So now remember we're standing on top of Uluru with everyone in this group entity and you've glided into Uluru. You see the Red Light of Uluru all around you clearing your Chakras, removing all the dross. Now illuminate your Hara Line, the Pillar of Light below your feet that extends from you, all the way down to the Core of Mother Earth, to the Core Crystal, and focus on your Earth Crust Chakra which is right below the bottoms of your feet, about 10 to 12 inches below the bottoms of your feet. As you're gliding through Uluru that Red Light is mixing into your Earth Crust Chakra clearing it, cleansing it. So this Pillar of Light that you've extended from the bottoms of your feet to the Core Crystal, send your roots down around it all the way down to wrap around the Core Crystal of Mother Earth.

See that a tree trunk has formed around you, this tree with its roots wrapping around your roots and holding you tight to the Core Crystal all the way up to the bottoms of your feet, and the tree trunk extending around you and all the way up through the Thrones, through the Heavens above to the Pool of Creation where the tree branches out and the branches and leaves extend into the Pool of Creation.

See that the outside layer of the tree trunk of this tree we've created is an Emerald Green. It's a thick bark of Emerald Green pouring the Light of Abundance and Healing and Wholeness to everything, to you and to everything that moves up and down this tree trunk. As you focus on your roots wrapped around the Core Crystal and the tree trunk's roots around yours, pull the Amber colored Life Force Energy up with your roots. The Amber colored Life Force Energy of Mother Earth is moving up like sap up through the roots to the tree trunk and up into the bottoms of your feet. Feel and see that Amber colored Light moving up through the bottoms of your feet, your ankles and legs, and as it does it brings that Life Force into every tissue, every blood stream, every cell of your bones rejuvenating your body. Let it move all the way up into your hips, your torso, your shoulders, down your arms and hands, up your neck, and into your head and pours out of your Crown up into the tree trunk all the way up to the Pool of Creation, where it spreads out into the Pool of Creation's Amber Life Force Energy of Mother Earth.

We call on the Cosmic Mother of Cosmos; she pours her Life Force Energy into the Pool of Creation and down to the tree trunk. That Light is also an Amber colored Light, a richer more vibrant Amber colored Light and it pours down through the tree trunk into your Crown Chakra, into your head cavity and mixes with all the tissues of the body, your nervous system, your blood system, all the way down through the body and all the Chakras, out the bottoms of your feet and down the root system all the way to the Core Crystal of Mother Earth where you've been the catalyst to pull from the Center of the Earth the Life Force Energy of Mother Earth all the way up to the Pool of Creation, and down you have pulled the Cosmic Life Force Energy.

As these two streams continue to move, feel yourself slide up through the tree trunk along with the Amber colored Life Force Energy. We're going to move all the way up through the tree trunk, through the heavens above to the Pool of Creation. You find yourself swimming in the Pool of Creation, Amber colored Light all around and you pull yourself out to stand on the deck beside the Pool of Creation. There are two Angels there just for you holding trays which have your robes and cape and your crown which they put on you and your Scepter, your Scepter of Power which you pick up with both hands.

We all together move towards the Throne that we see in front of us where Divine Mother is sitting, and as we approach she stands and holds her arms out with her Copper Gold Light pouring onto us, her cape of Copper Gold held out in both hands. As we move close she pulls us into her bosom, wrapping the Copper

Gold cape around us and filling us with the Love and the Light of Divine Mother. Take a moment and connect with Divine Mother and with her loving Energies and tell Divine Mother whatever you would like from your heart to express to her.

Now in the bosom of Divine Mother we will move down through the Thrones to the 13th Dimension, we move into the Throne of the I Am That I Am. You see the Sacred Fire before us as we're still in the bosom of Divine Mother, and she goes to sit on her Throne, the Throne that is beaming the Light Peach colored Light, the combination of the Yellow Light of Joy and Gratitude mixed with a little Red for Passion and Action, a Light Peach colored Light.

We sit and take a moment and feel as Divine Mother merges with the Energies, the Perfected Presence of the I Am that I Am, as the Divine Feminine mixes with those Energies and we not only witness but play a part and send our Signature Energy to mix with the Energies of the Divine Feminine and the Perfected Presence of the I Am that I Am. Take a deep breath and feel this now Golden Peach Pink Light, Golden Peach Light that is the mixture of Divine Mother's Copper Gold and the Light Peach of the Perfected Presence of the I Am that I Am. Feel and connect with your Higher Self and invite your Higher Self to once again pour into you as you sit with Divine Mother in these Energies.

We ask for a greater potency and a greater vastness of our own Higher Self to pour in as we have worked for a month to cleanse ourselves and to clean and clear all the dross, all that we've pulled from past lifetimes out, and allow more room to pull more of our Higher Self into our body and our being, and as you continue to go deeper and do that inside the bosom of Divine Mother sitting on the Throne of the Perfected Presence of the I Am that I Am. I'll give you a moment to go deeper and to set your intentions and the next voice you hear will be that of our Beloved Nasrin. So It Is.

Nasrin begins: 9:14

Hello everyone and welcome. As you bathe in the Energies of the I Am that I Am in the bosom of Divine Mother absorbing the Golden Peach Light be reminded that we are in 9-9 which is Divine Mother's own numbers twice, and we are in a full moon three quarters into the year. 9 is the number for completion, this is the zenith of the full moon. Any intentions that you set on a full moon, more magnified by a Portal day, a Portal day that has the Signature Energy of Divine Mother, those intentions brought before Divine Mother are magnified and their attainment is accelerated. So for the next 48 hours please remember that we are moving into very intense Energies that are perfect for manifesting the objects of your desires.

As we stay in the Energies of Divine Mother, together bathing in the Throne of the I Am that I Am, pulling the highest aspect of the Higher Self, let's intend that every member of this group, everyone who has ever crossed paths with anyone of us from this group, every one of our loved ones awaken and receive the highest and best of everything for the rest of this lifetime. As we sit in the bosom of Divine Mother we pray for all of our loved ones. We pray for peace on Earth, we pray for higher consciousness for all humankind, we pray for Mother Earth to find her own peace and abate the natural disasters and heal the wounded hearts of all human beings and all species so we can all live peacefully and harmoniously together. All these meditational exercises and the anchorings that we do are to get to that place of peace and harmony where every human being is awake and we don't fight with each other, we don't greed over resources, we share, we love, we live peacefully and harmoniously with each other, with all other species, and love our planet and on this auspicious day let us set that intention for ourselves, for our loved ones, for all humankind, for all species, for Earth, for all consciousness that depends on Earth.

Divine Mother begins: 13:44

My Beloved Children of Light I Am your very own Divine Mother. I am pleased to inform you that Great Silent Watcher has a great gift for all of you on this important occasion. I ask you now to envision

that Great Silent Watcher is standing behind the Throne of I Am that I Am holding her Scepter of Power above the Throne, above Divine Mother's head while I hold you in my bosom.

I want you to please look up and see that she is wearing her usual Turquoise Blue ceremonial robes but there is something slightly different in the Energy that is emanating from Great Silent Watcher. The Turquoise Blue Light has a touch of Cobalt Blue that makes the color bluer. Great Silent Watcher has brought this added layer of Cobalt Light which resonates to the Energies of Divine Power and Protection to add to her own Turquoise Blue. From this moment on as I reside with you in my bosom upon this Throne, she will hold this specific bandwidth of her own Turquoise Blue mixed with Cobalt to add power to everything that we do together, and to everything that you do for Earth, for humankind, for yourself and for your loved ones. She offers this Cobalt Blue Light of Power and Protection on top of her own Turquoise Blue Light of Empowerment, Protection, and clearing negativity, we call that Fearlessness. When all fear is released there are no negativities. When all negativities are removed you become fearless.

What I ask of you now is to feel the beams of Light that have streams of Cobalt with Turquoise Blue pouring from Great Silent Watcher's Body, from her Ceremonial Robes and from her Scepter down upon the Throne and unto us. Remember that the Throne is emanating a Copper Gold Light that is the Light of Divine Mother mixed with a Warm Yellow Light that is the Light of the Throne with a drop of Red to add Action, Passion and Motion. That was that Peach mixed with Gold, which once I became fully imbued with the Energies of the Throne and the Throne became fully imbued with the Energies of Divine Mother, everything in the surrounding, everything from the Throne to everyone turned to this Golden Peach Light.

The Golden Peach Light of the Throne that is emanating to us is now absorbing the Turquoise Blue with streams of Cobalt. The colors don't change, what will transpire from this new layer that Great Silent Watcher brings forth is an addition where you will see a halo, like a blanket or a cloud, expand around the Throne, while the Throne is emanating the Peach with Gold. There is an outer layer that encapsulates the Golden Peach Light and emanates the Cobalt Blue of Power and Protection together with the Turquoise Blue of Empowerment, Fearlessness and Protection. The two layers of protection are separate. Turquoise Blue gives you protection from negativity, from lower energies. Cobalt Blue gives you protection from disempowerment, protection from giving your power away, protection from being powerless. It enhances you taking control and resonating to Divine Power. The two go hand in hand. One protects you from lower energies, the other protects you from leaking or disseminating or dispersing the Higher Energies. In that way you stay encapsulated in the Higher Energies of Divine Power and you are empowered in your day to day lives.

As you absorb these Energies I ask you to remember what we did last month and I will remind you and we will repeat the exercise of last month with this addition, this phase two where the layer of Turquoise Blue mixed with Cobalt Blue as the gift of Great Silent Watcher is added for extra protection and extra empowerment. I ask you to continue to bathe in these Energies and imagine that an aspect of you stays right here bathing in the Energies and you go deeper and deeper as the Cobalt Blue mixed into the Energies of Turquoise Blue of Great Silent Watcher penetrates into all layers of your 5 Body System and Light Body protecting you, sealing your 5 Body System and Light Body and raising your vibration.

I ask you to set the intention that on this auspicious occasion with the heightening of the Energies, the next level of your Higher Self who is in tune with the Copper Gold Light mixed with Peach of the Throne with the added layers of Turquoise Blue and Cobalt Blue, now move through the Aspect of Higher Self which will be presented to you from within the essence of the I Am that I Am. We ask this through the intersession of Great Silent Watcher who has presented the opportunity for all of you to receive these heightened Energies.

You will experience that you are exposed to the Energies of your own Higher Self. You may feel the presence of this new Aspect of your Higher Self vividly and when you do, feel free to merge as though one and the other become one. If you cannot clearly see or feel the Energies, set the intention that through Great Silent Watcher and Divine Mother's intentions and intersession the merging will happen fully.

Imagine that you have fully embraced and accepted the Energies of your Higher Self who is also resonating to the Energies of the Throne, the Energies of Divine Mother and the Energies of Great Silent Watcher, with the added Cobalt Blue Light. Think of it as a form of you folding yourself inside, like you fold as you beat an egg into a creamy texture. As your Energies merge into the Energies of your Higher Self you begin to gently spin for the full merging of the Energies of your Higher Self into your Body, your 5 Body System, your Light Body. At the same time your Body, your Light Body 5 Body System is folding into the Higher Self, so there is no separation. There is the experience of complete oneness.

We pause for a moment, I ask you to breathe deeply and remember this moment, and when you revisit this exercise and perform this meditation you can stay here for as long as you wish. When we complete this exercise I will ask you to come back to this place and this moment and lay down for a few minutes for Great Silent Watcher and myself to readjust the merging of you into your Higher Self and your Higher Self into your Body, 5 Body System Light Body.

For the process of merging to be complete your Higher Self must reside within your own body. Therefore together we will take this journey where the merged and reconnected aspect of you fully united with your Higher Self will take the journey down the Antahkarana Cord with Divine Mother. So imagine that you and your Higher Self come back and sit on Divine Mother's lap and merge into the Copper Gold Light of Divine Mother as if you have been absorbed into Divine Mother's own heart. You're bathing in the mixture of Copper Gold with a Peach Light. So a Golden Peach Light which now also carries the Turquoise and Cobalt Blue Lights and then together we will spin down from the 13th Dimension and move down the Antahkarana Cord until we reach to the Disc of the Moon which sits on top of your Lotus above your head, on your Crown Chakra.

We allow the Disc of the Moon to be recalibrated then the Energies will seep from the Disc of the Moon into the petals of your Lotus, then from the petals of your Lotus into your Crown, then into your head cavity, then down your throat into your chest cavity. When they reach your Cosmic Heart Chakra just below your Throat Chakra a gentle spin begins. This is so the new Energies of your Higher Self can merge into your Cosmic Heart Chakra and unite with the old Energies of your Higher Self who paved the path last month for this next phase. So this is another level of merging. Again seeing it as one stepping into the other and one folding itself into the other to the point where there is no separation. See it as a form of union, think of it as having two half glasses of liquid and you pour the liquid from one glass into the other and it fully merges and the glass becomes full. Imagine your Cosmic Heart Chakra is now full. Full with the presence of your Higher Self at the highest caliber that you can absorb raising your vibration emanating from your Cosmic Heart Chakra as it gently spins, expanding into your entire body then extending outward into the 5 layers of your 5 Body System from your Physical Body to your Etheric Body to your Emotional Body to your Mental Body, to your Spiritual Body and then extending further into your Light Body.

The color of Light Body is always overlit with the Turquoise Blue of Great Silent Watcher. This is for your benefit. Great Silent Watcher has placed her Turquoise Blue into your Light Body for protection and to heighten the Energies of your own Light Body because your Light Body is your vehicle that allows you to do these meditations. It raises your vibration; it connects you to Divine Mother and the higher realms, it unites you with your Higher Self and the guides as well as the Angelic and Celestial Beings who take care of you and also the Elementals who are meant to take care of your body and all your body's needs, including the needs of your 5 Body System and your Light Body.

Now envision as these Energies have spread all the way into your Light Body that the color of your Light Body illuminated with this new Light has a touch of Cobalt Blue mixed with the Turquoise Blue and feel that bubbly warm and fuzzy sensation like a happy tingling, a joyful experience from this new heightening of the Energies. This is a home coming for your Light Body; this is a familiar sensation for your Light Body. This is the next level of awakening for you, but for your Light Body this is simply a home coming, an event that your Light Body has been waiting for, for many thousands of years.

So keep envisioning this level of expansion, and let this expansion continue from your Cosmic Heart Chakra into all parts of your body, into all parts of your 5 Body System and into all parts of your Light Body simultaneously envision yourselves in Divine Mother's bosom inside the Throne of the I Am that I Am receiving the love and the nurturance from the Throne, the Empowerment, Protection and Power from Great Silent Watcher. With that in heart and mind I ask you to lie down, and each of you will have an opportunity to receive a recalibration and a renewal directly from Great Silent Watcher, Divine Mother and the Throne while your Higher Self gets more in tune with your body. Go deeper and deeper in merging with your Higher Self while placing yourself at the Throne. Simultaneously go deeper and deeper as the Energies pour down into your body and the spin from your Cosmic Heart Chakra extends the Energies into your entire body, into your entire 5 Body System and into your entire Light Body.

I ask you for 15 minutes, if you fall asleep that's even better. If you get uneasy and need to get up, set the intention with me right now that the healing and the expansion will continue beyond the time that you lay down for as long as necessary, even for the entire span of this month until we come back together again, and remember that Divine Mother and Great Silent Watcher are by your side and will continue to work with you and to expand the presence of your Higher Self. Each day the presence of Higher Self becomes more prominent, each day you will vibrate to a higher level of the Energies, each day the connection becomes stronger, each day the healing becomes more expanded. I hold you in my own heart we will continue individually. So It Is.

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you everyone, thank you Nas, Great Silent Watcher and Divine Mother until next month, goodnight.
