Hello everyone this is Jim and welcome to the 4-4-2014 Gateway Portal Channeling. I thank you all for being here, for offering yourself in this service, giving of your time and your Life Force. Take a deep breath and we will begin.

Visualize that you're standing on Uluru, the great red rock in Central Australia, great vortex of Light. Be aware that everyone that is on this call is also standing with you creating a group Energy on top of Uluru. Feel the rock beneath your feet, feel yourself connect to Uluru and connect through Uluru to Mother Earth. As you feel the heartbeat of Mother Earth begin to pound in sequence with your own and synchronize with your own, we begin to slide into Uluru. As you find yourself inside Uluru, the Warm Red Light of Uluru is all around you filling you with sustenance and nurturance as you gently slide down. See your hara line- the line, the Pillar of Light that extends from the bottoms of your feet and tailbone- all the way to the center of the Earth through your Earth Crust Chakra illuminated.

We ask Divine Mother to surround us with a cocoon of Copper Gold Light and her own Copper Gold Light- as we find ourselves in the heart of Divine Mother. Goddess Victory comes forth and places Mother and us in her heart forming a cocoon of Light Pink with Gold Filaments around Mother's cocoon. Great Silent Watcher takes us into her own heart surrounding the other two cocoons with Turquoise Blue Light of Great Silent Watcher, holding us in Protection, Fearlessness and Divine Power.

We slide towards the center of Earth through Uluru and we extend roots from the bottoms of our feet down to the Core Crystal roots. Imagine roots growing out of the bottoms of your feet through and down to the hara line around the Earth Core Crystal of Mother Earth.

See a tree trunk forming around you; extending its roots down to the Core of Mother Earth, around your roots. See that the tree trunk extends up through the realms into the Pool of Creation and see this tree trunk bathe in Emerald Green Light. The bark of the tree trunk pouring Emerald Green Light into everything that moves up and down within it. We pull the Amber colored Life Force Energy of Mother Earth from the Core Crystal up through our roots, just like sap in a tree. It moves up to the bottoms of your feet into your body, your Five Body System and your Light Body, through all of your Chakras, clearing and cleansing your body, energizing your body with the Life Force Energy of Mother Earth. It continues to move all the way up through the tree trunk into the Pool of Creation.

We ask Cosmic Mother of the Cosmos to pour her Cosmic Life Force Energy which is also Amber colored Light, into the Pool of Creation and down through the tree trunk. The branches and leaves of this tree extending into the Pool of Creation, pulling the Life Force Energy down through the tree trunk into your Crown, moving through your body all the way down to the Core Crystal. Through you we are moving the Life Force Energy of Mother Earth up to the Pool of Creation and pulling the Cosmic Life Force Energy down from the Pool of Creation to Mother Earth, as we continue to slide down into Uluru and to the Core Crystal.

You see that you're standing in the center of Mother Earth before the Sacred Altar. Divine Mother is to your right in her Copper Gold robes, Goddess Victory to your left with Pink, bright Pink, Frosted Pink colored Light robes with Gold Filaments. Across from us, across on the other side of the Sacred Altar

Great Silent Watcher holding her Scepter of Power above this entire entourage pouring the Turquoise Blue Light into the fire and to everyone, creating a dome around this entire entourage. To the right of Great Silent Watcher is the Perfected Presence of the Masculine Aspect in the Emerald Green Silhouette. To Great Silent Watcher's left, the Feminine Principle is in Pink and Gold, and next to her the Cosmic Guardian of the Divine Plan is in Warm Orange colored Light. To our far left beyond Victory is Mother of the Universe in Vibrant Pink. To our far right beyond Divine Mother is Mother of the Cosmos in her Amber colored Light. The Three Omniversal Mothers standing behind us in Purple is the first, the second in Aquamarine Blue, the third in Clay Red and Gold. 144,000 Silent Watchers are standing shoulder to shoulder around this entourage in Turquoise Blue Light. Outside of them in circles upon circles the Angelic Watchers, two billion of them also in the Turquoise Blue of Great Silent Watcher.

As we make our offerings to this Sacred Altar we see that the Golden Filaments have formed the Bridge to the 5th Dimensional Octave just beyond where we're standing. We all together walk across the Bridge to the 5th Dimensional Octave, Victory leading the way, Great Silent Watcher bringing up the rear; we're holding the hand of Divine Mother. As we get to the hexagonal gateway and see the colors which will change, recalibrating us to move into the retreat of Divine Mother, first Purple, then Magenta, Blue, to Green, to Yellow, to Orange, to Red, Magenta and Purple again. The gateway opens and we walk into Divine Mother's retreat into the great hall, to the center of the great hall to stand before this Sacred Altar; our entire entourage is with us. They take up their same positions that they were in at the Core Crystal. We see Divine Mother this time sitting on her Throne across from us, and on either side of her on Thrones on either side of Divine Mother, are Goddess Shakti and Lord Shiva in the presence of all of these Great Beings.

Take a moment, set your intentions, and make your offerings to the Sacred Altar. I will give you a moment and the next voice that you hear will be that of our Beloved Nasrin. So It Is.

Nasrin begins: 8:35

Hello everyone and welcome. The 4-4-2014, this is a very important Portal Day. I would like to tell you that Jim and I are traveling and therefore if the connection is rough or it gets severed we will continue and the audio will be posted in the next couple three days and you may receive it that way. If you happen to be disconnected I ask you to continue to sit in meditation with us and set the intention that you will receive all the benefit of this ceremony. Let us take a deep breath and make our offerings to the sacred fire and invite our Beloved Divine Mother to come forth and speak to us.

Divine Mother begins: 9:40

My Beloved Children of Light I Am your very own Divine Mother. I would like to tell you that this month the Earth is going to go through a lot of changes. It has started already a couple of days before April turned, and it will continue throughout the month. It will be a combination of natural events that Earth needs to bring to the surface for her body cleansing and that will trigger people who are unstable to do things that will be detrimental for themselves and cause further complications. Because of all of that I would like to offer you an important healing exercise.

So while you are standing around the sacred fire I am going **to invite from the inner chamber the presence of all six Aspects of Divine Mother that we have been working with in the course of the last three months. I am going to invite the presence of Great Silent Watcher to hold her Scepter of Power above her head and connect from her Scepter of Power to the Scepters of all the Beings who I am about to invite.**

First of all I ask **Goddess Victory to hold her Scepter up and connect with Great Silent Watcher. I ask Goddess Victory to bring the Energies of Victory to Earth and help Earth, pouring the Energies of Victory into the Five Body System of Earth and the Light Body of Earth and connecting by touching her Scepter and her Torch of Victory with Great Silent Watcher's Scepter. I'm asking Great Silent Watcher to pour the Energies of Turquoise Blue Light of Fearlessness, Empowerment, and Protection to create a dome around every individual present here so that each of you is able to continue on without distraction.**

Envision a suspended miniature Aspect of Mother Earth right above the sacred fire. Envision that the Energies of Goddess Victory with the Quality of Victory and Great Silent Watcher, with the three Qualities of Fearlessness, Protection and Empowerment pour down to Earth and to Earth's Five Body System. This is to stabilize Earth with all the natural disasters and human made disasters that are unfolding. These disasters come to the surface to stabilize Earth and to release the pain and the wounds, the corruption, the mistrust and the negativity that Earth has picked up. This will help the generations of humankind and all species that are on Earth to relieve themselves of all their burden, of all the lifetimes of struggling. This is a form of lightening of the burden of Earth.

So, imagine in your mind's eye that a miniature Aspect of Earth is suspended up in the air, right above the sacred fire altar. **The circular altar has the fire jumping up. Fire has her own cleansing mechanism and we invite the Element of Fire to send the cleansing flames to caress and to release Earth's Five Body System. All the souls that depend on Earth, all the species who live on Earth are to receive these healing Energies. The healing Energy of Fire that burns the karma, the pain, the disease, the Healing Energies that Goddess Victory brings as she pours the Energies and Qualities of Victory. The Healing Energies that Great Silent Watcher brings that represents her Protection towards Earth and all species of souls, her Empowerment for all souls to be raised, to be healed, to be brought to perfection, and her Empowering Protection. Protection from ever absorbing anymore dross, ever pulling anymore negativity.**

I ask Cosmic Mother of Cosmos- if you don't know these Beings that I am calling, if this is all new to you just accept that these are Deities that have been called at the most high levels of the Hierarchies of the Dimensions. They come to restore Earth to the Perfection of Original Intent, a perfection that was originally intended in the Divine Plan, the perfection that each of you deserve. **Mother of Cosmos is pouring her Amber Light and holding her Scepter and making a triangle with Goddess Victory and Great Silent Watcher and she's pouring the Amber Light to Earth and Earth's Five Body System.**

Now I am calling upon two Cosmic Beings, one is **an Aspect of Divine Mother; the other is the Cosmic version who is offering her Cobalt Blue Light of Power and Protection. This is the Divine Power and the Divine Protection which was originally intended for Earth at her Divine level. This Energy, this Cobalt Blue Light that is now pouring from these two Beings who come and hold their Scepters and touch the Scepters of others, these two Beings carry the pure essence of Power and Protection and they bring it to each of you and they bring it to Earth. Everything that we are now offering to Earth and her Five Body System is also offered to each of you individually in gratitude for your service, and you may extend it to all your loved ones. Because you are offering your service, everyone you call and you request, can receive it, even if they don't believe in any of this.**

This is not a tangible thing but **there is a great deal of service that you provide in raising the vibration of Earth and in releasing the negativity, and that earns you great merits and that merit in all aspects of it, is extended to everyone you choose to call and bring to the mix. Feel free to invite everyone, even though as I said they might not believe in all of this. Because you ask that they**

receive it, they shall, and their soul will benefit from it, their consciousness will benefit from it and at some point as they begin to awaken they will walk the path themselves.

I call upon the Aspect of Divine Mother illuminated with Green of Life Force and Nurturance and the Cosmic Being who brings Life Force and Nurturance from its Cosmic Aspect, the pure essence of Life and Nurturance, to come and stand holding their Scepters and touching the Scepters of others. The significance of these two Beings is that they bring Life to all areas of Earth and to all areas of your own Five Body System that have dimmed in that Life and Nurturance. All the barren lands, all the lands that no longer yield ultimate results, to all the hearts and minds and organs of every soul and every species, to the Five Body System of every soul and every species, to the Five Body System of Earth and through all the Hierarchies and Dimensions. This Life and Nurturance, Life giving Nurturance that is the essence these two Beings emanate, are extremely beneficial and will change the course of Earth's history, in that they will restore life. They will nurture all forms of life. They return to Earth that Life Force, the Nurturance, the Divinity that is now missing and has been missing for a few thousand years. By raising the vibration of Earth, by bringing this Green Life Force Energy to the mix we will change the paradigm and we will improve the course that Earth is taking. The generations of your children and grandchildren and great grandchildren will be the benefactors of you anchoring these Energies, receiving, absorbing and expanding these Energies to others, to your loved ones.

I call forth the pair of Beings, one an Aspect of your very own Divine Mother who carries the Warm Yellow Light that carries the Energies of Joy and Happiness with Gratitude, and the Cosmic Aspect, a female Being who carries the ultimate Perfected Essence of Joy and Happiness with Gratitude. You know life on Earth has become a struggle and so you do a lot of things that don't make you happy, but you have to do them for survival purposes, for protection of your loved ones, from struggling. You build nest eggs for those you love. You protect them from struggling as best you can. **Imagine what it would be like to do everything you do in joy without feeling that you are struggling. That's the Essence, the pure Essence of Joy and Happiness with Gratitude.** Imagine always living in that joy of taking every breath and feeling gratitude move through you, feeling happiness, joy. **We ask these two Beings to come to the sacred fire and hold their Scepters and touch the point of Scepters of others and pour their Energies to the miniature Aspect of Earth and extend it to the Five Body System of Earth and to expand it to all creatures of Earth, to all dimensions and realities, pouring Energies of Joy and Gratitude, Happiness and Gratitude, Joy and Happiness.**

We call upon the Energies of the Aspect of Divine Mother that carries Divine Love. She comes in with the Cosmic Aspect that is also a Being known to each of you, Cosmic Mother of the Universe, emanating Vibrant Pink and the Divine Mother Aspect is also emanating the same. The two of them come and stand holding their Scepters up touching the Scepters of all others and pouring the Energies of Divine Love and the Cosmic Aspect of that Love. True love, not conditional love, but unconditional love, love that always stays true even when it's not reciprocated, love that penetrates through all hearts and even through all minds. Imagine the difference between loving with your heart alone and loving with both your heart and your mind. Imagine aligning your heart and your mind in such a way that there is no doubt or question.

A lot of times your heart says one thing and your mind says another. Imagine aligning those two where you are a hundred percent certain in every aspect of your being that you are walking the path of love, that you are doing the right thing, that you are loving in the right way and those you love are worthy recipients of your love and they will reciprocate your love and the love will blossom and bloom, expand and nurture everyone it touches. That's the kind of love these two Beings are returning to Earth and bringing back to the hearts and minds and souls of all creation. We ask them to come and stand and hold their Scepters up,

pouring their Energy, pouring their Love to the Earth and the Five Body System of Earth and to each of you and those amongst your loved ones who are present with you....

I am pausing here as I am sending each of you that Divine Love and I am gathering your loved ones and I am magnifying the impact of all that is being poured into the sacred fire.

Once again I am inviting the Aspect of Victory that is held in Divine Mother's own personalized Aspect with Goddess Victory who has already joined in. We ask for another magnified blast of the Energies of Victory for Earth to expand, blossom, and bloom by receiving and anchoring the Energies of Victory, for all humankind to absorb, expand, blossom and bloom through the Energies of Victory, for all Five Elements to expand, for all the waters to become pure, for all Earth to become fertile, for all air to become pure, for fire to become loving and only cleanse and purify without destruction and for the Element of Ether space, invisible Light that holds this Universe together, to lovingly bathe all Earth, all species of creatures in its purity.

I now call the Energies of the Aspect of Divine Mother who carries the Pure Light of the Divine Plan and the Cosmic Guardian of Divine Plan who carries the latest and the best and the highest of Divine Plans. The Divine Plan that supersedes and overrides all previous plans, even overriding the original plan in such a way that this time, this Divine Plan cannot be corrupted, cannot be diminished. A Divine Plan for Earth, for humankind, for all species, for all creation, for all Dimensions and Hierarchies to blossom and bloom, expand and enhance life in all aspects of it through all Five Elements. The highest and the best of all events and circumstances, the highest and best of any idea, any seed thought form that Earth might dream of reaching and higher. We call upon the highest idea, the highest design, the highest concepts to be brought into manifestation.

We ask the Cosmic Guardian of Divine Plan and the respective Divine Mother Aspect who carries this Warm Orange, Vibrant Orange Light, both of them to come and stand and hold their Scepters and pour down their Light. We ask Earth to be receptive, we ask all species of creatures to be receptive and we ask a magnification of that Light for each of you and your loved ones.

Now I am going to petition this Cosmic Guardian of Divine Plan and the Aspect of my own self who's responsible to bring that Divine Plan to Earth and to all of you, to call upon the scrolls for each of you. The scrolls that carry the highest of Divine Plans etched into your future. These scrolls carry the highest of Divine Plans in the form of seeds. These seeds that are seeds of ideas and designs, seeds of events and circumstances that are etched into the scroll in the form of fire letters and symbols and hieroglyphics, that simply their presence drawn or etched into the fabric of the scrolls would trigger their manifestation into your life.

Now I ask each of your scrolls to be brought into manifest form and held under the Scepters so that the Light, the Life Force from each of these Beings and the Qualities they carry can pour into the Scepter, into those seeds and symbols and trigger the manifestation, enhance the manifestation, magnify the impact, bring the manifestation of those events and circumstances into your present reality and start moving you in the highest direction without any delay, without any distraction. Transmuting whatever obstacles there may be on the path for each of you and paving the path for you to receive, absorb, expand and enjoy, enjoy every moment of this life, enjoy every breath you take, live life to the fullest, and enjoy everyone you meet, every path you cross, everyone you touch, every life you enhance.

Now as the final gift, I stand with all of these Beings and I hold my own Scepter above my head touching the Scepters of all of these Deities, and I will pour my Copper Gold Light upon the planet and its Five Body System and upon the Five Body System of each of you and each of your loved

ones, and every soul and creature in all Dimensions and Hierarchies of this planet. I will call upon all Beings who serve the Divine Feminine Council, all Beings who serve Divine Mother to come and offer themselves in service to you and to all that you do on behalf of Divine Mother.

Now you are going to feel that the place around us is becoming very crowded. What we shall do next is to ask each of you to **envision yourselves to be suspended above Earth and directly under your own scroll as the pouring of the Energies of the Scepters of all of these Beings continues. As the Scepters of the new Deities I have invited, some of them, most of them are as yet unknown to you, but these are all Beings who work well with me and with this new plan. I have invited them to bring their own Qualities and Energies to add to the mix and. What I ask you to do, is that each of you experience yourself suspended above the Earth and below the scrolls, each of you laying directly under your scroll, every Scepter point pouring down to your scroll, and from your scroll to each of you.**

As the Qualities and the Energies pour to the scrolls, the hieroglyphics, the symbols, the seeds are awakened. As they pop open and begin to expand, they enter into your Five Body System and your Light Body and they activate you in your entirety. They find where they belong, where each event and circumstance belongs in order for it to become part of your being, part of your experience, part of your future. They therefore lodge themselves into your Five Body System Light Body exactly where they belong so that they can unfold, so that they can magnify the right people, the right places, the right situations, the right things to you for the highest manifestation of the best possible future.

Now in order to fully receive everything that everyone is offering each of you I ask you as I close this conversation, but work with each of you individually, **give me ten minutes of your time and lay down or sit in meditation. Envision yourself in that exact position while you imagine that all these Beings, all these Deities are constantly pouring down their own individual Qualities, transmuting all that is no longer beneficial and enhancing, awakening, improving all that is to your best interests. Lodging that Quality, the events and circumstances that best serve you into your Light Body and your Five Body System, with myself and the six Aspects of Divine Mother which we have been working with for the past few months, and the six Cosmic Beings who support them, and all the other Beings such as Goddess Victory, Great Silent Watcher, Mother of Universe, Mother of Cosmos, Cosmic Guardian of Divine Plan and myself, as well as all these Deities continue to work on your Five Body System and Light Body, continue to enhance the reception of the Qualities and the Energies. We shall continue to work on you for the next ten minutes.**

I ask you **in the course of the next month, once a day place yourself in this position and ask for the shower of the Energies. It matters not if you sit or stand, or you're at work or you're driving or you're asleep. What matters is for you to call upon the Energies and ask for the next layer, the next layer, and the next layer after that, for the course of the next month so that each day those Energies are enhanced and improved upon. So that at the end of the month when we come back together for 5-5 you have built a strong foundation with multiple layers, these layers will help accelerate and magnify all those events and circumstances that will become your future.**

Let us begin with our individual healing for each of you. You are lying directly below your own scroll. Above the scroll the Scepters are touching, the Energies are pouring, the Energies pour into the scroll and cause the popping open of each of those hieroglyphic symbols that enter into your Light Body Five Body System and lodge themselves, expanding inside your body to attract and to unfold the highest and the best events and circumstances, the highest and the best Qualities of all the Beings that are present, and for each of you to be individually fine tuned to each of these Energies while Divine Mother tends to each of you personally.

I hold you in my own heart with great love and I thank you for this service. Until we meet again next month at 5-5, I will be holding you in my own arms. I Am your very own Divine Mother. So It Is.

Nasrin concludes: Thank you everyone and goodnight. Don't forget the ten minutes.

Jim concludes: Thank you Nasrin, thank you Divine Mother and I thank all of you, goodnight and we will see you next month. So It Is.
