Hello everyone this is Jim and welcome to the 11-11-2012 Gateway Portal Channeling, November 11, 2012.

I welcome you all here; I thank you all very much for your service and for being here on this exceptionally important day. This is also a Star Gate Portal Day and it is the last Portal day before 12-12 when the 12-21 Portal begins to open in earnest. All that we have been doing in the last couple of years with Divine Mother and before that with many other ascended Beings has been leading up to this Portal in December, and from our work today, our very important work today we will leap to 12-12 and begin moving into the Portal of 12-21-2012.

Take a deep breath and thank yourself for being here and for putting yourselves in a position to be of service to Divine Mother at this critical time. It is very intense everywhere, as you all realize and all noticed in the last six months, and certainly November has been no disappointment as far as intense energies go.

Take a deep breath, visualize that you are standing on top of the great red rock which is Uluru in Central Australia, also known as Ayres Rock. It's a huge red rock that sticks out of the ground a mile or so wide at least and several hundred feet high. Feel the presence of the red rock underneath your feet, one big mountain of rock which makes it so amazing. Be aware that everyone that's participating in this ceremony today and everyone who listens to this ceremony and places themselves and their energies in this ceremony are also with you standing on Uluru.

Feel the heartbeat of Uluru begin to beat in sync with your own. As you feel the presence and feel the heartbeat, let yourself dissolve into the rock and slide down the Pillar of Light that goes from Uluru all the way to the center of Mother Earth, inside the Core Crystal, which exists in the center of Mother Earth. As we slowly slide down in this Pillar of Light imagine that you are also simultaneously in a Pillar of Light that's in front of the horseshoe shaped falls of Niagara Falls. We're placing ourselves in another vortex, in a Pillar of Light, just as if you are floating before the Horseshoe Falls, looking at the Horseshoe Falls and feeling the mist; so that you feel the presence of Uluru, the Earth Element, and you feel the presence of Niagara Falls, the Water Element, as we slide in this Pillar of Light, seeing both images simultaneously down to the center of Mother Earth.

Visualize that you are standing at the center of Mother Earth. You are standing in the Core Crystal of Mother Earth, and all around you, you see Amber Colored Light. You also see before you the Sacred Altar that is at the center of the Core Crystal of Mother Earth and as you get accustomed to the Amber Colored Light and begin to pull the Amber Colored Light into your body, take just one moment to make an offering at the Sacred Altar, at the Core of Mother Earth, and offer gratitude for all that Mother Earth has done for us, for all the abundance that she has and will bring forth, for all of the shaking and all of the dross, of all the stagnation that has accumulated in Mother Earth through all types of natural events, some less pleasant for us than others, but all of them with great Divine purpose. We bless Mother Earth, we bless Goddess Gaia, the Deity of Mother Earth, and we send our gratitude as we make our offerings at this Sacred Altar on 11-11-2012.

Now bring your attention back to the Amber Colored Light that you are pulling in from all around you. This is the Life Force Energy of Mother Earth, a mixture of the Golden Yellow Light of the Core Crystal

and the Red Life Force Energy of Mother Earth. Now we will send that Light up our Antahkarana Cord. We will send it up, all the way up through the Pillar of Light that we travel down in, all the way up through our physical bodies, and up through our Antahkarana Cord. Visualize a Pillar of Light extending all the way up through the Thrones and we are going to send the Amber Colored Light all the way up to the Pool of Creation. Imagine the big Pool of Creation that we are sending the Life Force Energy of Mother Earth to, the Amber Colored Life Force Energy. We're going to pull down Cosmic Life Force Energy, which is also a brilliant Amber Color, so visualize that cascading down through this Pillar of Light all the way from the Throne of Creation to you in the center of Mother Earth. See that that Cosmic Life Force Energy, that Amber Colored Light from that source mixes with the Amber Colored Light of Mother Earth, both together.

Now we will move along (the Pillar of Light) as we pull the Amber Colored Light down continually from the Pool of Creation. We will move it up with us as we spin and spiral up through this Pillar of Light bringing the Amber Colored Light of Mother Earth with us and we will imagine that we are spinning and spiraling up in a Pillar of Light all the way up to the Throne of Divine Mother where we will be standing in front of the Sacred Altar at the Throne of Absolute at the Throne of Divine Mother.

Visualize now that we have arrived, all of us. Be aware that we are all there and we're standing before the Sacred Altar at the Throne of Absolute, Divine Mother's own Throne, and holding onto your right hand you will feel the presence now of our own beloved Divine Mother. She sends her love to you and as we embrace Divine Mother we send her our love.

Goddess Victory's Velvety Maroon Red

Visualize that the entire Throne, the entire Hall that we are standing in before the Sacred Altar is emanating a brilliant Maroon Colored Red Light. Everywhere you look Maroon Colored Red Light is greeting you, it is filling every ounce of space and as you look closer you can see that the walls, the ceiling, the floor is all a Maroon Red Colored velvet material, it's like velvet to the touch. Every surface is covered with Maroon Velvet Light, even the Sacred Altar that you are looking at, the bottom Altar that holds the Flame is Maroon Red Velvet Light.

As you are becoming acclimated to this color and these surfaces, to your left now see that Goddess of Victory is standing emanating her three colors, Lemon-Yellow Pewter Colored Light and Platinum Colored Light. She is standing directly to your left, beyond her to your left the Cosmic Mother of the Universe is standing and she is all in Vibrant Pink. They are all sending their Light to the Sacred Altar, to the fire and to you.

We will go around the Sacred Altar clockwise, see directly across from you; Great Silent Watcher is standing in her Turquoise Blue Robes. All of these beings are wearing their Ceremonial Robes for this amazing ceremony and this auspicious occasion. Great Silent Watcher holds her Scepter of Power above this entire entourage and above this fire; pouring Turquoise Blue Light.

Continuing along around the Sacred Altar, to our right beyond Divine Mother we see Cosmic Mother of the Cosmos in her Amber Colored Light. Directly behind us we see the three Omniversal Mothers, three Great Beings. The first emanating Purple Colored Light, she is the Mother in charge of our Omniverse. Next to her in the middle is the Great Being in charge, great Feminine Being in charge of the second largest Omniverse in our Cosmic Conglomerate, and she is bathing us in Ice Blue Light. Next to her the third Omniversal Mother is bathing us in Clay Red with Gold Colored Light. She's the Great Being in charge of the largest Omniverse in our Cosmic Conglomerate. All of these Goddesses are part of the Cosmic Council of the Divine Feminine.

Now across from the Sacred Altar to Great Silent Watcher's right which is straight ahead and to the left there is another Being, a Being whose silhouette you will see, this is the Perfected Presence of the Masculine Principle. It is a silhouette of light emanating Emerald Green Light to the Sacred Altar. To the left hand side of Great Silent Watcher, in front of us to the right, is the Perfected Presence of the Feminine Principle; this is a silhouette of light in the colors Pink and Gold.

Now visualize that 144,000 Silent Watchers are standing shoulder to shoulder in row upon row around this entourage and beyond them 10 Billion Angelic Watchers. The Silent Watchers and the Angelic Watchers are all emanating Turquoise Blue Light, magnifying the Light from Great Silent Watcher. The Silent Watchers stepping the Light down, one level. The Angelic Watchers stepping this Turquoise Blue Light of Great Silent Watcher down even more so that we're able to absorb that Light.

So take a deep breath as you are standing by the Sacred Altar, Divine Mother has your right hand with her Copper Gold emanating to the fire, Victory has your left hand. Beyond Victory to your left, Cosmic Mother of the Universe in her Vibrant Pink, next to her at her left is the Perfected Presence of the Masculine Principle Emerald Green Light, then Great Silent Watcher directly across from us. To the Great Silent Watcher's left the Perfected Presence of the Feminine Aspect, the Feminine Principle, Pink and Gold Light, then the Cosmic Mother of the Cosmos in her Amber Colored Light. The Three Omniversal Mothers behind us, Purple for the first, Ice Blue-Aqua-Marine Blue Light for the second, Clay-Red and Gold for the third and then the Bubble of Turquoise Blue from the Silent Watchers, 144,000 Silent Watchers and the 10 Billion Watchers.

As you feel yourself fully established in this Grid before the Sacred Fire, I again remind you from every surface is the Maroon Red Velvet, the ceiling, from the walls, in the air is Maroon Red Light, even in the Sacred Altar, Maroon Red Light and felt, a felt like Maroon Red Light.

Take a deep breath as you're standing at the Altar. Take a moment set your intentions; make your offerings to Divine Mother's Sacred Altar in the presence of the Cosmic Council of the Divine Feminine, in the presence of the Perfected Presence of the Masculine Principle, and the Perfected Presence of the Feminine Principle. We stand in obeisance to all of these Great Beings, in gratitude for being here at this sacred ceremony at this auspicious time. Gratitude that we are all here together doing the work of Divine Mother on behalf of ourselves, our loved ones, earth and humankind, on behalf of all these Beings who have sacrificed to come and help Divine Mother. We stand in honor of their sacrifice to do all that we can do for the success of the Divine Feminine, the success of our movement through this great Portal, and the success of our own Beloved Divine Mother. I thank you all, take a moment and the next voice that you hear will be that of our Beloved Nasrin.

Nasrin Begins (15.56)

Hello everyone and welcome to this amazing Portal that is a Star Gate opening. Let us take a deep breath. I would like to mention that the energies are coming in waves, and if you feel nauseous there's a spiraling sensation to the energies, and if you are feeling it and it makes you nauseous that's all fine, because the energies are extremely intense. Let us offer this healing for the healing of earth and all humankind, with very special focus on the Indigo Children, the souls of the Children of the New Age who have come to Earth, and suffer from the pollution of the Five Elements and are having difficulty finding their path and accomplishing their Divine Mission. Whether that is manifesting in the form of physical disabilities, mental, emotional incapacitation or any other sort, even spiritual inabilities, inability to find one's Divine Mission and accomplish it. We hold space for all the Children of the New Age; we hold space for all the Indigo Souls and all the souls that are relevant to them. Let us send love from our own heart and our Signature Energy to them and request that their Sacred Geometries be brought to perfection. Their suffering will be lessened if their Sacred Geometries are brought to perfection and they will be able to

find what their Divine Mission is. Let us take a long deep breath and be aware of everyone who has joined us across the globe, as we offer our love to our very own Divine Mother standing at the Sacred Altar with us and all the Beings who have gathered in her name.

Divine Mother Begins (18.2)

My beloved Children of Light I am your very own Divine Mother.

This is an important day; this day is the most important day of the year until we go through the Portal of 12-12. Then that will build up to the energies until we go through the Portal of 12-21. So I ask you to perform this ceremony I am about to give you through this amazing time, from this now moment, and at any point that you join us in the future, moving through the energies into the Portal of 12-12 and through the Portal of 12-20 and 12-21 and then into the new year. Even if you join us in ten years from now, you may join us and put your energies in ten years from now by sending your energies to this now moment, because whenever you get to hear this and participate in these exercises you have the chance to travel in time and space and place yourself in the moment and move the energies from that moment to where ever you are.

Take a deep breath and visualize that Goddess Victory is moving towards the Sacred Altar. This fire will not burn her hands because it is a Higher Dimensional Sacred Fire. In the higher Dimensions the Fire has the consciousness of not being destructive, but maintaining its transmutational potencies. Goddess Victory is going to put her hand into where the Sacred Ashes are and when she brings out the Sacred Ashes you will see that even the Ashes have a velvety Maroon Red hue to them. She is going to come forward and stand face to face with myself, your very own Divine Mother and she is going to hold her hands out and I am going to lay my hands on Goddess Victory's hands because she has a fistful of the Sacred Ashes in each hand and the Sacred Ashes are vibrating this Maroon Red Color. I am going to add my Copper Gold Light to this substance and the light merges with the Sacred Ashes, the color remains a Maroon Red but it becomes a paste. Maroon Red mixed with Gold.

Now I want to connect this energy to the energy of the Sixth Ray. Remember that the color associated with the Sixth Ray, the Ray of Divine Service is Maroon Red with Gold and Lady Nada is the Patroness of this Ray. Remember that of the seven Rays this is the only Ray at present where a female Being is in charge. For a long time Quan Yin was in charge of the Seventh Ray, but in the 20th century she passed on the baton to St. Germain. So out of the Seven Rays, the only one where the head of the Ray, the guardian, the Cohan is a female Being happens to be the Sixth Ray, the Ray of Divine Service and Lady Nada is the head of it. The color of that Ray and the energy of that Ray is similar to this paste which is now in the hands of Goddess Victory. She is going to place one hand over your Third Eye and another hand over the corresponding point on the back of your crown, on the back of your head below your crown chakra. Her left hand is on the back of your head corresponding to the Third Eye and her right hand is on your Third Eye and she's rubbing this paste on both sides of your head. It feels cool, not hot, and it has a calming impact. Breathe and bathe and feel Goddess Victory's powerful energies bathing your Third Eye and the back of your head. That feeling of nausea might have subsided to a small degree.

Goddess Victory has gone back to the Sacred Altar to come back with a double fistful again. Again I will place my hands over her hands to bathe the Sacred Ashes with the Copper Gold Light and the ashes become a paste that this time she will place on your Throat Chakra and on the back of your neck where the Channeling Chakra is located. Once again a cooling sensation and she is rubbing it and imbuing both Chakras with her Personal Signature Energy. I ask each of you to envision that the Children of Light, your own loved ones, and the Indigo children are receiving this paste in the same way that you are receiving it, directly from Goddess Victory. I ask you to envision that they too are able to absorb and digest. I ask you to imagine that their wounds are healed from it. I ask you to envision that every soul

that has crossed paths with you is capable of receiving and absorbing this healing paste. As it is absorbed the color turns to the color of your skin as if there is a paste exactly the same color as your skin, but what it is doing is it is being absorbed into your Physical Body Cocoon, your Etheric Body Cocoon, your Emotional Body Cocoon, your Mental Body Cocoon and your Spiritual Body Cocoon, while the color of it turns clear so you see the color of your own skin, the energy of it is absorbed into the Five Body System and further moves into your Light Body.

Goddess Victory has gone to come back with two more fistfuls of the Sacred Ashes; these Ashes vibrate that Velvety Maroon Red Light. The significance of this velvety Red Light is that it carries your own Divine purpose within it. As the paste is placed on your Chakras and it moves into the energy bodies and illumines your Light Body you are realigned with your Divine Mission. And each time that you perform this exercise and allow yourself to think of your loved ones and the Children of Light, they too will be realigned according to their Divine Mission. This means if they need spiritual teachers, if they need mundane guidance, if they need financial assistance, if they need mental, emotional assistance, or even if they need physical assistance the Universe is obliged to bring it to them and to you and then through you to all others. Consider yourself an archetype, capable of extending the healing to all the members of the group for whom you represent the image and for whom you are acting and receiving the substance.

She is now bathing your Cosmic Heart front and back. I have blessed it and it's rubbed on your Cosmic Heart. It is fully absorbed into your body so that when you look at your body, you look at your skin, it's back to it's normal state, but it is moving through the Five Body System and it is bathing the Five Body System and it is cocooning the Five Body System, entering into the Light Body and illuminating it.

She is back again with a double fistful, I have blessed it and she is ready to place it on the Personal Heart, Personal Heart Chakra, and it gets penetrated into the skin, and through the physical body, the Five Body System and from there into the Light Body. Breathe and Bathe.

Once again Goddess Victory has returned with a double fistful, I have blessed it, and this time she places it over the front and back of your Seat of the Soul Chakra. Breathe and bathe and absorb it, allow it to move into the Five Body System, and illuminate the Light Body.

Allow Goddess Victory to bring the next double fistful, blessed by your very own Divine Mother placing it over the Solar Plexus, and the back of Solar Plexus on your back, right in your mid back. It is absorbed through your belly button and through the corresponding point on your back and it releases the dross, the fears, the pains, the feeling of powerlessness. It brings healing to the entire region, which is your power center and it expands to your Five Body System and moves further to illuminate your Light Body.

Goddess Victory has come back with another double fistful, I have blessed it, and she places it over the Sacral Plexus, front and back. It is absorbed, entered into the Five Body System, and illuminates the Light Body.

Now for the Root Chakra, she is going to put front and back and below, between your thighs directly over the area that is considered your Root Chakra. It is absorbed, transferred through the Five Body System, illuminating the Light Body and she has come back, front and back of each leg, front and back of each knee, front and back of each ankle, and top and the bottom of each foot. You can feel the cooling experience, allow the energies also to be absorbed into your Earth Crust Chakra and pour down your Hara Line to your Core Crystal, the Core Crystal of Mother Earth which is also the Core Crystal which you are connected to, so when I say your Core Crystal it is a collective Core Crystal for all souls on Earth and it is your Core Crystal because you have made it your own. You have sent so much energy down the Hara Line into this Core Crystal that it is a familiar experience for the Core Crystal as it is for you.

Breathe and Bathe.... and feel the Core Crystal throbbing, and feel the color of the Core Crystal for a moment turn into this Vibrant Maroon Red mixed with Gold and allow the wave pulse of this Maroon Red mixed with Copper Gold to expand from the Core Crystal to the surface of Earth into the Five Body System of the Earth, illuminating the Light Body of Earth. Envision that every soul from the Indigo Lineage, those who were born since 1972 to present, receive, absorb, digest, process and illuminate this Maroon Red mixed with Copper Gold. Lady Nada's Sixth Ray is Maroon Red with Gold, I ask you to make it Copper Gold so that it vibrates more closely to Divine Mother's energies as it embraces the Sixth Ray of Divine Service.

As we do this ceremony, as you set up this grid, you help the process of awakening and guiding the Indigo souls and all the souls who are relevant to them. All of you who were born before 1972 are amongst those. You are the pioneers, the guides, the guardians of those Indigo Souls. It is your job, your responsibility to guide and guard. It is a contract that you have made to help the Indigo Souls. In September of 2012 if you recall we did a ceremony for the awakening of the Indigo Souls. The process of the awakening has been successful, now it is time for us to help guide them to embrace their Divine Mission. In the process of awakening they are facing their fears, they are facing the darkness, they are becoming aware of things they were not aware before. By offering them this paste which carries the energies of Divine Service, the power of Goddess Victory, and the love of Divine Mother, we cocooned them in protection and we guide them to accomplish their Divine Service.

I ask you to repeat this exercise. It becomes easier as you do it from one day to the next, to the point that most likely after seven to nine days you don't have to continue to visualize Goddess Victory and Divine Mother blessing and placing the paste on your Chakras but when you go into the exercise beginning the meditation you will see that the paste is already there, your Five Body System is illuminated and your Light Body is fully lit with the impact of this Maroon Red Light, the Light of Divine Service. Then all you do is to send it to the Core of the Earth and let the Earth pulse, sending it to its Five Body System and illuminating the Five Body System of every Indigo child, every Indigo Soul, every new born soul, and every soul who is relevant. Any soul who is already awakened is relevant, any soul who is in the process of awakening is relevant and it is perfectly fine for you to pray and offer the awakening of the souls who have not yet awakened. This Maroon Red with Copper Gold Light which embodies the Ray of Divine Service is the perfect embodiment of Divine Light, the Light of Divine Service, and it is most appropriate for this time, as we move to the energies of the Portal of 12-12 and further the Portal entry into the official gateway of the Fifth Dimensional Octave on 12-20 and 12-21.

We do have a lot of work to do but remember because of all of you we have accomplished a great deal. Now we will move to add to all that we have accomplished together and to be victorious. In the company of Goddess Victory, in the company of Mother of Universe, Mother of Cosmos, three Omniversal Mothers, in the company of Great Silent Watcher, the Feminine Principle, the Masculine Principle I hold each of you in my own heart and I thank you for all that you do. I Am your very own Divine Mother with great love. So It Is.

Nasrin concludes: Thank you everyone and have a great evening.

Jim concludes: Thank you Nasrin, thank you Divine Mother, thank you Victory and I thank all of you. Have a wonderful 11-11, see you at 12-12. Goodnight.
