Hello everyone this is Jim and welcome to the 3-3-2014 Gateway Portal Channeling. I thank you all for being here and giving of yourself in this way and welcome to 2014 Spring Equinox which is in this month, believe it or not, even though the storms and the cold continue- at least in the northern United States and into the southern United States- I hope you are all safe and warm. Take a deep breath and we will begin.

Visualize that you are standing on top of Uluru, the great red rock in central Australia, a mountain of red rock; it's a very sacred place. You're standing on top of this rock, feel it beneath your feet. As you connect to this sacred site and to the consciousness of Uluru be aware that everyone on this call is also standing there on top of Uluru connecting with Earth through the vortex in Uluru. As you connect with the vortex imagine that you're dissolving into Uluru, down into the red rock, you're slowly sliding towards the center of the Earth. Be aware that beneath your feet is the Hara Line- the Pillar of Light that extends from the bottom of your feet and your Root Chakra all the way down to the Core of Mother Earth- it is illuminated. Envision that you are sending roots from the bottoms of your feet and Root Chakra; and you send these roots down to wrap around the Core Crystal of Mother Earth. Send them down through the Hara Line through this Pillar of Light and let them wrap all the way around the Core Crystal of Mother Earth holding you tight, grounding you to Mother Earth.

See that a tree trunk and a tree is forming around you; the roots of this tree are extending around your roots holding you even more firmly to the Core Crystal of Mother Earth. See that this tree trunk extends around you all the way up through the Thrones, to the Throne of Creation, where it spreads into branches and leaves in the Pool of Creation. See this tree trunk: the bark of this tree trunk is a thick layer of Emerald Green Light which continually soaks you- and everything that moves up this tree trunk- in the Emerald Green Energies of Abundance, Healing, Health and Wholeness. See that Green Light pouring in on you, flooding in and imagine that you're pulling up through the roots- that you've wrapped around the Core Crystal- the Amber colored Life Force Energy of Mother Earth. See it moving up through the roots beneath your feet all the way up to the bottoms of your feet. The Amber colored Light fills your body, fills the Chakras of your body, fills all the Energy Bodies and Light Body around you and continues to move in a continuous stream all the way up through the tree trunk to the Pool of Creation where it spreads out and pours into the Pool of Creation bringing the Life Force of Mother Earth all the way to the Pool of Creation.

We ask that the Mother of the Cosmos send the Amber colored Life Force Energy, the Cosmic Life Force Energy into the Pool of Creation and down through the tree trunk to pour into your Crown Chakra, pour into your Five Body System Light Body, all of your Chakras, moving all the way down through the bottoms of your feet, all the way to Mother Earth, filling Mother Earth with the Cosmic Life Force Energy, all the while being bathed in the Emerald Green Light of your tree trunk.

Now as we all continue to glide down within Uluru and we see around us the warm nurturing warm red Light of Uluru, you find yourself standing before the Sacred Altar at the center of Mother Earth, flames jumping high. To your right our own Beloved Divine Mother in her Copper Gold robes is pouring her Copper Gold Light to you. To your left our Beloved Goddess of Victory is wearing robes of Pink with Gold and Platinum in them; straight across the Sacred Altar Great Silent Watcher is standing towering over us, holding her Scepter above her head and above all of us in her Turquoise Blue robes pouring the Turquoise Blue Light from her Scepter. On either side of Great Silent Watcher, to her right is a

Silhouette of Emerald Green which is the Perfected Presence of the Masculine Aspect. To Great Silent Watcher's left in a Silhouette of Pink with Gold, Gold Filaments is the Perfected Presence of the Feminine Aspect. The Perfected Presence of the Masculine and the Feminine join us in this Entourage to balance the Energies of Masculine and Feminine.

To the left of the Feminine Aspect is the Cosmic Guardian of the Divine Plan in Orange, bright Warm Orange colored robes and Light. To our left beyond Goddess of Victory stands Mother of the Universe in her Vibrant Pink robes, and to our right beyond our own Divine Mother is Mother of the Cosmos in her Amber colored robes. All of these Beings are here pouring their Light into the fire, pouring their Light to you in service to Divine Mother, and in service to the Divine Feminine.

Behind you, behind all of us, stand the Three Omniversal Mothers, the first one in Purple Robes beaming the Purple Light, the second in Aquamarine Blue Robes and the third in the Clay Red and Gold. Around this Entourage a 144,000 Silent Watchers stand in Turquoise Blue and two billion Angelic Watchers stand also in Turquoise Blue. Take a moment, feel the presence of all these Beings, if you don't remember the placement and the colors of the robes of each one it is perfectly fine. They know who they are and they're sending you their love and sending each one their special qualities in this ceremony tonight.

Now see beyond Great Silent Watcher- on the far side of the Sacred Altar - a golden bridge is forming to the 5th Dimensional Octave; and we will all together cross this bridge moving into the 5th Dimensional Octave. As always Goddess Victory leads the way, Great Silent Watcher brings up the rear, while holding her Scepter of Power above everyone in this entourage, continually pouring the dome of Turquoise Blue around all of us with the Energies of Protection, Fearlessness and Divine power.

As we move across the bridge towards the retreat of Divine Mother- which we see ahead of us, as a seven tiered retreat- glistening in front of us. We reach the hexagonal gateway to the retreat of Divine Mother and we wait to be recalibrated by the colors that start with Purple, move to Red then to Orange and Yellow and Green to Blue and back to Purple again; and as the full sequence completes itself, the gateway opens and we walk into the retreat of Divine Mother first level. 40 foot tall ceilings, warm orange beaming from all of the walls and in the center of this Great Hall is a Sacred Altar which we will stand before; and the entourage of all these great Beings will take their places just as they did at the center of the Earth; only this time our own Divine Mother is sitting on her Throne across from us.

So take a moment here at the Sacred Altar of Divine Mother in her retreat in the 5th Dimensional Octave and see that stepping up next to you is an Angelic Being holding a tray. On the tray, around the outside are rosebuds, one white, then one red, then one white, then one red all the way around, 33 in total; and in the center of the tray there are spices and oils and ghee and different offerings to be made to the Sacred Altar. So as you're standing here before the Sacred Altar take a red rose which is red for the color of Goddess Shakti- the Feminine Aspect- the white flower for Lord Shiva- the Masculine Aspect- and in their name and in their honor take one white and one red, hold it, dip it in one of the sacred offerings, place it before your personal heart, set your intentions, your prayers for yourself, your loved ones, for this Earth and humankind, for this time in history- when things are a bit of a tempest- and set your intentions for this year, for the next ten years, for the next century. I'll give you a few moments to make your offering and toss the red and white roses covered with the sacred oils and spices into the fire and pick up another red and another white rose and repeat the process setting all of your intentions. I'll give you a moment or two in silence and the next voice that you hear will be that of our Beloved Nasrin. I thank you. So It Is.

Nasrin begins: 13:00 minutes

Hello everyone and welcome to this wonderful 3-3, remember 3 is Divine Mother's own number. So it is wonderful that we are at this point and as Jim said, spring is only around the corner. Next Sunday remember that we will spring forward, so we will have more of daylight in the afternoon to enjoy. I have had a glimpse of what Divine Mother wants to give us today, so without further ado I'm going to give you Divine Mother. Remember that as you are making the offerings, you're asking intentions and prayers and invocations for your loved ones as well as for yourself and for Earth and all humankind

Divine Mother begins: 13:58

My Beloved Children of Light I Am your very own Divine Mother.

I ask you to notice that the Angelic Beings who are guardians of this retreat have walked to Divine Mother's Throne and pulled the curtains to show you the double doorways that allow you to walk into Divine Mother's own inner chamber. In the past three sessions since December we have been working with six Aspects of Divine Mother; then we added the three- the triangle- inside of the six Aspects. The platform rises when you sit in the seat and we invited Great Silent Watcher, Mother of Cosmos, and I-myself standing behind you- to stand at the three points of this triangular platform.

So I invite you to walk with me. Hold my hand and walk with me and see that we enter through the double doorway. Become aware that this six sided room that you have just entered has each facet or side allocated to one Aspect of Divine Mother. Before you even go and sit in your copper gold velvet colored sofa or chair or Throne whatever you want to call it is perfectly fine- before you do that, just take in this entire setup. You're standing when we enter.

- We enter through the doors that happen to be on the westerly side of this room, so you look to your left and you see the Aspect of Divine Mother who is emanating the Cobalt Blue Light, and she brings you Power and Protection.
- Then you see the Aspect that brings that beautiful Leafy Green colored Light that is nurturance and life. This life giving vibration that she encompasses helps to renew your bodies, your Five Body System and your Light Body, that's in the position of two o'clock.
- Then in the position of four o'clock, Joy and Happiness in a brightly illumined Warm Yellow Light is emanating from an Aspect of Divine Mother. She brings you Joy and Happiness with a touch of Gratitude.
- Then in the position of six o'clock, opposite the Cobalt Blue Mother, is an Aspect emanating a beautiful, beautiful Vibrant Pink Light. This is the Life Force Energy that holds within it Divine Love.

The difference between Divine Love and human love is that Divine Love is unconditional, it is given without expectation. It is always available; you can always go to it. It will never be taken away from you, for as long as you believe in it and for as long as you call upon this Aspect of Divine Mother, this Love and this Aspect of Divine Mother is willing to be in your service.

- Then in the position of eight o'clock is a Frosted Blue Aspect of Divine Mother who is overlighted by Goddess Victory's Light. Frosted Blue is Goddess Victory's Light and Platinum Shimmers are shining through the Light that is this Aspect of Divine Mother. That was position of eight o'clock
- And finally in the position of ten o'clock, more or less right in front of you right as you enter the room, is a Vibrant Orange Aspect of Divine Mother who is emanating the overlighting presence

of Cosmic Guardian of Divine Plan. I do ask you to envision that Cosmic Guardian of Divine Plan now goes and stands behind this Aspect. So the Vibrant Orange Aspect of Divine Mother is seated upon her seat with Cosmic Guardian of Divine Plan behind her in the position of ten o'clock.

- I also want to ask you to envision that Goddess Victory will go and stand behind the Aspect which is seated in the position of eight o'clock with the Frosted Blue and Platinum Shimmers. Goddess Victory is standing behind her and she is fully illumined with the Platinum colored robes,
- And in the position of six o'clock I want to ask you to envision that Beloved Mother of Universe with her Vibrant Pink robes will take her position.
- I want you to envision standing behind the Aspect that is vibrating the Energies of Joy and Happiness now there is an illumined Being, a Cosmic Female Being. This Being is new to you; this Being is the Cosmic Guardian of Joy. I will be introducing three new Beings to you. They have been petitioned to retrieve the Cosmic Aspect of specific qualities and bring them to Earth; and you are now meeting one of the new Beings. This is a tall Being, tall and slender, but her Energy is very large and wide. There are many layers of a Vibrant Warm Yellow Light emanating from her. In the very center is a deep bright- bright almost an orangey yellow Light and as it goes outwards the layers become lighter until the last layer is almost a lemony white, or a light colored lemon yellow.

You're still standing right at the gateway holding Divine Mother's hand and looking at what's going on right now, and we've started going counter clockwise, so that was the position of four o'clock.

- At the position of two o'clock, notice another female Being standing behind the yellow aspect of Divine Mother. Her Energy is like the Energies of the fairies and divas' that live in the forests. It's as though her body is leaning towards the trees and the plants. You could say she is a Nature Being similar to the Elementals, that is, if you thought of Elementals from the prospective of their Cosmic Energy. **This is a Cosmic Guardian of the Elementals for the plant kingdom, from the Cosmic Source. This Being has been petitioned by your very own Divine Mother to return Earth to the Energies where the Pure Essence for the perfection of the plant kingdom is revived and to bring the life force and nurturance you need to receive from the plant kingdom.**

Right now Earth really needs a great boost in Energy, the Vibration and the Light. That is what the plant kingdom needs. When this quality returns to earth, plants will begin to thrive; barren lands will begin to start growing plants, trees, bushes. Barren lands will call to themselves rain and gentle sun, and the deserts become forests. This Being offers her Grace, her Nurturance and her Life Force to make it possible. When her Grace is present that Life Force Energy or the life giving force which helps the plants grow is intensified. **This Being is now standing behind the Aspect of Divine Mother who is representing the Life Force and that type of nurturance, life and nurturance.**

- Finally we go back to the position of twelve o'clock. Notice that a very large, tall Being, emanating Cobalt Blue Light, is standing behind that Aspect of Divine Mother. I have petitioned her with the help of Great Silent Watcher, Goddess Victory and Cosmic Guardian of Divine Plan for this Aspect to come from the Cosmic Source and bring the **Feminine Life Force that Empowers all Creation.**

Now in the past during the reign of the Divine Masculine the same Cobalt Blue Energy was overlit by a Masculine Being. **What you are now witnessing is the transfer of that Energy from the Masculine to the Feminine. By petitioning this Aspect that carries the Qualities and Energy of Power and Protection to come forth and represent the Divine Feminine,** I have tilted the scale. We now have the representation from the Divine Feminine Council for the quality of Power and Protection by this Being who is bringing each of you and everyone on Earth Empowerment to be the embodiment of your Divine Mission, to accomplish what you have come to accomplish in this lifetime, to be a blessing to our world, to touch others. **She is here also to protect each of you who are indeed a blessing to our world, and are here to be the embodiment of your Divine Mission and know what your purpose in taking this life is. Why do you need protection? Because for as long as you are protected, you will be able to walk on the higher path. You need to be protected from swaying, from being distracted, from being delayed.**

So now, once again, before I ask you to go and sit upon the seat in the center I ask you to look around this room and see again, **going clockwise:**

In the position of twelve o'clock, an Aspect of Divine Mother with an overlit feminine presence from the Cosmic Source, both emanating Cobalt Blue providing Power and Protection.

In the position of two o'clock an Aspect of Divine Mother emanating the Life Force and the Nurturance of newly born leaves and plants with a towering presence from the Cosmic Source that brings the Nurturance and Life Force from its Cosmic Aspects at its purest back to Earth. Both these Beings are emanating that Life Force in the Green of new leaves in spring.

In the position of four o'clock is an Aspect of Divine Mother representing Joy and Happiness, with some Gratitude, and emanating Yellow, with a Cosmic Aspect who is now bringing the Energies of Joy which holds Happiness and Contentment and Gratitude from its Cosmic Source standing tall. Both of them are emanating a variation of the bandwidth of Joy that starts from a deep, deep Yellow, almost boarding orange in the center and layering outwards, becoming lighter and lighter until the outermost layer is a lemony, citrusy Green Yellow Light. Imagine an almost ripe lemon which has some light green yellow specks, and imagine that being the outer layer, the Energies broad and immense and intense but very gentle. Just looking at the Energy makes you happy, that is the position of four o'clock. From position of six to twelve you're familiar with these Beings.

In the position of six o'clock an Aspect of Divine Mother emanating Vibrant Pink with Mother of Universe standing behind her.

In position of eight o'clock an Aspect of Divine Mother vibrating Goddess Victory's Energies of Frosted Blue and Platinum, with Goddess Victory standing behind her.

In the position of ten o'clock an Aspect of Divine Mother emanating Vibrant Orange Light with Cosmic Guardian of Divine Plan standing behind her and sending her Warm Orange Light to magnify the impact.

Now I ask you to **go and sit in the center of this Grid on this beautiful copper gold colored velvet seat. The moment that you sit and get comfortable, a platform begins to rise and when you look you see that the platform is a triangle, and behind you, you become aware of the presence of Divine Mother who is now emanating the Copper Gold Light to you. In front of you to your left you become aware of the presence of our Beloved Great Silent Watcher, who is emanating to you, her Turquoise Blue Light, which is the Life Force from its Cosmic Source. And in front of you to your right is Cosmic Mother of Cosmos sending that Life Force Energy which is the Amber Light.**

Now I want you to become aware that **all of these Beings**, the new ones that you have become aware of and the others that you have always known **are holding their Scepters up. Aspects of Divine Mother seated are holding their hands with the palms outward pointing in the direction of center where you are seated. Those towering Beings who stand behind are holding their Scepters, including the ones who are in the triangle. Everyone's Scepter touches the Scepter of Great Silent Watcher who's standing in front of you to your left. So the point of the Scepter of the Cobalt Blue Being who stands behind Divine Mother in position of twelve, the Scepter of the immense Being who brings the Life Force and Nurturance for the plant kingdom in the position of two. The Golden Yellow Scepter of the immense Being who brings the Energies of Joy in the position of 4, the Scepter of Cosmic Mother of Universe who's emanating her powerful Vibrant Pink. The Scepter of Goddess Victory who's emanating her Frosted Blue and Platinum and the Scepter of Cosmic Guardian of Divine Plan who is emanating her Warm Orange Light are all touching the point of the Scepter of Great Silent Watcher. Added to that is the Scepter of your very own Divine Mother and Mother of Cosmos who are at the points of the triangle with Great Silent watcher in the inside.**

Now watch what happens when **all of the Scepters points begin to fuse together.** As the fusion happens, you will notice that **Rods of Light shoot out as if an electrical charge is being dispersed; creating a dome that encompasses this entire Grid of Light.** We have **six Aspects of Divine Mother with six Great Beings who are standing behind them, that's twelve.** We also have **the triangle around you, that's fifteen, so fifteen Beings. Six of them are sending the Energy from the palms of their hands, the six Aspects of Divine Mother and the nine- that includes the nine Beings who stand behind each Aspect and the three in the center. They are fusing the Energies of their Scepters. The power that emanates from each Scepter creates a dome. When you look at this dome it looks like a soap bubble where all the colors of the rainbow are represented. Or you can say it is like looking at an abalone shell, except it's transparent, so a soap bubble with strong rainbow colored Lights emanating from it. Feel the shower of the Rainbow Colored Lights. The shower is coming to you as if spritzed in the air, as if someone is spraying the Light and each of the colors of the rainbow have their own aromatic smell, so you can almost smell and taste jasmines and gardenias and roses, and different rose scents as you breathe and you fill your lungs with this Light, and you feel lighter yourself and you feel connected to the combined Energies of all these Beings. You notice that the Energies are being absorbed to your Chakra System, to your organs, to your DNA structure, to your cells, and it is also expanding into your Five Body System and to your Light Body. This Energy that is the combined Life Force, combined Love Energy, combined Nurturance, Protection, Power and Joy, it is now expanding and moving through your body, Five Body System Light Body.**

I am going to ask you to take a moment and invite your loved ones, you can see them sit on the chair with you on your seat, you can see them individually sitting on their own, you can see them all gathered around, everyone of them inside this dome of Light, inside this huge soap bubble, this rainbow bubble of Light. Every one fully illumined, every one absorbing, their Chakra System, their Five Body System, their Light Body bathing, everyone breathing and smelling, and feeling the joy and being uplifted. Take a moment and call everyone.

Remember in the course of the month to come here as many times as you like. We are going to **spend time with these Aspects of Divine Mother and these new Deities, these new Guardians. We're going to work with them and help them anchor the Energies through each of you. This is a very important task. It's an immense service. These Beings can come but they can't accomplish anything unless all of you are here willing to receive what they give you, willing to receive their gifts and able to maintain the higher vibration, able to anchor the higher vibration, able to bring your loved ones to receive and to magnify the impact.**

This is why these meditations are so important, our monthly Gateway Portal Channelings as well as our events on Solstice and Equinoxes. The first of this year is coming up on the 20th of March. I invite all of you to participate. The higher we step in bringing and anchoring of the Energies. The more you participate, the greater we can shift the Energies of this year; the better we can pave the path for everyone else to join; for Earth to find her own purpose, her own Divine Mission; and for the consciousness of all souls to gravitate towards the Light. **You are doing an immense act of service seeing yourself and your loved ones and even the not so loved ones inside of this abalone shell colored, transparent dome or bubble and being aware of the presence of all of the Beings in each of the positions and knowing that everyone wishes you the greatest success, joy, empowerment, life force, protection, success, healing. Every one of these Beings wants you to succeed; your success is their success; your success is Earth's success.**

Stay in this position and let the Energies be absorbed. Commune with each of these Beings for as long as you wish, I hold you in my own heart. It makes me very happy when we anchor the Energies easily. This was an easy one even though it has an immense impact. I thank you with all of my heart I Am your very own Divine Mother. So It Is.

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you Nasrin, thank you Divine Mother, I thank all of you until next month and hopefully we will see you at the Spring Equinox ceremony on the 20th, goodnight.
