Hello everyone this is Jim and welcome to the 9-9 Gateway Portal Day 9-9-2012. As we get closer and closer to December 21, 2012, I thank you all for your great service; I thank you all for coming to these Gateway Portal Day events. When we can all get together we can combine our forces, we can combine our prayers and intentions as one group entity, adding all that force and power with Divine Mother's help to these prayers and intentions on behalf of earth and humankind as we move into this very important time.

Take a deep breath, let's begin our grounding, again we ground to calm our minds, to connect ourselves to Mother Earth so that the connection with Divine Mother during the channeling and the prayers and the intentions that we set and the messages that we hear can be from the highest possible platform.

Visualize yourself and this entire group as one group entity standing on Uluru, the great red rock. We go to this sacred site for our grounding because it is such a sacred site, it is such a grounding place and it represents the Element of Earth. Feel it beneath your feet, feel the presence of this entire group as our hearts begin to beat in rhythm with this great rock. I don't know if you can feel it, most of you who have been doing this over and over again, but when we connect with especially to Uluru, because we have done it so often and because it is so closely tied to Mother Earth, that you can feel a sense of happiness and joy coming from Uluru. So, feeling Uluru beneath our feet let us just dissolve into the red rock, become one with Uluru. See the Hara Line that extends from the bottom of Uluru all the way to the center of earth illuminated. Place yourselves now if you can also imagine as you hold the awareness of being one with Uluru, also imagine yourself floating over Niagara Falls, the great Horseshoe Falls on the Canadian side of Niagara Falls. The mist bubbling up as the Element of Water as the actual water falls over the waterfall bubbling up in mist, the Element of Earth surrounding you and the energies of Niagara Falls. See the Pillar of Light that you're held inside, as you are also held inside Uluru. Now slide down the Pillar of Light, the Hara Line from Uluru, and find yourself in the center of Mother Earth, standing in the Core Crystal of Mother Earth. See yourself standing before the Sacred Fire at the center of Mother Earth. Take a deep breath, feel yourself grounded. The fire is in front of you, Uluru the Earth Element, Niagara Falls the Water Element, the fire the Fire Element, and as you breathe in and out slowly the air, all four base elements are represented. You are standing in the center of Mother Earth with this entire group on 9-9, Sept 9, 2012. Feel yourself in the bosom and love of our beloved Mother Earth, and see that Divine Mother is now standing directly in front of you, Copper Gold Light beaming forth. Today she wears a tall headdress and great ceremonial robes beaming Copper Gold and beaming some Yellow-Gold as well today. Mostly the Copper Gold envelops you, feel her love, have an exchange with Divine Mother so that you can start this meditation off heart to heart with our own beloved Divine Mother, who has offered so much to us and done so much for us, earth and humankind, helping us approach this portal, and embracing the Divine Feminine.

See on the other side of the Sacred Altar that Great Silent Watcher is standing, this huge Being of Light, holding her Scepter above our heads, above the fire, and pouring down the Turquoise Blue Light. The Great Silent Watcher, also is beaming to your Chakra just above your head, the energy center just above your head, your Eighth Chakra the Turquoise Blue Light and beaming it to your Earth Crust Chakra, which is just below your feet, energizing those seven pointed stars that are superimposed over these

Chakras on behalf of Great Silent Watcher. She fills them up and energizes them until the Eighth Chakra pours down Turquoise Blue, the Chakra beneath your feet pours up, filling all your Chakras within the body, creating the Cocoon of Protection. This Turquoise Blue cocoon of Great Silent Watcher holds the energies of protection, fearlessness, and divine power.

Now Cosmic Mother of the Universe in a vivid Pink Light is standing to your left emanating this vivid Pink Light to you. Cosmic Mother of the Cosmos is standing to your right, pouring the Amber Colored Light to you. Goddess of Victory comes to stand directly behind you. Victory also brings the seven aspects of Victory, and they will stand in the seven directions, one directly in front of you, one behind you, one to your right, one to your left, one above you, one below you, and one within you over Lighting you. All aspects of Victory are beaming the Golden Yellow Lemon Yellow Light, the Pewter Colored Light and the Platinum Colored Light, in streams of Light around you. See that this entire Core Crystal of Mother Earth is permeated with the Amber Colored Light, the Life Force Energy of Mother Earth, the same Amber Colored Light that Cosmic Mother of the Cosmos emits. Take a deep breath and feel the energies of these Beings as we send them our love, as we send them our gratitude for all that they have done and are continuing to do on our behalf.

Now see 144,000 Silent Watchers standing shoulder to shoulder in rings, in circles upon circles around this group, all holding their Scepters above their heads beaming this Turquoise Blue Light. They are stepping down and magnifying the energy of Great Silent Watcher, and beyond them are 10 billion Angelic Watchers. Once again the Turquoise Blue Light is being stepped down by these 10 billion Watchers that are shoulder to shoulder in spheres upon spheres holding this entire entourage within the sphere of Turquoise Blue Light.

Feel each one of these Lights and feel the difference in the qualities of each one of these Lights as you focus on each one, one at a time if you can, if you can't that's fine. The Turquoise Blue Light of Great Silent Watcher and the Angelic Watchers and the Silent Watchers has its own characteristics, so does Cosmic Mother of the Cosmos with her Amber Colored Light as does Cosmic Mother of the Universe with her Vibrant Pink Light as certainly as does Victory with her triple Lights, Pewter, Platinum and Lemon-Yellow, and as does our own Divine Mother's Copper Gold Light.

Now take Divine Mother's hand in your right hand and let's step to the edge of this Sacred Altar, all the Beings that we have called forth are standing around the Altar. Be aware that everyone that is listening to this meditation and also participating at any point in the future are also present in this group energy, magnifying all that is said, all that is done on behalf of the Masters, on behalf of these Goddesses, on behalf of Divine Mother, Earth and humankind. We set the intention that all of Divine Mother's desires, all that she wishes to accomplish as we move up to and through the 12-21-2012 Portal, that all of her intentions, all of her desires are successful beyond expectation and limitation. All that Goddess Victory and the intentions that she has set on our behalf, that she set for all the Beings that are here, for earth and humankind, that she be successful above and beyond all limitation, above all expectation. We wish the same for Great Silent Watcher, Cosmic Mother of the Universe, and Cosmic Mother of the Cosmos and we ask that the anchoring of the Divine Feminine continue to be done and exceed all expectations and exceed all limitations with every breath that we breathe and with every beat of our hearts, from now until the portal and beyond. That the Divine Feminine is further anchored through our bodies and our beings.

With great, great love and gratitude to each one of you, I set the intention that each of you, your families and your loved ones have abundance and prosperity, healing, health and wholeness, a life of peace and tranquility, in comfort and luxury, and with ease and grace from this moment on. Let this intention succeed beyond expectation and beyond limitation for all of you, for all that you have done and I ask this intention too for earth and humankind.

I ask the Five Elements to embrace the energies of the Divine Feminine, the energies of Victory and of Great Silent Watcher, Cosmic Mother of the Universe and Cosmos and recognizes each one of our signature energies as we set our intentions for the highest and best possible ultimate reality to manifest once we enter the Portal and beyond from this moment on, from this Portal Day as well.

I thank you from the bottom of my heart, take a moment, set your intentions, global and personal, make your offerings to this Sacred Fire at the Core of Mother Earth in the presence of these Great Beings, each one pouring their Light into the fire activating the fire at the center of Mother Earth, activating this Sacred Altar pouring the qualities, the purest essence of their qualities to earth and humankind as they pulse and wave from this Sacred Altar out through the Five Body System of Mother Earth coming back in the pulse wave motion that you are so well aware of, magnifying each one of the qualities, each one of the intentions of these Beings, each one of the intentions of that we individually and as a group set. Take a moment and I will pass you onto our beloved Nasrin, have a fantastic September as we move closer to 12-21-2012. So It Is. Thank you

Nasrin Begins (15:48)

Hello everyone and welcome to our 9-9-2012. The energies have been pouring in since yesterday and this morning I was feeling as if I was bursting at the seams, so if you have been feeling the same way please know that we are all in this together.

I would like to take a moment and thank you just as Jim has done for everything that you do and just remind our personality aspects that we are going through a very important Portal. This month of September is very important because we are going to have September Fall Equinox in the Northern Hemisphere and the Spring Equinox in the Southern Hemisphere, it has been as hard, hot and droughty in the Southern Hemisphere as it has been in the Northern Hemisphere and again the energy the Element of Fire is quite rampant not only in the form of raging fires but in the form of the heat. It's all about transmutation. I have requested that Divine Mother give us a reason, an explanation.

Those of you who have participated in our first of the new series of Hear Thy Soul have heard Divine Mother talk about what exactly we are going through. I have requested that maybe a brief version be given to everyone on this occasion. I also want to tell you that in the past many months the energies have been intense.

When I start these series, whether it is a live course or a home study course or these Portal Channelings, I try to give the platform to Divine Mother, the Masters and the Divine Beings, and talk less. I know that some of you miss that possibility of getting together and hearing me tell you some examples and some experiences. This is simply to give them more time to talk with you; also it is my trying to honor the fact that we want to keep these events to an hour and fifteen minutes and no more than that. I want to honor that because it is not easy to stay on line for a length of time, and the point is that from the beginning of the day that we have one of these events, whether it's a Portal Channeling, or a Hear Thy Soul, or an Equinox, or any kind of channeling, even those Home Study Courses, each of you begins to receive the energies, so let's be gentle with ourselves.

I ask you all to please remember that we only have three months to go through this Portal of 12-21-2012. This is something that for thousands of years has been prophesied, and it is very important that we participate. I know money is tight, I know time is of essence, I know your bodies are going through a lot of these energies, I know you're all tired, but you know that we have three months. You know, it's like a pregnancy, we brought it this far, we are at the last phase, the last quarter of these energies. We have been waiting for these energies all of our lives and what we do right now, the amount of energy that we put into paving the path as we move through the Portal, makes a great, a huge deal of difference.

Divine Mother has told us that it's not just whether we will go through the Portal or not, that is already ascertained, that is already assured, we are going to go through the Portal, there is no question of it and the entire earth is going to go through the Portal, those are two very important things. Even in 2010 when we opened the gateways to the Portal and we tried to pave the path, and that was March Equinox the Spring Equinox of 2010, and we really didn't know then if it was going to happen for the whole world, we knew it was going to happen for a small group of people, now we do, we do know that it is going to happen, we do know that it is going to be subtle even though our bodies are feeling it, and we do know that we are all going to go through it, and our loved ones are going to go through it as well. Most of them are not even going to know from the day before to the day after that we actually entered the Fifth Dimensional Octaves.

What Divine Mother has stressed to us and we need to bear in mind, which makes a difference in how much work and energy we put into the following three months, is when we actually enter into the Portal and the Portal remain open, where do we land. She has said that the more push, the more rocket boost we have in this three month phase before we reach into it, is the better chance that where we land would be a soft, smooth surface and further, deeper into the Fifth Dimensional Octave. Divine Mother has also told us that the actual Portal is open from 12-12-2012 until 1-18-2013, so even though the so called official date of entry is prophesied by so many of the Seers and various groups over the thousands of years as being the exact moment of Winter Solstice in the Northern Hemisphere and Summer Solstice in the Southern Hemisphere meaning 12-21-2012 it is actually an event that is a gradual process.

On 12-12-2012, I hope we will all be together and celebrate, as we usually take 12-12 of each year off, but this year we will make sure we have 12-12-2012 as a Gateway Portal Channeling free public group together. The Portal officially begins on that day and it officially remains open through 12-21 into the beginning of the new Gregorian year into the energies of 1-9. The ninth day of January to the 18th day of January, another nine days, in which it is becoming stabilized, in other words, where we land will then be stabilized. By ninth of January 2013 we will have figured out where we have landed, but we have this time from now until then to figure out where we are going to land, it's that important and it is a gradual process. Then from the 9th of January 2013 to the 18th of January 2013 when a Sirian Portal opens, those nine days, those ten days, actually if you count the 9th and the 18th it then becomes a ten day period, an 11 day period, that time is also very important, because that is when we stabilize. It's like we are going to open this door and we are going to see how much force, how much life force, how much room you have to then make it ajar, to make it wide open or to just open it a crack. Those nine, ten, eleven days are where we stabilize us as to how wide this shaft of Light, this door opening, this gateway opening that will then remain at that level is going to be. So, we have approximately a four month period from now until 12-12 which is just about three months, and then from 12-12 to 1-18-2013 when we will be fully in place.

So we ask you to come together with us and if finances or time or energy or whatever is standing in your way of taking the courses as we move, because every course, whether it is a free portal channeling in each month or a Hear Thy Soul which we will continue to have through the rest of the year and into the new year, to the various individual courses, especially the Equinox and the Solstice ceremonies. The Equinox on the 21st or 22nd of this month, is very, very important, and everything that we do in the course of the next few months. For those that you know, who are your loved ones, invite them to listen to the Gateway Channeling.

We are going to reduce the price of the books to make it a nominal fee and we invite you to buy books and give them as gifts for Christmas to your friends and loved ones. I am going to have them reduced to \$5 a book so that it would be like buying the littlest thing. This way you would have the opportunity to offer the earlier books, the gift books series to people to read. Even if they just open it and read two pages and then throw it there, and say I don't understand anything, that will make an impact, and even if

they don't even open it and say Auntie so and so gave me this, it is not something I like, just with the book being there the energy will be in their homes. People have noticed that these books have energies that raise the vibration. A lot of times people say to me, I put it in my hair dresser salon, I put it in my chiropractor office, I put it in my dental office, or I ask them, would you like to put some in your dental office, in your chiropractor office, in your acupuncture office in your nail salon, in your boutique or in whatever it is, and in your homes and in your children's rooms. These books have amazing energy and when you leave the book lying around in the bedroom of a child, in the bedroom of a teenager, even under the bed, under the pillow, it absorbs to itself whatever negativity there is and it continues to vibrate the higher vibration. It's like every moment of every day and night invoking the 12,15,18 Beings who are in each of the chapters plus all the angels they call, all the meditational exercises, all the candle grids, all the various Lights that are invited in each of the chapters.

You know scientifically they have proven that if you listen to a book or an event during your sleep there is more than 30% absorption and that is from a visceral point of view. Now there is also energy, there is energy in these books because the beings that are discussed in them bring and anchor their energies into the books. When each of these books were being prepared and it went to the time of publishing the Beings very specifically said that this is the number of books that you have to publish and I remember one particular publisher who kind of made a sarcastic remark, saying huh, you think you are going to sell this many? I didn't go into it, as it matters not whether we sell this many or not, what matters is that the number which is specifically the right number for the amount of energy that the Masters want to download to these books be reached. That person who was having that conversation with me didn't have that perspective and there was no use explaining that to him, but it is easy to explain it to you because you understand the concept. There have been people who have said to me, your first book changed my life and whenever I am in a fork in the road and I need to figure out whether I should do this or this I just go to the book and I just open and I say Mother, or Archangel Michael or St. Germaine or Metatron give me an answer. I open the book and I read where my eyes fall and these books give me answers.

I am asking you, as this was something that I received in the course of the past few nights from Divine Mother. That she wants us to reduce the price of the books on our own site for all of you, to just \$5.00, which is below the publishing cost, but it is important that you consider these. It is also important that you consider that if you are buying little things for loved ones go to the section with fun intentional jewelry especially for younger generations, they really need the protection. Please consider that none of the pictures show the beauty of these pieces, nor do they show the energy, and it is a shame that we are not able to relay it. If you are not happy you can return them, but please consider as you are thinking for the holidays, as you are thinking about going back to school, sending these younger generations to college, send them with one of these pieces. Again if money is an issue, write to me, there is nothing that makes me happier to know that you send a daughter, granddaughter or a son, or a grandson, or a niece or nephew or a good friend to college and sent them with a piece that I have very specifically charged for their energy. Even if they wear it once and it gets torn up, or it gets left behind, or it gets left in the dorm room, it still would be charged and it will still be vibrating the energy, even if it is taken off and left in the park it will still be charged and sending the energy. It's the fastest and the best way for spreading these energies and letting these items send their energy.

We might start returning to the crystals as well so that we can have some crystals that you can leave in places. In the olden days Metatron would send us to do ceremony in various parts of the world and he would beforehand tell us which crystals and which gems to take with us. We would take these gems and we would put these gems in little planters in airports, we would put them in various parks, we would put them in lobbies of restaurants and lobbies of hotels and even in the hotel rooms, if there were little planters, or under somewhere it wouldn't be seen, even between the mattress and the box springs. In this way all over the world we have various crystalline structures that were charged with raising the vibration,

vary specifically for us to move into the new millennium, for us to move into this portal, for us to move into the higher vibrational frequencies.

I am asking you on behalf of Divine Mother to be mindful of these. Help other people who are doing work in the spiritual arena. If you have a budget where you are going to buy items for this Christmas or for this sending back to school, consider buying those items from like minded people, in this way transferring the abundance between our group members. I invite all of you who would like to link your businesses with us, that we actually have a related links page. It will be helpful to have the energy all gathered together, where you are linked with us and we are linked with you, even if you were a dental office, even if you are a boutique, even if you are teaching, even if you are a musician and you want to advertise the music, even if you are a yoga studio, or a professional in one of the therapies, you are a psychologist, whatever your expertise is, you can link with us. You can carry the books in your offices and you can raise the vibration by putting those grids that Divine Mother gives us, any one of the grids calling on Goddess Victory to stand and hold her Torch of Victory, calling on Divine Mother to send her Copper Gold Light, calling on the Silent Watchers that are the angelic aspects, the Angelic Watchers to protect the children of the new age, very specifically calling to the Indigo children to be protected and be under the protective love and nurturance of Divine Mother and Goddess Victory.

Meditation with Nasrin

(35:02)

So let's take a deep breath and with gratitude and joy in being together I ask you to visualize that we are standing before Divine Mother, Goddess Victory, Great Silent Watcher, Mother of the Universe and Mother of Cosmos. The Amber Light of Mother of Cosmos is something that Divine Mother has been recently talking about, and telling us how much we will benefit from this Amber Light. Send this Amber Light to the children and grandchildren, to the nieces and nephews, to your friends' children, to the children of the world. If you say I call the Amber Light and I send it to all the indigo children, you are sending it to everyone who was born from 1972 onwards. So from 40 years old to today and into the future, that's a large category. Many of us who are in the spiritual arena working hard to pave the path are precursors to the Indigos, even if we are not Indigos ourselves, even if you were born in the 60's and 50's, if you are awake and if you are working in this arena you are connected to the Indigo Light.

Divine Mother Begins

(36:20)

My beloved children of Light I am your very own Divine Mother, I will take you on this journey just as Nas has explained and very specifically work with you in this session on the Indigo Light, and what has transpired in the past few months in your individual lives and in the energies of our world, and how each of you can become aware of the changes that have transpired and use the presence of the Indigo Light to help. I have discussed that the container which holds the energies of the Divine Feminine, the energies of your own Divine mission has become leaky in the Third Dimension because of the density.

The Third Dimensional Realms density has reached a point where the Five Elements have become polluted. Since March of this year there has been a mass transition in the direction of releasing the karma and karmic entanglements which caused the pollution and created this leakage in the container of our reality, the container of your Third Dimensional Reality. This mass transition has brought to the surface much of the negativity and that coming to the surface all at once has caused so much of the density to become experienced by each of you, especially those of you who are sensitive, those of you who are vibrating to the higher energies. For you who are vibrating to the higher energies this release is like a grey cloud that prevents the Light, the Light of the sun, the Light of the Divine Feminine from reaching to you directly. Those of you who are fully awakened, those of you who are on the path to awakening, those

of you who are on the path to mastery, are feeling this setback if you like, this density even more, even though the ultimate outcome is good. We are happy this release is happening. We've provoked this mass release of karmic entanglement to clear the Third Dimensional density, to clear the path for your mass transition to the Fifth Dimensional Octave. We have triggered it, we have asked for this release to happen, and when the release happened it was so sudden, and there was so much pollution that came to the surface that it became like a cloud of sooty, sticky, gooey energy that caused mostly those of you who understand energy to feel heavy, burdened, gain weight, lose weight, feel sleepless, feel achy and all the symptoms, energetic symptoms that go with it.

To remedy the situation what I bring to you right now, and what we will continue with in the ceremony that we will perform on Fall Equinox in the Northern Hemisphere, Spring Equinox in the Southern Hemisphere which falls on the 22nd of this month, almost exactly a couple weeks from now, is to bring certain energies to clear this pollution and to pave the path for all of you to make it easier on you. I will begin by a meditation.

Meditation

(41:05)

I specifically asked our Jim to put you in this grid in the core of the earth because whatever you do by placing yourself in the Core of the Earth, not only benefits each of you by grounding you and by magnifying the energies in the Core Crystal, but it helps earth and the Five Elements of Earth, the Five Body System of Earth, and it gets posted on the planetary body grid. It's as if everything that you do gets emailed to seven billion people and that they all read their emails even though they experience it at subconscious levels. They don't need to open their so called email to read it; they absorb it from the Five Elements. Anything that you do in the Core Crystal of the Earth benefits the Five Body System of Earth, benefits the Light Body of Earth, benefits the Five Body System of every soul, and that is the soul of animals, that is the soul of plants, that is the soul of minerals, that is the soul of the Five Elements. So every house, every car, every man made human made and natural made organic organism benefits when you do prayers and meditations and when you call the Amber Light from the Core Crystal and bring it to Divine Mother's Throne. When you go to the Pool of Creation and call the Amber Light from the Pool of Creation with the help of Great Silent Watcher and pull it down through the shaft of Light, through the Antahkarana Cord through your Chakra system, down the Hara Line into the Core Crystal everything that you do magnifies.

You are all beacons of the highest Light. If you are here, if you are listening to this information, you have been called to remember that you are beacons of the Divine Light and that you are doing a great, huge, enormous amount of service, so please be gentle with yourselves and I call upon this Light for your benefit.

Many moons ago I introduced the Plum Ray of Rejuvenation. I taught an exercise which was given to all of you in the form of one of the newsletters in 2010 on the Plum Ray of Rejuvenation. I have petitioned Goddess Victory and Great Silent Watcher to help me use the potential of the Plum Ray of Rejuvenation to help the transmutational process. The Violet Flames potencies, the Violet Flame, is becoming incapable of absorbing and transmuting this sudden onslaught of karmic entanglement that is coming to the surface to be released. As a result we are reinforcing, we are putting scaffolding if you like, around the substance of the Violet Flame to keep that energy upright. It's the analogy of a building, that as a result of an earthquake, has lost its stability and we put scaffolding around it to keep it upright, to keep it from falling. This energy, this Plum Ray, which I am about to give you officially on this 9-9-2012, is going to immerse itself and raise the vibration of the Violet Flame that is available in the Third Dimension.

Now please understand, I am not saying the Violet Flame is polluted. Violet Flame in its higher dimensional qualities continues to remain the energy of Divine Order. It is only in the Third Dimension where the pollution has become so immense that the Violet Flame can't cut through its density, and that is why we are bringing reinforcement. This is not to put down the work that has been done with the Violet Flame and all the those Deities that work with the Violet Flame, this is simply to say that we are here to help them, we are here to magnify the impact of Violet Flame by inviting Goddess Victory, who is a Cosmic Being to bring life force, transmutational life force from the higher dimensional realms. We are calling upon Great Silent Watcher who is the Cosmic Source. Her Beingness is the Source of Light for our entire Cosmos, her Beingness is the actual physical seed from which, and from whom this entire Solar System sprang forth. It is like saying she is the body and the Solar System is one of the genes in her body. One of the genomic structures of her body is the Solar System and the rest of the genes are this entire Cosmos. That's the caliber of the Being that you are dealing with in the essence of the Great Silent Watcher, so we have petitioned the Great Silent Watcher and Goddess Victory, who is also an enormous Cosmic Being, to come to the rescue of this vibrational frequency that is present in the Third Dimensional Realm by reinforcing the Violet Flame. So remember the range of the Violet Flame was from a very Light lilac, which was the Violet Light, the child aspect, and it became deeper and darker through the blues and purples and magentas to reach to an amethyst color which is the actual Violet Flame. You are always invited to remember a deep dark amethyst color to be the color of the Violet Flame. The Violet Ray which is the feminine aspect is between the Light Lilac and the dark purple. The dark purple being the masculine aspect, the Light amethyst color being the mother energy, the feminine, and the Light lilac is being the child aspect.

Now imagine that you are over-lighting all three, all three aspects, the child aspect, the mother aspect and the father aspect with the Plum Ray of Rejuvenation which is a gift from Divine Mother, it is a gift from me to you. I gifted this gift to you in March of 2010, and it became a newsletter some time around then. It could have been April, May or June, sometime around then.

The Plum Ray is deeper, denser, darker, and more concentrated and many of you are seeing it right now. Over Light what your expectation or memory of Violet Flame, Violet Ray, and Violet Light is. Over Light the Violet Flame, Violet Ray, Violet Light with the Plum Ray of Rejuvenation.

I call upon Goddess Victory to hold her Torch of Victory above each of your heads, and pour from her Torch of Victory her version of the Transmutational Light. To pour her Victory's Flame, the Light from her Torch, pouring down the Light from Victory's Flame to over-light each of you as you are receiving this Plum Ray of Rejuvenation. I am sending the Plum Ray from every Chakra of my body; I am cocooning the Plum Ray inside my Copper Gold Light. The reason why it is important to encase it in the Copper Gold Light is because this Copper Gold Light which I have brought to earth can penetrate into the density of the Third Dimension. The reason why I recommend that you always set up a protection grid and call upon Divine Mother and say, Mother send me, cocoon me, encase me, encapsulate me in the Copper Gold Light of your Signature Energy is to make sure you are protected. It is a protection that makes your body, your Five Body System impenetrable to lower vibrations. This Copper Gold Light which is the signature energy of Divine Mother is for this 144 Dimensional Reality which is the reality you experience. What you experience in the Third Dimension is part of this hierarchy of 144 Dimensions and for every one of the 144 Dimensions this Copper Gold Light is available and applicable. It is protection, it is nurturing, it is loving, it is graceful, and it helps you be impenetrable. It helps your vulnerabilities to be healed it helps your path to be cleared. Always putting yourself in Divine Mothers Copper Gold Light will help the day unfold with ease and grace. It helps your children, always wrapping them in Mother's Copper Gold Light wherever you send them. When they arise in the morning to go about their day, if they are old enough to go to their works and they have their own children wrap them and their children and their houses, their cars, and their offices in the Copper Gold Light of Divine

Mother. If they are young enough that they are babies and they need your protection and you are there watching over them wrap them and their cot, or their little carriage, or their room, and wrap their Five Body System into the Copper Gold of Divine Mother, even if you are there all the time with them. If your loving them and sending them to pre-school, school, kindergarten, grade school, high school and college, then everyday as you get up you wrap yourself and your loved ones, your spouses, your partners, your not so loved ones, your associates, your coworkers, your neighbors and the whole world, and the Five Body System of Earth.

If you do this when you place yourself in the Core Crystal in the center of Earth the advantage is then your doing it for everyone else. The moment you do this in the center of the Earth, visualizing yourself standing before Divine Mother receiving the Copper Gold of Divine Mother in the Core Crystal, then in that moment you are magnifying its impact and sending it to all souls, the entire world, and the entire globe.

Divine Mother and Meditation Starts – at point 56.36)

Breathe and Bathe and now notice that I am encasing the Plum Ray of Rejuvenation, Divine Mother's Plum Ray of Rejuvenation and I am encasing that inside Mother's Copper Gold. The purpose of the Plum Ray of Rejuvenation is to help you to receive the transmutational force of the Violet Flame so the Violet Flame, which is spinning and spiraling from the bottom of your feet upwards like a whirlwind, is receiving and absorbing the Plum Ray of Rejuvenation encased in the Copper Gold of Divine Mother.

Our beloved Victory is holding her Torch of Victory to seal it by pouring the Light from the flames inside of her Torch to cocoon you, to make this entire Grid of Light impenetrable. The Great Silent Watcher is sending the Turquoise Blue Light from her Scepter to seal it once again with the Cosmic protection, which is her signature energy, with fearlessness so that you can embark upon new projects and plans and the doors to be opened to you as you move to enter into a new better life as the path unfolds before you for entry into Fifth Dimensional Octave. The Turquoise Blue Light is energizing the Cocoon around your body. Remember that there is a seven pointed star placed by Great Silent Watcher over the top of your head superimposed over your Eighth Chakra and it is vibrating to Great Silent Watcher's Turquoise Blue Light and there is a seven pointed star at the bottom of your feet superimposed over your Earth Crust Chakra and remember that these two stars are constantly replenished by the Turquoise Blue Light that comes from the heart core of Great Silent Watcher. These two stars create a cocoon around your body that encases your entire Five Body System that is the ultimate outer layer.

The ultimate outer layer, if you were looking at yourself from outside, is these two seven pointed stars, brightly illumined with Turquoise Blue Light and a cocoon of Turquoise Blue Light. As you get closer to yourself and you go inside the cocoon, you see Goddess Victory pouring the Flame of Victory, which carries the transmutational aspects of Victory's Light to release the dross, so that when you take a step you can be established in moving forward rather than being pushed back by the density. That's what the Torch of Victory and that's what Victory's Flame of Transmutation, the transmutational aspect of Victory's Flame does for you. What it does, is it prevents that resistance; it paves the path before you need to take the steps. So when you take a step in a direction of making something possible, putting some idea or design into action, then Victory's Transmutational Flame, the bandwidth of transmutation from Victory's Flame, makes sure that the path is paved. That's the second layer, if you are looking from outer in she is pouring it over you and cocooning you. The third layer is Divine Mother with the Copper Gold Light which is the Signature Energy of Divine Mother. That Copper Gold Light is encasing the Plum Ray, so the Plum Ray is the fourth layer. The Plum Ray is inside of the Copper Gold Light of Divine Mother that has created a Copper Gold cocoon around you.

Inside of the Copper Gold cocoon is the Plum Ray that's being regenerated, and it is revising and regenerating your body. Meantime, you are calling on the Violet Flame. The Violet Flame always comes from the bottom of the feet up and it comes in a spiral. So the spiral of Violet Flame is being immersed in the Plum Ray, being protected in the Copper Gold, being further protected in the transmutational potencies of Victory and finally encased in Great Silent Watcher's Turquoise Light. The cocoon of Turquoise Light is constantly revived by the two seven pointed stars, one above your head, and one below your feet.

This is the Grid of Light I offer you. For those of you who will heed my words and come to our Equinox ceremony I will give you the next phase of this work. For those of you who are not in a position to come, please do this whenever Equinox falls, do it for three days before Equinox, the day of Equinox, and three days after the Equinox ceremony. All of you, I ask you to pave the path and to offer this as a service. Do this into the Equinox and after, and in fact if possible do it from now until we go through the portal. This is a very important ceremony, and even if all that you do is the last two minutes, looking at yourself from outside in. I will ask our Jim to make a summary, just that portion where you are looking at yourself from outside in or from inside out. If you want to build it around you, do it from inside out. See Mother sending Copper Gold and inside of it is the Plum Ray, then it's Victory's energy, then it is Great Silent Watcher's energy and all around and inside your body is the Violet Flame spinning. Very simple, it takes 30 seconds to set it up and Great Silent Watcher will support you and Victory will support you, and the Angelic Watchers will magnify it. I will see to it that each time you do it your energies are magnified and the path ahead of you is cleared. I don't want to see you get stuck in density; you don't deserve that, and so let me offer you these tools to help you release the density.

I hold each one of you in my own heart, please do these exercises, in that way you will allow me to help you magnify your own success and clear the path for others.

I Am Your Very Own Divine Mother So It Is.
