DIMO

Hello everybody this is Jim and welcome to the 3-3-2015 Gateway Portal Channeling. I welcome you all and I thank you for being here. Take a deep breath and let's begin our grounding.

Grounding Meditation-Visualize that you're standing on top of Uluru as always, and be aware that every one in this call is also standing there with you. Feel their presence, feel the presence of Uluru the great red rock, an energetic vortex in Central Australia, a very sacred site. As you feel Uluru beneath your feet and you begin to realize that your heartbeat is beating in sync with Uluru and with Mother Earth, feel yourself begin to glide into Uluru. As you expand and you feel and see the Clay Red colored Light of Uluru all around you now as you're sliding down and you let yourself go, Uluru with its nurturing powerful Light absorbs from you all the stagnant energies, all the dross, all the frenzied energies of the day.

Feel your Earth Crust Chakra which is about 10 inches below the bottoms of your feet, feel it also being cleared and cleansed by the Energies of Uluru. Feel it get lighter and the tingling on the bottoms of your feet as your Earth Crust Chakra clears itself of all the grime, dust and static.

Now extend from the bottoms of your feet your Hara Line. Activate the Hara Line which is always there and reaches from the bottoms of your feet and your tailbone around the Earth Crust Chakra all the way down to the Core Crystal in the center of the Earth. Send your roots down around your Hara Line to go all the way down to the Core Crystal, wrap around it, holding yourself tight to Mother Earth. Also see that a tree trunk is forming around you sending its roots down around yours holding you tight to Mother Earth, a tree trunk that as it extends up around you, a cylinder around you, and extends up through the heavens above all the way to the Pool of Creation, where it spreads out its branches and its leaves into the Pool of Creation. See that this cylinder tree trunk, see the Emerald colored Light and the outer layer of the tree trunk holding you in that Light of Abundance and Healing.

Now begin to pull from the center of the Earth where you've wrapped your roots and your Hara Line extends down to the Core Crystal, pull the Amber colored Life Force Energy of Mother Earth up through the root system, all the way up to the bottoms of your feet, and let it come through and feel as it does, another clearing that takes place from this Amber colored Life Force Energy of Mother Earth as you pull it all the way up through the tree trunk into your body, into your 5 Body System and your Light Body. As it fills every iota of your being, every cell all the way down to the DNA structure, and as it moves up through your body all the way up to the top of your head, out of your crown into the tree trunk that extends to the Pool of Creation, all the Amber colored Light pouring up into the Pool of Creation, as you the catalyst have brought that Life Force Energy of Mother Earth all the way up into the heavens pouring it into the Pool of Creation.

We ask Cosmic Mother of the Cosmos to pour her Cosmic Life Force Energy which is also Amber colored Light, only a darker and richer Amber colored Light. She pours it into the Pool of Creation, it pours down through the tree trunk, mixing with the Amber colored Life Force Energy of Mother Earth, invigorating it, energizing it, and as this Cosmic Life Force Energy reaches your Crown and pours into your head cavity, into your Body your 5 Body System, each one of your Chakras as it moves down

through your body all the way to the bottoms of your feet, down through the Hara Line, through the root system, all the way to the Core Crystal fully mixing with the Energies of Mother Earth. You as the catalyst once again have pulled the Energy from the heavens, the Cosmic Life Force Energy down to Earth completing this cycle and providing this great service to Mother Earth and to humankind.

Now as we pull that mixture of Life Force Energies up from the Core of the Earth we move with it up the tree trunk all the way up to the Pool of Creation where you find yourself swimming in the Pool of Creation. Feel the lightness and as you are floating weightlessly in the Pool of Creation you see the two Angels standing on the decks with the two trays, and we stand up out of the Pool of Creation and onto the deck and we put our ceremonial robes on from one tray. From the other tray we pick up our Scepter of Power, we send all our love and gratitude to these two Angels as we move towards Divine Mother sitting on her Throne in the distance. And as we approach, she stands, holds her arms out, her cape of Copper Gold, her robes of Copper Gold pouring love and the nurturing Energies of our own Divine Mother to us. She beckons us to come closer. We hug Divine Mother and she wraps her arms around us and holds us in the Copper Gold Light. Take a moment, fully connect with our own Beloved Divine Mother sending our love and our gratitude to her.

Together with Divine Mother we move towards the Sacred Altar, the Throne of Divine Mother, and we move to stand before the Sacred Altar. We're aware of all the great Beings standing around the altar making their offerings to the altar. We turn and we face the north and see Great Silent Watcher standing in the north. In front of Great Silent Watcher, Shiva and Shakti are sitting on their Thrones; we pay our obeisance to Shiva and Shakti. We step before them, take a moment before Lord Shiva, take a moment before Goddess Shakti to say whatever you wish to say, offering your service and your love and gratitude to them, bowing and holding our hands in prayer pose with great gratitude for all that they have done to bring the Primordial Light into the service of the Divine Feminine, and to the work that we are doing with Divine Mother.

We stand back next to the Sacred Altar, once again turning our gaze to Great Silent Watcher who is standing just behind them holding her Scepter towering above everyone, holding her Scepter to a point in the center. We turn now to the east facing Mother of the Universe standing tall, touching her Scepter to Great Silent Watcher's. We turn to the south we see Guardian of the Divine Plan in her Warm Orange touching her Scepter to Great Silent Watcher's, Mother of the Universe and we turn to the west where our Goddess Victory in her Pink, Gold and Platinum colored Light is touching her Scepter to the other three great Beings for this year of 2015. We hold ourselves within this grid with Great Silent Watcher, Mother of the Universe, Guardian of Divine Plan and Goddess Victory.

Goddess Victory, her number is 8. 2015, 2, 1 and 5 adds up to an 8 and the last number in 2015 which is the 5 indicating the year, that is Mother of the Universe's number who's standing in the east, and they are the patrons of this year and beyond. And we offer them great gratitude and love for coming forth to be, to stand in this grid and to pour their Lights on us. Also see that Great Silent Watcher is pouring from her pot of Gold, the Gold colored Light mixing with the Turquoise Blue, the Vibrant Pink of Mother of the Universe, the Warm Orange of Guardian of Divine Plan, and the Pink, Gold and Platinum of Victory. See it pouring into the top of your head, filling your body and your being with these Lights to energize you and to help you through this year.

Now as we turn and make our offerings to the Sacred Altar and we see the number of great Beings standing around the altar with us. We remember last month our Beloved Goddess Victory sent the Javelins of her Light to points all around the Earth, sending the Energies of Victory to awaken the dormant Aspects of Victory, and to give them an extra boost of Energy of the Energy of Victory, to be able to awaken and to be of service to the Divine Feminine, to be of service to Victory, to be of service to Earth and humankind, and also to break down all resistance within the 5 Body System of Earth, any

resistance that exists to the coming forth of the Divine Feminine, to the Energies of Victory, of the Energies of our Beloved Sanat Kumara.

Visualize the Javelins once again landing in all the spots around the Earth that Victory has chosen, illuminating them with the Platinum, Pink and Gold colored Javelins. Take a moment to set your intentions as you make your offerings, and as you bless Goddess Victory as well, for all that she has done, sending your gratitude to each one of these four creating this grid for 2015, Great Silent Watcher, Guardian of the Divine Plan, Mother of the Universe and Victory and for our own Divine Mother. Take a moment and the next voice that you hear will be that of our Beloved Nasrin. So It Is, I thank you.

Nasrin begins: 14:07

Hello everyone and welcome to 3-3-2015. I want to apologize in case I start coughing right in your ears. I'll do my best not to but as a good friend just texted me, a member of our group and his wife, this is the flu that keeps giving, I really liked it. So we're going through the flu that keeps giving and passing it around in the family. I hope that you're all doing very well and life is treating you with great kindness and joy. Let us join Divine Mother and offer this healing for all the people across the globe for health and wholeness, for joy and peace, for full bellies and clear minds and open hearts.

Divine Mother begins: 15:25

My Beloved Children of Light I'm your very own Divine Mother.

The first quarter of this year of 2015 has completed with great intensity from a very high plateau. We are at the point where we continue boring a tunnel from the Third Dimension into the Fifth Dimension and yet it feels as though our tools are getting rusty. In this meditation I am going to call on Goddess Victory and Great Silent Watcher to add force and power to their tools using Goddess Victory's Javelin and Great Silent Watcher's Turquoise Blue Light of Empowerment.

I ask you to join me to petition Goddess Victory and Great Silent Watcher, as well as the Cosmic Guardian of Divine Plan and Mother of Universe. We petition these four Beings and the Council of the Divine Feminine as well, and request that the members of the Council look into smoothing out the path and help with boring the tunnel into this higher level of Energies an easier task.

These obstacles are not placed there to make anything any more difficult. In fact it's not a question of obstacles; it's the presence of higher Energies and the expansion that you all need. You will feel that expansion as we gain momentum. However the dross from the past, the pain, struggle, fears from this lifetime and other lifetimes must come to the surface to be cleared and be pulled out of your 5 Body System- Light Body to give you the energy, the purity and clarity which you need to move to these higher Energies and to operate from the higher platform.

If this year has been fraught with physical health issues or with mental emotional issues for yourselves or your loved ones, it's only because we're moving to a much higher plateau and we're starting to etch our own Light and our Signature Energy into the year. To fully anchor the Energies and to gain momentum for fully etching the highest of Light and the best of all possibilities we perform this ceremony and petition the help of these great beings for a smoother ride through the remainder of this year and the years ahead.

Imagine yourself together with Divine Mother kneeling, as we hold our Scepters and petition Goddess Victory to add power and force to her Javelin. We ask Great Silent Watcher to help in this process. We also ask our Beloved Cosmic Guardian of Divine Plan to bring in her tools/skills

and to clear the path for the highest of Divine Plans to be made available to everyone. We ask Mother of Universe who is the patroness of this year, together with Goddess Victory, backed by Great Silent Watcher and Cosmic Guardian of Divine Plan.

Notice now that Great Silent Watcher is boring into her Scepter and creating a tool. It becomes a Rod of Turquoise Blue Light that will sit over Goddess Victory's Javelin. It is superimposed on top to give it Power, Protection and Fearlessness. At the same time Cosmic Guardian of Divine Plan is pouring shafts of Light in the Warm Orange color right over that Javelin which is now carrying both Goddess Victory and Great Silent Watcher's Energies. She's creating a rod that is the Rod of Divine Plan and it looks just like the Javelin of Goddess Victory. Like a sharpened pencil, except it's much bigger, or like a gigantic version of those selenite wands that many of you possess. It is emitting Warm Orange Light, and she will place it right over Goddess Victory's Javelin. Imagine that you let this one merge into the other two, adding the highest Alternate Realities and the best events and circumstances for each of you to accomplish all your soul wishes for you to accomplish; also all that pleases you and appeases your personality aspects in keeping with the mission of your soul. Now breathe and bathe as you see those three Energies merge together and add power to the original javelin of Goddess Victory. Pause and breathe for a moment to fully receive the energies.

Now bring your attention to our Beloved Mother of Universe who will do something similar, create another gigantic pencil like Javelin made of Vibrant Pink Light. It is the same shape and size as Goddess Victory's Javelin and will be superimposed over the other three to make four united pieces come together, Goddess Victory's Champagne color mixed with Gold and Platinum Javelin of Light, Great Silent Watcher's Turquoise Blue, Cosmic Guardian's Warm Orange, and Mother of Universe's Vibrant Pink.

Now envision that Goddess Victory as the representative of all four comes to stand before you pointing this new Javelin that carries all four Energies above your head and pouring a mixture of the four Lights. The Light begins to fill your Physical Body and its Sheath, moving into your Etheric Body, filling your Etheric Body: energizing it and moving into your Emotional Body: filling your Emotional Body, energizing it and moving into your Mental Body: filling your Mental Body energizing it and moving into your Spiritual Body; and filling your Spiritual Body and entering into your Light Body; and finally being sealed by the Sheath of your Light Body. Pause and bathe in the power and light of the energies you are receiving.

I ask you to envision all four Beings taking their positions around you with Great Silent Watcher in the north, Mother of Universe in the east, Cosmic Guardian of Divine Plan in the south, Goddess Victory in the west and you in my own bosom in the very center. You and I will begin to spin clockwise in place. I ask you to notice that every one of the Beings in the four directions will also begin to spin in their places starting slowly and gently; everyone spinning clockwise. Pause and visualize this image in your mind's eyes.

The spin becomes faster and faster until they expand, so that the edges of each of their Energies touches the other and creates a huge Sphere around you and sends shafts of Light from their Energy Bodies, their 5 Body System-Light Body to you and I, who are spinning slowly and gently in the center. I ask you not to make your spin too fast because otherwise you might experience nausea. The idea isn't for you to feel uncomfortable but to be accelerated. Accelerated in absorbing what each of these Beings offers you. Also accelerated in releasing all that you need to release in order to absorb the higher quotient of Light, to continue to bore the tunnel and anchor the Energies for the rest of this year and into the future. Your 5 Body System and your Light Body needs to be ready to vibrate to the higher Energies. At the same time, your beingness needs to be

lightened up from pains and struggles and whatever has been etched within your 5 Body System-Light Body that stands in the way of you accomplishing the highest and the best.

In practical terms this gift will help to allow you to carry a higher vibrational frequency that will dissolve all that no longer serves you and will extend from your 5 Body System Light Body in every direction to release the kinks and to make the process of boring the tunnel of Light to live a higher dimensional life easier and the process smoother.

I remind you that 2015 is the beginning of a ten year cycle, which is itself a beginning of a multi decade cycle of renewal and new accomplishments. **Therefore, starting at a higher plateau and boring a tunnel that will allow you to etch your Signature Energy and extend it into the future is of utmost importance. It also gains you huge merits and it paves the path for your own future to be easier yet more comprehensive from all angles and points of view. While you may be taking the same steps as before, with each step you gain more grounds than ever. You may be thinking the same thoughts but with each thought you influence the minds and thoughts of others and you anchor greater ideas. You may be feeling similar feelings, but with each emotion that you experience you may be helping other people's emotions to be cleared and pains be released. In essence you would carry this new level of Light within your Personal Body Grid and anchor all that you are and all that you gain through your Personal Body Grid into the Planetary Body Grid. That is the significance of this gift I have requested from the four Beings.**

I am grateful to Goddess Victory for coming forth with her Javelin. Those of you who have been working with it already feel and see the impact of it. Focus on her work and what she's accomplishing. And now she will continue carrying four separate Energies on behalf of all of the four Beings and the potency and its impact has increased. You are now carrying the gift that Goddess Victory, Great Silent Watcher, Cosmic Guardian of Divine Plan and Mother of Universe have bestowed upon you. It allows you to do more in your own lives and to do more in the lives of others, some of whom may never know you or know that you are responsible for the strides they make.

When these Energies are posted upon the Planetary Body Grid, anyone who can download from the Grid will do so automatically and whatever they gain in merits will bring you extra merits because they've done it as a result of the work you have been able to accomplish as a result of you anchoring the Energies on behalf of these four Beings. I won't belabor the explanation, but I ask you to work with the Javelin, work with these Energies.

As you discover new things, journal it and email us. When you discover new ways that you can use these tools, share it with others. When you watch Goddess Victory throw her Javelin in different parts of the world and then find out that an earthquake came but there are no casualties or that a hurricane was in the region but it didn't do as much damage as it could have, it would then give you an idea of the vast potencies of these tools.

I leave you to discover all the scope and the potencies and I ask you to remember, the more you use these tools the more potent they become and the greater the possibility of anchoring their Energies and reaching out to more people becomes. It doesn't take much to reach critical mass, at which point everyone will have access to these tools and you will gain the merits for spreading that knowledge and making these tools accessible to all beings across the globe and raising the vibration of Earth and the consciousness of all souls.

I ask you to **stay in this grid and if you choose to merge with each of these four Beings and to feel the Energy of these tools they are offering you. Take your time and lay down after we close this circle and spend a few minutes with each of the Beings and allow them to work on you individually.**

I ask you to **repeat this exercise especially on the full moons and new moons in the upcoming months. The first quarter and the third quarter are also good times for renewal. That means four times a month you would bring these tools and shine them up, give them a chance to become polished, to become used.**

I stand with great joy and gratitude for all that you do.

I hold you in my own heart. I Am your very own Divine Mother and I bid you love.
So it is
