

Invocation/Mantra for the Evolution of the Masses

Received from Metatron on July 14, 2002 through Nasrin, Channel

From the point of Light where the Undifferentiated Source and I are one,
I call upon the ideal thoughtform for the evolution of the masses.

From the Mind of God that holds the blueprint
I call forth the threads of Light (for the evolution of the masses).

I command my Self to embody this Light.

I command my Soul to embody this Light.

I command my Body to embody this Light.

I command my Spirit to embody this Light.

I command the Earth to receive the grid for this Light.

I command the grid for this Light to be illuminated.

I call forth the masses to receive this Light

in atonement (at-one-ment) with the will of God.

I call forth the mind of the masses to receive this Light

in atonement (at-one-ment) with the will of God.

I call forth the thoughtform of the masses to receive this Light

in atonement (at-one-ment) with the will of God.

I call forth the physical bodies of the masses to receive this Light

in atonement (at-one-ment) with the will of God.

I call forth the Spirit of the masses to assist in the absorption of this Light

in atonement (at-one-ment) with the will of God.

I/we call this (evolution of the masses) forth
from the point of Light where the Undifferentiated Source and I are one.

I/we ask for this dispensation to be given to us
in atonement (at-one-ment) with the will of God

in accordance with the original blueprint
of the Adam Kadmon body of Light
as was intended by God in the original blueprint.

And so it is. It is done. Amen.
