Om Divine Mother (repeated for several minutes).

Hello everyone and welcome to 11-11 Gateway Portal Channeling. This is the one time in the year where the Gateway Portal Channeling is a Star Gate opening. Many of you I am certain have heard of a Star Gate opening. It means all of the gateway portals in all of the galaxies throughout our entire universe are open. If you have been feeling the Energies you would know that the Energies are very intense.

It happens that today it is also Veterans Day in the United States of America and so to all of you around the globe we welcome you and we invite you from your own heart to offer this day for all the veterans, for all the people in our world who have dedicated and devoted their lives to making our world a peaceful place, to serving our world in whatever capacity they are serving and whether we believe in the way that they serve or not.

I want to welcome all of you to this Gateway Portal Channeling and I want to tell you that we are missing our Beloved Jim. He happens to be up in the air and so not in a position to be joining us, but he is joining us in the moment that he is able to, and from my heart and Divine Mother's Heart I want to thank him for everything that he does and I hope that I can do as good a job as he does even though I know I don't have that male focus and he does provide a very good framework and a container for our work together. So to make up for it I started a few minutes early and I have been repeating OM Divine Mother to ground the Energies. And I ask you to join me this time and together we will say OM Divine Mother 11 times, and hope that everyone else who may be slightly late will join us and we will all begin.

So let us together take a deep breath as we offer this healing for the healing of Earth and all humankind, and very specifically we offer this Gateway Portal Channeling, which is a star gate opening, to all the people who served their lives helping others and making our world a better place.

Let us begin – OM Divine Mother (repeated 11 times).

So before I begin the grounding meditation I would like to remind you that the prayer beads are still on sale. It's a wonderful gift as we move toward the holidays, a very good Thanksgiving gift. You can go to our Waves of Bliss site and to the gift store. We also have a total of I believe 9 new angel charms that can be used on the wall, as stocking stuffers, they can be used for kids, they can be used for grownups and the description is up there. So please think of us when you're thinking of buying gifts for your loved ones and for yourselves as the holidays approach. This is one way you can help our foundation.

We didn't do fundraising this year, so again I remind you that if you can feel that you have been helped and you can help our non-profit foundation and our for profit foundation by buying these gifts or making donations it is absolutely appreciated, and it will be used to serve in every way that we can to spread the words of Divine Mother and members of her council. Her words, her teachings, her promises, her gifts are precious and priceless and we are fortunate to be in a position to be able to receive the teachings and to anchor the Energies and to move forward by touching multitudes and masses.

We may never know how much of an instrument we have been, certainly we will not know for as long as we live in this limited body. At some point when we have moved into being spirit and seeing the higher realms we will have a much better understanding of how beneficial our presence on Earth and our work with Divine Mother and those she brings to us has been. We are walking this path together and we are trusting that the love that we give to these meditations and the work that we do together will help multitudes and masses, and Divine Mother comes and tells us occasionally what a great job we're doing.

We're approaching the end of this year, the end of this Gregorian year and you might remember that we also celebrate at the beginning of November the start of a New Spiritual Year. First, second, third and fourth of November are the first few days that we celebrate moving into the Spiritual New Year and we celebrate Festival of Diwali which was early this year. We celebrated Goddess Lakshmi as an aspect of Divine Mother in October, late October, the last week of October. So this is the first time that we have gathered as we have moved into the Spiritual New Year, so I bid each of you a Happy New Spiritual Year and I'm hoping that one of the messages that Divine Mother will deliver be about how we move into this New Year and what to expect.

So let us begin by closing your eyes and envisioning that you are sending your roots from the bottoms of your feet and from your tailbone, your Root Chakra, and these roots extend down to the crust of the Earth and wrap themselves around your Earth Crust Chakra and continue downwards around your Hara Line, a shaft of Light that connects you to the Core of Earth, and continue to reach to the Core of Earth.

In the center of Earth imagine a beautiful crystal that is as bright as the sun and this crystal is emanating love from the Core of Mother Earth. Imagine that you wrap your own roots around this crystal and imagine that Golden Amber Light is emanating from the crystal that will seep through the roots and bathe your roots within it, and imagine that Divine Mother will wrap her own roots around yours and Goddess Victory wraps hers around Divine Mother and yours and every member of the group, and Great Silent Watcher will wrap her roots around all of us, our roots, and every member of the group, and around the Core Crystal.

These Beings, if this is the first time that you hear of them, are all great Cosmic Beings who are here to give us guidance and support. Divine Mother represents the feminine, the female, the Mother Energy. Goddess Victory represents the Energy of Victory and comes to help Divine Mother. Great Silent Watcher is the Mother of all Mothers because she held the idea, the design, the concept for this entire solar system in her heart, and it took many, many, many millions of years for her to take that design and create multi Dimensions of Reality that correspond to her 144 Dimensions, all that we have experienced throughout the history of Earth and all that we will experience in the future, and the generations of those who will occupy Earth will experience it. So we are happy to have the presence of Divine Mother, Goddess Victory and Great Silent Watcher to wrap their own roots, to provide further protection and grounding.

Imagine that the Amber Light from the Core of Earth pours into your roots and up the roots, up the Hara Line, up your Earth Crust Chakra into the consciousness of the body as a beautiful tree trunk is forming around your body. As it forms around, imagine that an Emerald Green color is laying over the bark of the tree which extends through the Hierarchies of Dimensions and goes all the way to the Pool of Creation, in the highest of the heavens above us. Then the tree will send its branches and its leaves to bathe in the Pool of Creation.

Up in the Pool of Creation all these Beings are standing and pouring their own Energy into the Pool of Creation. That includes a Being we call Mother of Cosmos, or Cosmic Mother of Cosmos and her Energy brings a deep, dark Brown Amber Light, a very rich Amber Light, a thick Amber Light. That Amber Light pours into the Pool of Creation and it is absorbed through the leaves and the branches of the

tree and like sap that moves down from the leaves and the branches it pours down into the tree trunk and it reaches down all the layers and dimensions into the consciousness of the body.

It moves down from the top of your head to the bottoms of your feet and it is mixing with the Amber Light that we brought up from the Core of the Earth, and this one is moving downwards, and again it blesses from the bottoms of the feet to the Earth Crust Chakra and further it blesses the Hara Line, the shaft of Light that connects you from the bottoms of your feet and your Earth Crust Chakra to the Core of the Earth and your roots.

Another expansion at the Core of the Earth where the Amber Cosmic Life Force from the heavens above, from the Pool of Creation, mixes with the Amber Life Force Energy of Mother Earth and shoots back up from the Core of the Earth, up the Hara Line to your Earth Crust Chakra, to the bottoms of your feet, up your legs to your torso, to your neck, to your head, up the top of your head into the Antahkarana Cord, the shaft of Light that extends from above your head connecting you to the heavens above. It shoots up through the Antahkarana Cord, which is a Golden Silver Cord of Light that becomes a cylinder, and it extends from the top of your head inside of the tree trunk with its Emerald bark and reaches back up to the Pool of Creation.

Once again the next layer of expansion happens at the Pool of Creation where this Amber Light that carries the mixture of Earthly and Heavenly Energies reaches to the Pool of Creation, mixes with the Pool of Creation and this time when it pours down it carries all the Energies from the Pool of Creation and all the Deities Energies who are pouring their Light into the Pool of Creation.

Imagine that when it goes down to the Core of the Earth and moves back up into the consciousness of your body with you inside of the tree trunk, this time you allow your consciousness to travel with it where you will find yourself bathing in the Pool of Creation and expanding your Five Body System, your Energy Bodies that sit on top of your Physical Body, and you allow them all to bathe in the Pool of Creation. You allow yourself to feel all your worries, your thoughts, your concerns about the day, about the week, about the month, about your loved ones to fall away. You feel calm and peaceful, and you feel the love as you bathe in the Pool of Creation, the love that is emanating from every quantum of particles and waves inside the Pool of Creation.

You bathe in the Pool of Creation and when you're ready you'll see yourself jumping out of the Pool of Creation and standing upon a boardwalk and seeing all the Deities assembled. You will see two Angels holding two trays, one of them is offering you your robes, your ceremonial robes, your cape, your crown and the other your Scepter. Your Scepter carries the memories of everything you have done and it is the symbol of your power, your Divine Power.

When you put your crown on your head, your cape upon your shoulders, your robe covering your body and you take up your Scepter that is when you are ready to perform a ceremony. In this procession with the Deities going before us and behind us, together we will go and stand before Divine Mother's Throne and as we stand we are aware that every member of our group from across the globe is there, everyone experiencing themselves standing in front of Divine Mother.

See that Divine Mother holds her own ceremonial cape open and from her beautiful robe Copper Gold Light is emanating from her entire body. This Copper Gold Light becomes a magnet that pulls each of us into her bosom. Inside of her Heart we sit absorbing the Light and illuminating our Five Body System.

As you are bathing in her Energy I ask you to remember that in the last few sessions of our Gateway Portal Channelings we have gone with Divine Mother while staying in her bosom, down through the Hierarchies of the Thrones and sat upon the Golden Throne in the 13th Dimension absorbed in the

Energies of I Am that I Am. I believe that there is one more segment where Divine Mother will give us another gift while she takes us to the Throne of I Am that I Am for yet another recalibration.

So at this point while you bathe in the Energies of Divine Mother's own Heart, I offer you to her and I ask for love, for peace, for healing, for health, for wealth, for prosperity and abundance, and success in the worldly realms and in the sublime worlds, under Divine Mother and every member of her entourage, under their protection, under their guidance, bathing in their love for every member of our community, for every member of our loved ones, for everyone we touch, for those that may never know that they have been touched but it is our job to touch them and to free them, to awaken them without any expectation. We ask this from Divine Mother as we embark again upon yet another year, and we ask for health and wealth and wellbeing, joy in the hearts of every member of our group. We ask that we can be connected to this world and that the joys of this world be shared amongst us. We ask that we are successful in bringing the sublime to the mundane with ease and grace. We ask that we are all successful while enjoying ourselves, enjoying every minute of this service that we provide.

We ask that the merits that we gain, to be given to our loved ones and to members of our soul family. These are the ones who have been with us for more than this lifetime. These are our true brothers and sisters, parents and children, members of our soul lineage who have been with us for thousands of lifetimes and will continue for thousands more for as long as necessary for all of us to serve our purpose and for all of us to move together to higher paths, to better futures for all of us.

Meditation with Divine Mother at the Throne of I AM with Great Silent Watcher, Cosmic guardian of Divine Plan and Goddess Victory

Divine Mother begins: 25:57

My Beloved Children of Light I'm your very own Divine Mother.

Imagine that I ask Great Silent Watcher, Cosmic Guardian of Divine Plan and this time Goddess Victory to join as we embark upon the journey to go down to the Throne of I Am that I Am and to create a triangle of Light that will protect the Throne around us.

So envision inside the bosom of Divine Mother we will travel together with Great Silent Watcher in her ceremonial robes holding her Scepter of Power, our Beloved Cosmic Guardian of Divine Plan in her ceremonial robes holding that crystallized Rod of Light which is made of all the events and circumstances that create various alternate realities that benefit you and your loved ones, and Goddess Victory, she will bring her Scepter of Power and her Torch, the Torch of Victory. Her Torch is very similar to the Torch of Goddess Liberty; it carries the Energies of Victory in the form of fire. A fire has the most potent transmutational properties, it penetrates deeply. The fire inside the Torch of Goddess Victory will not burn you, while it will burn the dross, the karma, the pain, the struggles it has the highest consciousness where it can recognize what is good for you and enhance it while it transmutes what no longer serves you and removes it.

I ask you to envision as we reach upon the 13th Dimension of Reality that you sit inside Divine Mother's bosom and you experience the Energies from the Throne, the Copper Gold of Divine Mother, the Golden Light of the Throne, the drop of Red for Passion and Action in motion. Remember the Energies of the Turquoise Blue Light of Great Silent Watcher. Remember that she brought in a touch of Cobalt Blue to increase and enhance the Power and Protection that she can offer you as we move from the 13th Dimension to more solid form.

Envision a blanket of that Turquoise Blue mixed with Cobalt permeating around the Throne as if a cloud or a blanket surrounds us. Envision that Great Silent Watcher is standing directly behind us holding her Scepter, pouring the Turquoise Blue with Cobalt Blue upon your very own Divine Mother's Body and Five Body System and as I absorb that, upon each of you and upon the Throne, enhancing the Throne, enhancing the Energies of the Perfected Presence. Remember that we invited the Perfected Presence of the I Am that I Am to allow you to merge with the highest Aspect of your own Higher Self.

As I set this grid to become a triangle, with Great Silent Watcher directly behind us and Cosmic Guardian of Divine Plan to our right holding her condensed Energies of Divine Plan inside of her Rod, pouring a Warm Orange Light upon the Throne, upon Divine Mother's Body, Five Body System and Light Body, which translates to your own Body, Five Body System, Light Body, receive the Warm Orange Light.

As together we experience the Energies of Great Silent Watcher and Cosmic Guardian of Divine Plan let us set the intention that everything you need for this New Spiritual New Year be provided to you in the best possible way, with the help of Cosmic Guardian of Divine Plan through the Energies that transfer from this crystallized Rod of Light that carries the highest and the best of every event and circumstance in every alternate reality that can ultimately become your one and only reality, the best of all realities that you and your loved ones experience.

Imagine that as Cosmic Guardian of Divine Plan holds both hands wrapped around this thick Rod of Light that it becomes active. Light moves in the form of particles and waves through this Rod and when the Light pours onto the Throne, onto Divine Mother's Body, Five Body System Light Body and finally onto your Body, Five Body System and Light Body, it becomes exactly what you need, the thoughts that will guide you, the intuition that will direct you, the connection between your soul and your personality aspects, the ability to express yourselves in the best way possible, the ability to communicate, the ability to direct and guide others to what is best for them, the ability for your voice to be heard, the ability for your actions to be heeded, the ability for your ways to be accepted and emulated, the ability for you to have the power, the Divine Power to guide and direct others, to take others under your wings, the compassion with which you will serve, the love which you would spread, Divine Mother's own love. The desire to change the world for a better place, to leave it for the future generations, all of this we ask to be incorporated in everything that is transferred from the Cosmic Guardian of Divine Plan's Rod through the Light that she sends, through the Filaments of Light that she pours in wave form and in quanta particles, pouring into your Body, pouring into your Five Body System, pouring into your Light Body.

While this continues I'm going to set our Beloved Goddess Victory in a grid. Imagine that she takes her position right by my left side, which is also your left side as you sit inside my chest. Goddess Victory is holding her Torch with her left hand and her Rod, her Scepter, with her right hand. She's holding both of those right above my head balancing the Scepter of Power from Great Silent Watcher and the Rod of Divine Light from Cosmic Guardian of Divine Plan.

She's holding both arms up high above her head, reaching up, Platinum Light is pouring out of her Torch and Frosted Blue mixed with Platinum together with Gold and Pink is pouring out from her Scepter and her Rod. The Golden Globe of her Scepter represents that part that sends the Energies of Victory to give you power through Victory. The long Rod of her Scepter represents her Rod of Power. So the Energies of Victory in the form of success in the mundane world and the Energies of Victory in the form of sublime gain in enlightenment and in greater awakening, a greater awareness is imbued in the combination of her Scepter and her Rod, while the transmutational

force that allows her to remove and release all dross, all karma and karmic entanglements is held in the fire that she carries in her Torch of Victory.

This is very important, understanding what Victory does for you and the role that she will play together with Great Silent Watcher and Cosmic Guardian of Divine Plan in this upcoming year that will last from November of 2014 to November of 2015. This role the three play standing around the Throne of I Am that I Am and creating an umbrella of Light, filling the container of our reality, especially the reality that extends from the 13th Dimension all the way down to you in the 3rd Dimension is of utmost importance. This is specifically directed at the dense reality that extends from the 3rd to the 13th. This is the realm of dense form.

Great Silent Watcher has added her Cobalt Blue Light to bring extra Power and extra Protection. Cosmic Guardian of Divine Plan has crystallized that Divine Plan which in Higher Realms is Liquid Light to a crystallized form which now carries Filaments of Light in both particle form as quanta and wave form to cover all bases and to communicate by transmitting from her Rod and her Body into my Five Body System Light Body, and through mine into yours. We have covered all the bases and now we have the blessing of Goddess Victory's Torch that will transmute anything that will not make you victorious, anything that will delay you, anything that will stand in your way. On one hand she will torch anything that is of ill health, of ill will, of delay, of no service. On the other hand through the Rod and the Scepter of Victory she will illuminate you, she will enhance your vibrational force field. She will lift you up.

Some of you have asked, given the state of our world, what is it that we can do to move away from the pain, from the anger, from the war, from the animosity between peoples of different nations, between people of different faiths, between peoples of different races, what can we do to bring us to harmony? My answer is - the best thing you can do is to raise the vibration. For as long as humanity remains unconscious, asleep, they will carry the animosity, they will see pettiness, they will continue to see rift and find ways to only see the differences. The moment that their consciousness is raised to realize that you are all one, we are all one, what you do onto others you have done onto yourselves, what you think of another you have thought of yourselves, what you do for another you have done for yourselves. In that moment you will awaken the multitudes and masses. In that moment the Five Elements will support you. In that moment every Deity, the consciousness, the higher consciousness of every Great Being and all the tools, all the magical tools, all the mystical tools, all the miraculous tools in their possession is yours. In that moment when you raise your consciousness and you see the world and everyone in it as connected, related, as one, united, when you realize that thoughts are things, and the more you allow yourself to think good thoughts the more goodness comes to you.

Divine Mother's Prayers for us in the New Year.

My prayer for each of you as we embark upon yet another spiritual year together is that each of you are able to touch multitudes and masses and gain the merits for doing that, and continue your act of service as you graduate from this world to worlds where you will be appreciated, worlds where your Light will be recognized, worlds where your presence will be appreciated. My prayer for each of you is that you accomplish all that you have agreed to accomplish and then take it to the next level beyond that which you agreed, beyond that which is expected of you, beyond that which you expect of yourselves.

Then for your graduation my greatest wish for you is that the gateways to worlds be opened to each of you where you are received as the great beings of Light, as the spearheads, as the torch bearers that you are, as the way showers, as the healers, as the miraculous presence that can change the worlds in an instant.

My prayer for the world and the consciousness of humankind and the collective consciousness of every being, every creature in the 3 kingdoms of the minerals, plants and animals is that they too are united once again, and through their unity the collective consciousness of all souls becomes the close knit filaments of Light that allows everyone to see everything connected and united in oneness.

RECAP AND SUMMARY

I ask you **for the course of this month** until we come back together for 12-12 that you **repeat this exercise, imagining yourself in Divine Mother's bosom seated upon the Throne of I Am that I Am, absorbing the Turquoise Blue Light mixed with Cobalt from Great Silent Watcher, the Warm Clay Red color of Divine Plan in its wave and particle form from the Cosmic Guardian of Divine Plan and the Platinum Light of Goddess Victory, which is the source of all Energies of Victory, on one hand mixed with Frosted Blue to give you the Power of Victory in its balanced male and female aspect together with the Pink and Gold that will bring Divine Love, Divine Sustenance, Divine Victory.**

Goddess Victory Cuts Cords and releases Negativity: See Goddess Victory holding her Torch and torching all that no longer serves you, all the cords, all the daggers, all the fear, pain, struggle, all the limitations that people who have limitations put on you, all the limitations that from fears of past events has etched into the grooves of your DNA. I ask for Goddess Victory to remove all limitations from within your DNA structure. I ask her to replace that limitation with the Frosted Blue and Platinum Light of Victory that carries the balance of the polarities of masculine and feminine and the Gold and Pink and Platinum Light of Victory, that brings the feminine aspect together with the Energies of Divine Love, Divine Acceptance, Divine Victory.

I ask you to always envision that you are encased in a blanket of the Turquoise Blue with Cobalt which has layers of Warm Orange, Frosted Blue and Platinum, Gold and Pink with Platinum, carrying the Energies of Cosmic Guardian of Divine Plan and Goddess Victory, inside the blanket of Turquoise Blue, while you see yourself fully encased and protected in the Copper Gold of Divine Mother, bathing in the Energies of the Throne of I Am that I Am, while etching your own presence, your own love, your own Higher Consciousness, and all the merits that you gain for touching people, places and things and imbuing them with the Energies of the Higher Consciousness, and the presence of the Throne.

When we come back together at 12-12 I will pave the path for the year ahead, the Gregorian Year that begins the first of the year of 2015. I will pave the path and I will have gifts for you to move you through into this year, and an explanation of what to expect of this year and how together we will serve, how together we will move mountains.

I hold you in my own heart with great love, with great gratitude bidding you love on this star gate portal opening and happy Veterans Day. I hold you in my own heart I Am your very own Divine Mother. So It Is.

Nasrin concludes - thank you everyone and goodnight.

Jim concludes - thank you Nasrin, thank you Divine Mother and I thank all of you. Until next month, goodnight.
