Self, of Self Realization Needs to Exist Within Earth**

#### **Sai Baba - Whose Lineage is the Embodiment of the Christos – the Christed Self**

That's another reason why we need Angelic help. We need Cosmic Guardians and we need physically embodied souls that can hold great quotients of Light – like Sai Baba, who recently passed over from physical embodiment to ascended state. He came to Earth from ascended state, that's why he was known as an Avatar. An Avatar is a being that comes with no karma. The karmic slate is completely clean and the soul is fully in charge of the personality so the personality knows why he or she has been incarnated on Earth. Sai Baba was one such soul and his lineage is the lineage that you know as the embodiment of the Christos – the Christed Self. The lineage that is necessary for any planetary body to reach to – before that planetary body is taken seriously. The consciousness of the Christed Self – the consciousness of self-realization needs to exist within a planetary body and it can exist within a planetary body naturally if that planetary body is aligned in its Divine Will and its free will. In other words, if that planetary body is embodying Divine Will and aligning its free will with the Divine Will.

#### **Divine Will and Free Will on Earth Must Come Into Alignment**

In the recent past, the free will and the Divine Will have departed to the point where the presence of beings such as Sai Baba, such as Christ Maitreya, such as the living incarnations of various aspects of Divine Mother have become necessary. This is an unprecedented moment in the history of Earth in that there are much larger numbers of physically embodied Avatars – physically embodied aspects of Divine Mother from its purest source are available on Earth. Physically embodied aspects of Purity and Innocence are coming to Earth at this point where she needs to relieve herself of the utmost density of impurity, pollution, contamination, corruption, greed, anger and so on and so forth.

#### **Christ Maitreya – Physically Embodied as the World Teacher**

Another Being that I need to bring to your attention is Christ Maitreya. Most like to call him just by 'Maitreya' but adding the 'Christ' to his name will remind you all that it is all about the consciousness of the Christos. That didn't mean that Buddha didn't carry that consciousness. Indeed he carried that consciousness. So did Krishna. So did Zorasater. So does Sanat Kumara. So do these fully illumined Beings and so do you. Each and every one of you carry that consciousness to the degree that you have discovered your Divinity – to the degree that you have raised your consciousness – to the degree that you have raised the quotient of Light within your body, within your five-body system – to the degree that you have connected yourself with your soul lineage of Light.

There are physically embodied souls known as Avatars who carry their entire spectrum of soul lineage fully illumined in Light. You can be in their presence ten miles away – you can be in their presence a hundred miles away – you can be in their presence thousands of miles away and you can still benefit from their illumined Light, from the realized Aspect, from the consciousness of the Christos, which is the realized sense of self.

And in this sense, remember that Christ Maitreya is physically embodied - an unprecedented event - an unprecedented event because it only happens in times of emergency. It happens, if ever, when a planetary body is in a position that it needs Light of such a highly illumined status that a World Teacher would come. The World Teacher is a liaison between the planet and other worlds. He doesn't necessarily live on the planet. He doesn't need to be physically incarnate. Why? Because if he does incarnate physically, it would limit him. His presence is like a glove or a blanket. But at this present moment in the history, Christ Maitreya has taken physical embodiment. He's woven a physical body. He has not been born. He did not come out of a womb but he wove from the fabric of time and space a physical body that is less limited than the one that would come out of the womb. Why did he not choose to come out of a womb? Because the level of Light that he needs to carry around would have burned that womb, literally physically would have burned that womb. So he wove from the fabric of time and space through the Five Elements the Body of Light and a physical body. A Body of Light upon which he actually fashioned skin and bones and cells and muscles and organs and such.

### **Sai Baba is a Million Times More Powerful Now – An Over-lighting Presence**

Sai Baba, on the other hand, is now free of the flesh and bones and cells and organs and he is now the over-lighting presence. He's now the blanket that you can all connect to. He is a hundred times, a thousand times, a million times more powerful now because his Presence can be felt in the air that you breathe. He is no longer limited. His Presence can be in the water that you drink. His Presence can be in the Earth that you walk upon. His Presence is everywhere especially right now. And what is so beautiful about him being so present for you is that until a few days ago, he was here on Earth. He knows what it feels like to be physically incarnate and go through a tsunami, go through a volcanic eruption, go through fears, go through the dross, go through the emotional disturbance, the trauma. He also knows what it's like to be poor – what it's like to be hungry – what it's like to be disappointed – what it's like to be uneducated – what's it like to not have clean pure water to drink because he chose to come to the poorest of the poor upon this globe. He chose to come to the most poverty stricken part of the world and bring Light and feel the pain and suffer as all human beings, awakened and un-awakened, have suffered. He came to change the nature of suffering and to let go of suffering – to free humankind from suffering.

That was one of the reasons why he was so intent on alchemical processes – manifesting an item of jewelry – manifesting a gold watch – manifesting sacred healing ashes and substances from the ethers, from thin air. That was part of his mission in showing humankind that it is not necessary to remain in this limited perception of reality where you see yourselves as helpless – you see yourselves as poor, as hungry, as hopeless, as helpless, as victims.

Just as Mother Earth did for a long period of time. Every time she superceded others and she felt that she was watched and she was demanded to do more; she felt a victim and it got to the point where her energy of feeding a victim got the best of her. And this is another reason why we need Angels and Elementals.

### **Christ Maitreya and the Masters of Wisdom**

I want you to visualize that you are standing before Christ Maitreya and I want you to understand that Christ Maitreya has come to be the leader of a series of physically incarnate and Ascended Beings of Light, male and female, who work with him, who have chosen to come in his service to help rescue Earth and all souls from this experience and expression of limitation, victimization. And the Masters of Wisdom have been working under his

supervision. Yet, they too have been limited in what they can achieve because Earth has been burdened by her pain - because Earth has been passive – because Earth has chosen to be a victim and because Earth has pulled to herself so much dross.

### **Good News: Almost All Dross from Disembodied Energies Has Been Cleared**

The good news is, and I won't go too deeply into it, but the good news is that practically one hundred percent of the dross, that has been pulled to Earth as a result of attracting disembodied extraterrestrial energies, has already been cleared. Thanks to you. Thanks to Christ Maitreya and the Masters of Wisdom. Thanks to Ascended Masters and living Masters including Sai Baba. Most especially, including Sai Baba and Christ Maitreya.

Every time that Sai Baba took some pain to his body, he released Earth and Earth's body and the bodies of humankind from disincarnate energies of lower vibration – disincarnate entities. An entity can be the entity of anger. An entity can be an entity of greed. You wouldn't have greed if it didn't exist, if it didn't have consciousness. Even in the course of the last hundred years, there are pockets of time when you go back and you see that people shared the resources. People lived in much greater Harmony with one another with no fear of giving away their resources, giving up the extra that they had so that someone else can have more. The Industrial Revolution, the New Age have all led to individuation. Every individual seeking for themselves and that has led to greed. It has led to untruths. It has led to corruption. Call it what you will. It is ultimately a consciousness and that consciousness has an entity.

### **Sai Baba Battled These Energies Throughout His Life**

Sai Baba took a lot of these entities over the past many years, eighty some years, and most especially over the past decade when he made a point of battling with these energies and clashing with these energies. And because his body is vast, because much of his beingness is unlimited by the body, he was able to win and conquer, of course, at the cost of his body. How is it possible a Being who can heal a leper – a Being who can heal a cripple and make the cripple walk – a Being who can heal the paraplegic and make the paraplegic walk, can't fix his own hip? Why would he fall in the first place to break his hip? He fell many times. He took on many physical injuries. Each of those physical injuries was where his choice was to sacrifice something of his own body and being in return for the body and being of Earth and humankind of Earth and all souls.

### **Sai Baba Created a Grid Around Earth to Protect Earth From Future Onslaughts**

And I would like to tell you that, in the last of these battles, he went for an ultimate clash and he did that at a point where he had saturated Earth and humankind with his vibrational force field. He had illuminated and charged a Grid around the body of Earth that will protect the Earth from an onslaught of any further lower vibrational energies and protect the Earth from receiving this level of abuse. Once he was certain that he had completed the task, he decided to go for the last battle.

### **Sai Baba's Last Battle**

The last battle was with certain energies that had enmeshed themselves into the fabric of the Five Elements to the point where it was difficult where these entities and energies began and where the true Earthly energies left off.

### **Melchizedek's Analogy of Merging/Meshing of These Two Energies**

The merging and meshing of the two energies was given in an analogy by Lord Melchizedek in explaining that these energies were like poison ivy, poison oak, a poison runner, a poison bush that has no ability of itself to exist unless it wraps itself around a fruit tree, a flowering bush and wrap its roots around the roots of the flowering bush and merge, sink its paws, runners, a succulent adjunct into the trunks and the leaves and the stems and the branches of the flowering bush, the fruit tree to the point where pulling the poisonous aspect

from the fruit tree, the flowering bush, would harm the flowering bush. Because they had become one – because the flowering bush, the good tree was at a point of identifying itself of partly the poisonous one. The poisonous one had merged and enmeshed its energy into the good tree so the good tree didn't know which part of it is good, which part of it is not good. It considered all parts as its own.

### **Sai Baba's Choice and Agreement**

That was the nature of the enmeshing of these entities and these energies. Sai Baba, with agreement with consultation with all levels of other physically incarnate and Ascended Masters and Divine Mother, made a choice. ***"I will leave now that I have saturated my own energies into the Five Elements, into the fabric of time and space on Earth and I will take them with me. I will pull the poison ivy away from the good tree in such a way that the good tree will survive and in such a way that the poison ivy will leave and will not stay in the atmosphere of Earth for the next attack and the next and the next but will come with me and I will take it to where it belongs. Either it will make a choice to join the Light or it will make a choice to go where it can have a life. The life at the level that a poisonous environment would befit another poisonous environment not an environment that is picking more Light as Earth is."***

### **Because We Have Done So Much Work, Beings Are Coming to Our Rescue**

I tell you this because I want you to understand that you have done so much work – you have put so much effort in raising the vibration of Earth and you have succeeded. You have succeeded to pull so much Light to Earth that living and Ascended Beings who are in service to you because they are in service to Light have now been called to come to your rescue. They've come to the rescue of Earth and they've come to your aid and your assistance and this is why we need to call on more Angelic Beings.

### **Commanding and Demanding the Return of Cosmic Guardian Angels with Christ Maitreya Before Divine Mother's Sacred Fires**

So, I invite you, as you stand with Christ Maitreya before the Altar of Divine Mother's Sacred Fires, to hold your Scepters of Power over your head and to command and demand the return of Cosmic Guardian Angels to restore the state of perfection to Earth, to the Five Elements which includes all people, all places, all things, all minerals, all animals, all plants, all microscopic quantum creatures and the entire planetary body as one individual form. The microscopic aspect where a quanta is one hundredth of a billionth in size to the macrocosm that is the entire planet and the Solar System, the Galaxy, the Universe.

### **Christ Maitreya's Incantation of Sacred Syllables in the Language of Light Willing Angelic and Elemental Beings to Come From the Invisible to the Visible**

And see Christ Maitreya lifting up both hands and he will begin an incantation in the Language of Light and as he continues to sing the sacred syllables, I want you to see that sparks from the Fire in the Altar begin to jump up and each of the sparks begins to take shape as tiny creatures who then take form and expand as various spectrums of Elemental Beings. And then see, hear, experience this swashing of wings as if invisible Angelic Beings are moving in the Etheric Realms around you and will it, as you hold your Scepter, will these Angelic Beings to come from the invisible to the visible and to stand around every one of us – around all the Beings that we have called and see the circles getting bigger, vaster, Lighter, brighter, happier and filled with all manners of Angelic and Elemental Beings as the sound of the voice of Christ Maitreya begins to resonate and multiply – as the walls and the ceilings and the Fire Element and the Water Element, the Earth Element, the Air Element, the Ether Element sing in resonance to Christ Maitreya's incantation of sacred syllables in the Language of Light.

And breathe and bathe and see as the Spectrum of Light expands as Rainbow Light begins to form and in the Rainbow Lights, Angelic Beings appear before you. Angelic Beings who attract a variety of shapes and sizes of Elementals to rush to them, to greet them, to love them, to sit on their wings, to hang on their bodies, to form wreaths around their heads. And see every one of these Beings stand in obeisance with great Love and reverence around the circle where all of you, all of us are willing, willing their presence. The Sacred Magic of the sacred syllables in the Language of Light can bring to form Angelic and Elemental Beings.

### **No Free Will, in Alignment with Divine Will, Will Be Touched**

Elemental Beings are more connected to Earth but they have been deprived and they are fearful of Earth and the volatile nature of the species and creatures that live on Earth but they trust the Angels. The Angels come from the Hierarchies of Higher Light and when they come, they illumine the Earth with their presence and they bring Divine Will to replace free will especially free will that has gone awry - free will that has become corrupted. You are entitled to your free will and no part of your free will, which is in alignment with Divine Will, will be touched. And every human being, every soul is entitled to their free will and no part of their free will, which is in alignment with Divine Will, will be touched. But the free will that trespasses against others - the free will that takes lives - free will that destroys Earth must be stopped.

### **Commanding and Demanding Karmic Boards, Great Beings to Illumine the Light, Destroy Corruption and Transmute Destructive Free Will**

And I ask you to hold your Scepters up and very specifically demand and command of the Karmic Boards, of the Great Beings who are in service to the Light that they illumine the Light and that they destroy corruption, that they transmute the free will of the nature that is destructive. By so doing, you're not only doing a favor to Earth and humankind and each other, but you're even doing a favor to those corrupt human beings, to those corrupt souls who are ladling bad karma on top of bad karma. You are helping those souls whose corruption, whose greed is causing them to take lives because they're power hungry, because they're money hungry, because they're delusional. You would be doing them a favor to deprive them from ladling more karma on top of what they've already created.

### **Asking for Divine Will To Be Restored**

We will hold the Scepters above the heads and we ask that Divine Will be restored - that the free will of all humankind comes to alignment with the Divine Will and all that is removed from Divine Will to be transmuted into the Pure Light of these Angelic Beings who have come to serve by bringing the Higher Light. And they will stand in obeisance to Divine Will and teach all of you, all Five Elements of Earth, all creatures of Earth, all people, places and things who belong to Earth to remember their Divinity, to awaken the Divine Spark, to begin to will themselves, of their own free will, to live Divine lives, to align their lives with their Divine Spark, to abhor corruption, to disallow greed.

It is good to say, ***"Greed is unacceptable. Corruption is unacceptable. Seeking power that consumes lives is unacceptable. That free will is unacceptable. The only free will that is now acceptable on Earth is the free will that is in full alignment with Divine Will, with Truth, with Integrity, with Divinity, with Light, with seeking Joy, with sharing the resources, with living life in Harmony, with willing each other to live in Love."***

As you are holding your Scepter up, in the presences of all these Angelic Beings, all the Elementals who are here to do your will, your Divine Will, set your intentions for what you wish to manifest in your own personal lives, in the life as it unfolds before you, the lives of the generations of human beings that are to follow you, the life as it unfolds on Earth from this sacred moment of Union on. And see that the sacred syllables of the sacred mantras are vibrating, pulsing through the air as you set your intentions.

### **Invite the Angelic Beings and Elementals to Make a Home in Your Homes**

I leave you here. Stay as long as you wish. You are always welcome to stand by the Altar of your very own Divine Mother's Sacred Fire at the Throne of Absolute. You are always welcome to come and visit me. Come and visit whenever you want and as you leave, take every one of these Angelic Beings and every one of these multitudes of Elementals with you to the consciousness of the body. Invite them to come and follow you. Invite them to make a home in your homes. Invite them to make a home in your hearts. Invite them to your gardens, your back yard, your little plants, your Mother's Day gifts of flowers. Let them nestle. Invite them to come and live with your Crystal Grids, with your gems and jewelry. That's what illumines the Elementals – the flowers, the crystals, the gems. Float a few flowers in a bowl of water even if you go outside and pick some wild daisies and say, ***"I'm bringing this for all of you so you have something to play with. Come and make your home with me and I will remember to put a little container of water with some flowers floating in it. I will remember to buy a potted plant so you can sleep at night – where you can call your home."*** Invite the Elementals to come. Let them let go of their fear of being close to human beings. Let them see how pure, how perfect, how beautiful your Light is and how well you are capable of holding that Light blanketing them in that Light and loving them.

### **Keep Connecting with Christ Maitreya, Sai Baba, the Angels and Elementals**

And keep calling on the Angels. Keep calling on Christ Maitreya. Keep calling on Sai Baba. He can do more for you now, now that he's returned to his Source of Pure Light – to his Source of Cosmic Christ. Keep connecting with Sai Baba and Christ Maitreya. Create a triangle. Put yourself on one point, Christ Maitreya at the other, Sai Baba, the third and keep seeing them pouring their energy to you. And keep seeing the Angels around you and the Elementals.

And remember, I hold you in my own heart. I love you. I cherish you. I will stand by your side until you are victorious and I call Goddess of Victory to stand with her Torch of Victory to shine her Light of Victory, to pave your path, to illumine your path that every step you take, you experience victory and you spread the Light of Victory upon Earth and all souls.

I hold you in my own heart. I am your very own Divine Mother. May this be the beginning of a new step, a new path in our togetherness. So it is.
