### Grid of Light for Next Thirty Three Days

My children of Light, I am your very own Divine Mother.

I am well pleased with the work that we have done together. During my last discourse with you on 12/12/2011, I spoke of the importance of this year. What I would like to add to that is my gratitude for what the members of the group have done in bringing the energies, especially the work that we have done together regarding the Alchemy of Divine Power. That work has put us on a different map and as we move the energies and get closer to March Equinox of 2012, I will tell you more of the story and I will elaborate.

All the prophecies have stated that this is a landmark year and the zenith, the crescendo of this year is December Solstice, Winter Solstice of 2012 – 12/21/2012. What I will tell you is that everything we hope to achieve by that date can only be achieved with what we have been building so far and what we continue to build between now and the 21<sup>st</sup> of March, this upcoming Equinox in approximately a month and a half – a little over.

So this Grid that you have received – my request is that you continue to exercise this Grid and after I have completed this Grid, I will review it with you so that you have the point of what you are doing. Repeat it until we reach 3/3 at which point I will give you the next step to it to prepare us to go to the March Equinox, Spring Equinox, that is the first day of the new year cycle. The natural cycle of the year begins with the first day of Spring and ends the last day of Winter.

So breathe and let me go over each of these Bubbles that our beloved Jim has eloquently offered to you. **I am going to ask you to envision yourself in the large Cocoon** with double Stars – one on top, one on the bottom. The bottom one is a Seven-pointed Star that sits over your Earth Crust Chakra. The top one is a Seven-pointed Star that sits over your Soul – Abode of the Soul Chakra, a Fifth Dimensional Chakra – the one above the Crown. Energetically the distance is only twelve inches above the head and below the feet but dimensionally, they are connected. The one below the feet is connected to the Center of the Earth so you pull in the treasures of the Earth. You pull in the Life Force from the Earth. And the one above is connected to the Fifth Dimensional Octave that is very, very important right around now and throughout this entire year for what we want to achieve.

The prophecies – the Hopi, Native American and the Mayan aboriginals have prophesied that we enter into ‘No Time’. That No Time speaks of entering into the Fifth Dimensional Octave. Time in the Fifth Dimensional Octave is measured very differently from time in the Third Dimensional Octave. This is why when we do reach to 12/21/2012 and along the way, between now and then, we will be moving into the Fifth Dimensional Octave. Many of you will have the opportunity to start living that Fifth Dimensional energy in full force from the 21<sup>st</sup> of March.

This heaviness that you have been feeling for the past few weeks, even through the energies of 2012 are very bubbly, there is a heaviness to the energies. This heaviness began right after we entered into the new year. This heaviness is because we are literally boring a tunnel into the Fifth Dimensional Octave. This Fifth Dimensional Octave is different from what you opened up in 2010 for various reasons that do not fit into our time frame. But the stories of which I will tell you as we go through this year.

What we are doing is we are opening a Fifth Dimensional Octave, boring a tunnel to a Fifth Dimensional Octave that is created on your behalf by the Divine Feminine. Those are the energies of Victory. Those are the energies of Divine Mother, the energies of Goddesses; all of whom or some of whom are most familiar to you. They know you. You know some of them. Others you will get to know as we move into the energies.

What I want you to do in the course of the next thirty-three days, starting from today – it will overlap with our energy when we reach to 3/3. So once we reach to 3/3, I invite every one of you to be present to take this energy to the next step.

### **Grid of Light**

I ask you to envision this Turquoise Cocoon that is given to you for Protection, for Divine Power and for Fearlessness. This is a gift from the Great Silent Watcher. I spoke of this on 12/12/2011. The Two Stars – one on top of your head – one below your feet – are feeding a Tube of Light that goes from the Star above to the Star below – that is a Shower of Light from the Great Silent Watcher. That Shower of Light continuously refills your entire Five-Body System with the energies of the Great Silent Watcher with specific Qualities of Fearlessness, Divine Power and Protection.

The Protection of the Great Silent Watcher is with you at all times. It has been for all of you who have been present since 12/12/2011, when I gave this Cocoon and I asked you to continue using it and use it as a Grid for the entire year 2012.

Plus Seven Aspects of Victory – one above, one below, one within and then one in each of the four directions – one in the North, one in the East, one in the South, one in the West. Therefore, there is a seven times multiplication of the energies of Victory. So everything that you touch will turn Victorious. Everyone you touch – everywhere you touch – everything you do. Even your thoughts can be imbued with the energies of Victory.

What I want you to do for the next thirty-three days is this next phase. I am going to call it a Pulsing. I want you now to focus that you have this multi-layered energy. What are the layers?

- There are layers that begin with a **Dusty Pink** that is the first layer from inside out. Right around your body you have the layer of Dusty Pink that is the **general range of Compassion**

- The next layer is **Vibrant Pink**. These are each one Bubble that sits on top of the other - one Sphere that sits on top of the other. Vibrant Pink is the **Life Force that brings in Compassion**.
- Then you have **Fuchsia Pink** that **brings in the Compassion** that is **relevant to our world, to the Earth and the Planetary Logos**.
- Then you have **Golden Pink** that **mixes Divine Love with Compassion**. The Golden Pink originally has been the energy of Divine Love for the second 2,000-year span that started at the turn of the century. This fourth layer of Golden Pink has three layers inside of it. These all relate to the energies of Compassion.
- Then we have the **Cosmic Life Force** – the layer of **Amber**.
- Then you have the **energetic Cocoon of Turquoise** that holds these five layers inside of it.

What I want you to do is to **pulse this five-layered Bubble in each of the Chakras** starting from the Star that is superimposed over your Earth Star – twelve inches below your feet. So now, pulse. In other words, envision that this five-layered Bubble – one inside the other like those Russian Dolls – the smaller one goes inside the larger one goes inside the larger one goes inside...

The innermost layer is Dusty Pink, then Vibrant Pink, then Fuchsia Pink, then Golden Pink and then Amber. All of this is happening inside of the large Cocoon of Turquoise that has Two Stars – one of top and one on the bottom. This event is happening simultaneously in every one of the Chakras.

We are pulsing it in the **Earth Crust Chakra**. You might experience a pulsing, a tingling energy in the bottom of your feet as the energy is moving up. Now I want you to focus on your **Ankles** and pulse it in your ankles. This five-layered energetic substance that has Five Lights is pulsing in your ankles. Moving up, pulsing in your **Knees**. Moving up, pulsing on **Left Hip and Right Hip** until the pulse begins to become larger and the layers of pulse in the Left and the Right merge into each other in the center. So then, it is superimposed over your **Root Chakra**.

What is it that is pulsing? It is five-layered Sphere – a Ball of Light – a Bubble of Light – a five-layered Bubble of Light starting from inner is Dusty Pink, then Vibrant Pink. As I say each name, you pulse it in your Root Chakra.

- Dusty Pink – Pulse.

When you pulse it, it is an experience of it exploding and pulling back in and exploding. That is one pulse. So three things are happening - exploding, expanding, reaching to the edges of that Chakra and pulling back in and exploding again. The pulse continues even when we move from each Chakra. So right now, there is a pulse going on in your Earth Crust – pulse going on in your Ankles – pulse going on in your Knees – pulse going on in your Left Hip and Right Hip until it reaches a crescendo in the center then pulse going on in your Root Chakra.

- Now the pulse is going on in your **Sacral Plexus**. Again, Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.
- Now in your **Solar Plexus**. Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.
- Now in the **Seat of the Soul**. Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.

- Now in the **Personal Heart Chakra**. Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.
- Now in the **Cosmic Heart**. Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.
- Now in the **Throat Chakra**. Dusty Pink, Vibrant Pink, Fuchsia Pink, Golden Pink, Amber.
- Now in the Third Eye. We are going to pause here. I am going to say it slower and each time I say it, you pulse it three times.  
**Dusty Pink... Vibrant Pink... Fuchsia Pink... Golden Pink... Amber...**
- Now we will move into the Crown Chakra. Again I will do it slowly and you pulse it three times. Right on top of your head, envision every Petal of your Thousand-Petal Lotus of your Chakra is wide open and as I tell you each Bubble – as I name each layer, envision every Petal of your Thousand-Petal Lotus pulsing, absorbing those particular colors, those particular Qualities and sending it into your Five-Body System.

**Dusty Pink... Vibrant Pink... Fuchsia Pink... Golden Pink... Amber...**

And the pulse will become more intensified as it moves up to the next Chakra where the Seven-Pointed Star that sits over your **Abode of the Soul Chakra**, where your Eighth Chakra is. This Eighth Chakra is simultaneously pouring the Triple-Light of **Fearlessness, Protection and Divine Power**, pulling in through the Antahkarana Cord and pouring it into the Chakras of your body through the Crown Chakra Lotus. So you are now pulsing these five layers directly over the Seven-Pointed Star of the top of the head – Abode of the Soul Chakra.

There are two things happening. One is that the Light from the Great Silent Watcher is pouring through that Star down the Turquoise Blue Shaft of Light to connection the Star above to the Star below your feet. The second thing is this pulsing.

Again I will do this with long pauses. You pulse, as I name each.

- Dusty Pink... Vibrant Pink... Fuchsia Pink... Golden Pink... Amber...  
Hold the Amber over all the others. Amber is the Cosmic Life Force.

Now hold the Turquoise Blue Light over the Amber. Now see your Antahkarana Cord illuminated. The outermost layer is the Turquoise. The next layer in is Amber. The next layer in is Golden Pink. Next is Fuchsia Pink. Next is Vibrant Pink. Next, the most inner layer is the Dusty Pink – the range of Compassion.

Pulse through your Antahkarana Cord from your Abode of the Soul Chakra, Eighth Chakra all the way to the Twelfth Chakra – your I Am That I Am. Let the Perfected Presence of the I Am That I Am bathe in the Pulsing of these multi-layered Lights and let it be magnified. Let your Higher Self bathe in it. Let your Higher Self join with you. Let your I Am Self join with you on the journey of taking it through the Hierarchy of the Thrones all the way to the Throne of Divine Mother – to the Pool of Creation. Let it bathe in the Pool of Creation.

From the Pool of Creation, pull the Shower of Light that is imbued in the Pool of Creation, mixed with the Turquoise Blue Light of the Great Silent Watcher, the Cosmic Being who created our entire Solar System. She is the Mother of All Mothers. Her Signature Energy is the Turquoise Blue. Pull that Turquoise Blue from the Pool of Creation and let it pour into the Antahkarana Cord. Bring those colors, those layers, those Bubbles into the Pool of Creation – the Dusty Pink,

Vibrant Pink, Fuchsia Pink, Golden Pink, Amber, all imbued with the Turquoise Blue Light and the Liquid Light of the Pool of Creation.

Pull it down. Pull it down. Pull it down the Antahkarana Cord through the Hierarchies of Dimensions all the way down to the Twelfth Chakra – your Presence of the I Am That I Am. That Presence is in the Thirteenth Dimension of Reality. Pull it into the Perfected Presence of the I Am – your own God Self. Pull it into the Presence of your Higher Self. This is a magnified, intensified, heightened vibration that is coming back. Let the Higher Self and the God Self and the I Am Self continue to pour down – continue to receive, absorb, digest and intensify.

Pour it down further to the Eleventh Chakra, the Tenth Chakra, the Ninth Chakra, back to the Eighth Chakra – the Abode of the Soul where the Seven-Pointed Star is overlapping and let it pour down to the Thousand-Petal Lotus of the Crown, to the Third Eye with its Two-Petal Lotus that is now fully illuminated. A big eye – the Third Eye that is looking inward, fully opened up, looking to the Inner Realms. Let it magnify and intensify your ability, your power to have Inner Sight, for your instincts to grow, for your ability to have direction communication with your guides, to be fully established and expanded.

- Let it pour down into the Throat Chakra so you speak your Truth and you speak in Compassion at all times.
- Let it pour into the Cosmic Heart Chakra so all you feel is from the Higher Dimensions.
- Let it pour into your Personal Heart Chakra and heal all heartache.
- Let it pour into the Seat of the Soul Chakra and bathe the Soul, Personality Aspects. Let the Higher Self come and bring all Personality Aspects and Soul to union, to perfection.
- Let it pour down into your Solar Plexus to access your Divine Power and to align your personal power with your Divine Power.
- Let it pour down to your Sacral Plexus so that your Creativity is expanded so that the designs, ideas and concepts that benefit you financially, emotionally, mentally, economically, socially come to full fruition.
- Let it pour down to your Root Chakra so that your connection with Earth, with your Lower Self, with your Earthly Self is strengthened so that you are grounded to Earth while you are deeply connected to the Higher Realms.
- Let it pour down the Left Hip and the Right Hip into the Right Thigh and the Left Thigh, Left Knees and the Right Knee, Left Ankle and the Right Ankle, Left Foot and Right Foot and back to the Earth's Crust and then down the Hara Line – the Shaft of Light that brings the energies from your Earth Crust Chakra all the way to the Central Core Crystal.
- Now let it Pulse in the Central Core Crystal and Pulse and Pulse and Pulse. And each time you Pulse in the Core Crystal, see that it expands to the surface and moves beyond. It moves into the Auric Field of Earth. It moves into the Emotional Body of Earth. It moves into the Mental Body of Earth. It moves into the Spiritual Body of Earth. It moves to the planetary bodies on either side. It moves throughout the entire Solar System.

It gets magnified when it reaches the Sun and then it turns around and comes back to you with a blessing of the Sun and then it goes from the Crystal Core up the Hara Line to your Earth Crust Chakra, to your Feet, your Ankles, your Knees, your Hips, your Root Chakra, your Sacral Plexus, Solar Plexus, Seat of the Soul, Personal Heart Chakra, Cosmic Heart Chakra, Throat, Third Eye, Crown, the Thousand-Petal Lotus of the Crown, the Star in the Eighth Chakra – the Abode of the Soul, Antahkarana Cord back to the I Am That I Am, your own Higher Self, your own God Self, your own True Self, up

- the Antahkarana Cord all the way to the Throne of Divine Mother to the Pool of Creation, pulling another layer.
- Then you can sit in the Pool of Creation and bathe.

If you have time when you do this meditation, always do the pausing and bathing in the Pool of Creation and then when you want to finalize and come back to the body, make sure you pull that energy from the Pool of Creation down through the Antahkarana Cord back to your I Am That I Am, down to your Crown into all of your Chakras of the body, Chakras of the legs, the feet, Earth Crust, Hara Line, Core Crystal in the Earth. In this way, you constantly bring Heavens to the Earth, you constantly magnify the impact, you constantly Pulse yourself, all Chakras of your Body, your Five-Body System and the Cocoon that is covering you with the Turquoise Blue Light of the Great Silent Watcher with these energies.

Do this until we come back together. Then we will take it to the next step. Right now I ask you, if you can, to spend a few minutes in the Pool of Creation and let me work on each of you individually in a unique way that each of you need the healing, the love, the realignment and the recalibration.

I hold every one of you in my own heart with great love and great gratitude.  
I am your very own Divine Mother. So it is.
