

Gateway Portal Day

131111DIMO
© FAGU 2013

Hello everyone this is Jim and welcome to the 11-11-2013 Gateway Portal Channeling event. I thank you all for being here and offering yourself in this service. This is the first Gateway Portal event of the New Spiritual Year. The New Spiritual Year began on November 3rd, just a short time ago, and on that date we had a ceremony to bring in the New Spiritual Year as well as to honor Goddess Lakshmi in the Festival of Diwali. Many of you attended that ceremony live- and I just want to remind everybody- some of our courses for the Mystery School have a live component, meaning that the initial meditation is given by conference call, live. If you're not able to attend the live conference call, that doesn't mean that you won't benefit just as much from the course, taking it later by listening to the audio recording. So if you missed the ceremony entering into the New Spiritual Year and Diwali, please go into the curriculum page on the website and register for that course, it was an amazing event.

I want to take a minute before we begin to just honor and say a quiet blessing to the people who have suffered the typhoon and the hurricane in the Philippines. The devastation has been enormous, and I ask you all to just take a moment with me, a moment of quiet prayer to pray for those who lost their lives and to pray for those families and those people who are suffering now, to regain some kind of foothold and begin a recovery. So take a moment---- and I thank you for that.

GROUNDING MEDITATION-So let us begin. Visualize that you're standing on top of Uluru, the Great Red Rock in Central Australia which is a very sacred place. The mountain of rock sticks out of the ground, right out of the planes and the bush in Australia. Picture yourself standing on top of it. If you've never seen a picture of it, if you've never seen it, that's fine, just imagine a huge flat mountain of rock underneath your feet that vibrates and pulses to the heartbeat of Mother Earth. As you're standing on top of Uluru, be aware that everyone on this call is also standing there with you, and together we form a group energy, a group entity.

Now as you connect to Uluru, imagine that you're dissolving into the red rock. Uluru is a clay red color, and as you slide into Uluru imagine that warm orange reddish color all around you. Feel the nurturing effect it has on you as you slide very slowly into this sacred rock. Now as you're sliding down, slowly imagine that your Hara Line, a Pillar of Light that extends from the bottoms of your feet (you have an Earth Crust Chakra just below the bottoms of your feet) and this Hara Line, this Pillar of Light extends all the way to the Core of Mother Earth. Within that Pillar of Light imagine that you're sending roots from the bottoms of your feet and from your tailbone, (your Root Chakra which is at your tailbone), you're sending roots like tree roots down to wrap around the Core Crystal at the Core of Mother Earth.

Imagine that a tree trunk forms around you and the roots from this tree trunk extend down to the Core of the Earth, and they wrap around your roots holding you even tighter to the Core Crystal of Mother Earth. It's grounding you to Earth. Now see that this tree trunk that extends up and around you has a green, Emerald Green layer of bark, a thick layer of Emerald Green, which extends all the way from the Core of the Earth, all the way up around you, and continues all the way up through the Thrones to the Throne of Creation where the Pool of Creation exists. Then you can imagine this tree trunk spreading out into branches and leaves into the Pool of Creation. The Emerald Green cylinder or the bark of this tree trunk has the Energy Signature of Abundance, the Green Light of Abundance which will be pouring all over you as you slowly continue to slide down.

Now let's pull the Amber Colored Life Force Energy from the Core Crystal of the center of Mother Earth. Imagine it pulling up through the root system and into the tree trunk as if it were sap in a tree, moving all the way up through you, hits the bottoms of your feet, fills your body and your being, fills every Chakra as it moves up, clearing and cleansing you as well as helping to ground you. We send it all the way up through the tree trunk into the Pool of Creation, and we pull down from the Pool of Creation the Cosmic Life Force Energy, which is also an Amber Colored Light that we pull down through the tree trunk into our Crown Chakra, into our bodies and being all the way down to the Core Crystal of Mother Earth, mixing the Life Force Energy of Mother Earth with the Life Force Energy from the Cosmos brought by the Cosmic Mother of the Cosmos. As you're sliding down, feel this Life Force Energy moving in both directions, clearing and cleansing your body, your Five Body System and your Light Body.

Now see that you've arrived at the Center of Mother Earth and before you there is a Sacred Altar. See that Divine Mother is standing to your right in Copper Gold Robes with a Headdress, beaming Copper Gold Light to you. To your left Goddess Victory as the Patron of the 5th Dimensional Octave wearing Burnt Amber Colored Robes with Gold Leaf criss-crossing across her Robes and Cape, also wearing a Seven Tiered Headdress; to Victory's left is Mother of the Universe, with bright Vibrant Pink Light, she's beaming; to our far right beyond Divine Mother, is Mother of the Cosmos in Amber Colored Robes beaming the Amber Colored Light to the Sacred Altar. Directly across the Altar from us, the Sacred Fire from us, is Great Silent Watcher in Turquoise Blue Robes, beaming the Turquoise Blue Light and holding a Scepter of Power above all of us, pouring the Turquoise Blue Light into a Dome of Turquoise Blue around this entire Entourage.

To Great Silent Watcher's right is the Perfected Presence of the Masculine Aspect; it's an Emerald Green Silhouette. To Great Silent Watcher's left the Perfected Presence of the Feminine Aspect in Pink and Gold and to her left the Cosmic Guardian of Divine Plan in Warm Orange Colored Light. Behind us the Three Omniversal Mothers, the first in Purple, the second in Aquamarine Blue and the third in Clay Red and Gold, and surrounding this entire Entourage, standing shoulder to shoulder, 144,000 Silent Watchers in Turquoise Blue, beyond them, two billion Angelic Watchers also in Turquoise Blue. Take a moment as we stand before the Sacred Altar on our first Gateway Portal Channeling in this New Year, New Spiritual Year, and make your offerings and set your intentions for this coming year, and coming decade, intentions for yourself, for your loved ones and for all of Earth and Humankind.

THE GOLDEN BRIDGE TO 5D-Now as you see beyond us the Golden Bridge, see the Filaments of Light that have formed the Golden Bridge to the 5th Dimensional Octave, and with Victory leading the way and Great Silent Watcher bringing up the rear, all of us together move across the Golden Bridge to the 5th Dimensional Octave. See in front of us as we move into the 5th Dimensional Octave, the Retreat of Divine Mother has seven levels; and we get to the Hexagonal Gateway. To be recalibrated the Gate beams Purple Light, Magenta Light, Red, Warm Orange, Orange, Yellow, Green, Blue and back to Purple Light to us. As the gateway opens and we move into the first level of Divine Mother's Retreat, Warm Orange beaming from the walls, the ceiling 40 feet high, Italian Onyx on the floor. Light is pouring in; see yourself standing before the Sacred Altar at Divine Mother's Retreat. See that the Entourage that was with us at the Core of the Earth is now standing in the same formation at this Sacred Altar. Take a deep breath and once again make your offerings to this Sacred Altar; set your intentions for this year; for the next decade, and beyond. I'll give you a little bit longer this time to set those intentions and pay your respect to Divine Mother and this entire Entourage who has been gathered in service to Divine Mother and in service to Earth and humankind and in service to you. I thank you all for all that you do for this planet and for Divine Mother. The next voice that you hear will be that of our Beloved Nasrin. So It Is.

Nasrin Begins (12:30)

Hello everyone and welcome. Welcome to the New Spiritual Year, and thank you for everything that you have done together every month on the Portal Channelings, and those of you who have been able to participate in the courses, and everything that you have participated in.

Divine Mother has a beautiful gift for us on this wonderful occasion, so without further ado, let us begin. Remember that 11-11 is the most important of the Gateway Portal Days because usually with every Portal Day all the Gateways to Higher Dimensions are open. Now 11-11 is usually known as a Star Gate opening, which means that interaction between other planetary bodies and stars are also available to us. Today it really felt smooth; usually Gateway Portal days are choppy, but somehow today felt smooth. I hope that was your experience too.

So I want to offer gratitude for all that we have received as we move into this New Spiritual Year, from Divine Mother and the Council of the Divine Feminine, all the Masters, male and female, who have been guiding us and working with us, and all the Angelic and Archangelic and the Watchers and Silent Watchers, who are all levels of Angelic Beings and Cosmic Guardians. Every one of them has been instrumental in all the changes that are happening whether we are aware of all the changes or just a little bit. There are a lot of changes happening and all of it is good. So we offer a prayer of thanksgiving to all of these Beings, and we invite them to continue; and in fact we ask them to make their presence felt even more in our individual lives and in the lives of our loved ones. Let's take a deep breath together and feel the love that's bubbling from our group, it's a lovely energy.

Divine Mother Begins (14:55)

My Beloved Children of Light I Am your very own Divine Mother. I offer gratitude for each of you and all that you do.

I have a gift, a couple of gifts, maybe more, that I would like to offer you. Last year for entry into the New Year and after the Spiritual Year, for entry into the New Gregorian Year, I offered you a series of Seven Angelic Beings. I offered them to you early- right around this time last year- and these were the Seven Angels of the Seven Qualities. If you recall, the idea was that the entire year of 2013, as well as the Spiritual Year which starts a couple of months before and continues to now, be a precedence that will help each of you move through the decade. We have managed to move through the decade by creating the foundation that we want in this first year. **I am extremely pleased with what together we have achieved, and it's not every day, nor every year that I say to you that we are ahead of plan, but I am happy to inform you that this year we are ahead of the plan. So not only we have accomplished what we collectively planned to accomplish, but we have gone a few steps further. I therefore want to remind you that these Angelic Beings who were allocated to each of you have done a great job even when you haven't been consciously aware of their presence. So I want to remind you of their presence.**

Standing around the Sacred Fire Altar you're going to see Seven Angelic Beings. These are the ones that have been working with you about a year or so now, and I want to reintroduce and recalibrate their energies for this next year, for the second year, and then bring reinforcements. This is the plan for tonight. So let me start with the first one on the left. They're all standing across from us on the other side of the Sacred Fire. The very first one is illuminated by a Dark Green Light, the entire body of the Angelic Being, these are all Cosmic Guardians, and there is a difference between an Angel and a Cosmic Guardian, but while I am telling you about it, let me finish explaining the first one. Illuminated in a Dark Green, a Jade Green, but very bright; it's as if Light is shining into its body, therefore the quality of this Dark Green is vibrant and fully illuminated, representing Health & Wholeness; representing your return to the Perfection in Health & Wholeness. Breathe and bathe the energies. They are very, very attentive to you, these Angelic Beings. I am very happy about it.

Now bring your attention to the second Angel, emanating a Light Emerald Green, a Vibrant Emerald Green, again as if some spotlight is being shined into its body. This Angelic Being with its Emerald Green Light is responsible for promoting material possessions, especially financial abundance. And we want to renew our contract with each of these Angelic Beings for another year. I want you to realize that when you work on a subject or with a being, even when you work with someone on a project, you begin to gain momentum. So the next year is going to be more fruitful, more productive in working with these Angelic Beings, and in what you can achieve, and in the amount that you will achieve. When you look back, you'll see that you'll do more in this year, when you reach the end of it; and that's how it's going to be for the whole decade- gaining momentum each year and being able to do more and gain more each future year. This decade is especially important, from 2013 going into 2022, a very important decade.

So back to the second Angelic Being, feel the love emanating from this Being, feel the energies, these are all Cosmic Guardians. As I said there is a difference between an Angel and a Cosmic Guardian. The difference is angels go from 5th Dimension all the way to the 49th, that's where their Realm is. That's the Celestial Realms, that's the Seven Heavens. Cosmic Guardians are from above 108th, so what happens in between? In between, you have the Elohim and you have the Angelic Watchers. So when I say these Angels that I gave you, and then I say they're not Angels they're Cosmic Guardians, it means that they have more power than the Angels, even more power than the Elohim. They have more power because they come from even Higher Realms. They haven't been available to humankind simply because 3rd Dimension has become too dense, but those of you who are able to raise your vibration and gather in these types of channeled gatherings are capable of receiving them, because you are raising your vibration beyond that of the 3d Dimension. So these are Cosmic Guardians but you can call them Angels. I call them Angels but they are much more powerful than Angels because they come from a much Higher Realm, they have more power, they have more authority, they can do more for you.

I am going to move to the third Angelic Being with a Citron Green Light; it's a little bit of yellow and a little bit of green- a very light green with a touch of yellow. If you don't know what Citron is, think of romaine lettuce and those inner leaves, the edge of the inner leaves, it's green but it's also a little bit of yellow. This one is to bring Joy & Gratitude, Joy with the yellow and the Bandwidth of Gratitude is that very light green, Joy & Gratitude, again pause to feel the energy of the Being.

There is nothing better than living life always in a place where you feel joy bubbling inside and you feel happy, you're content with what you have. You're even content with the moments where you feel you don't have, because in that moment you know this is the lesson, this is good, "*If I don't taste sour I won't know sweet, so let there be sour moments so that I can appreciate the sweet moments in life.*" Citron Green Angel carrying the Quality of Joy & Gratitude. Those two going together is a perfect mix. Pause and bathe in its Light.

The fourth Angelic Being vibrating an Amber Light, Amber is for the Life Force. For you to have zest and fervor for this life, for you to have strength and stamina to do everything you plan to do and more. Wouldn't it be nice when you can cross out everything that you have on your list plus more and have fun with it too? To live in joy and gratitude while you are doing it, even when you feel exhausted, exhausted but fulfilled. Bathe in the light of Angelic Cosmic Guardian of Cosmic Life Force, Amber Light.

The fifth one carries the Warm Orange Light. Remember the Warm Orange represents the New Divine Plan. Wouldn't it be nice if you had an Angelic Cosmic Guardian who was constantly sifting through all the realities to find the Plan and the project, the events and circumstances that best serve you? To be in the right place at the right time reaping the harvest! Warm Orange is pouring from the body of this Being extending to each of you. Bathe and receive the Light.

The sixth one is carrying a Vibrant Fuchsia Pink Light, a Vibrant Fuchsia Magenta Colored Light; this is the Life Force of this planet Earth. This is to revive, refresh, rejuvenate, in this now moment in this 3rd dimensional body, and to reacquaint yourself with the Vibrant Life Force that is of this world and is Over Lighted by Mother of Universe and Sanat Kumara.

The seventh angel is the Angel of Victory and is emanating a Platinum Pewter Light. Goddess Victory is actually standing right next to this Angelic Being, next to this Cosmic Guardian. We requested Goddess Victory to be involved because we wanted to make sure that each of you is victorious in everything that you do. What I ask you is to envision that you are standing right in front of Goddess Victory now, and she will extend her hand into the Beingness of this Angelic Being, and when she brings out her hand, holding it in front of you, there's a necklace with beads that are made of the condensed Vibration of Victory. It's a gift from this Cosmic Being and Goddess Victory and she will place it around your neck so you can carry the Energy of Victory at all times.

Then we will walk together to stand next to the Vibrant Fuchsia Magenta Pink, and see Mother of Universe and Sanat Kumara are standing and the two of them will extend their hands into the Beingness of this Angelic Being so that the condensed vibration of this Angelic Being is encapsulated in another prayer bead necklace. The two of them will bring both hands towards you, and there it is! And together they will place it around your neck to sit next to the Victory beads.

Notice as we move to go before the Warm Orange Angel that the Cosmic Guardian of Divine Plan is standing in front of this Being. She will extend her hands into the Beingness of this Cosmic Guardian, and when she brings her hands in front of you there is a beautiful Warm Orange Colored prayer bead necklace, which she will place over your head around your neck next to Goddess Victory's and Mother of Universe and Sanat Kumara's. That's three so far.

Next we will go and stand before the Amber Angelic Being, with Cosmic Mother of Cosmos standing there. She will extend both hands and the condensed energies come out in Amber beads in a prayer bead necklace which is placed over your head and sits next to the other three as she places it around your neck.

Now I am going to take over and offer you the last three. The Citron Green for Joy & Gratitude, I will extend my hands and add my own Copper Gold Light to seal the energies of Joy & Gratitude and I will bring out a Citron Green set of prayer beads that I will place around your neck added to the other four.

Then we move to the Emerald Green Being and I will extend my hands, add my own Copper Gold and the condensed energies of Financial Abundance and Material Possessions condensed inside these prayer beads in the Color of Emerald Green. Little, little Emerald Green beads in a prayer bead necklace. I'll place it around your neck next to the others.

Finally we will stand before the Angelic Being emanating Dark Vibrant Jade Green Light for Health & Wholeness, return to perfection, rejuvenation of the body. And I will add my Copper Gold Light and a prayer bead necklace in Jade Green Colored condensed Light will make the final seventh.

Now I want you to take your hands and run it through all seven, just feel the energy of it. Imagine that you are wearing seven long necklaces; each of the necklaces has 108 beads. That's the Sacred Number, Divine Mother's number, because it adds to nine, $1+0+8=9$, and that's Divine Mother's Sacred Number. It also has the number 8 which is Goddess Victory's number, and number 1, which is the number of unity, our union together. Run your fingers over all the beads; imagine that you are touching and feeling them and they're touching each other and they make that little jiggly noise.

Let's together acknowledge the Seven Angels and set our intention together that they will continue to work with you; in fact accelerate their service! And those of you who wish to set intentions and ask them whatever you desire to ask them, your own personal intentions; by all means you can do this now. I am going to give you just a moment --- Pause to set your personal intentions here.

I ask you now to come and stand next to your very own Divine Mother. Notice that I am holding a jug filled with Copper Gold Light. We're going to bend forward and I am going to pour from my Copper Gold Light in this jug into the Sacred Fire. The Flames will jump up high and become brighter, and I'm pouring my Copper Gold Light into the Sacred Fire to enliven and recalibrate the Fire. Then I am going to put the jug down and I am going to pick up an abalone shell, a very beautiful abalone shell; and then I am going to take some of the Sacred Ashes which now have that Copper Gold Light in them, and I am going to place them inside the abalone shell. Then I am going to pour a little bit of the Liquid Light from the jug to make it into a paste. Then with the ring finger of my left hand I am going to dip into this Golden Copper Liquid Light and I am going to place it over your Third Eye. I am going to do this 8 times to honor Goddess Victory and then I am going to do it one more time, the ninth time in honor of the Divine Feminine. **Each time I put a dot on your forehead it gets absorbed into your Third Eye. This gift is to allow you to open up to the energies of Divine Mother. It is to allow you to know that I am with you at all times. It is to allow you to feel my presence and be sensitive to the energies of Divine Feminine, all Aspects, all Beings who served the Divine Feminine Light, and of course your very own Divine Mother.**

By absorbing this Light, you are vibrating closer to my own Energy, this is why each time I put another dot on your forehead it gets quickly absorbed. You're thirsty for this healing potion, for this gift. This Copper Gold Light paste that is made of the Sacred Ashes which carry the vibrations of all of the prayers that are constantly being offered into the Fire on behalf of Divine Mother and on behalf of all creation to Divine Mother. Things are offered on behalf of Divine Mother because we want to maintain the energies of Divine Feminine in its purest form. Things are also offered to Divine Mother because people, places and things, all creation, has its source in Divine Mother, in that Divine Holy Spirit, which is the creative force of the Feminine, the Shakti. So that ash which is made of all the offerings that are made into the Sacred Fire and all the intentions that are placed into the Sacred Fire is turned into a paste with Divine Mother's own Signature Energy of Copper Gold and then placed on your forehead. This is a wonderful gift, and I ask you to remember that you have received this gift. Once in a while come up here and ask Mother to put more on your forehead. Each time you do, it brings an acceleration, a magnification, a recalibration; and each time that you come up here we can renew and recalibrate, refresh and accelerate you.

Now in front of you **three new Angels have arrived, three new Cosmic Guardians. These three will work with the other seven and with you. Their presence is to magnify everything that you have already received. I am going to go to the first one who's very eager to be introduced to you, her energy is very vibrant and it's a Pinkish Plum.** It's not a dark Plum, because there is a lot of Pink in there, but it definitely has the Plum. It's not a Pink, it's not a Hot Pink, it's a Plum that you can feel the Pink inside. Some of you may remember that rejuvenation and reversal of aging is a bandwidth that comes in this color. Pink is also as you well know, the Energy of Divine Love, and together this Plum Pink Colored Light also carries some Purple. If it weren't for the Purple you would only see the Pink. So when you mix Pink Light with Purple Light you get this Plum Light; so there's also that Transmutational Energy which has been given to Earth.

I want to remember St. Germaine for all that he has done, and Quan Yin for all that she has done for the past many thousand years between the two of them, fourteen thousand years for Quan Yin and approximately now sixty some years for St. Germaine, about sixty years, there about. **But this Angelic Being is going to offer you Rejuvenation, Divine Love and Protection. The Protection Aspect is**

because of the Transmutational Frequency that she carries. So that translates to whatever no longer serves you is going to be transmuted. **When you are exposed to the Energies of this Cosmic Guardian, and you are restored to the Divine Love, which is your Divine Right, your Physical Body, your Energy Bodies get a chance to be rejuvenated and restored.**

Now what's the difference between this and the Jade Green which was for the Healing and Wholeness of the Physical Body? Well you have to bring the Physical Body to a place of wholeness through the Jade Green Light first, to a place where it can be receptive to this Plum Light. That Jade Green is of the actual substance of physicality, and so it restores you to wholeness in your physicality. The Plum takes you to the next level, it restores you, rejuvenates you, it takes you from the human aspect and adds that extra energetic substance, your condensed Energy Bodies. Now your Energy Bodies can pick up pollution and become stagnant. The Jade Green restores them and then the Plum takes them to the next level. So expect the rejuvenation, expect the release of the stagnancy. If you pick something in the course of the day it can easily be transmuted simply by calling this Angelic Being, this Cosmic Guardian, and you can use it for your loved ones.

That was the first of three new Angelic Beings; new for this year; the second one has a **Honey Yellow Energy.** It's not a dark Honey; it's a Light Honey because it has a lot of Yellow. Yellow as you know is the Energy of Joy. This Light Honey Colored Light is not that Dark Amber, but it is very close to the Amber in terms of its vibration, is reinforcement. Again if you ask me, what's the difference between this Light Honey and that Amber I would say that you needed the Amber to get to the place where you have the level of absorbency, the level of Perfection, Purity, that would enable you to receive this Energy.

There is a Vibrational Force Field that goes from **Joy & Gratitude filled with Life Force, to Bliss, Ecstasy.** Now that Ecstasy Bliss Bandwidth can be contained in this Yellow Honey Energy. So what is the significance of taking form and preparing a Cosmic Guardian, an Angelic Being for you that carries that Energy? To take you to that next level, because you absorb the Life Force, and in the process you get to be full, you get to be content, you get to feel satiated, your satisfied, and in that moment of satisfaction you become detached, you become the witness, you become the impartial observer, not because you don't care for the body or this world anymore, but because you know that there's more to this body and this world, there's even more than this body and this world and that you are encompassing all of it. So in a sense you can say **this Yellow Honey substance that is encapsulated in this Cosmic Guardian and is brought to you as a gift is like being in the body and not of it, being in the world and not of it, being in this body but yet being able to see more, being in this world and yet knowing that you're so much more at all times. This truly is a great gift and I do hope that you use your communion with this Cosmic Guardian a lot, a lot.**

The three that I am bringing you for this upcoming year, they're very sublime. To explain them it might take me a little bit of time, and for you to understand them it might take you a little bit of time, because these are not normal everyday conditions or qualities, these are more than. They encompass the normal everyday but then they add that something, that extra something.

The third Being is carrying a Vibrational Force Field that is a mixture **of Orange and a little bit of Pink added in, it's a Peach,** it's a Peach, but sometimes a Peach is a little too Yellow. If you go into that part of the Peach that is just the right mixture of the Orange and Pink, it's complicated, no it's not complicated its complex, **it's a complex communion of energies.** Again, what does it do? **It magnetizes to you the Life Force for events and circumstances that are beyond the mundane, beyond the every day. Its Vibrational Force Field is close to that of the Angel who represents the Warm Orange of Divine Plan.** Why are we giving you this one, since you already have that one? Because **the Warm Orange of the Divine Plan is responsible to pick what's best for you in any given moment and what it does is, it makes every day events better. This one goes beyond that, it goes to a point where it's no longer**

about making something existing better, it's about bringing the best into your life, it's about working with the Law of Attraction, because when you immerse yourself in the Energy of this Being, you're attracting the best to you. It's not about refining what you already have, it's not about shellacking it so it's the same old table but now it has a nice table top and it's shiny, no! It's a whole new table, with a whole new design.

Now take the analogy of the table and think of it as relationships, jobs, life, relationships with people, with places, with things. You know there's a higher relationship that you can have, not just with people but also with places, with things. You can have a better relationship with your flowers, then your flowers will bloom for a longer period of time. You can have a relationship with your fruit bearing trees and they will give you fruit for an extended season. You can have a relationship with a place, a spot and that spot will magnify to you all manners of things. You can have a relationship with the Earth as you walk upon it and with every step it can give you love, it can give you rewards. This is what this Cosmic Guardian does. This Peach mixture of Pink and Orange, they're very sublime Beings, and their gifts are of sublime nature, but they do have the ability to make this mundane world, this worldly realm, this life of yours better, take it to the next step.

Now I am going to extend my hand in front of the Angel that is emanating the Orange and the Pink, that Peach Color and I am going to hold it until she condenses her energy and gives me a prayer bead for you from her own energy to add to the seven you already have. I'll bring it front of you to see how warm and loving and generous, beautiful the energy of this prayer bead is, and then I am going to place it around your neck. I want you to hold it in your hand and hold the others, and imagine that it's as real as holding a bunch of necklaces around your neck, and then I am going to extend my hands to the first Angel, the Plum one.

I went from the third to the first and I am going to say, "*give me the best condensed aspect of all that you represent, rejuvenation, transmutation, release, Divine Love;*" and look what I am holding it in front of your face, and look at how much love, how much joy is bubbling in these little beads. I am going to place it, this is the ninth one, and I am going to place it around your neck and I want you to imagine that it is as real as holding onto a bunch of necklaces, feel the energies.

Then I am going to go to the middle one, the Honey - Light Honey Colored - Yellowy Honey Colored and I am going to extend my hands and I am going to say, "*put your Life Force into these beads that you condensed and make into a Prayer Bead Necklace,*" and she will do it with joy. They're happy to be of service. I am going to hold it in front of you. Just look at it, it's so beautiful; it's so lovely you want to put it your mouth. I am going to put this around your neck, and that would be ten altogether.

Now the final gift is that I am going to take from the Copper Gold Light that is in my jug and I am going to pour it in my hands and I am going to command it to become a Prayer Bead Necklace. That is the gift of Divine Mother for this year, this Spiritual New Year from November 2013 to November of 2014 and beyond. But this is the first year of its momentum, and we're going to go the Sacred Number of Lord Shiva and Goddess Shakti, number 11, this is the 11th one, it's fully formed, they're little hearts, Copper Gold hearts. The rest of them were all round but mine is hearts, 108 little hearts filled with Divine Mother's own Energies. I am going to place it around your neck and I am going to ask you to imagine that you wrap both hands around on either side, and feel the love.

I am going to bid you goodnight and wish you a wonderful New Year of togetherness. I look forward to coming back together and bringing you gifts every year, and I hold you in my own heart. I Am your very own Divine Mother. So It Is.

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you Nasrin. Thank you Divine Mother. I thank all of you, goodnight until next month.
