Hello everyone this is Jim and welcome to the February 2nd Gateway Portal Channeling, the 2-2-2014 Gateway Portal Channeling. I thank you all for being here and for giving of yourselves in this way. This is our first, (well it's our second) Gateway Portal Channeling, but this is the first live Gateway Portal Channeling of 2014. Very happy all of you could join us. So take a deep breath and we'll begin.

Grounding Meditation- Visualize that you are standing on top of Uluru, which is the great red rock in Central Australia. Feel the huge massive rock beneath your feet. Be aware that everyone on this call is also there with you forming a Group Entity, a Group Energy. As we begin, and as you feel a connection with Uluru allow yourselves to dissolve into Uluru and see and feel the nurturing presence of Uluru and the reddish color of Uluru and your Earth Crust Chakra right below your feet. Feel how this energy and this warmth from Uluru welcome you and clears and cleanses you of all dross.

Now visualize a Pillar of Light extending beneath your feet all the way to the Core of the Earth, and envision that Divine Mother holds you in a Cocoon, holds you in her heart; she holds you in a Cocoon of Copper Gold Light. See that Goddess Victory comes forth with Divine Mother and we, each move into the heart of Victory: Pink, Gold and Platinum; Pink Light with Gold and Platinum Shimmers, she holds us in a Cocoon of those colors and steps inside the heart of Great Silent Watcher in a Cocoon of Turquoise Blue Light.

We send our roots down from the bottoms of our feet and our tailbone as we're dissolving and sliding towards the center of the Earth. See that these roots go all the way to the Core Crystal and wrap themselves around the bright Core Crystal. See a tree trunk is forming around you with roots that extend down around your roots holding you even tighter to the Core Crystal. This tree trunk extends all the way up to the Pool of Creation- through the Dimensions of Reality to the Pool of Creation- and spreads out into branches and leaves in the Pool of Creation. See that the tree trunk itself, the bark of the tree trunk that's surrounding you is glowing a Green, an Emerald Green color, the color of Abundance, Healing and Wholeness.

Pull up now through the roots that you sent to the Core of the Earth, pull up the Amber Colored Life Force Energy of Mother Earth. Let it come up through the root system to the bottom of your feet, into your body and being, filling each one of your Chakras and your Five Body System and Light Body with the Amber Colored Light, the Life Force of Mother Earth. Let it continue up through the tree trunk, reaching all the way to the Pool of Creation. Once there, we ask that the Cosmic Life Force Energy, the Amber Colored Light, sent from Mother of the Cosmos into the Pool of Creation to cascade down through the tree trunk to your Crown Chakra, filling your Five Body System and Light Body and all of your Chakras with that Light. It continues down through the Hara Line- your Pillar of Light between the bottoms of your feet and the Core Crystal- and fills the Core Crystal of Mother Earth with the Life Force Energy from Mother of the Cosmos.

Now see that we are all gliding down and we reach to the Center of Mother Earth standing before the Sacred Fire Altar with Flames jumping high. See that to your right is our own Divine Mother, to her left is Goddess of Victory. Divine Mother is in Robes of Copper Gold; Goddess of Victory in Pink with Gold and Platinum. Across the Sacred Altar from us is Great Silent Watcher in her Turquoise Blue Robes,

holding her Scepter above this entire Entourage, creating the Dome of Turquoise Blue around all of us. To Great Silent Watcher's right is a Silhouette of Emerald Green of the Perfected Presence of the Masculine Aspect; to Great Silent Watcher's left is the Pink and Gold Silhouette of the Perfected Presence of the Feminine. To the left of that Silhouette is Cosmic Guardian of the Divine Plan in her Warm Orange Colored Robes; and to our far left beyond Goddess of Victory is Mother of the Universe in her Vibrant Pink; and to our right beyond Divine Mother is Mother of the Cosmos in Amber Colored Light. The Three Omniversal Mothers are standing behind us, the first in Purple, the second Aquamarine Blue, the third in Clay Red and Gold. 144,000 Silent Watchers are standing shoulder to shoulder around this Entourage beaming Turquoise Blue to the center, and around them two billion Angelic Watchers also in Turquoise Blue.

Take a deep breath; be aware of the presence of all of these Great Beings and of everyone in this group and make your offerings to this Sacred Fire at the Center of Mother Earth. Set your intentions for this year for yourselves, your loved ones, for Earth and humankind; as you are doing that see that the Golden Bridge to the 5th Dimensional Octave is forming in front of you, the Golden Filaments that form this Bridge. We now walk together with Goddess of Victory leading the way and Great Silent Watcher taking up the rear; we all move through and over this bridge into the 5th Dimensional Octave.

Retreat of Divine Mother in 5D Octave- Before you, you can see the Retreat of Divine Mother; her Seven Tiered Retreat is glistening. As we get close we step up to the Hexagonal Gateway to be recalibrated as its Purple Light beams to us with Magenta, Red, Orange, Yellow, Green and Blue and back to Purple again and the gateway opens. We move into the first level of the Retreat of Divine Mother and stand again around the Sacred Altar, which is in the center of the Great Hall. Warm Orange Light beaming from the walls of this Great Hall; on the floor is an Italian Onyx glowing from beneath our feet. We step up to the Sacred Altar and once again we will make our offering. See that this entire Entourage is standing around the Sacred Altar as they were at the Center of Mother Earth. Take a moment, make your offerings, set your intentions at this 5th Dimensional Retreat of Divine Mother and the next voice you will hear will be that of our Beloved Nasrin. I thank you all with all of my heart, let this be the best year yet. So It Is.

Nasrin begins: (8:48)

Hello everyone and welcome to 2-2-2014. Divine Mother has told us that energy moves in pockets. She has told us that in the course of the past few years she and other members of her Entourage have worked with the Five Elements to pull in the energy of the container that holds the Five Elements and our reality into a place, where they can now balance and control as the energies move in. Mother also told us, when you begin to embark upon a project- say for example, you sit behind the computer to do a project and your computer starts acting up- she says in that moment notice that the energies are not moving smoothly and walk away from that project. It may be that you need to walk away from it for five minutes or maybe for a couple of hours. She says be mindful that if you are doing something that requires working mentally- that is: you're working with your Mental Body and the energy goes skewed- drop it and move to something that doesn't require working with your Mental Body; because that pocket of energy that's moving in is acting up with your Mental Body and with the Five Elements in such a way that mental exercise becomes difficult. In that moment do something that might require your physical attention, physical exercises like going out somewhere, going for a walk or taking the car and going and doing some grocery shopping instead of- in that moment- doing mental work.

She says when you work with the energy as it moves in various pockets, you will become acquainted with what works in each moment and what doesn't; and you will get a feel for the energy as it moves. She also says that the beauty of it is that it will definitely move. She says that in the old paradigm where the container was leaky the energy would come in and get stuck in the grooves. So it wouldn't be five

minutes or an hour before you could go back to doing the same work, because then it would take over and it might be a day or two or even a week before you could go back and feel the smooth energies. But as a result of the work that the Divine Feminine has done with the container of our reality and with the Five Elements- the way that they have tightened the energy of the Five Elements and the movement and flow of the energy; let's not forget that the actual flow of energy is something that happens through the Feminine Creative Force; so it's easy for Divine Mother and other members of the Creative Divine Feminine to get a hang on, a hold on the way the energy moves and flows; and to push a dark and negative energy out; a tough energy that doesn't make things easy now moves forward faster; they condense that kind of energy and behind it bring forth a nice smooth flowing energy.

So one of the things that we learn from this discourse that Divine Mother has given us is that when something is not working for you, call on Divine Mother and say, *"Mother I am trying to make this work please help me"* and then attempt it again. Either she will help you or if you attempt it again and you feel that it still is skewed; that's Divine Mother telling you, *"I'm helping you by telling you to move on. Right now drop this project and go to another one, even if it is for a few minutes."*

Now as we stand in Divine Mother's Retreat to make our offerings let's ask- all of us together- ask Divine Mother and the Entourage of Divine Feminine Beings, that in all ways, in all aspects of our lives, for ourselves and for our loved ones, Divine Mother, Goddess Victory, Great Silent Watcher, Cosmic Guardian of Divine Plan, Mother of Universe, Mother of Cosmos, the Masculine and Feminine Principals, all the Beings who work with this Entourage, work towards smoothing out the energies and its flow in our lives, through our lives, and accelerate all that will bare fruit and would make us victorious while preventing those energies that would delay us. This intention is set in this now moment from all of us on this 2-2-2014; and we request that it will continue for the rest of the year; to place us in a much higher platform, a plateau, a diving board as the year ends and we begin the next one. Because if we practice this for the rest of the year we will get the hang of it, we will get used to the flow of the energy and the energy will get used to the way we like it to flow through our lives. So let's make an offering to the Sacred Fire with that intention for ourselves and for our loved ones, for the members of this group and even for those who don't know anything about the flow of energy.

If we can make life easier for anyone, even if they never knew we had a part to play in their lives, we had a part to play in making their lives easier, we still earn the merits. In fact we earn more merits because sometimes we do things for other people and we have our own motives, even if it is the motive of doing good. When we're doing it knowing they will never know that we played a role or that we made their life easier, then the merits are much higher because there is no expectation on our part. It's given in selfless service. When we give in selfless service we give ourselves selflessly and it's a lot more rewarding, the merits are much higher. So I leave you with Divine Mother, with great gratitude for this togetherness and may this be one of many.

Divine Mother begins: (17:03)

My Beloved Children of Light I'm your very own Divine Mother.

The gift that I bring you today is to give you the next phase of the grid which we have been working with, in the past two months. In December and January I have been working with you on offering you assistance and guidance from various Aspects of Divine Mother. So I want you to notice that the Angels have come forth holding their trays before you with all the offerings. You have your ceremonial robes that are being placed on your bodies, your scepter, your crown. Make your offerings to the Sacred Fire with the intention that I also support you and that the flow of energy to be smooth for the rest of this year; for the container of your reality to be strong and to support you; for the Five Elements to be malleable and flow smoothly in everything that you accomplish and everything that you embark upon; for all the

Deities, for all Aspects of Divine Feminine to support you, to accelerate you, to guide you, and to bring you merits for all the good that you do.

After bowing down to the Sacred Fire turn around to see that the Angels have pulled the curtains and the double doors to Divine Mother's Inner Chamber are open. I ask each of you to envision that you are moving to sit upon the revolving seat of Copper Gold covering. You can feel the energy of Divine Mother's Copper Gold Light as you sit upon this seat. I ask you to notice as you sit, that this seat, this chair, is on a platform that is slightly raised and this platform is a triangle. One point of the triangle is right behind you and notice that Divine Mother is now moving to stand in that point and I will stand towering over you and showering you with the Copper Gold Light that is my own Signature Energy. I will embrace you from behind. The seat absorbs the Copper Gold Light and magnifies it and offers it to your body. Your body is resting in this seat embraced by Divine Mother's Copper Gold Light.

The other two points of the triangle: one in front of you to your left and Great Silent Watcher has blessed us with her presence; and she stands towering over all of us and sending her Turquoise Blue Signature Energy directly at you seated peacefully in the Copper Gold seat. The other, the last point is in front of you to your right and that point is now being occupied by the presence of Cosmic Mother of Cosmos dressed in her Ceremonial Robes of Amber Light, holding her Scepter of Power pointing it at you seated upon the seat and emanating the Amber Life Force Energy that is the source of the Cosmic Light.

So what I am adding in this session is this triangle. Now the three Beings, Divine Mother, Great Silent Watcher and Cosmic Mother of Cosmos will constantly beam their Lights to each of you at all times when you are seated upon this seat. So when you begin to face each one of the six Aspects of Divine Mother you're facing that Aspect while receiving the triangle of energies, Copper Gold of Divine Mother, Turquoise Blue of Great Silent Watcher, and Amber Light of Cosmic Mother of Cosmos. Each of these three will magnify the impact of the energy that you receive from that Aspect of Divine Mother and when we turn, the entire seat and this triangle turns to face the next Aspect. So at all times when seated upon the seat you are blessed by the presence of the three Beings who stand around the triangle; and they are magnifying the energy of the Aspect of Divine Mother which you are facing, in each given moment.

Now I want to sit inside of this triangle to show you how much more potent and powerful the addition of the triangle becomes. Right now we are facing in such a way that you're looking at the position of 12:00 o'clock. In front of you seated upon her seat is the Aspect of Divine Mother emanating Cobalt Blue Light to bring you Power and Protection. Your entire body is now encased in this Cobalt Blue Light while Great Silent Watcher is adding her Turquoise Blue Light to make it stronger, Mother of Cosmos adding her Amber Light and Divine Mother bathing you and this entire energy in Copper Gold Light.

I want you to specifically notice that your Seat of the Soul area and the Solar Plexus area are absorbing large quantizes of this Light. You need to empower your Soul and your Solar Plexus- your Soul seated upon the Seat of the Soul Chakra above your Solar Plexus and your Solar Plexus right around the belly button- that's your power center and those are the areas that you need the most protection as well. While your entire body is absorbing the Light in this session we are placing extra attention on those two Chakras receiving the Cobalt Blue Light. Great Silent Watcher seals that Cobalt Blue Light in her Turquoise Blue, Mother of Cosmos seals that Light in her Amber and I seal all the Lights in my Copper Gold. Each time that you come to sit upon this seat feel free to bring your loved ones and feel free to stay as long as you desire.

We're going to bow down to Beloved Cobalt Blue Aspect of Divine Mother for Protection and Power and turn to the position of 2:00 o'clock facing the Aspect that emanates the Green Light the color of new leaves, newly born leaves and grass in the spring. With you turning in your seat, is the triangle, so you always have Mother behind you, Great Silent Watcher to your left in front of you, Mother of Cosmos to

your right in front of you; and right now you are receiving the energies of Nurturance and Life. I would like to ask you to feel your entire body, Five Body System Light Body filled with this Light and we're going to focus a condensed aspect of this Green Light moving in the area of Personal Heart Chakra and Cosmic Heart Chakra. Feel the energy around you and feel the energy penetrating at a condensed flow into your Personal Heart Chakra and Cosmic Heart Chakra. Notice that Great Silent Watcher is magnifying it with her Turquoise Blue Light, sealing this energy of Nurturance and Life. Cosmic Mother is sealing it with her Amber and Divine Mother sealing all with Copper Gold.

Once again the entire seat and the triangle that is attached- the platform- moves to the direction of 4:00 o'clock where you face the Aspect of Mother who is emanating a Vibrant Yellow Light, a Warm Vibrant Yellow Light for Joy and Happiness with a touch of gratitude thrown in. Feel your entire body, your Five Body System, your Light Body bathing in this Warm Yellow Light and specifically let your Throat Chakra, your Solar Plexus and your Sacral Plexus receive this Light.

There is going to be overlaps. In some of your Chakras you receive more than one and that is because of the nature of what these Lights represent and what your Chakras need.

When you have joy in your life you speak joyfully, your spoken word, your utterances and your communication becomes lively and filled with joy, filled with gratitude. So we place this yellow Light in your Throat Chakra. For the same exact reason we also place it in your Solar Plexus because it represents your power. It's important that the energy of joy, the energy of happiness, the energy of gratitude bubble inside your Solar Plexus. Sacral Plexus is your center for creativity and if there is joy bubbling in that area you become more creative; your creativity expands.

Imagine that every one of your Chakras, your Five Body System, your entire Light Body is bathing in each of these Lights. I am specifically stimulating your Chakras of the Body with these Lights for the purpose of magnifying your power, your life force, your nurturance, your joy, your happiness; and as we move forward all the other qualities that you are going to be receiving in a condensed manner. Energy of Joy and Gratitude and Happiness is represented in this Warm Yellow Light emanating from this Aspect of Divine Mother; and you receive magnification from Great Silent Watcher through the Turquoise Blue Light, Mother of Cosmos through Amber Light and Divine Mother sealing everything in the Copper Gold.

Now we're going to move again, this triangle now facing position of 6:00 o'clock and the Aspect with Vibrant Pink Light of Divine Love. She is overlighted by the Energies of Mother of Universe who gives of her Vibrant Pink Energy to support each of you. We are going to send this energy, a condensed version of it to the Solar Plexus, Seat of the Soul, Personal Heart and Cosmic Heart Chakra, Divine Love pouring in. Your Five Body System is filled with it, your Light Body is filled with it, and all your Chakras are filled with it. The condensed version of it is moving to the Cosmic Heart Chakra, Personal Heart Chakra, Seat of the Soul and Solar Plexus. Great Silent Watcher seals this condensed Light in her Turquoise Blue Signature Energy, Mother of Cosmos seals it in her Amber Light, Divine Mother embraces all these Beings and all their Energies and yours in her Copper Gold Light.

You turn to face the position of 8:00 o'clock, the aspect with the energies of Victory- the Frosted Blue and Platinum. The Frosted Blue and Platinum is going to go from the Seat of the Soul upward all the way to the Crown with the energies of Victory. Let's put it from the Solar Plexus up, so your Power Center is blessed by the energies of Goddess Victory who is overlighting this Aspect of Divine Mother. See a condensed version of this Frosted Blue with Platinum Shimmers in your Five Body System, in your Light Body; also with concentrated focus in your Solar Plexus, Seat of the Soul, Personal Heart Chakra, Cosmic Heart Chakra, Throat Chakra, Third Eye Chakra and Crown Chakra. We bow down to this Aspect with great gratitude, also to Goddess Victory who's overlighting this Aspect.

We turn to the last, the position of 10:00 o'clock where we face the Vibrant Orange Light from an Aspect of Divine Mother with the overlighting presence of Cosmic Guardian of Divine Plan. Now I ask you to see your entire Five Body System and Light Body immersed in this Light and your entire Five Body System, Light Body always guided by the highest of Divine Plans that unfold before you as you walk on the path. Whichever path you may walk upon, whatever project you may embark upon, this Light will be there for you. I ask you to envision a condensed version of this Light in all of your Chakras from your Earth Crust below your feet to the Chakras of your knees and the Root Chakra as well as your hips. The Root Chakra is right in the middle of your hip, but I want you to envision a point on your right hip and a point on your left hip. Let your entire skeletal structure become strengthened by the presence of the Vibrant Orange Light that carries the energies of the highest Divine Plan for you. This Aspect of Divine Mother receives the overlighting presence of Cosmic Guardian of Divine Plan.

Imagine that Great Silent Watcher is sealing every Chakra from the Earth Crust all the way to the Crown and every layer of your Five Body System and your Light Body. The Vibrant Orange Light moving in Cocoons that overlap from your Earth Crust Chakra to your knees, your hips, your Root, Sacral Plexus, Solar Plexus, Seat of the Soul, Personal Heart Chakra, Cosmic Heart Chakra, Throat Chakra, Third Eye Chakra and Crown Chakra. See it moving up the Antahkarana Cord and going all the way up to the Pool of Creation. See it extending to the Sheath of your Physical Body Light, the Sheath of your Etheric Body Light, the Sheath of your Emotional Body Light, the Sheath of your Mental Body Light, the Sheath of your Spiritual Body Light and the Sheath of your Light Body, which is Light. Cosmic Mother of Cosmos sealing each of the layers in her Amber Light and Divine Mother embracing all. We bow down to this Aspect and turn to face the Cobalt Blue Aspect again.

I want you to please feel the difference from the first time you came to receive these energies and now that you have had the condensed version in your entire Five Body System, Light Body but with specific focus on layers of your Chakras. The one that has been most encompassing is the Vibrant Orange which relates to you doing what is in your highest and best at all times, with every breath. What is in your highest interest extends from the mundane to the sublime, and because you live in the mundane world, a lot of it is focused on worldly events.

I ask you to invite every one of these Aspects of Divine Mother in colors of Cobalt Blue, Vibrant Green, Warm Yellow, Vibrant Pink, Frosted Blue with Platinum and Vibrant Orange as well as the Turquoise Blue of Great Silent Watcher, the Amber of Cosmic Mother of Cosmos, the Copper Gold of Divine Mother at all times, at all times. Invite these nine Beings, the nine Beings that I have offered to you today and that finalizes this series of three sessions.

Come here to bathe in these Lights whenever you feel energy isn't moving for you in the way you want it. Do it whenever you have a request for a family member or a loved one, or for Earth and all humankind; for all species- even species who are going extinct; species of plants, minerals, animals; come here and sit with these Aspects. If you forget which Chakra you're supposed to put what energy in, don't let that stop you; just sit in front of them and ask them to do what they need to do, because there are different intentions for which you need the energy of these Aspects of Divine Mother in a specific area of your body, your Five Body System and your Light Body.

A pregnant woman would do well to put all of these energies in the area of Solar Plexus, Seat of the Soul and Sacral Plexus to benefit the child or children that she carries. A woman who wants to become pregnant can do the same thing. It is even better to start planning before the Light that becomes a Soul and is formed (into a fetus) by sitting with these six Aspects and the three deities that we added today- the nine; and call to them to pull the highest aspect of the Soul that becomes your child, that becomes your grandchild, that becomes your great grandchild; you are doing that child a favor. You are doing this

world a favor by pulling the pure template for the child; or template for the mineral kingdom- you're raising the vibration of all crystals. By pulling the energy of all plants you are raising the vibration of all plants, the species of plants, the fruit bearing trees, they would all be elevated and they would serve their best. A barren tree starts giving fruit because you gave it all this Light.

Everything is made of Light, everything is condensed Light Energy. Energy of Light carries the Life Force; so if you want to increase the Life Force, you want to increase the Life Force within a fruit bearing tree, or a crystal, or an animal, or a child you need these nine Aspects. You want to start a new project, you want to buy a new home, you want to move and relocate from one location to another, you want to send your child to a school and be sure this is the right energy, then send these Lights to those locations. If that location is not the right one, the energies will come together for you to find something better. If that move is not the right one, the energies will come together to find somewhere better. You want the flow of energy for financial abundance, pull in these energies. Ask every one of the six, every one of the three who are constantly present with the six, when you ask for financial abundance. There isn't anything in this world that you can't pull in and accelerate its life, its existence, its coming into your life, by calling upon the six and the three.

So I would say so far this year and for all the years we have worked together I have given you one of the best of the best gifts. I hold you in my own heart and I thank you for all that you do on behalf of Earth and all humankind, on behalf of your Soul and your Soul Lineage of Light. I Am your very own Divine Mother. So It Is.

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you Nasrin, thank you Divine Mother and we thank all of you. Have a wonderful year, goodnight.
