© FAGU 2013

Please perform the rounding Meditation and place yourself before the Sacred Fire Altar at the Temple inside the Retreat of Divine Mother in the 5D Octave.

Nasrin Begins

Hello everyone and welcome to this beautiful Navaratri evening. We have performed a Fire Ceremony today in honor of Navaratri and we have invited every one of you, your souls and your personality aspects to be there. Navaratri is a ceremony that takes place over a nine day period upon which Divine Mother battled the forces of darkness to protect all of us her children and she became victorious. As you all know, nine is Divine Mother's number, so the nine days of battle led to her victory, so the tenth day was her victory, and since then she always wins. So this is to say that darkness sits next to light because we live in duality and to deny that, is to deny that we live in duality.

Sometimes when we work with light we think that if we just focus on light it's sufficient, but we can't forget that we live in duality, and a lot of times we take two steps forward and one step backwards. These fire ceremonies that we perform during the time of Navaratri is very important to prevent that extra step backwards, to prevent all the energies that we expand, the energies that we send out and it comes back with no reward. So Navaratri is on one hand about removing obstacles. Its intense energies and I want to tell you if you've been feeling the intensity now that we're in day five by one account or day six by the other count, so if you have been feeling the energies in that way it's because we're going through Navaratri. Sometimes before the actual event happens you go into the energies, in other words obstacles come to the surface to be released in time for Navaratri.

So I want to ask you all to for a moment to envision that this Sacred Fire Altar that we are standing around, which is the Sacred Fire Altar of Divine Mother, is also a Sacred Fire that has been erected to celebrate Divine Mother's victory and all the battle that she has fought on our behalf. Every day she fights battles on our behalf, everyday she tries to push on our behalf, and a lot of times we get disappointed because we think that Divine Mother and the Masters and all the Divine Beings are not doing enough for us. We forget that we live in duality. We forget that the forces of darkness have a lot of power in this reality. So we need Divine Mother and all the Beings of Light to constantly go ahead of us and clear our path. So let's make that intention, and as we're doing that for ourselves and our loved ones, let's also pray for those of our loved ones who have passed on. Let their path be cleared, let them go to light and let them be in light at all times. Let our children and grandchildren, our parents and grandparents, our families, friends and associates benefit from the merits of all that we do. May all the merits be magnified a thousand fold and be offered at the feet of Divine Mother so that she can do more for us, at the feet of all aspects of the Divine Feminine.

Today Divine Mother has a very important ceremony that she wants to perform and it is a gift to all of us. So let's get centered and feel the energy of our group. Let's bring our attention to the beautiful fire and the Warm Orange Light that is everywhere as we stand around Divine Mother's Altar, and from the bottom of my heart on this 10-10 eve I thank you for all that you do to heal yourselves and to serve.

Those of you who don't have a chance to be with us, this weekend when we begin the comprehensive healing, I invite your souls and your personality aspects to come and participate energetically. May the merits of all the work that we do be spread to everyone who cares amongst our group, whether they are able to participate personally or only energetically. May seven generations of our ancestors and seven generations of our descendants be blessed by the fire from the Altar of Divine Mother on this auspicious eve of Navaratri.

Divine Mother begins: 6.56

My Beloved Children of Light I Am your very own Divine Mother. I do have a gift for you. We are going to perform a ceremony to honor the Fire in the Sacred Altars of Navaratri everywhere, and I would like to invite you to the Retreat of Lord Shiva and Goddess Shakti. They too have their retreat right here in the 5D Octave.

I will put my Merkaba Field around you and I will guide you to their Retreat. Envision that every member of the group is in their individual Merkaba Field and that is encased inside the bubble of light emanating Copper Gold of Divine Mother. I invite all the Deities to accompany us, Goddess Victory, Mother of Universe, Mother of Cosmos, Great Silent Watcher, Cosmic Guardian of Divine Plan, the Three Omniversal Mothers and all the Deities who are known to you. The ones that you know and love, Lady Quan Yin, Mother Mary, Lord Buddha, Master Jesus, Lady Hecate, Goddess Athena, Gods and Goddesses that are known and unknown to all of you, all Deities who work with Light. We also invite the Masculine and Feminine Principle.

So we are now together inside Divine Mother's Merkaba Field and we will go through the gateways. I want you to look in the direction of east, and I want you to see that in the center as you look eastward there is a circular promenade, and in the middle of that promenade there is a very tall and wide seven tiered fountain. It is in the distance from us and we will walk to it, and because you are inside the Merkaba Field of Divine Mother the walk is more like gliding. This big ball of light which is our Merkaba Field, our vehicle of light will glide and it can go fast. So when we get to the fountain you will disembark from Mother's Merkaba Field and you will go to the fountain and you will enter into the first tier.

The first tier of this fountain is filled with pristine waters inside of which big chunks of crystal clusters of the quartz variety are laid. The crystal clusters represent the Element of Earth and they are raising the vibration. Therefore, when you jump in and bathe in these pristine waters and touch these high energy crystal structures your entire Five Body System and Light Body become recalibrated. As you're bathing in these waters, ask for the release of all the pain and struggle, the lack and fear, anger and rage, the hurt from this lifetime and from any other lifetime which might be affecting you in this lifetime. This is a baptism, an absolution; this is clearing yourself from dross. That is what Navaratri is about. When we celebrate by erecting fires for nine straight days during the Festival of Navaratri we are burning the dross, the hurt, the pain, the struggle, the fear, the lack, the stagnancy from all of your lives.

Those of you who are familiar with Navaratri, those of you who have earned the merits to know about it, release the dross faster because you are connected to Divine Mother and these ceremonies across the globe. Everyone everywhere who is celebrating Navaratri connects to everyone else around the globe and benefits from the accumulated merits of all the Sacred Fires that are erected on Navaratri for a nine day period. This is why you may feel a little sense of expansion that might become uncomfortable. These waters that you are now bathing in will help to calm your Five Body System and Light Body.

**Receiving Your Ceremonial Robes:** Now you are going to come out of this pristine and sacred water and you're going to be facing an Angelic Being who is offering you a Ceremonial Robe that is for Navaratri, your robes to celebrate Navaratri. Each of you will have the robes in the color that is your own Soul Lineage's signature color. You will also notice that on your robe, in the chest area, there is an emblem, and that emblem is also the emblem, the seal of your own Soul Lineage.

Over your robes you are wearing a cape. The cape goes from your neck all the way down to the floor and it trails around you, and again the color and the texture and the design are all symbols of your own Soul Lineage. For the act of service, your divine mission for which you have come to Earth, you will be offered your own Scepter, all fully recalibrated. You will be offered a crown type of headdress with gems on the front and around. The crown or headdress will be placed upon your head by these Angelic Beings who are your own guardians.

When you are fully bedecked hold your Scepter in front of your body in such a way that the golden globe of your Scepter is in front of your face and the long rod is held in both hands, with your right hand wrapped around the top and the left hand around the bottom of the rod. In this formation we will march in the direction of North to go to the Retreat of Lord Shiva and Goddess Shakti. They represent the Feminine and the Masculine Principle. They represent the polarity of male and female from a cosmic perspective. The male polarity is electric in nature and outward, connected to bodies of matter. The female polarity is magnetic in nature and connected to Spirit and the world of Spirit, the inner realms. So the inner and outer come together to create our reality.

**Masculine and Feminine Principals:** Those who remain un-awakened- those who are not spiritually awakened- only deal with the outer reality which is in the guardianship of the Masculine Aspect. This is why the world you live in is so male based. This is why the world you live in honors the male aspects far beyond the female. Balance must be restored in such a way that both are honored equally, so that there will be an equal measure magnetic and electric force so that the Electromagnetic or the Magnetoelectric force of your reality is balanced both to the outer world and the mundane success in life, as well as the inner world and the sublime accomplishments that are your Divine Purpose.

What I am about to do is to take you to the Retreat of Lord Shiva and Goddess Shakti who represent that Masculine and Feminine Polarity. Also, as Deities who have had human incarnations, Shiva and Shakti- as Goddess Durga who is the destroyer of karma- also played a role of removing and destroying karma and karmic entanglements. If you owe something to somebody in a previous lifetime which has not been resolved that stands in your way of accomplishing your Divine Mission in this lifetime. That becomes a weight on your shoulders. To go before Beings like Shiva and Shakti, to go before Beings like Shiva and Durga, who are destroyers of karma, is like taking that burden off of your shoulders and making the path ahead of you smoother. This is the gift that I am offering to you, on this Portal Day which coincides with the Festival of Navaratri. This is to offer each of you an opportunity to glide through life; have your path be smoothed out, so that you can take a step forward and keep that ground that you have gained, so that you can accelerate yourself, and every door you knock upon gets opened to you; so that there will be no dead ends; so that you would not be attracted to go on paths that do not serve your soul or your personality aspects; so that your personality aspects come together and help you achieve all your goals in the mundane world and the sublime.

So together we will walk in the company of all the Deities who are present in your name, and because you have been recalibrated it is going to be an easy passage. We are going to come

before a very tall archway in the center of the building, which is the middle one of seven archways. There are three on either side of this tall archway. It is made of 24 carat gold. Just standing approximately three feet away in front of this archway will begin the emanation of Gold into your Energy Bodies- your Five Body System; your Light Body- will be absorbing the high potencies of this Golden Light.

Gold has the highest transmutational value on Earth and beyond. Because on Earth in the 3D it is so solid it loses its potency, but still it is the most beneficial metal if you need protection and transmutation. In the higher dimensions because it is not so solid, because it has its flow and its liquidity, it is most potent.

I am talking to you while you are receiving the emanations and in a moment the gateways are going to flung open and we're going to walk into a Great Hall. At the very center of this circular Great Hall there is a Sacred Fire. At the very high position, two Thrones, one for Lord Shiva and the other for Goddess Shakti are positioned in the North. Lord Shiva is seated upon the right side, Goddess Shakti upon the left side.

I invite you to walk with me to the Sacred Fire and stand before the Altar and look at the picture of this amazing event. Look at the Sacred Fire. Look at the Thrones that are glistening in the light of the fire. Look at all the Deities and all the Angels, Angelic Watchers, Silent Watchers, Great Silent Watcher, who is now standing behind the two Thrones in the center, with the Masculine and the Feminine Principles on either of her sides. Look at Goddess Victory and Cosmic Guardian of Divine Plan- two Deities who are very important for your success both in the mundane world and in achievement of your Divine Mission. The two of them stand on either side in front of Lord Shiva and Goddess Shakti and all the other Deities are making circles.

Angelic celestial music is now filling the air. Notice around the Sacred Fire there are trays that have different items. You will see that an Angel will come before you and offer you your own tray. Inside of the tray there are sacred offerings. Around the edge of your tray there are white and red roses sitting one next to the other. The significance of these red and white roses are that the red represents the divinity and the symbolic presence of Goddess Shakti. The white represents the purity and the energies of Lord Shiva. In the center of your tray there are three items, one is oils, sacred oils, sacred fragrances that have been imbued in frankincense and myrrh and various incense.

The second one is Ghee, Ghee is clarified butter, it is also considered a sacred offering, and the third one is honey. Honey brings sweetness and kindness and generosity. Ghee is a lubricant, purified, clarified, and provides moisture. That is the symbolic reason for the presence of ghee. Right now the ghee that is in small bowls, golden bowls, is in the center of your tray, the ghee is melted. So, what I suggest you do is to take one red flower, one white flower, first dip it into the small bowl that has the oils, the oil and the fragrances and bless the two flowers as if these were offerings to Lord Shiva and Goddess Shakti, as if they were symbols of the energy and the life force of the masculine and the feminine principles.

Dip it into the oil and as you are doing that, say a prayer. A prayer for a loved one, prayer for yourself, prayer for something you want resolved, prayer for something you want attained, prayer for something in the future, prayer for something in the past to be resolved, to be removed, to be released, to have a happy ending, prayer for a loved one who has passed. As you are doing that, bathe it in the oils, a white and a red flower and then take it out and dip it in the ghee, the clarified butter to bring it to clarity, to bring it to fruition, to bring it moisture, lubrication and then take it out of that and dip it into honey for sweetness, kindness, generosity, acceptance, trust and then

when you have fully bathed each flower in all three of the substances, hold it up as if you are offering it to Lord Shiva and Goddess Shakti seated upon their Thrones with your hand and then throw it into the center of the Sacred Fire. As its goes down to be received by the Sacred Tongues of Fire make an intention, this was resolved, this is resolved, I no longer have to worry about this intention. I no longer have to worry about this person. I no longer have to worry about this issue it has been offered to Goddess Shakti and Lord Shiva. The karma of it has been resolved.

So now I am going to do it slowly. I am going to ask you to pick up another set, one red flower, one white flower, the red representing Goddess Shakti, the female aspect, the white representing Lord Shiva, the male aspect. Hold it in front of your heart, let it be imbued with your own love and light, and think of something you want to manifest, something you want to resolve, something you want to let go of, some emotion that no longer serves you, something that has been stagnant and you want it to be moved and be accelerated, and then dip it into the oils and fragrance and frankincense and myrrh and incenses, that's the first. Then dip it into the ghee to lubricate it, moisten it, bring it clarity, then dip it into the honey for sweetness and kindness, for its resolution, for its unfoldment, and offer it up to Lord Shiva and Goddess Shakti and throw it into the fire, and let the tongues of the fire jump up and receive it.

We're going to do this one more time. Take one red flower, one white flower from your tray, hold it in front of your heart, imbue it, and this time say a prayer of thanksgiving for all that you have, for all the blessings that you already feel abundantly provided for, even if you don't feel you're abundantly provided for it. When you say thank you, thank you for this meal, even if you're not fully satisfied, thank you for this house, even if it's not a home yet, thank you for this car, even if it's not the car you would want to drive, when you offer gratitude for where you are, what you have, how you live, the Universe wants to come and give you more because the Universe loves the energy of gratitude, it's a beautiful energy. So when you go into the energy of gratitude, what you are attracting to yourself is more, better, higher.

When you go into the energy of lack, this car is not good enough, this house is not a home, this food is not enough, it's not satisfying, then you pull to yourself the energy of lack and the Universe looks the other way because the Universe is not attracted to lack, to fear, to not enough, and then you stay in the stagnancy of that lack.

So this time hold the two flowers against your heart, in front of your heart, close to your chest and from the bottom of your heart say, "*thank you! Thank you for everything just the way it is,*" and know that tomorrow it's going to get better. Every one of those things exactly the way they are, are going to get better, and the day after, and the day after, and the day after, every day that you remember to go into that place of gratitude and thank for what you have, that day you just magnified what you have and what you shall receive.

**Divine Mother's Prayers For us:** So my prayer for you is that you have gratitude and you are satisfied and you love what you do, you love who you do it with and you love how you do it every day, every moment of every day, and I offer gratitude for all that each of you do on my behalf. I offer gratitude for you being in Divine Mother's life. I offer gratitude for you being aware of my presence. I offer gratitude for the elevation of your soul to have come to this place of remembering me and knowing that I love you, I protect you, I guide and direct you and I remove the obstacles from your path.

So now hold it up before Lord Shiva and Goddess Shakti and offer them gratitude because they have invited us to be in their presence. Before you throw it into the fire, right there as you are

holding it up in their honor, make an intention that in the days to come, in the weeks and months to come, every time you think of something you want resolved, something you want better, something you want changed, something you want moved that you would be able to connect with this energy, this abundant energy of Navaratri, in the presence of Lord Shiva and Goddess Shakti, before the Sacred Fire in this amazing Great Room where Celestial Music is making you feel the bliss, and that you can bring every event, every circumstance from now into the future and imbue it with this love, imbue it with their purity, with their power, removing all karma, removing all karmic entanglements, releasing all fear, healing all pain, accelerating all that is good in your lives, filling you with gratitude. Now throw it into the fire.

I want to ask you that in the days to come, for the whole month that's ahead of us, for the whole year that begins, the spiritual year begins on the 3rd of November and we shall have a ceremony together on that day, for this entire year ahead of you remember that you can come here and you can recharge, recalibrate, renew, refresh, revive yourselves, your Five Body System, your Light Body, pray for your loved ones, offer thanksgiving, ask for help, seek guidance and feel the bliss.

I hold you in my own heart, you can stay here and set intentions for as long as you wish, and you can come back again and again and again. If you do this meditation for seven days, for nine days until Navaratri is over, or for our usual 33 day period, it becomes part of your being. 33 is the heartbeat of Mother Earth. If you remember it, if it calls to you, do it. Write it in your journal, go to Shiva and Shakti's Retreat in 5D and make offerings. Put it on your fridge, put it on the mirror, as you are brushing your teeth, look at it and say I'm there, I'm making offerings. Put it in front of your computer screen, put a label on your cell phone, it would be so good to get used to looking at it and immediately going there.

I hold you in my own heart. Feel free to teach this to your loved ones, and send the transcript or the audio to others who might benefit from it. You earn the merits for what they gain by giving it to them, by offering them the opportunity to benefit. I Am your very own Divine Mother. So It Is.

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you Nasrin, Thank you Divine Mother, Shiva, Shakti, and I thank all of you, goodnight.
