Grid of Light with Aspects of Divine Mother

Visualize yourself standing in the center of a Grid of Light. See Divine Mother come to stand in front of you. She is pouring her love over you. Her Copper Gold Light emanates over you and all around.

We ask the following Goddesses to come forth and to form a circle around us. Goddess Athena, Hecate, Pele, Isis, Lady Nada, Mother Mary, Quan Yin, Lakshmi, Saraswati, Durga, Kali, Lalita, Goddess Gaia, Goddess Gayatri, Great Cosmic Beings Venus, Goddess of Liberty and Goddess of Victory.

Around this circle we call the 7 Mighty Female Elohim; Star Astrea, Diana, Pacifica, Angelica, Minerva, Amazon, and Crystal.

Around this circle we call Archangel Uriel and his consort Archangel Ariel, Yahoweh-EL, Archangel Raphael and his consort Mother Mary, the Angelic Forces of Pure White Light, Archangel Michael and his consort Lady Faith, the Guardians of the Seed of Life, Archangel Gabriel and Divine Mother, and the Guardians of the Seven Heavens.

Around this circle, we call the Angelic Forces of Violet Ray and Violet Flame.

We seal this Grid of Light with the Turquoise Bubble of The Great Silent Watcher and all the Watchers she wishes to bring with her.

Breathe and bathe.

Be aware that this entire group, all those on this call now and all who will ever listen to this meditation, are also standing in the center of this Grid of Light. Visualize that a Pillar of Pure White Light is descending from the heavens and holds you individually and your 5 Body System within it. It extends from the heavens above all the way to the Earth's Core.

Now see a large Pillar of Pure White Light descend and hold this entire group entity within it.

Breathe and bathe.

Grounding Meditation

Today we are going to perform a new grounding Meditation. The Grounding Meditation with the two streams of Amber Light has been fully anchored and Divine Mother has specifically requested that we give the following meditation because it brings us to the Earth's Core and in close touch with the energies of Goddess Gaia.

Goddess Gaia is the Great Being who is the Soul of Earth. As Sanat Kumara is the Spirit, Goddess Gaia is the soul of Planet Earth. And as we have said before, all of our abundance while we are incarnate beings comes from our Goddess Gaia.

Goddess Gaia has come forth to become very active in the last few weeks. She has specifically asked that we offer a series of Sessions with her called **Goddess Gaia and the Alchemy of Abundance**. Gaia has said that she will offer to us at least 3 Phases on this subject that we are so in need of receiving. We will be setting the dates and sending out the registration information soon.

So, as always, place your feet flat on the floor close your eyes and visualize that you are standing on top of the great Red Rock called Uluru. Uluru, also known as Ayers Rock is a huge rock formation located in central Australia. This rock is held sacred by many cultures on Earth, including the indigenous people of Australia. This rock formation is approximately 6 miles in diameter and its somewhat flat top is over 1,000 feet above the ground. This rock is like an iceberg in that most of it extends far beneath the ground.

Visualize that you are standing on this huge Red colored mountain of rock. Feel the consciousness of the rock beneath your feet.

- Feel the heart beat of this rock. This is the heart beat of Mother Earth.
- Now feel yourself dissolve into Uluru. You dissolve into and become one with Uluru.

Now imagine that Uluru begins to slide to the center of the Earth. Uluru is almost exactly the same size as the Core Crystal. See that Uluru superimposes itself over the Core Crystal and you, Uluru and the Core Crystal merge together to become One.

- Feel the heart beat of Mother Earth. Feel your own heart beat in sync with Mother Earth.
- Feel the effect of this grounding exercise. Feel how grounded and centered you are.

Be aware of the Pillar of Pure White Light which is still formed around you.

Divine Mother Meditation

As you stand in the Earth's Core we will perform a meditation that Divine Mother has specifically requested that we perform. This is the higher phase of the meditation that Nasrin gave at the 7/7 Gateway Portal Channeling event.

This is a powerful healing tool. It not only clears the energies from all your chakras but it clears the energies from many lifetimes and most importantly, it anchors the energies of Divine Mother.

Before we begin this meditation, you may set out your intentions. You may ask Divine Mother; *to be a constant part of your life from this moment on. That she, the Creative Force of the Feminine, be One with you; that she give you the Grace to always be in surrender and in her service. That she guide you with every thought, word and deed no matter how trivial they may seem to be.*

Now visualize that Divine Mother is standing before you. She is bathing you in her Copper Gold Light. Notice also, a shaft of White Light forming in front of you with an enormous Lotus flower under it. This Lotus flower is fully open and emits the same bright White Light. The open Lotus is big enough for you and Divine Mother to sit in its center. Visualize that she takes your hand, and together you walk to the Lotus and sit cross legged inside the Lotus with knees touching.

As you sit inside, gazing into Divine Mother's eyes, you hear Divine Mother say: *You are a beautiful being of the Violet Flame. You are a beautiful being of the Violet Ray.*

She asks you to say those words with her:

I am a beautiful being of the Violet Flame. I am a beautiful being of the Violet Ray. I place Divine Mother in my Crown Chakra.

These words are very powerful in releasing pollution and dross from you and the 5 Elements. Feel free to repeat this mantra as you do this meditation.

- Visualize that Divine Mother takes a flame from her Crown Chakra and places it in your Crown Chakra. It becomes a Thousand Petal Lotus with the flame inside. Visualize that Violet Light, the Light of the Violet Ray and Flame of Transmutation pours over the Lotus. As it does the Lotus closes until all of the dross is transmuted. The Lotus begins to emit Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Bright White Light emanate from the Lotus of the Crown.
- Visualize that Divine Mother takes a flame from her Third Eye Chakra and places it in the Lotus inside your Third Eye Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see the Golden Pink Light of Divine Love emanate from the Lotus in the Third Eye Chakra.
- Visualize that Divine Mother takes a flame from her Throat Chakra and places it in the Lotus inside your Throat Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Cobalt Blue Light emanate from the Lotus in the Throat Chakra.
- Visualize that Divine Mother takes a flame from her Cosmic Heart Chakra and places it in the Lotus inside your Cosmic Heart Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Bright White Light emanate from the Lotus inside the Cosmic Heart Chakra.
- Visualize that Divine Mother takes a flame from her Personal Heart Chakra and places it in the Lotus inside your Personal Heart Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine

Mother sitting in the center of the Lotus and see Emerald Green Light emanate from the Lotus inside the Personal Heart Chakra.

- Visualize that Divine Mother takes a flame from her Seat of the Soul Chakra and places it in the Lotus inside your Seat of the Soul Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Aquamarine Blue Light emanate from the Lotus inside the Seat of the Soul Chakra.
- Visualize that Divine Mother takes a flame from her Solar Plexus Chakra and places it in the Lotus inside your Solar Plexus Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Copper Gold Light emanate from the Lotus inside the Solar Plexus Chakra.
- Visualize that Divine Mother takes a flame from her Sacral Plexus Chakra and places it in the Lotus inside your Sacral Plexus Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Bright Orange Light emanate from the Lotus inside the Sacral Plexus Chakra.
- Visualize that Divine Mother takes a flame from her Root Chakra and places it in the Lotus inside your Root Chakra. Immersed in Violet Light, the Lotus closes until all of the dross is transmuted. Visualize it bathing in Pure White Light as it opens up wide. See Divine Mother sitting in the center of the Lotus and see Red Light emanate from the Lotus inside the Root Chakra.
- Now Divine Mother takes a spark from both of her knees. She places them into the respective knee. Visualize two Lotuses, one in each knee. See the Lotuses turn from Violet to Red.
- When that energy is established she brings two more sparks, one for each foot to open the chakras of the feet. To help us touch Earth and the Five Elements with Divine Mother's Light. Receive each spark from her and see two lotuses, one in the arch of each foot turn bright Red with Divine Mother sitting in the center of each.

All the chakras from the Root down continue with that Red Life Force Energy of Mother Earth.

Earth Crust Chakra

The two lines of energy that flow from your feet become one in the Earth Crust Chakra, 10 inches below your feet. Divine Mother takes a larger spark from her Earth Crust Chakra and places it in yours. It becomes fully illumined like a star. All the pollution and contamination dissolves in the Violet Flame and Violet Ray. Then it turns a beautiful Red color with the spark fully ignited, the Lotus fully wide open and Divine Mother seated there.

Summary

Be aware that you are sitting across from Divine Mother inside a Lotus at the center of the Earth's Core Crystal. You are looking into Divine Mother's eyes and you place your hands, palm to palm with hers.

See the Lotuses in all the Chakras fully open with Divine Mother sitting inside and radiating her love to you and all around you. See:

- Beams of Pure White Light are emanating from her Crown and illuminating your Crown.
- Beams of Golden Pink are emanating from her Third Eye and illuminating your Third Eye.
- Beams of Blue Light are emanating from her Throat Chakra and illuminating your Throat Chakra.
- With her Lotus wide open and your Lotus wide open, beams of Pure White Light are emanating from her Cosmic Heart to your Cosmic Heart.
- Beams of Emerald Green Light are emanating from her Personal Heart and illuminating your Personal Heart.
- Beams of Aquamarine Blue Light are emanating from her Seat of the Soul Chakra and illuminating your Seat of the Soul Chakra, with the Lotus wide open.
- Beams of Copper Gold Light are emanating from her Solar Plexus and illuminating your Solar Plexus, with the Lotus wide open.
- Beams of Bright Orange Light are emanating from her Sacral Plexus and illuminating your Sacral Plexus, with the Lotus wide open.
- Beams of Bright Red Light are emanating from her Root Chakra and illuminating your Root Chakra, with the Lotus wide open.

The crystal structure in the core of the Earth is now fully illumined with all of these Lights. These Lights are now spreading from the core crystal in the Earth in every which direction to the Earth's crust, and from the Earth's crust to the Earth's atmosphere clearing and cleansing the Five Elements.

- Send these Lights in every which direction. Illuminate the core crystal of Earth and let the core crystal magnify the love that is being showered upon you and through you to the crust of the Earth, the atmosphere of the Earth and spread it throughout the atmosphere to the solar system, to the galaxy, to the cosmos and beyond.

You can repeat this one over and over again and you will be offering a great service to all souls, to Earth, to Divine Mother, to the Masters, and most importantly you'll be opening your own Heart Chakra and releasing the pain from eons of lifetimes of living in duality.

Having Divine Mother this close and personal is a gift in itself.

Moving up through the Thrones

Now be aware that you are sitting with Divine Mother at the Earth's Core. The Pillar of Pure white Light holds you and this entire Group Entity within it.

We will now be moving up through the Thrones so if you would like to call your loved ones into the grid and to set your intentions, you may do so now.

Pause and bathe in the Light of Divine Mother as I pass you on to Nasrin and beloved Divine Mother.
