Hello everyone this is Jim and welcome to the 6-6-2015 Gateway Portal Channeling. Thank you all for being here and offering your service in this way. I hope it's a beautiful spring day or spring summer day where you are.

Take a deep breath, feel the presence of everyone on this call forming this group entity. As you stand on Uluru, a sacred site in Central Australia that is an amazing Vortex of Light, we'll ground ourselves on Uluru. Imagine standing there feeling Uluru's massive red clay like surface under your feet. Feel yourself slide into Uluru surrounded by that Clay Red Light clearing your Chakras, clearing your 5 Body System, clearing your Earth Crust Chakra just below your feet.

Now we activate our Hara Line from the bottoms of our feet, extending from there and also from the Root Chakra at the base of the spine, engulfing the Earth Crust Chakra just below your feet, and extending all the way to the Core of Mother Earth, a bright Core of Mother Earth. It's like a sun within the Earth. As we connect our Hara Line to it, we send our roots down to anchor ourselves to Mother Earth.

Visualize roots extending from the bottoms of your feet and your Root Chakra down around the Hara Line, encircling and wrapping around the Core Crystal at the center of Earth; and you can imagine Divine Mother wrapping herself around you and her roots around yours; and Mother of the Universe, Mother of the Cosmos, Goddess Victory and Great Silent Watcher wrapping themselves around you and their roots around your roots holding you even tighter to Mother Earth.

Now visualize that the tree trunk is wrapping itself around you and extending the tree roots down around everyone else's roots holding you even tighter, grounding you even more firmly to Mother Earth. See this tree trunk wrapped around you and extending in a cylinder all the way up through the heavens to the Pool of Creation where the branches and leaves of this tree trunk extend into the Pool of Creation.

See that the tree trunk around you, the outside layer of the tree trunk is the color of Emerald Green holding the Energies of Abundance & Healing, and pouring into you and anything that moves up and down this tree trunk with the Energies of Healing & Abundance.

Now we pull from the Core Crystal of Mother Earth the Amber colored Life Force Energy, a mixture of Golden Yellow Light and the Red Life Force Energy of Mother Earth making a bright Amber colored Light. And we'll pull that up through our Hara

Line, through the root system that we've created- with ourselves and all these Great Beings and the tree trunk- and filling them all with this Amber Light, moving it up to the bottoms of your feet, filling your Earth Crust Chakra as well and continuing the clearing and cleansing process as it moves into the bottoms of your feet and up through your legs, up to your Root Chakra, filling all the Chakras of the body and simultaneously filling your 5 Body System- the Energy Bodies surrounding your Physical Body- with this Amber colored Light. And you can feel the effects it has on your body and your Energy Bodies as you move it up through your Chakras and the rest of your body to your Crown. Let it expand and fill this tree trunk that holds your Energy Bodies and move it up from the Crown into the tree trunk, and let this Energy move all the way up to the Pool of Creation where it pours into the Pool of Creation.

Now we invite Cosmic Mother, we ask her to pour her Cosmic Life Force Energy into the Pool of Creation. This Light is also an Amber colored Light-vibrant, darker, more vibrant Amber- almost to the color of root beer. It pours into the Pool of Creation and then into the tree trunk all the way down to your Crown; filling your Crown and your Body, Energy Bodies, Chakras with this invigorated and vitalized Cosmic Life Force Energy and mixes with the Life Force Energy of Mother Earth which is pouring up, and Cosmic Energy moves down all the way through your body, down the bottoms of your feet, down the Hara Line to Mother Earth, mixing with the Life Force Energies of Mother Earth.

Through your service and your offering of yourself in this way you connected Mother Earth and the Cosmic Life Force Energy with Mother Earth, and Mother Earth's Life Force Energy with the heavens above.

See that Great Silent Watcher is pouring from the Pool of Creation the Gold out of her big jar. It fills the Pool of Creation, and it also pours down through the tree trunk, reaching your Crown Chakra, moving all the way through your Light Body and your Energy Bodies and your Chakras, down through the bottoms of your feet to the Hara Line, also reaching the Core Crystal and mixing with the Amber colored Life Force Energy of Mother Earth and of the Cosmic Life Force Energy. And all of that mixed together moves back up through the root system to the bottoms of your feet, and together we'll move our consciousness with it all the way up the tree trunk into the Pool of Creation.

Feel yourself light, clear and clean, floating in the Pool of Creation. Around the pool you see the 12 pairs of Cosmic Guardians and Divine Mother Aspects and all of the members of Cosmic Council of the Divine Feminine, together with Sanat Kumara, Great Silent Watcher and the Goddesses. You also see your two Angelic Beings holding their trays. We step out of the Pool of Creation onto the deck, and you take your ceremonial robes placing them on yourself, and from the other tray you pickup your Scepter of Power.

We turn to face Divine Mother sitting on her Throne in the distance, and we glide towards Divine Mother. She stands, opens her arms with her cape, pouring the Copper Gold Light of Divine Mother out to you, and we magnetize into her bosom. She wraps

her arms around us and we sit in the love and nurturance of Divine Mother surrounded by and filled with the Copper Gold Light.

Take a moment to experience this, and send all your love and blessings to our Beloved Divine Mother, along with your gratitude for all that she has done and is doing for every one of us, and Earth and humankind.

Now Divine Mother stands up while we're still in the bosom of Divine Mother in her Merkaba Field; and we glide down through the realms to the 5th Dimensional Octave to at the retreat of Divine Mother. We stand before the gateway where the colors spin from Purple to Magenta, Red, Orange, Yellow, Green, Blue back to Magenta and Purple again and the gateway opens as we're recalibrated. We walk into the retreat of Divine Mother towards the Ceremonial Fire, the Sacred Fire in the center of the great hall on the 1st floor, and we stand before it. Looking across the fire we see the Throne of Divine Mother. On either side of it the Thrones of Shiva & Shakti. Lord Shiva and Goddess Shakti are sitting on their Thrones. We bow in prayer pose to them as we make our offerings to the Sacred Fire.

Trays with sacred items to be offered to the fire, including the red and white roses that we throw into the fire with our intentions in honor of Shiva & Shakti are brought to you. Take a moment and set your intentions and make your offerings to the Sacred Fire. See that all the Great Beings are standing around the fire with us, all the Divine Feminine Aspects, Guardians, Goddesses, Sanat Kumara, Master Jesus (Master Jeshua) and Mother Mary standing around the fire.

Now we walk with Divine Mother behind the Thrones, spread the curtains apart, walk through the double doors where we see the inner chamber, a seat which is our seat in the center. We take our seat there on the raised platform and to your left you see Great Silent Watcher, to your right Cosmic Mother, Divine Mother takes her position directly behind you creating the Triangle.

Directly in front of you in the position of 12 o'clock Cosmic Guardian of Divine Power along with the Aspect of Divine Mother who sits in front of the Guardian, taking the Cosmic Energies that the Cosmic Guardian sends with the Qualities of Divine Power. This Aspect of Divine Mother brings them down to a level where we can use them to their fullest effect in our 3rd Dimensional Reality and in our bodies and our beings. And see Cobalt Blue Light which is the Quality of Power, Divine Power coming from the Cosmic Guardian and from the Aspect of Divine Mother to you amplified by the Triangle of Great Silent Watcher, Cosmic Mother and Divine Mother.

At the position of 1 o'clock Cosmic Aspect and the Aspect of Divine Mother, the pair that represent the colored Light of pearlescent Fuchsia Magenta with Platinum, and you can feel it pouring all over you. Cosmic Guardian of Prosperity holds the Quality of Prosperity, pearlescent Fuchsia Pink & Platinum Light.

Position of 2 o'clock: now we turn just a bit, to face the Cosmic Guardian of Life and Nurturance with a Light Green colored Light, Energies of Nurturance and the color of leaves in the spring, Energies of Life & Nurturance pouring over you.

3 o'clock, the Cosmic Guardian of Energies of 5th Dimensional Abundance & Healing, a combination of the Light Baby Blue with the Mint Green and Platinum.

Turn to the position of 4 o'clock and the cosmic Guardian of Joy and Gratitude with the Energies of Joy & Gratitude in the Warm Yellow colored Lights.

Position of 5 o'clock with the Light Lilac colored Light, this pair of Beings, Cosmic guardian and Divine Mother Aspect sending us the Quality of Balancing of Polarities.

Turn to 6 o'clock the Light Pink colors of Divine Love, and our own Mother of the Universe and the Aspect of Divine Mother stepping the Energies down as they pour their Light all over us.

Position of 7 o'clock, Cosmic Guardians and Divine Mother aspect pair overlighted by Great Silent Watcher, carrying the Qualities of Empowerment and the color is Pearlescent Gray with a drop of Purple, bringing us the empowerment to overcome obstacles in the 3rd Dimension that stand in our way.

We turn to the position of 8 o'clock, this is our own Goddess Victory with an Aspect of Divine Mother stepping down the Energies of Victory and shinning the Blue with Platinum Light.

9 o'clock the Karuna Energies, the Sweetness & Compassion, Cinnamon colored Light pouring from the Cosmic Guardian and Divine Mother Aspect, all over you.

10 o'clock the Energies of the Divine Plan, with Cosmic Guardian of Divine Plan, and an Aspect of Divine Mother pouring the Warm Orange colored Light over you.

In the position of 11 o'clock, the Cosmic Guardian of Earthly Abundance and the Aspect of Divine Mother pouring the Dark Reddish Green colored Light, maple tree leaf.

We turn back to face North where the pair of Beings are pouring the Divine Power Energy to us, We see in front of the Triangle of Great Silent Watcher, Mother of the Cosmos and Divine Mother behind us.

Inside the circle in a square formation, we see to our left the Cosmic Guardian and an Aspect of Divine Mother for the Energies of Balancing the Light & Dark, a Smokey Quartz colored Energy with the Gold veins.

Turn to the right, and this pair of Guardians sends us the Emerald Green with the shiny foil like sparkles of Silver, and this pair of Guardians are sending us the Energies of Abundance, Balancing the Energies of Abundance.

We turn around 180 degrees to face Divine Mother, and to our left as we face that position is the Guardian with Balancing the Energies of Life Force. It's the Pomegranate colored Light like a pomegranate seed that has the shiny surface reflected within the Dark Maroon colored Light.

As we face the back, to our right Guardian and Aspect of Divine Mother of Hope with the Orange & Pink & Yellow mixed together shining that Light balancing the Energies of Hope.

We turn back around 180 degrees again to face the North, face 12 o'clock with the 12 Guardians and Aspects of Divine Mother standing around the parameter. Just inside them Great Silent Watcher, Cosmic Mother, and Divine Mother behind us in the Triangle and inside that the 4 points of the Guardian of Balancing Light & Dark, Guardian of Balancing Abundance, the Guardian of Balancing Life Force and finally the Guardian of Hope.

Take a moment as you sit in this position with all these Beings pouring their Light. Express your gratitude and your love for each one of these as you see fit. Say your prayers for your loved ones, for Earth and humankind. I'll give you a moment and the next voice you here will be that of our Beloved Nasrin. I thank you all for being here on this Portal Day half way through the year of 2015 Gregorian calendar year. I wish you all the best in this month. So It Is.

Nasrin begins: 22:17

Hello everyone and welcome to 6-6-2015. We are having a beautiful, warm sunny day. I hope that you are enjoying life wherever you are. So continue to **envision yourselves in this magnificent seat and become aware that our very own Divine Mother is standing behind you, and feel her Energies of Copper Gold pouring onto you. Become aware that Great Silent Watcher is standing in front of you to your left, and she's pouring her Energies of Turquoise Blue onto you. And become aware of the presence of Cosmic Mother of Cosmos standing in front of you to your right pouring her Dark Amber Root Beer Amber colored Light, very rich, Dark Amber Light onto you and remember this Triangle.**

I believe Divine Mother is going to give us Phase 2 of this session we started last month, and she's going to magnify the impact of each of these Cosmic Guardians and what they give to us. She's going to explain to us how we can use it in our world at this practical level from one day to the next and how we can benefit from the presence of all of these Cosmic Guardians, especially the new 4 that create around us a solid foundation. Four is the number for solid foundation.

The new Cosmic Guardian for balancing the Light & Dark with the rutilated Smokey Quartz with Gold Veins balances our life so we have a little bit of moving and weaving our way through events that are pleasant and we ride through the

unpleasant ones. She makes the bumps in the road easier for us. She's standing outside of the Triangle with the other three making a square formation. If you were to think of the position she's standing, she's more or less in front of you to the left behind Great Silent Watcher and she's sending her Smokey Quartz colored Light with Golden veins.

In front of you to the right, **the second point of the square is Cosmic Guardian of Abundance with the Divine Mother Aspect sending Emerald Green Light. Energies of Abundance that affect our day to day lives by making us healthier and whole as well as helping us with financial abundance and material resources, balancing the levels of Abundance & Health that we need. Sometimes we have a lot of work and very little time for ourselves. Sometimes we have no work and a lot of time for ourselves, but a lot of fear about where work is coming from, and very little resources to go have fun. So balancing those two aspects of having financial abundance while we take care of the body, and being in the position to enjoy the material resources that the Universe provides to us, is the job of this Cosmic Guardian, the Divine Mother Aspect steps it down.**

Then behind you to the right **Cosmic Guardian of Balancing the Life Force Energy so you have enough vibrancy within your body and being. Vibrancy within all the relationships, within your work life, within your social life and within your family life, her colors are the colors of the Pomegranate Seeds with some Silvery Platinum Shimmers thrown in to add the Feminine Creative Force and balance that Creativity. You can call it a Maroon colored Red or a Pomegranate Seed color with vibrant shimmering Platinum, Silvery Shimmers. She rescues us from stagnancy, so if you feel you are stagnant in your job situation, in your social life, in your present position in the world, and even in the family life amongst yourself and your siblings, amongst you and your spouse or significant other, amongst you and your children or your parents, this Cosmic Guardian and the Divine Mother Aspect are your go to Deities.**

Cosmic Guardian of Balancing Life, bringing enough Life Force so you become vibrant and able to accomplish everything you need to in the course of the day. Removing stagnancy from life, giving us a board to spring out of to take a leap, and clearing a path for us to use the Life Force provided to be the embodiment of our Divine Mission wherever we are. To connect with our individual souls and through our souls with our soul's mission, and to be able to accomplish everything in this mundane world, in the practical realms, in the reality we live in, and cope with all the karma and karmic entanglements by releasing that which no longer serves us. And increasing our interactions with all that is good and beneficial, and doing more in the course of each day than we are normally able to do because we're not bogged down by karma. We're not bogged down by fears; we're not bogged down by stagnancy.

Then again behind you to your left at the 4th point of this square, **Cosmic Guardian of Hope with colors that are tongues of fiery Light sitting one next to the other and**

all merging into one another and portraying a range of Reds, Pinks, Oranges, Yellows, and Peaches. All of these Lights come together and raising our vibration. Red is the Life Force. Pink is the Love Energy. Orange is the Life Force for moving in the direction of divinity and becoming the embodiment of the Divine Plan. Yellow is the color of Joy & Gratitude. Peach is a combination of Joy & Gratitude and Life as in Divine Life. Peach is the combination of Yellow and Orange, so Gratitude, Joy, Divine Plan come together to allow us to be the embodiment of our soul's mission and accomplish our life's mission.

Our soul's mission and our life's missions can be two separate things but they need to go hand in hand. Our life's mission has to do with this lifetime. It has to do with the people we've come to work with, and it starts with our parents and it extends to our siblings, and then it extends to our immediate community. Then as a teenager it extends to our community of friends and relatives. As young adults it extends to the community of people we work with to become who we are, and as adults it extends to the community of people, places and things that we work with in order to accomplish our individual Divine Mission. By the time we reach to being a young adult the best case scenario is that our Divine Mission and our Life Mission for this lifetime would have become aligned.

In some of the teachings in certain cultures, for example, the culture that most people in India work with, the old ancient Vedas talk about being born and reaching to adult age, and then becoming a householder. Which means your household is the most important part of your life, but after you have become a householder, you have bore your children, you have raised your children, you have provided for your immediate family, and before or during the time where you are working towards the age of retirement, that's when you come out of being a householder and begin to think about your Sava, your selfless service, your soul's mission.

A lot of times people do all of those things to accomplish what their Life Mission is and then by the time they get to their midlife around the age of late 30s', 40s', 50s', for some people 60s', they get to the point where more of their life is devoted and dedicated to selfless service.

So it would be good to start thinking and reflecting on what point you are at in your lives and determine how much of your lives are dedicated to which aspect. Too much of one and too little of the other is not so great. It needs to be balanced. We owe part of our life in this Physical Body to accomplishing the contract that we have come to accomplish and complete in this Physical Body, and that relates to karma, good and bad karma, as in karmic debt what we owe others, and as in receiving the karmic debt, which means what others owe to us, that's all the relationships we have with people, places and things. That's part of the reason why we incarnate, to accomplish what we're here to do in this lifetime.

The other part is bigger than this lifetime. That part relates to the mission we've come to accomplish. The pieces of the puzzle that need to fit in in this lifetime that

relate to our greater mission, to our Divine Mission, to our Soul Mission, to our greater purpose, and that greater purpose goes beyond this lifetime. It carries a series of lifetimes. If you're here listening to this guided meditation, obviously you are at a point in your life that you are incorporating your Divine Mission into your Life's Mission, otherwise you would not be interested in this work, and that is all good news.

Sometimes in the process of embracing our Divine Mission we neglect our commitments to the world. At the same time, sometimes in the process of accomplishing our worldly mission, what we've come to accomplish in this lifetime, we neglect our Divine Mission.

There's an old story that some of the spiritual masters tell their students when they want to make a point about moving in the direction of committing to do more for Divine Mission, for Divine Purpose, for Soul's Mission. The story goes like this. The spiritual teacher finds the student and says "come, let me take you, let me teach you". The student says "Master, I just got married I'm looking forward to having fun with my wife, with my spouse. I'm looking forward to having children and family." The teacher says "I will come back."

A decade goes by; the teacher comes and says "come let me teach you the mysteries of this life and why you're here in this incarnation". The student says "Master, I have young children, I love my children, they are the light of my life. I need to be with them and raise them." The master says "I'll come back".

Another decade goes by, now his children are in their twenties, the master comes and says "now it's time, they can stand on their own", and the student says," but master I'm so looking forward to waiting until they finish school and they get married, and I have grandchildren, and I can enjoy the fruits of my life by seeing my grandchildren," and so the Master says "okay I will come back."

Another decade goes by and now the grandchildren are there and the Master goes and says "so you have had your life, your kids, your grandkids and your grandkids are now grown up, you've had your fun, it's time for you to attend to your Divine Mission." The student says "but Master I'm so attached to my family, I cannot leave them. This is the best time of my life. I want to be in their company and I want to enjoy every minute of being with them and I can't, I can't, I simply can't let go of this, this is so good, this is so beautiful" and the Master looks at him and says "you have created a life for yourself that denies you the chance of growth. So in your next lifetime you can come back as a snake and you can live underneath the house where all of these children and grandchildren are going to come back, and you're going to watch over them and never leave them. How would you like that?"

Now the story has an interesting moral, because one of the things that is believed in the ancient scriptural teachings that come from India in the Vegas, is that if in one lifetime we are incapable of attending to our Divine Mission at all, then we do not earn the merits of being born again as a human being. So we are to be born as a species that doesn't

have individual intelligence. So the animal kingdoms and the members of the animal kingdoms, the animals, the birds, the mammals in the sea, they all have a collective consciousness. They do not have individual intelligence, meaning they don't make a choice that this is my family I'm going to stay with them. A fish doesn't say I want to go off and go to college over there. I want to go eat the corals on the other side of this reef. A school of fish stays together. A flock of birds stay together. The animal cubs stay with their parents until it's time for them to separate and go have their own families and they have the level of consciousness that keeps them together. They have a collective consciousness that allows them to protect themselves and each other from danger and stay together, some species even stay together even until death. We know swans, when one partner dies the other one stays alone until he or she also dies.

Human kingdom has intelligence which allows us to make unique intelligent decisions. One of those intelligent decisions which is a responsibility that we carry, is to make a decision to promote our soul, to connect with our soul, to uplift ourselves to the level of our souls. So the moral of this story, where the teacher, the spiritual Master, was patient in giving the student a chance, and ultimately losing his patience and saying, okay if you can't balance your ability to serve the higher purpose while you're enjoying this mundane life, this life in this physical body and your immediate family, your job, your position. If you can't balance the two then perhaps we need to look and see if you deserve to be given another chance at being born as an intelligent member of a species where your soul, your spirit, and your responsibility to serve a higher purpose comes into account.

So we have these Guardians. These Guardians are given by Divine Mother to us. Each of these Guardians have made a huge sacrifice by stepping down their Energies and being present for us. Divine Mother once said and I have told you that story. She said not using the gifts that these Guardians bring is like going to a card table and leaving money on the table and leaving. You might remember me saying – I smiled at the fact Mother is giving an energy of a gambler going to a card table, playing cards and then leaving all the chips, or all the money on the table and walking away. I found that very interesting that she would give that analogy rather than something else that I would think she might think of, but it's understandable.

You have all of these Cosmic Guardians. If you ever come to situations where your life is stagnant, do you immediately think of going to this new Cosmic Guardian we were given last month? In the course of the month how many times did you think since you listened to this meditation last month, how many times did you think, huh I feel right now I need some extra Life Force, I should go to the Cosmic Guardian and the Divine Mother Aspect, I should go bathe in their Light and I should bring my case forward to them?

In the course of last month, how many times did you think a little bit more money would be good and you thought I am going to go to the Cosmic Guardian of Abundance? By the same token, in the course of last month how many times did you think if I had a little bit more energy, if there was a little bit more time in this

day I would be able to finish everything I had on my list? Did it occur to you then to go to the Cosmic Guardian of Abundance and Wholeness and say, please help me accomplish all that I need to accomplish in the course of each day, give me the Life Force Energy I need?

In the course of last month, how many times did you think of when things went awry and it did in the course of last month for some reason. The Energies were really weird from one moment to the next in the course of the past 4 weeks and those of you who have communicated with me; we've had this conversation a lot, back and forth with regards to what is going on. The Energies get really weird for a couple of hours, for a day or two and then they get really easy for a couple of hours a day or two and then they go back to being really weird and really bumpy. Now did you imagine, did you think to yourself to take advantage of the fact that exactly one month ago Divine Mother gave us the Energy of Cosmic Guardian of Balancing the Light & Dark? This whole month has been about that balance.

There are times when you feel like this has to be an attack because it shouldn't be going in this way. It's as if somebody is pulling me from behind and not letting me go where I need to go, and then at other times it is as if somebody's pushing me forward and it's moving easily. Did you think of going to the Cosmic Guardian of Balancing the Light & Dark and asking for a little bit more balance, a little bit more smoothing out of the Energies, a little raising of the vibration so the good moments can stretch a little bit longer?

Again, in the course of this last month how many times have you said, ahh this is never going to happen and then you thought I'm going to go to the Cosmic Guardian of Hope? If you haven't done it, this is our chance.

Divine Mother is going to give us part two and in the part two she's going to magnify the Energies. We have one more month to get familiar with these four new Cosmic Guardians while we take advantage of those ones that we have already established a relationship with. So let's rethink everything that we learned in these Portal Day Channelings and let's act on everything that we learn.

Divine Mother has told us the most important Energy anchoring; the most beneficial work gets done on these Portal Days. Even if you only attend one of them and then you forget for a few months, the fact is your energy is involved in the group energy where we come together every month from across the globe and we hold space for the anchoring of these Energies, and for the posting of these Energies on the Planetary Body Grid. So even those people who do not have the advantage of knowing about these channelings and the ability to come to us can benefit from it, it may be a subconscious connection on their part. They may never know that we were the ones who anchored the Energies. We were the ones who facilitated it. We will gain the merits whether they know or not, because those Deities and those Beings with whom we work, they've got their pen and pad and they write down all the merits that we gain and it goes into the Akashic Records.

Once in the Akashic Records it becomes pooled and therefore maybe next lifetime, maybe next week, we will get to a position where we need to draw from the merits that we have gained, and it's available to us. From the moment that we anchor the Energies into many lifetimes into the future, even into lifetimes into the past, because we can whitewash what has happened in the past so that the grooves that have created our present moment- based on what has happened in the past -can be cleared. Therefore cleansing and purifying our present moment, and allowing us to start each moment from this now moment into the future by using our clean slate, by walking from a higher plateau, by jumping off of a higher level. **What we do impacts present and future as well as our past, and I have seen this and it has been scientifically proven.**

So let's give Divine Mother a chance to give us the next level, and let's accept and absorb these Energies. Let's together set our intentions that even if we forget, if we lose the memory that we have these tools, even when we leave money on the table and leave the table, that they remember and they make an appearance to us. Then we have asked their help to take an extra step in the direction of reminding us. We're asking their help to make themselves known to us. We're asking them to remind us of their presence.

I do recommend that you give five, ten minutes every morning before you get out of bed if possible, or as you get out of bed, to call them and devote the day to them, and request that they walk with you during the day. Then do the same again once you settle in bed and before you fall asleep. Just go into their Energies, call the twelve, call the four, call the three. **The three is Cosmic Mother of Cosmos, Great Silent Watcher, Divine Mother. The four is the four new ones, the twelve is the twelve we've had for a couple of years now. They're all members of the Divine Feminine Council. If you don't remember them by name you can just say the Cosmic Guardians that are members of the Divine Feminine Council and the Divine Mother Aspects who step down their Energies. Set that intention right now. Believe me it works.**

I myself have had occasion where I've forgotten about one of them and then suddenly close my eyes to say a prayer just to Divine Mother, from the corner of my eye I have seen the presence of one or the other shinning their Light, their Energies and then I have remembered, oh I remember this Light what was her name?

Balancing Life Force, this is who I need because right now I'm worn out and I don't have any Energy to do one more thing, but there's still life left in this day and time left in this day, so I'm going to go to her.

So let's together set that intention, and let's **together feel the Energy of Divine Mother behind us, Great Silent Watcher in front of us to the left and Mother of Cosmos in front of us to the right, because these three positioned closest to us carry the responsibility of magnifying everything that's coming to us from those other Beings outside of the Triangle. They magnify all the Energies. We go to the three of them and we ask the three of them to give us the opportunity to magnify the Energies of**

all these other Cosmic Guardians and Divine Mother Aspects and to boost our days, to uplift our spiritual commitment, to balance, balance the levels of embodying our present Life's Mission and our responsibilities to our children, grandchildren, parents, spouses, significant others, work, jobs, people, places, things, friends, our responsibility to the planet, our responsibility to our pets and other species, our responsibilities to the Five Elements and upkeep of the Five Elements, the Waters, the Earth, the Air, the Fire, the Ether and balance all of that with our responsibility to serve as a member of a Divine family of Beings of Light.

We wouldn't be in the company of Divine Mother and these Beings if we weren't members of their family. We are their family members. We always want to have our family members be proud of us and it goes both ways. Family members that are immediate and tangible around us that we have this lifetime with, and the family members who are intangible but we know they're there, and we gain a lot of merits by being in their presence, and those merits spread beyond this lifetime. We ask for that balance in the presence of all of these Beings, and we invite them to be involved everyday, every hour of every day in everything that we do, and thank you for all that you do.

Divine Mother begins: 57:54

My Beloved Children of Light I am your very own Divine Mother.

I ask you to envision the three beams of Light that are emanating from Mother of Cosmos, Great Silent Watcher and Divine Mother to fill the Triangle around you with Streams of Light that shine in Turquoise Blue, Root Beer colored Amber and Copper Gold of Divine Mother.

Now envision that the Beams of Light emanating from Cosmic Guardian of Balancing Light & Dark in the form of rutilated Smokey Quartz with Golden Veins pour into this Triangle and becomes magnified, balancing your Life Force, keeping a leash on the forces of opposition and enhancing the Light in your lives, the quotient of Light in your bodies and the bodies of your loved ones. The bodies of everyone you touch, everyone you are touched by, the bodies of the Five Elements, the bodies of people, places and things.

Now imagine the Energies of the Emerald Green from Cosmic Guardian of Abundance and the Divine Mother Aspect pouring into the Triangle and being magnified where health, wholeness, financial abundance and material resources, just what you need when you need it, and to become plentiful so you can be abundant, you can be generous, you can be considerate of others around you. Emerald Green Light coming into the Triangle and streaming through the Turquoise Blue, the Copper Gold, the Root Beer Amber, being aware that the rutilated Smokey Quartz with Golden Veins is already streaming through and reaching to your bodies.

Now become aware of the Pomegranate Seed Maroon Red color with Shimmers of Platinum and Silver pouring in, being magnified, balancing the Life Force, enhancing the Life Force that moves through you dissolving the blocks that stand in the way of the movement and flow of the Life Force. The elevation of your body in being able to do more in each day, to find shortcuts in accomplishing more in each day, to learn while you are in sleep and dreamtime and to bring the learning back with you even at subconscious and conscious levels to use it as tools during your wakeful hours.

Finally see the range of the Ray and the colors of Hope from the Cosmic Guardian of Hope and the Divine Mother Aspect pour in, in the Red, Orange, Yellow, Peach, Pink all mixed into the Turquoise Blue, the Root Beer Amber, the Copper Gold and stand to magnify the Energy of Balancing Light & Dark, the Energy of Balancing Abundance & Health, the Energy of Balancing the Life Force filling everything with Hope.

Now become aware that everyone of the 12 Cosmic Guardians that are on the outer circle hold their Scepters of Power, and the Divine Mother Aspects who are seated beneath them hold their hands out. And they each send their Light, Power & Protection in Cobalt Blue, Prosperity in Pearlescent Fuchsia, Life Force in New Leaf Green, Joy & Gratitude in Warm Yellow, 5th Dimensional Abundance & Health in Baby Green & Baby Blue, Balancing the Polarities of Male & Female in Lilac, Vibrant Pink Life Force of Mother of Universe, Empowerment with Pearlescent Gray with a drop of Purple, Energies of Goddess Victory in both the range of Pink with Gold & Platinum, Frosted Blue with Platinum, Energies of Karuna, Cinnamon colored Light of Kindness, Sweetness, Loving, Nurturing, Energies of Divine Plan in Warm Orange, the Energies of Earthly Abundance in Reddish Brown, the color of maple leaves, the color of some oak leaves.

All the 12 are holding their Scepters above the heads of the Divine Mother Aspects of the same Quality while the Divine Mother Aspect steps down those Energies and sends it through their Bodies and their outstretched arms, while their palms are sending Shafts of those Energies into the Square where the 4 Cosmic Guardians are magnified by the 4, and then pouring into the Triangle where Great Silent Watcher, Mother of Cosmos and Divine Mother further magnify it to be absorbed into your body and your being.

I hold you with great love. I ask you to imagine and repeat this exercise. I ask you to set the intention that every one of these Beings will be with you every day as you rise. To walk with you during the day and to help you serve and balance your Divine Mission and your worldly affairs, and every night as you lay down to go into those realms where you learn greater lessons and serve greater purpose in higher realms. Remember them in the morning, remember them in the evening, and give yourself permission to do this for the course of the month and see how things transpire, see the difference for yourself. Make a note, keep a journal, take individual issues to each of them as it is appropriate when it comes to the surface,

and see how they get resolved, see how long it takes for them to get resolved, see how different it is when they are engaged in your day to day life. When they are able to help you balance your mundane life with your individual sublime mission and when it becomes seamless. That's the object of this exercise, to help you have more tools so you don't leave any money on the table, so you are in any given moment attending to both your practical life and your commitments at the mundane level and your sublime life and your commitments to your soul.

I hold you in my own hearts and I praise and raise your souls to higher elevations, and I ask your personality aspects to give me permission to work with each of you individually to raise your vibration so this work of moving from one to the other becomes seamless. So It is. I'm your very own Divine Mother

Nasrin concludes: Thank you everyone and goodnight.

Jim concludes: Thank you Nasrin, thank you Divine Mother and I thank all of you until next month. Have a wonderful month, thank you, goodnight.
