(00:44:43)

Preparing Ourselves and Goddess Victory for Inauguration of the Throne of Victory in the 121st Dimension on Spring Equinox 2012

Be aware that you have performed a Grounding Meditation and have arrived at the Sacred Altar of Divine Mother in the 122nd Dimension of Reality.

Divine Mother begins 00:20:34

My children of Light, I am your very own Divine Mother.

Without further ado, what I wish to do is to **prepare each and every one of you to receive Goddess Victory**. I ask you to first stand on the platform. Envision that there is a platform that allows you to stand much closer to the Altar – the Altar of the Sacred Fire of Divine Mother's Throne. Stand upon the platform so you can reach all the sacred offerings and **from your heart, say a prayer** – whatever you wish to receive, whatever you wish to give to Earth, whatever you wish to see happen for change – positive change – for happiness, for joy to come upon humankind.

Remember that we are moving through the natural cycle of Earth entering into Spring so that is **the re-birthing for Earth which means that it is a re-birthing for all Souls**. It also means that the true new year – the year begins anew on Spring Equinox and we are preparing. We are spring cleaning on this occasion and for the next - however many days it is between now and the 20th – sixteen, seventeen days.

Make your offering by taking from the Altar the spices, the oils, the flower petals, the fabrics, the gems, the fruits, the nuts and whatever else you wish to offer from your own heart. Feel free to offer the pain in your heart. Feel free to offer the fears – fears of humankind, fears of the future. **The Fire can burn the dross. It can also receive your offerings.** Both are valid. Both are acceptable to the Fire.

Fire is a Sacred Element. It also relates to the Emotional Body of Earth and the Emotional Body of humankind. This is why it is **important that you work with the Element of Fire** – that you use Sacred Altars in your meditations. It is also important if you have fires – like fireplaces in your homes – and if you do not, lighting a candle. Lighting a candle with the intention to burn the dross can be just as good.

Right now, you are envisioning that you are standing before the Circular Altar at Mother's Sacred Fire – your very own Mother's Sacred Fire. While you are making your offering, notice that the **Great Silent Watcher** has raised her hands up in the air. One hand is **holding the Rod of Light that is showering Turquoise Blue Light into the Sacred Fire**. The **Great Silent Watcher has begun an Incantation**. The **Silent Watchers – 144,000 of them** – all **hold their Rods of Power** above their heads tilted over the Sacred Fire and are all following the nuances of the voice of the **Great Silent Watcher** as she **is blessing the Fire with her Sacred Song** in the Languages of Light, in the Syllables of Light, the Cosmic Light.

She is **pouring her illumined Light into the Sacred Fire. The Silent Watchers are doing the same.** The **Angelic Watchers** entire bodies have become illumined, as if they are each one Rod of Light. Their **bodies are illuminated and emitting this Light.** This **Light is a Source of Divine Power. It is a Source of Cosmic Life Force.** It brings you Fearlessness. It empowers you to accomplish your Divine Mission and it protects you in the process.

I want you to **feel the presence of Lady Quan Yin** to one side – **your own Mother** to the other side. I want you to look at Goddess Victory right now. **Goddess Victory** is standing behind you. She is **holding her Torch of Victory** above her head and she is tilting the Torch so it is pouring the energies of Victory into the Sacred Fire. The **Light of Victory and the Light of Divine Power are now etched into the essence and the substance of the Fire.**

Quan Yin and Divine Mother Prepare Our Entire Bodies with the Sacred Fire (00:27:38 to 00:34:55)

Notice that I will now take a double fistful of this and rub it on my hands and my arms and then I will take another double fistful and rub it on Lady Quan Yin's hands and arms. Then both Quan Yin and I will take fistfuls of this Sacred Fire and rub it on your body. We will begin from the top of your head and rub it on every inch of your body. And as we rub it on the surface of your skin, it is absorbed through the skin into your body. At the same time, it is absorbed within your auric field and throughout your entire Five-Body-System.

Your Five-Body-System consists of your Physical Body, your Etheric Body, your Emotional Body, your Mental Body and your Spiritual Body. This Five-Body-System is all part of your being-ness. The Physical aspect is visible to the naked eye. The other four are energy bodies and they are visible – parts of them are visible to those who have opened their inner sight.

Envision that you are receiving fistfuls of the Fire. It all actually has a cooling effect rather than burning your skin. It feels nurturing. Some parts of your body feel warm from the contact. Some parts of the body feel cool from the contact. As your organs absorb, each organ receives this Sacred Light, this Sacred Fire, in a colored Light that is most beneficial. If a part of your body needs the cooling energies of Blue; that is what you receive. The healing energies of Green, the happy, joyful energies of Yellow, the Life Force and the passion and the action of Red, the trans-mutational properties of Gold, the Feminine Light of Platinum, the Copper Gold of Divine Mother, the Platinum Light of Victory, the Turquoise Light of Great Silent Watcher and all the nuances and all the streams of multicolored Lights.

Your body is receiving and absorbing these energies. Your Five-Body-System is enhanced. You **may have a sensation of throbbing or a pulse** that is moving throughout your body. **That means the DNA Structure within every cell of your body has awakened to this Life Force** – to the Life Force that moves through your body from the application of the Sacred Fire – the Sacred Fire that has been brought to heightened potency by the Sacred Syllables that the Great Silent Watcher and Silent Watchers are singing (sound has resonance); also by the Light that the Great Silent Watcher and Silent Watchers, as well as Goddess Victory, Divine Mother and Lady Quan Yin are offering to the Sacred Fire.

The **Sacred Fire itself has its own substance.** The **Sacred Fire has been burning for many millions and billions of years.** Many, many millions and billions of Sacred Ceremonies have taken place at this Altar. There are **Sacred Ceremonies going on twenty-four hours a day.** This is why **this Sacred Fire is the most sacred within this entire Hierarchy** – the Hierarchy of the 144 Dimensions. It is the most sacred for your benefit. It **carries the Divine Feminine in its most potent form.**

In your future meditations, you may pause at this point and lie down and receive. If you fall asleep that is

perfectly fine. That is not really sleep. It is going into deeper state of consciousness, an altered state of consciousness. At night, you may bring yourself to this point and set the intention that you spend the entire dream time by this Sacred Altar, receiving the Life Force that Divine Mother and Lady Quan Yin are bathing you in.

What I want to do now is to ask you to envision that the work on your body is complete. Your Five-Body-System has fully absorbed the energies and you are now at the most heightened point of saturation. **You are fully satiated, fully absorbed and fully illumined with the Sacred Fire.**

We Join Divine Mother and Lady Quan Yin to Prepare Goddess Victory with the Sacred Fire.
(00:34:55 to 00:40:47)

At this point, you will join Divine Mother and Lady Quan Yin in preparing Goddess Victory. So I will take a scoop from the Fire and rub it on your hands and on your arms as a **sign of ablution, preparing you to offer a cleansing bath to Goddess Victory.** I will pour some on Lady Quan Yin's hands and arms again and pour some on my own. Then we will make a triangle, allowing Goddess Victory to stand in the center. I ask you to stand behind Goddess Victory. Victory is facing the Altar. Quan Yin is to her left and I am to her right.

Every time I pick a scoop, I give you a scoop, and that would be the scoop that you will apply to the back of Victory's body while Quan Yin will apply the scoop that she will take from the Fire to the left side of Goddess Victory's body and I will apply the scoop that I will take from the Fire to the right side of her body. We will do this simultaneously. I will take a double scoop and hand it to you then I will take a double scoop for myself while Quan Yin is taking a double scoop for herself. Together, we will apply it. In this way we will cover Goddess Victory's body from the top of her head all the way down to the bottom of her feet. It will be absorbed through the surface of her skin. It will be transferred to her Five-Body-System and the Light will resonate throughout her entire Five-Body-System and her Light Body.

The reason why we do this Ceremony with **Goddess Victory** now is not that she needs to be illumined with this Sacred Fire. It is that she needs to be re-calibrated with this Sacred Fire. What I am saying is **it is not that Victory lacks Light.** She **needs to become acclimated and calibrated to the Light of our Hierarchy** because her energy comes from Hierarchies much higher than our own and she is bringing the energy of Victory from Hierarchies that are much higher than our own.

When we offer this Sacred Fire to Victory and when you participate in this offering, we are recalibrating the energies of Victory to match the energies that are needed within our Hierarchy. Your participation, your contribution, is that you will **acclimate Goddess Victory's Energy Bodies to your own realm of reality, to the lower dimensions of reality – the Fifth, the Fourth, the Third. And for Victory to be active in those dimensions, this service on your part is necessary.** You are offering to energize the Sacred Fire with your own Signature Energy, as you hold it in the palms of your hands and you lovingly and gently rub it on the back of her body.

She is going to turn. She is facing north; she is going to turn to face East and then I will be rubbing to the front of her body, Quan Yin to the back of her body and you to the side. Then she will make another turn and she will be facing you. This time, you will be rubbing the Sacred Fire to the front of her body from the top of her head to the bottom of her feet and both Quan Yin and I to either side. Finally, she will turn to face Quan Yin and I will be rubbing it on her back and you will be rubbing it on her side.

Goddess of Victory Rubs the Sacred Fire Onto Her Own Body and Then Onto Ours (00:40:47 to 00:44:25)

Ultimately she will turn again to face the Altar and then she will approach the Altar. She will take a large scoop in her cupped hands and she will rub it from the top of her own head to the bottom of her own feet as a **sign of acknowledging that she has become acclimated to this Hierarchy.**

The very final event of this evening is when she completes this part and then takes a double scoop and turns to face you and we place you again in the center of the triangle and it is Goddess Victory that **imbues the Sacred Fire with her own Signature Energy of Victory.** Then she rubs it from the top of your head to the bottom of your feet.

You may repeat this exercise and those of you who wish to participate in the next phase, I invite you to join us for the Spring Equinox of 2012 Ceremony. Those of you who do not have a chance to join us, may continue throughout the month for a period of thirty-three days to anchor the energies in this way. You can come back to this meditation as many times as you want for many months yet to come. **The cleansing, the recalibration, the magnification, the protection, empowerment, the Qualities of Fearlessness, Compassion and Love are abundantly available to those of you who participate in this Ceremony again and again and again.**

I hold you with all of my love and I wish you a happy, peaceful, joyful, abundant, prosperous, safe and pleasant entry into the new year, the Spring, the re-birthing – the most important year of your lives so far and many more yet to come.

I hold you in my own heart. I am your very own Divine Mother. So it is.
