

6/6/2012 Gateway Portal Day

Hello everyone this Jim and welcome to the 6-6-2012 Gateway Portal Channeling with Nasrin. I want to thank everyone for being here and offering your service.

We are half way through the year of 2012 and in around six months we will be reaching the landmark point of December 21, 2012; the landmark point at which Earth and humankind may reach to the higher octave of the Fifth Dimension. Divine Mother has been working with us for the last year and a half or more now, bringing the Energies of the Divine Feminine and bringing Goddesses and Great Beings to work with us; Feminine Beings from the Cosmic Realms who have come to help us bring the Energies of the Divine Feminine in preparation for this landmark date.

Take a deep breath and visualize that you are standing with your shoes off in the middle of a meadow. It may be one of your favorite places out in the middle of nature. Feel the grass under your feet. There are trees around, there may be a lake or brook nearby. Just close your eyes and take a moment to find yourself in a beautiful meadow in the middle of nature, in the middle of the Divine Feminine, held in the arms of Mother Earth. Now, standing in this position we're going to perform a grounding meditation to further hold us grounded to Mother Earth.

Grounding

Visualize that 10 to 12 inches directly below the bottoms of your feet there is a Chakra, your Earth Crust Chakra, a ball of Energy that performs the function of holding you to stand upright and connects you with the center of Mother Earth; to the core crystal which exists in the center of Mother Earth.

Visualize a Pillar of Light that extends from the bottoms of your feet all the way down to the center of Mother Earth. This is your Hara Line. Visualize that from the bottoms of your feet and your tail bone, you are extending a root system, just as if you were a tree. Send roots down all the way to the center of Mother Earth, where this large Core Crystal is, and see the roots wrap around this Crystal.

Imagine that you are pulling Amber Colored Light up through this root system. This is the Life Force Energy of Mother Earth. It is a rich honey colored Amber Light. Pull that Light all the way up through the root system, through the Earth Crust Chakra, to the bottoms of your feet and tail bone, up into your body. See that it moves into your body, filling your body and all of your Chakras from the base of your spine, all the way up your spinal column. Also, you have a Five Body System around you, you have Energy bodies around you and it is filling those Energy bodies as well. Your Energy Bodies or Five Body System extends out about three to four feet in every direction.

Now see that Amber Colored Light filling your body and Five Body System and reaching your Crown Chakra. See that it creates an Amber Pillar, just like the trunk of a tree, moving up from the top of your head, up your Antahkarana Cord, surrounding your Antahkarana Cord, all the way up through the Higher Dimensions and reaching to the Throne of Creation. Imagine there is a big Pool of Creation there and this Amber Colored Pillar spreads out into branches and leaves of this tree that we created. It pulls from the Pool of Creation the Cosmic Life Force Energy, which is also Amber Colored Light.

Visualize that it is pulling this Amber Colored Light down, sending it down the tree trunk, cascading down to your Crown Chakra, filling your body, filling your Five Body System, continuing out the bottoms of your feet and the tail bone, into the root system that we have created, all the way down to the Core Crystal of Mother Earth, to the center of Mother Earth. There is Amber Life Force Energy from

Mother Earth moving up this root system all the way up to the Pool of Creation and the Cosmic Life Force Energy, also Amber Colored, that is cascading down, all the way down to the center of Mother Earth. You are becoming a catalyst to move the Life Force Energy up from Mother Earth and down from the Pool of Creation.

Take a minute, feel the Amber Colored Light pulse through your body, and feel your connection with Mother Earth and this Amber Colored Light, as your heartbeat aligns itself with the heartbeat of Mother Earth. Take a deep breath.

We are now fully anchored to Mother Earth, standing in the meadow. Once again, feel the grass underneath your feet and feel a deeper connection with nature that surrounds you now that you are grounded to Mother Earth.

Grid of Light for 2012

Now visualize that the Great Silent Watcher has come to stand in front of you. The Great Silent Watcher is a great Being, a Great Cosmic Being that held the idea for this entire solar system in her womb until it could become manifest. She is a huge, tall Being with a huge Scepter of Power. She is beaming Turquoise Blue colored Light from her body and from her Scepter. She beams this Turquoise Blue colored Light to the Chakra that is just above your head and just below your feet, the Earth Crust Chakra below your feet and your Eighth Chakra, which is just above your head, within the Antahkarana Cord, that we just created the tree trunk through.

See these two Chakras filling with the Turquoise Blue Light and imagine that there is a Seven Pointed Star in each one of these Chakras, spinning and creating a column of Turquoise Blue Light between the two Chakras. This Turquoise Blue Light fills your body and your Chakras, and then it expands out to create a bubble, a Cocoon around you. A Cocoon, that is maybe ten feet in diameter, holding you and your Five Body System within it. Great Silent Watcher is also sending from her Cosmic Heart/Personal Heart Chakras to your Cosmic/Personal Heart Chakras, this same Turquoise Blue Light. Great Silent Watcher is a Female Being, one of the Female Beings that has come at this time, and offered herself in service, with Divine Mother on our behalf.

Now visualize that Divine Mother comes to stand to your right. She takes your right hand. She is in her ceremonial robes and she beams Copper Gold Light to you. She is also standing within this Cocoon of Turquoise Blue and she is beaming her Copper Gold Light to you. Now see to your left, holding your left hand, Lady Quan Yin bedecked in her white pearl robes, beaming you Pure White Light. Quan Yin is the Goddess and Patron of Compassion, the Quality of Compassion, the Energies of Compassion, and she sends to you the Energies of Compassion which we will see and we will visualize in layers of Pink Light around us.

Visualize that the first layer, right around your body as a Dusty Pink color, there is a second layer around your body which is a Vibrant Pink color, and a third layer of Compassion around you, a Fuchsia Pink colored Light, and the next layer, a Golden Pink Light and see all these layers within an Amber Colored Light, the Amber Colored Life Force Energy. Take a deep breath, with these layers of Compassion in place. Quan Yin is to your left and Divine Mother to your right, all within this Cocoon of Turquoise Blue being sent by the Great Silent Watcher.

Now we ask Goddess of Victory to come forth and place Aspects of herself in the Seven Directions. So imagine Goddess Victory beaming Yellow Gold, Pewter and Platinum Lights to you. One Aspect in front of you, one behind you, one to your right, one to your left, one Aspect of Victory above you, one Aspect of Victory below you and an Aspect of Victory within you. See that an Aspect of Goddess of Victory is

standing over you, over-lighting you. The six Aspects, one in front, one behind, one to your right, one to your left, one above, and one below, standing outside the Turquoise Blue Cocoon of Great Silent Watcher, and beaming her Lemon Yellow, Platinum, and Pewter colored Lights to you, the Qualities of Victory, the Lights of Victory.

We now call 144,000 Silent Watchers. These beings will come and make circles upon circles around this entire entourage, twelve Silent Watchers in each circle. Circles upon circles making 144,000. These are all under the auspices of Great Silent Watcher, they are all Turquoise Blue, reinforcing the Turquoise Blue bubble, holding their Scepters and beaming Turquoise Blue Light to you in the center. Now we invite 10 Billion Angelic Watchers to come. These 10 Billion Angelic Watchers are also Turquoise Blue, forming a cocoon of Turquoise Blue Light around the outside of this Grid. Imagine a huge cocoon of Turquoise Blue Light holding this entire entourage within it, as you stand in the middle; Divine Mother to your right, Quan Yin to your left, Victory in the Seven Directions around you, Great Silent Watcher, standing in front of you, beyond the Aspect of Victory that is standing in front of you, holding you in a Cocoon; being fed from your Eighth Chakra above your head and from your Earth Crust Chakra below your feet. Circles upon circles of Silent Watchers and Angelic Watchers beyond, in a gigantic bubble of Turquoise Blue. All of these Beings are Female Beings. They are holding you within the Energies of the Divine Feminine. Great Silent Watcher's Turquoise Blue contains the **Qualities of Protection, Fearlessness and Divine Power.**

In our past sessions, we have set up this Grid. This is the Grid that Divine Mother has asked us to use during 2012, this entire year. Every morning when you awaken you can put yourself in this Grid. Feel the Energies of the Divine Feminine embracing you, holding you, feeding you with the Light of the Divine Feminine. Everywhere you go you will bring these Energies of the Divine Feminine with you, and to everyone you meet, everyone you touch, and every place you go, filled with the Energies of the Divine Feminine.

In our April Gateway Portal Event, we talked about going to a meadow just like the one you are standing in now, and seeing every tree and every blade of grass, every leaf, every bush, every flower, the water in every lake to be fully imbued with the Energies of the Divine Feminine and to fully anchor on Earth, and throughout Earth, these Energies.

You are fully grounded; you are connected to the center of Mother Earth, moving the Life Force Energy of Mother Earth, up all the way to the Pool of Creation, where you are pulling the Cosmic Life Force Energy; all imbued with the Energies of the Divine Feminine.

Sanat Kumara the Planetary Logos fully Embodying the Divine Feminine

Now we invite the Presence of Sanat Kumara, the Planetary Logos.

I want you to envision that he is directly in front of you, inside this Cocoon that Great Silent Watcher has put around you, almost so close that your chests are touching. See the Presence of our own Sanat Kumara, the Planetary Logos. He is bedecked in his ceremonial robes of Fuchsia Pink and he is bathing you in his Fuchsia Pink Light. See that from his Personal Heart Chakra he is beaming Fuchsia Pink to your Personal Heart Chakra. He is pulsing a Ball of Fuchsia Pink Light that goes from his heart to your heart, back to his heart, to your heart. This Fuchsia Pink Ball of Light continues to pulse between his heart to your heart and back to Sanat Kumara's heart.

Sanat Kumara is the Planetary Logos. Every planet, every Solar System, every Galaxy, Universe and beyond has a Logos, a Being whose consciousness holds that entity within it. The Earth is held within the consciousness of Sanat Kumara, our Planetary Logos. It was Sanat Kumara who came to rescue Earth

millions of years ago and to become the Planetary Logos, to bring his Fuchsia Pink Light. Sanat Kumara is a very pure Being. You can feel the love pouring from Sanat Kumara to you, as he pulses the Fuchsia Pink Light from his heart to yours. Sanat Kumara came to save planet Earth millions of years ago and has been the Planetary Logos since then. It is the job of the Planetary Logos to hold the planet within his protective shell, his Grid System that he places around the planet. This Grid System beams his Light to the consciousness of all beings on the planet, all species on the planet, to Mother Earth and all that resides here.

Sanat Kumara has been residing in the planet Venus for the past several thousand years, as density has gripped this planet. His Presence has been felt less and less, his essence has been less and less prominent on this planet. Now with all the work that Divine Mother has done over the past year and a half or so, and with all of the Great Cosmic Female Beings that have come to assist Divine Mother, bringing the Energies of the Divine Feminine to Earth through each one of you, the Energies of Sanat Kumara can once again be made more prominent on Earth. His Light can be ignited on Earth to a greater extent as we all invite Sanat Kumara back in his greater essence, in his purity, in his love for this planet, in his love for each one of us.

As you are held within these Energies of the Divine Feminine holding Divine Mother's hand, holding Quan Yin's hand, being surrounded and over-Lighted by Goddess of Victory, see that Goddess of Victory is also holding Sanat Kumara, the Planetary Logos, in her over-Lighting Presence. Great Silent Watcher is holding Sanat Kumara in her Turquoise Blue Light, and 144,000 Silent Watchers, and 10 Billion Angelic Watchers are all holding the Divine Feminine around you and Sanat Kumara. Feel that you are satiated with the Energies of the Divine Feminine. See that Sanat Kumara also is fully embodying the Energies of the Divine Feminine, as you are pulsing the Fuchsia Pink Light of our Planetary Logos from his heart to your heart, and he is holding you also in his Fuchsia Pink Light.

Take a deep breath..., set your intentions, say your prayers, and offer your great love and gratitude to Divine Mother and to all these Great Feminine Beings for creating this Cocoon of Divine Feminine around us. Send your love and your gratitude to Sanat Kumara for all he has done for this planet and for human kind for eons of time and for his Presence with us this moment within the Energies of the Divine Feminine. Take a moment and set your intentions, and the next voice you hear will be that of our beloved Nasrin. So It Is.

Nasrin's Discourse

Hello everyone, and welcome to our 6-6 Ceremony. This is a very important month. As Jim mentioned, it is the half way point and it gives us leverage to do a lot, because as you might recall the Energies of the Divine Feminine are at their zenith. When we reach to Summer Solstice, Divine Mother has said "the entire summer months belong to me", meaning the Fiery Energy of Summer. This is the Energy that she needs to propagate and maximize the Presence of the Divine Feminine. This year especially, the Presence of the Divine Feminine is important to us because the Creative Force that is behind the Energies of the Divine Feminine is what will push us through for the next six months. It will push us through the quagmire of the density that surrounds the Third Dimensional Reality. It will create the Tunnel of Light which we need to move into the Light of the Fourth and the Fifth Dimensional Octaves. It will clear the Astral Realms, which are part of the Fourth Dimensional Realm. To then give us access to the Fifth Dimensional Octave.

The whole business of reaching 2012 and the end point of 2012 is about reaching a point where time is accelerated. How does the acceleration of time help each of us? It helps us by allowing us to manifest the object of our desires, manifest our intentions, faster. Right now when we want to manifest our intentions, we set the intentions for something we really want now. Sometimes it happens in a day or

two; most times it happens in much longer time. We are usually happy if it happens in a day or two, a week or two, a lot of times a few months, but in the past it has been known for an intention to take years. Even though we are noticing that things are manifesting much faster, that thoughts are becoming tangibly manifest sooner, it's not quite exactly where we want it. It would be really lovely when we think of something and it really does manifest right away. It would be really lovely when we think of something and within twenty four hours we are actually living it. That's the whole objective. The bringing of the Divine Feminine to accelerate through the Creative Force, and the Creative Force to manifest things, to manifest ideas, designs, concepts, objectives and objects. That Creative Divine Feminine can function much better in the Higher Octaves; in the Fifth Dimensional Realms, because we are not bogged down by the density of this Third Dimensional Reality, we are not bogged down by the negativity of this Third Dimensional Reality and we are not bogged down by the corruption on this Third Dimensional Reality.

Corruption is happening at all levels. Corruption exists not only in a person being selfish and wanting to hoard things, that is one level of corruption. But corruption exists in the Five Elements, in the waters that are polluted. That's one level of corruption. The air is polluted and that is another level of corruption. When it seeps through the Five Elements, when bodies of earth are corrupted in this way, bodies of water are corrupted in this way, the air is corrupted in this way, when fire is raging and it doesn't realize it doesn't need to burn forests. The idea that the fire would be raging, as it has been doing in the recent past, and it is unmanageable, is telling us that the Element of Fire has become corrupted. What does that mean? It means that it is no longer manageable. Things catch fire for no reason at all. Yes there is global warming. Yes the ice caps are melting. Yes the dry air, the dry weather causes the wild fires. But let's remember that these Elements have a consciousness. They have a consciousness of being of service, just as we have a consciousness of being of service when we awaken and when we are Enlightened.

Every one of these Elements in their Enlightened state knows what to do and when to do it. It's possible that the Element of Fire would clear a body of polluted water, let's say an oil spill, it's possible that the Element of Fire would release someone of a major karma by burning a part of their house or a wall, or a whole house but when it rages over miles and miles and miles of wildfire in the forest killing innocent animals, then that doesn't speak of the consciousness of that Element being in its Enlightened state. It speaks of it raging and getting to the point where it no longer wants to do good. It has reached to a point where it needs to take care of things a little too fast maybe?

It is important that we understand that we have this time, this six month period, to prepare ourselves, to move ourselves through this Higher Dimensional Octave that hasn't become contaminated and in this period of time that Divine Mother is taking things under her reign, especially the three months of summer for those of us who are living in the Northern Hemisphere, we can do a great deal to help facilitate that.

In our last channeling Portal Day, Jim brought the idea that when you see trees flowering, trees budding, leaves sprouting, blades of grass sprouting, think of that as the magnification, acceleration of the Presence of the Divine Feminine. The Presence of the Divine Feminine in every blade of grass, the Presence of the Divine Feminine in every leaf that grows on every tree, the Presence of the Divine Feminine in every petal of every flower, wild and planted in nurseries as cut flowers, as plotted plants, the Presence of the Divine Feminine with every breath we take, magnified. Ingest the Presence of the Divine Feminine within every fruit and every food we eat. The Presence of the Divine Feminine in all the bodies of water and the babbling brook speaking of the love of the Divine Feminine and clearing the air with the sound of its movement.

One other important thing to remember is that what we do in the course of the next three months, what we do in the course of the next six months, what we sew in the course of the next six months is what we shall reap for decades because the way we move through the portal at 12-21-2012, and where we land as we move through it, is responsible to create our Reality, the Reality that we will manifest for ourselves. The

more awakened we are, the more ammunition we have in terms of the Energies of the Divine Feminine, the Creative Force of the Divine Feminine; our awakened state, our Enlightened state, the easier it is for us to land further into the clearing that Divine Mother has prepared for us, to land into the best part of the Fifth Dimensional Octave.

This is why it is important that we are aware of our intentions. It is important that on these Portal Days we energetically put intentions out, have a longer meditation, perhaps a meditation in the morning and another one in the evening. Remember that interestingly enough, the full moon has been falling more or less close to these Portal Days, since the beginning of the year, and that in itself is another important thing; the way these Portal Days coincide with the point that we are reaching full moon, because full moons are the highest point of manifestation. And then remember that since time really doesn't exist, you set your intentions - say you are listening to this meditation during receding moon or during early part of a new moon; that's perfectly fine, you can always set intentions at the beginning of the month. It is also perfectly fine that you say to yourself. "I am calling the Energies of the full moon, I am calling the Energies of that Portal Day, I am calling the Energies of Summer Solstice and I am setting the intentions as if I am in that moment.

Right now medical research has shown that when people pray for patients in the hospital, years after they were in the hospital, somehow those patients that were prayed for - years later their charts show they had a better rate of recovery than other patients with the same diseases or the same procedures performed on them who were not prayed for. This is in the book written by Lynne McTaggart, who wrote "*The Field Theory*" and now she has written the book called "*Intention*". Both books are perfect, fantastic, buy them, and enjoy them. So, that is taking it one step further. That is taking it to the point where we are talking about. That not only can we certainly affect what is yet ahead of us in our future, but even in the future, we can go back to the past and reset the clock, so that the future we create from that work that we are doing in the future, going into the past would then be better for us. We can even go back and set intentions in the past and then affect our future. Just as we can set intentions right now for our landing through the portal of the 12-21-2012 or the 12-20-2012 or where ever that point is that we reach. At Summer Solstice we can set the intention that our landing be the highest that we can attain without any limitations and we can do that with the help of the Divine Feminine.

Now Divine Mother has specifically asked us in this session on 6-6 to prepare the path for Summer Solstice which is coming up on the 20th and to set a Grid. We are going to set precedence right now together, as the numbers are always bigger on the Portal Channelings, so that we create a Grid around Earth where Sanat Kumara's Energies are present and magnified. We are going to impact the Grid Matrix of Earth by our intentions and Divine Mother is going to show us how. We are going to set the pace with this session and then we are going to take it to the next step when we do the Ceremony of Summer Solstice. For those of you who are interested in participating, take a look at the Summer Solstice Ceremony Course or take a look at the *June Newsletter* where the explanation for the Summer Solstice Ceremony on June 20th is given.

So let's together envision that we are asking for all our intentions, all the intentions that we are offering in service to the Creative Force, to be magnified above and beyond our expectations and our limitations. The optimal possibility, the optimal Reality that can be obtained, the optimal thought form for each of us in our mundane lives, in our worldly lives, as well as in whatever we need to attain on behalf of our souls. Let us set that intention. That in this period that we move from the Gateway Portal of 6-6 to the point of Summer Solstice, when the summer reaches its height, and then throughout the entire three month period when we go from Summer to Fall, and the three month period when we go from Fall to Winter, that everything is accelerated and magnified, once again, without limitation and beyond our expectations. Let it reach to the point of the expectation of Divine Mother, and even, let's set the intention that the Divine Feminine is enhanced exponentially, and who would benefit from that? We will. We will be the first to

benefit from this exponential gain on behalf of the Divine Feminine, because the first thing that will happen is that we will manifest what we need because the Divine Feminine, with the Creative Force behind it, has the potential and the ability to turn everything that is corrupted into its Perfected Original State, and for us to be able to manifest what we want even better than what we think we want.

What needs to happen is for the Creative Force of the Divine Feminine to be behind us. Once we have that working with us then there is nothing moving against us. That Creative Force will move us out of corruption and lead us to the Perfected Original Intent. Believe it or not, originally the intent was that everything will be perfect for us, that we would experience Perfection, we would experience love, we would experience truth, and we will stand in our truth. We wouldn't have to act as if standing in our truth or expressing our truth is pulling teeth. No. Standing in our truth is our Divine Right and not only is it our Divine Right but it is Earth's Divine Right, it's all souls' Divine Right. The souls wouldn't even think of doing something that is selfish and self centered harming others. No one would think of doing anything that might benefit them singularly but harm others. Think about that. That means no pollution in the Five Elements. That means raising the Five Elements to its perfected state. That means raising ourselves out of this quagmire, that means rising to the Light. So let's set those intentions and let's magnify the intentions of each individual by the Presence of this Grid.

There are 10 Billion Angelic Watchers and don't think of them as little Beings. Angelic Watchers are known and it has been written, even in the Bible that they were 12, 14, and 16 feet tall. They came as our guardians; they came to watch over us. Then there are the Silent Watchers, which are 20 and 30 feet tall. Then there is the Great Silent Watcher, whose standing, and you can look at her, it might take you to stretch your neck up to see her head. Her Scepter is so big; when she holds her Scepter over the planet, it can fill the entire planet with her Light. So right now there is a gigantic Dome of Light over all of us, everyone in every corner of Earth, and that includes those who are not awakened, because we are holding space for them. We are 'willing' it to happen for them and that includes all the animals, all the minerals, all the plants, all the waters, the Five Elements, all people, places and things.

Think of a gigantic Dome of Turquoise Blue Light and think that we have the power to hold space with the help of all these Beings. Divine Mother is holding our hand, Lady Quan Yin is holding our hand, and Goddess Victory has manifested Seven Aspects of herself. In the Native American tradition there isn't the Four Directions, there is Seven Directions, because of above and below and within, within our own hearts, within our own beingness, that too is a direction, a very important one, within us, what goes on within us, filling what goes on within us with her Light, with her Light of Victory. The Light of victory can remove and release corruption and bring things to their Perfection of the Original Intent.

Great Silent Watcher is seeing to it that everything that Victory does will be Victorious and is protected by the Turquoise Blue Light. It is an ancient sacred knowledge that when you carry turquoise around, a piece of that precious gem stone or even a tumbled piece of turquoise, even a raw piece of turquoise, it prevents negativity from being absorbed into your body and your being. This Turquoise Blue Light is the source of that clearing; that protection. If you constantly carry the Energies of Turquoise Blue Light, if you constantly feel this Dome of Turquoise Light around you, you won't even need to wear the turquoise. You won't even need to put the piece of turquoise in a pouch and carry it around with you. It becomes all encompassing.

So imagine the entire globe and all people, places and things, are bathing in this Turquoise Blue Light of the Great Silent Watcher, while Seven Aspects of Victory are magnifying and multiplying the Energies of Victory, removing, transmuting, annihilating corruption and replacing the corruption with Perfection. The Perfection of the Original Intent, the Perfection that the Creative Divine Feminine Force, that created everything with that Perfection. The Perfection that was the spirit behind everything Manifest, everything that is created from eternity to eternity, that Perfection, Eternal Perfection.

Let's all envision this. Let's all call upon Divine Mother and ask that she would give us the grace. Through her grace, we earn the merits, to move beyond our own limitation, to move beyond our own expectation in our individual, personal, worldly lives and in what we attain on behalf of our souls. What we attain to fulfill our Divine Mission and furthermore what we attain to help Divine Mother attain her mission and what we can attain in service to the Divine Feminine.

What is the Divine Feminine? That Holy Spirit, that Creative Force that is incorruptible, that's the Divine Feminine. Who and what are Aspects of this Divine Feminine? Divine Mother is an encapsulation of that Divine Feminine for our own Hierarchy. Goddess Victory is an encapsulation of that Divine Feminine beyond our Hierarchy. She has been victorious for the equivalent of three hundred thousand of our years, three hundred thousand of our years. Great Silent Watcher has been the protectress. She has been protecting our Solar System after she created it, after she manifested it into form. She has been protecting it for billions of years. So these are the Beings that have been called. Divine Mother herself says I have called the big guns for you. Then we have the Silent Watchers, which are the manifestation, the physical manifestation of the Energies of the Great Silent Watcher, and then beyond that we have the Angelic Watchers. The Angelic Watchers are very close to us. These are Fifth Dimensional to Twelfth Dimensional Beings, some of them go all the way to 50-some Dimensional Aspects. These are Beings that occupy the Seven Heavens. The Seven Heavens are from the edge of the 13th going into the 14th all the way to 62nd. So the Angelic Watchers can be the closest Energetic Presence and they fully understand, because they have been watching us, these Angelic beings have been with us much longer than our parents, our grandparents, many, many lifetimes.

Imagine the magnification of that Perfection in our lives. Imagine the manifestation of that Perfection in our lives. Imagine also that we are also holding space for every member of the group to magnify their own impact. Everyone is helping everyone else magnify the Perfection. We are not asking to magnify each other's negativity; we are asking to magnify the Perfection that is beyond our own limitation that is beyond what we expect of ourselves. Because the Great Silent Watcher, Goddess Victory and Divine Mother know what is beyond our limitations. We are asking them in their knowing to give us the grace to move beyond our own limitation, to move beyond our own expectation, and then we are taking it one step further, and we are asking Divine Mother to help us earn the merits, help us to gain your grace, so that we will surprise you. How do we do that? We do that by calling upon Victory and Great Silent Watcher, because they know what's even beyond this Hierarchy, the Hierarchy which is our Globe. The Hierarchy which is 144 Dimensions of Reality upon which Divine Mother reigns.

Remember that Victory and Great Silent Watcher are Cosmic Beings. They can see beyond what goes on within our planet. Not just this Third Dimensional Reality, the entire stretch of the 144 Dimensions, Gods and Goddesses. They can see at much wider spectrum and therefore, they can bring the manifestation of Perfection on our behalf to even surprise Divine Mother. When we open our hearts, when we offer ourselves in service, it can be done. And there are times when we don't even know how far we have been able to move the Energies because the imagination doesn't run that far ahead of us, because we don't really know what goes on in those Dimensions of Reality. But there are Aspects of us that are living those Realms.

When we set these intentions, we are helping those Aspects of ourselves living the 55th Dimensional Reality, the hundred and something Dimensional Reality. We are helping those Aspects of us gain beyond the expectation and limitation that is believable and imaginable to them. In that way we go beyond the beyond. In that way we will be able to surprise Divine Mother, we will be able to stretch the Creative Force of the Divine Feminine to achieve feats of achievements beyond our own Hierarchy. In that way we will be able to help Goddess Victory to continue to be victorious, not just within our Hierarchy but beyond. In that way we can help the Great Silent Watcher expand the Cosmic Energies

with this Turquoise Blue Light to multiples of billions and trillions of Galaxies and Universes and Cosmic Conglomerates.

Imagine we are like a speck of dust and yet we can make a difference. We may not know how much of a difference we make in those Realms but it doesn't stop it from happening. Furthermore, it all accelerates what happens for us in this Reality; what happens through us in this Reality - change happens. We already see, comparing what's going on now to a year ago that things are changing and sometimes you might say, yes, change has happened, things are getting worse. But why are things getting worse, because the worst of the worst has to come to the surface to be noticed and then to be rebuked. The worst corruption has to hit so that we can say this is not acceptable. What has been pushed into the core needs to come out of the core to the surface. This is what we are seeing, that is why it seems that things are getting worse. What is really happening is that things are coming to the surface because they are getting ready to be released. This corruption is no longer being tolerated, young and old all over the globe, are coming out and saying no, this is not acceptable. This corruption is on the verge of being done with, being dealt with. We are washing our hands off of this corruption. We are calling forth the Divine Feminine to clear it from our Reality and not as a band aide. We are not calling it to be released temporarily; we are calling it to be released permanently. This is why there is unrest all over the world. This is why things are coming to the surface, from countries to individuals, from nations to villages and hamlets and families.

We ask for grace to do service, to offer our service to return to the Perfection of the Original Intent. We ask beyond limitation, beyond expectation, we ask for the manifestation of intentions to be accelerated through the grace, and the return to Perfection to be accelerated on behalf of all souls, on behalf of our planet.

Let us take a deep breath and Invite Divine Mother.

Divine Mother

My children of Light I am your very own Divine Mother.

I stand with great joy and gratitude for all this love that you are bestowing upon the Divine Feminine, for all the service you offer, for all the joy that is bubbling to the surface. One of the most important changes that needs to take place on behalf of Earth, a change that will impact every iota of every soul's being, from the smallest of species to the largest, is the Energies of the Planetary Logos. The Light of the Planetary Logos, the Fuchsia Pink Light of the Planetary Logos, provides a shield around the planet. It provides that shield to remove the corruption, it deflects corruption. That exact corruption that was discussed in this session, the corruption that will prevent the Five Elements; the Fuchsia Pink Light of the Planetary Logos will prevent the corruption that has penetrated into the Five Elements, the corruption that has penetrated into the Physical, Mental, Emotional, and Spiritual Bodies of human souls, even the bodies of animals, plants, and minerals.

When animals are in their Perfected state, they will behave differently, when plants are in their Perfected state they provide their best yield, they would not pick up aphids and pests and mites and blights. When minerals are performing at their best to their Perfection, they will have the consciousness of how to respond to Energies such as love, joy, and magnificents. Right now you have to charge your crystals, you have to remind your crystals, and you have to tell a crystal to vibrate joy, vibrate Light, and clear my field. If you don't do that with your crystals what happens, it magnifies whatever is around it. So if two people are having a conflict, having an argument standing by a pillar of selenite or standing by a piece of rose quartz, or standing over a marble floor, what is that marble doing? That marble is magnifying their conflict and their argument. Rich corporations build beautiful buildings full of marble and granite and

then display these amazing pieces of minerals in the form of marble statues, in the form of a huge cathedral of amethyst in the form of large chunks of tumbled, or statuettes, rose quartz and then what happens? The rose quartz that was supposed to be magnifying love is exposed to all these conflictive Energies of how we raise the price of this share, how we bring this, that and the other. How we increase our resources and what is that rose quartz then magnifying? That level of corruption.

When the minerals are in the state of Perfection, you don't need to tell your selenite wand, please clear my Energy. Wherever it is sitting, it is zooming on clearing your Energy without you asking it. You don't have to take your pieces of quartz and point them to the area where the pain is to release the pain, it would know what to do. Remember during the time of Atlantis, clusters of quartz, clusters of smokey quartz would generate Energy. Energy was not generated from fossil fuels. Energy was generated through crystal clusters. Those skills, that know how, that Perfection still exists, you just need to tap into it. How do you tap into it? You tap into it by raising the vibration, raising your own vibration first and foremost, because when your vibration is raised everything around you will replicate it. Then the Five Element's vibration is raised, then the minerals, the plants, the animals follow suit. When you return to Perfection, even if there is a handful of you, even when a handful of you awaken and walk the path of Enlightenment and ask for these very special, very specific, intentions to be brought to you; the return to Perfection, the raising of the vibration.

When you raise your own vibration, then the cluster of smokey quartz - clear quartz exposed to your vibration, will begin to vibrate its Perfection. That smokey quartz cluster will then remind you, will then communicate with you, would then connect with you and show you how you can tap into its resources and then you can free Earth from the poisonous impact of fossil fuels, then you can free Earth from digging into her body for natural gas, for mining coal, for extracting oil. So when you say, I want to serve, I want the Divine Feminine to bring its Creative Force, I want the grace to allow me to live beyond my own expectation and to move beyond my own limitation, you are doing an enormous favor, right there and then, you are raising your vibration right there and then. You are impacting the vibration of the Five Elements, the plants, the minerals, the animals, the humans, the globe, and the Planetary body.

When there is enough of you asking for that, and enough of you doesn't mean the six and half billion population of Earth have to all ask, no. The number is actually small and because of you, because of those of you in small numbers who seek such a heightened elevation of an intention completely selflessly. You're asking for this, yes it will benefit you, but you are asking for this because it has global connotations - it is going to rescue Earth from its demise. And when you do that and when you say an intention such as this which has global connotations you create a Web of Light, you send out a wave of Energy, even if there is ten people doing that, even if there is a hundred people doing it, even if there is one person doing it, the larger the numbers, the faster the impact. But the critical mass can be reached with proportionately smaller numbers than the number of the souls living on the planet, proportionately smaller. You will think of them as a miniscule number that can reach the point where the scale is tipped.

One of the ways that you can tip the scale is to call on the Planetary Logos, why? Because, he as the Planetary Logos, in this case, he, because at this present time, the Planetary Logos for Earth is Sanat Kumara, who is a Male Being. It is his Male Aspect that is in charge. With his consciousness, he shields the planet.

For those of you who have seen some of those star war movies that they have animated that the shield. When that shield is on, it is impenetrable for alien entry. Well, there is an element of truth in that. Energetically, from a consciousness point of view, the consciousness of Sanat Kumara is vast enough that he can literally place a Shield of Protection, which is the protection from the Logos, the word for this planet. He can place his shield around the planet and by so doing, he can prevent it from absorbing any further corruption, pulling or calling any more corruption to itself and then by calling upon certainly

Goddess Victory, certainly Great Silent Watcher, we can clear it. It doesn't need to be one before the other, they can go in conjunction. In fact, already what we have done, what you have done, you have set these intentions for the return to Perfection.

One more intention that needs to be set is the return of the Shield of the Planetary Logos. For that to be a reality, he needs to be convinced that Earth is ready for him. Again, that doesn't mean seven billion human souls all need to remember who he is and say yes we want him back. It means because this small number of you have raised the vibration, remembered who he is and demanded his return, he is obliged to do as you request of him. He is obliged to serve you. Now, once again, there is a number that brings the critical mass, but there are short cuts and ways that smaller numbers than that which brings the critical mass can still do this work and be successful.

The way, that short cut, is this. We do it by calling upon Goddess of Victory, Great Silent Watcher, Divine Mother, the Silent Watchers in multitudes and the Angelic Watchers in multitudes, this part you have done. So now, let's take a moment and envision that we have called upon the entire planetary body. The planet as a conscious body is called and is now inside the dome.

If you look up you will see it. Imagine that we have a miniature Aspect of it suspended above our head; breathe and bathe and keep that visual. Now see that Great Silent Watcher is sending her Turquoise Blue, Goddess Victory is holding her Torch, the Silent Watchers are magnifying the Energies of the Great Silent Watcher and the Angelic Watchers are magnifying it even further but also bringing it to the Lower Realms, all the way to this Third Dimensional Reality. Now imagine that we have petitioned the great Logos, Sanat Kumara, to reinstate his Shield, his Protective Shield, and his Protective Shield is that same Fuchsia Pink Light that is his Signature Energy.

Imagine that Sanat Kumara is standing with his Scepter of Power above his head and beaming the Fuchsia Pink Light. His entire body is now illuminated with Fuchsia Pink Light and a tunnel, a Pillar, a shaft of Fuchsia Pink Light is erected right in front of you where he was standing, where he still is standing except the Pillar is much wider and much taller. On one hand it is going down below your feet into the center of Earth, on the other hand it's going up from his Scepter to the miniature globe that's suspended above our heads. Then envision that you hold your Scepter, Divine Mother holds her Scepter, Quan Yin holds her Scepter, Goddess Victory holds her Torch of Victory, Seven Aspects of Victory and then multiply those Seven Aspects by the number of people present, because for each person, there is Seven Aspects of Victory. Imagine for the globe that is suspended, that there are Seven Planetary Aspects of Victory. So that means that there is an Aspect of Victory that is above this miniature size Earth, below, to the left, to the right, in front, behind and within. Now imagine that for the suspended Earth above your head and imagine that for this Earth that is below your feet.

Imagine a Cosmic Aspect of Goddess Victory in a size relative to the real size of the planet and then one Aspect of Victory in front, one behind, one to the left, one to the right, one above, one below and one within the big planet in its real size and Victory in her Cosmic countenance. They are Beings of Light, their size and Light corresponds to whatever size is necessary for whatever body they are protecting. If they are protecting your body, they don't need to be hundreds of feet tall but if they are protecting the body of Earth in its natural size, they do, they will bring that much of their Light, they will encapsulate the relevant concentrations of their Light that will benefit each body, each Being. You would see Victory in a size that is relative to yours, for the planet it would be a much larger size, for a Star System it would be even bigger than that, for a Galaxy it would even be bigger than that.

Then envision that Great Silent Watcher is also magnifying this Energy with her Scepter. Her Scepter relative to the miniature size planet which is inside the dome above our head, the real size planet below our feet and Great Silent Watcher magnifying each of your intentions with her Scepter creating a dome

around our Grid of Light with you standing in front of Sanat Kumara, with Quan Yin, with Divine Mother, with Victory, with Angelic Watchers and Silent Watchers.

Ultimately, when you have everything in place you will be seeing a Grid Matrix. The crossing points of the Grid Matrix have Fuchsia Pink Light illuminated; even the lines themselves have the Fuchsia Pink Light of the Planetary Logos. The more that you see that fully illumined in your mind's eye the better the impact and then to magnify it see the entire globe suspended, bathing in Turquoise Blue Light. Think of it as a holographic image. The Turquoise Blue Light is going in and out pulsing while the Grid Matrix around it which provides the Shield is illuminated with a bright Fuchsia Pink Light, the entire body of Sanat Kumara has become a huge Pillar of Fuchsia Pink Light. This Pillar is sending the Fuchsia Pink Light upward to the miniature sized planet, downward to the actual Core of Earth that is beneath our feet. Everyone in this Grid of Light is holding their Scepters up and magnifying this Energy, magnifying Sanat Kumara's Fuchsia Pink, the Grid Matrix, and magnifying the pulsing Turquoise Blue Light of the Great Silent Watcher.

Envision this whether you are participating physically in the next phase when we do Ceremony on Summer Solstice or not. Envision this throughout the summer, and envision this if you are not participating, make sure that on Solstice you do this Ceremony, you perform this meditational exercise and to lead to the Solstice Energy, do it on a day to day basis. The more you do it, the faster the impact, the greater the impact, the faster the manifestation.

Do it for 33 days. Remember 33 is the number for manifestation. Earth's number is 33; it also is the number that relates to the Creative Force. Three is the number of the Creative Force. Divine Mother's numbers are three and nine. To complete the creative manifestation, start doing it for nine days, then do it for 33 days, then do it for multiples of 33 days if you can. Those of you who can join us, come to do the next phase of this when we will fill the Grid Matrix and I will explain to you how to manifest at an accelerated pace using the Fuchsia Light of Sanat Kumara, whether you are manifesting Perfection on the planetary level, on behalf of human kind, or manifesting Perfection in your own individual lives, manifesting Perfection in personal relationships, in your business relationships, in your encounters with your loved ones, and even manifesting Perfection with the not so loved ones. Manifesting Perfection that will bring you abundance and prosperity and remove corruption and stagnancy from your individual lives, from your collective lives, from the life of the planet, from the lives of the consciousness of all souls, and from the Five Elements, this is what we will do in this Ceremony that we will perform on Summer Solstice.

Those of you, who have the opportunity, join us, and those who don't, set the intention that whatever is happening would be brought to you. When you come and join us you then practice it at conscious level but don't underestimate what happens at subconscious levels. When you connect to the Energies, even if you are not consciously with us, even if you are not listening to the how to, you will still benefit and at some point that subconscious acquisition of the Energies will bring it to the surface of your consciousness, how to do what you need to do. Furthermore, those that do participate will set the pace and hold space for those of you who won't have the chance to participate. In this way everyone benefits including the unawakened souls. The ripple of the Energy will circle around and reach first and foremost those who completely participate in all Aspects because they are then consciously and subconsciously involved, then those who are only subconsciously involved, then those who are fully unawakened and not even subconsciously aware because once you post it upon the planetary body, even those who are not even awakened not even subconsciously, not even interested, would then become interested, would then become awakened would then become ready to walk the path. And this is the beauty of these get together on these portal days when the Energies are so heightened.

I hold every one of you in my own heart in great gratitude for what you have set intentions for, what you have requested and demanded of the universe, and what we have unfolded together already is beyond that which I expected and planned for this event, so I thank you profusely and I hold you in my own heart and I pray for the Perfection that each of you deserve.

I am your very own Divine Mother. May the Divine Feminine bring the Perfection, bring the joy, and bring the happiness that you all deserve and more. So It Is.
