Jim begins: Hello everyone this is Jim and welcome to the 2-02-2016 Gateway Portal Channeling. I thank you all for being here and offering yourselves in this way for this service, this great service to Earth and humankind and to the Divine Feminine, and especially our Divine Mother.

Take a deep breath and be aware that you're standing on Uluru, the great red rock in Central Australia, a very sacred vortex. And be aware that everyone on this call and everyone that listens to this meditation are also standing with you.

**Grounding Meditation-** As you connect with Uluru (the great red rock formation in Central Australia), feel that your heartbeat is beginning to beat in sync with Uluru, and we all together slide into this great red rock. Feel the nurturing affect of the red light of this rock as it envelops you, clearing and cleansing you of all the day's events and the running around, the mental struggles you've been through.

Visualize that from the bottoms of your feet extending to the Core Crystal of Mother Earth is your Hara Line, the Pillar of Light that moves from your tail bone and the bottoms of your feet all the way down to the Core Crystal of Mother Earth.

Envision that all the Cosmic Guardians of the Divine Feminine that we know and love are all wrapping themselves around you as you send your roots down around the Hara Line. Visualize your roots wrapping around the Core Crystal holding you tight to Mother Earth and all the Goddesses wrapping themselves around you as well as wrapping their roots around your roots.

**The Tree Trunk-**Finally the layer of the tree trunk, visualize the tree trunk wrapping around you and sending its roots down holding every ones roots tight to the Core Crystal of Mother Earth. See that this tree trunk wraps itself around you and extends up through the heavens to the Pool of Creation where it branches out and spreads out into the Pool of Creation with its branches and leaves.

See that the outside layer, the bark like moss on the bark of the tree, see the green, visualize this Emerald Green color which bathes the tree trunk in this Emerald Green Light of Abundance & Healing, and around the outside of that see Divine Mother's Plum colored Light, the Light of Rejuvenation & Regeneration.

Now focus on the roots that you sent down wrapped by all of these Deities and this tree trunk, and visualize the Amber colored Life Force Energy of Mother Earth pulling itself up through the roots, up through the Hara Line to the bottoms of your feet, filling your body and your being with the Amber Light from Mother Earth, this Life Force Energy, and it fills your body, your being, your 5 Body System and extends up through and out the Crown Chakra at the top of your head, into the Antahkarana Cord, the Pillar of Light that extends from your body up through the heavens to the Pool of Creation. See this Amber colored Life Force Energy from Mother Earth continuing to pour all the way up into the Pool of Creation linking Mother Earth's Life Force Energy to the Cosmic Life Force Energy.

We see Cosmic Mother of the Cosmos pouring her Amber and Gold colored Light into the Pool of Creation. We also see Great Silent Watcher standing along the side as you see all of the Guardians and Goddesses of the Divine Feminine standing along pouring their Lights into the Pool of Creation. Great Silent Watcher pours her Gold and Turquoise Blue Light into the Pool of Creation and we see Mother of Compassion, Guardian of Compassion, pouring her Pearlescent Peachy Cream colored Light of Compassion into the Pool of Creation. Now we see Divine Mother pouring the color for this year to help us get through this year smoothly, her gift is the Golden Brown Light.

See these four Lights pouring into the Pool of Creation and being pulled by the branches and leaves of the tree and pouring down the tree trunk, down your Antahkarana Cord into your Crown, your Body, 5 Body System, all the Chakras and pouring all the way down to the Core Crystal mixing with the Life Force Energy of Mother Earth and moving back up, all the way up into your body, all the way up to the Pool of Creation, where it mixes once again with the Turquoise and Gold pouring from Great Silent Watcher's jar which she holds over the Pool of Creation. Also Cosmic Mother's rich, vibrant Amber colored Light with Gold, the Pearlescent Peachy Cream Light of Guardian of Compassion, and Divine Mother's Golden Brown Light which holds within it the Copper Gold Light, all pouring down, once again magnified, pouring down through the tree trunk, through your body and being all the way down to the Core Crystal. And one more time moving all the way up from the Core Crystal, all the way up to the Pool of Creation and we move with it, our consciousness moves up to the Pool of Creation.

We see standing around the deck overlooking the Pool of Creation, all of the Deities, including our Beloved Goddess of Victory. We see her standing with her Javelins, Goddess of Victory in her Powder Blue & Platinum colored Light as well as her Golden Pink & the Pewter and Yellow Lights, all of the colors of Goddess of Victory. This year she will be our guardian, our guide. She will stand with us and make us victorious. We just need to call on her. She's offered to come and be by our side this year, please don't miss the chance to continually call upon Goddess of Victory and the Energies of Victory. See her Javelins around you and around your loved ones, and all the actions that need to be done within your life that are important to you.

So as Victory stands with her Javelins and her Torch of Victory above her head we get out of the Pool of Creation and stand next to our Guardian Angels, put on our ceremonial robes and take our Scepter of Power, and we turn towards Divine Mother sitting on her Throne, and we move towards Divine Mother. As we get close she stands, holds her arms out, the Golden Brown Light pouring to us from her robes and we're pulled into her bosom. She wraps her arms around us and visualize yourself inside a sphere, Divine Mother's Light of Golden Brown. See this color, feel this color, this Light being absorbed into your body and your being. Take a moment, set your intentions and let this nurturing, beautiful Light of Divine Mother pour over you and within you and the next voice you hear will be that of our Beloved Nasrin. I thank you and I wish you all a great 2016. So It Is.

**Divine Mother begins at 9:47min**

**Divine Mother's gift of Angelic Watchers and elementals to bring you healing**

My Beloved Children of Light I'm your very own Divine Mother. I welcome you to 2-2-2016.

My gift to you on this wonderful portal day is to **bring you healing energies by inviting a Host of Elemental Beings under the guardianship of Angelic Watchers who carry the Light of Great Silent Watcher to administer healing to your body, your 5 Body System and Light Body.**

This year of 2016 is a very important year historically because it sets the pace for everything that will unfold for the rest of this decade. We've just moved to the second half of the decade. The second half of this decade is going to be much faster paced and a lot is going to unfold and transpire. I am very hopeful

for this year. I have very good feelings about this year and a lot of great plans are set in motion during this year.

There are three ways to look at this year. One is to look at it from what began in November of 2015 and will continue to November of 2016, which constitutes the Spiritual Year. Then to look at the Gregorian Year which most people of Earth celebrate from 1<sup>st</sup> of January to 1<sup>st</sup> of January. Then to look at various festivities that celebrate the Chinese New Year and Shivaratri, which falls on the first quarter of March, but also moving to the earthly cycle and considering Spring Equinox as the first of the new Earth cycle.

Right now as we prepare to move through the portal of 2-2 and get ready for the month of February, which is a month of reflection but also action, a lot will unfold during this month and I want to make sure that I offer you healing during this year. Ultimately my desire for all of you who are in service to the Light is that your bodies, your minds, emotions, soul and spirit become regenerated and rejuvenated so that the accelerated pace of this year is a welcomed experience. If we are able to raise your quotient of Light and help you enjoy this ride with its fast pace, then this year will be an enjoyable one because there is a lot of seeds that have been sewn which you will harvest during this year, and it is great if you have the strength and stamina for enjoying that harvest.

We're going to move upward and onward to many great things in spite of what might seem to be going on in the world, and I would very much like to see you enjoy this year from a deep place of peace and celebration because you have earned the merits for a celebration. You're due to be celebrated. You've done a lot for the Light, for Divine Mother.

So in this year and as we move into the first quarter, getting closer to the completion of the first quarter, I ask you for your prayers, your meditations, and to remember please to do the protection grid, bringing in Goddess of Compassion, Goddess Victory, Divine Mother, Great Silent Watcher, and the Amber Light of Mother of Cosmos. That would be a daily routine. Inviting Goddess Victory to be your guide and to make you victorious in everything you do. Inviting Great Silent Watcher to pour her Golden Turquoise Light and protect you in every endeavor. Inviting Divine Mother and the Golden Brown that encases the Copper Gold to nurture you and inviting Goddess of Compassion to pour her Peachy Cream Light and help you see this world through the eyes of compassion.

Petition Great Silent Watcher for the gift of Angelic watchers and Elementals-So now I ask you to kneel with me to petition Great Silent Watcher. Imagine that you hold your Scepter above your head as you kneel, and imagine that Divine Mother is kneeling by your side. Together we are petitioning Great Silent Watcher to fashion Angelic Watchers who will guard and guide Elemental Beings that look like Fairies and Devas to administer healing to all parts of your body. **The Fairies and Devas and the Elementals ultimately all work under the auspices of Great Silent Watcher. I say ultimately because there are many layers between them and Great Silent Watcher. So the Angelic Watchers are at the level where they work with the Elementals, at the same time they take their guidance from Great Silent Watcher and Silent Watchers who translate the information from Great Silent Watcher to the Angelic Watchers.**

I'm going to ask you that you **imagine that a triangle is now forming around you and at each point of the triangle you see an Angelic Being who is going to be with you for the rest of this year, this Angelic Being is an Angelic Watcher. You're facing one at the top point of the triangle, a beautiful Angelic Watcher who's illuminated with Yellow Light, and then over your left shoulder you see an Angelic Watcher who's illuminated with Blue Light, and over your right shoulder you will see an Angel who's illuminated with Red Light, and they each send their Lights to you.**

Now Great Silent Watcher herself will create a dome of Golden Turquoise that becomes like a bubble, the outer most layer around the triangle inside the Turquoise Blue with Shimmering Gold bubble. Great Silent Watcher invokes Fairies and Devas who are from the Elemental Kingdom. Their job is to take care of your body, so they will administer to everything related to your body, from your skin to your eyes, to your hair, to your organs, to the flow of blood and the circulation, muscles, bones and everything that relates to the physical body. Another Host of Elementals will deal with your emotions, another one will deal with your mind and another set will deal with your spiritual needs, intuitive, sublime needs and desires. So your body, mind, emotions, soul and spirit are taken into account.

The three Angels that are hovering over you sending you their three primary colored Lights, Yellow, Blue, and Red. Together, they will administer the range of all the colors available within the spectrum of Lights and colors and all the Qualities. Yellow is for joy, gratitude, peace and harmony. Blue is for power, protection, self confidence, self esteem, self acceptance, knowledge, wisdom. Red represents passion, action, decision making, and focus. Together when they merge they bring colors and Lights that are considered secondary, meaning they're made from the primary colors, from Yellow, Blue and Red and all the Qualities that those secondary Lights and colors carry. Red also deals with love, relationships, both of romantic nature and of family and friendship nature, because Red itself is for passion but when Red is mixed with other colors like with White it will become Pink, which is the loving Energy that encompasses again loving relationships, loving friendships, nurturing experiences, feeling self love.

These Angelic Beings constantly send you these Lights, and constantly merge their Lights to one another to create other Lights that enhance your experience. Meantime, they guide and guard various Hosts of Elemental Beings whose job is to take care of your body, your 5 Body System and your Light Body.

The way to use these Beings on a day to day basis is to incorporate them in your meditation every day. Take a moment now and imagine the three standing around you and imagine those Hosts of Elementals administering their love and working with your body, your 5 Body System, Light Body. You can pause and take as much time as you like.

Call on these angels daily and allow them to heal you-To give you your daily routine, what I ask you to imagine every day as you wake up is that you're inside the triangle with your three Angels sending you Yellow, Blue and Red and mixing their own Energies to send all the colors of the rainbow, all the colors known to humankind. Imagine the most beautiful of Fairies and Devas in the most imaginative forms swarming around you and administer healing. Tell those Angels and those Fairies and Devas specifically the areas of your body, your mind, your emotions and the spiritual needs that you have. Tell them specifically the areas that need extra help, your eyesight for some of you, whatever organs need extra attention, memory, rejuvenation of the body, rejuvenation of the skin, focus on your brain.....Tell the ones that are to deal with helping you on your path what's ahead of you for this year; what you wish to accomplish this year; always remember to say, *"this or better, this or better as Divine Mother chooses on my behalf"*. Remember to always call upon Great Silent Watcher to supervise the work of your three Angels, the Angelic Watchers, and the Hosts of Elementals.

So you get up in the morning, the first thing is, you think about this grid with the three Angels and Hosts and Hosts of Fairies and Devas, and you imagine yourself inside of the Triangle receiving the healing, and you imagine that Great Silent Watcher is standing and pouring her love and her Energies onto these Angels. Then the next thing that you do is you put your protection on which is the grounding, sending the roots to the Core Crystal, letting the Energy shoot up to the Pool of

**Creation, and there calling upon Divine Mother, Goddess of Compassion, Goddess Victory, Great Silent Watcher, Cosmic Mother of Cosmos and their individual Lights to pour down the Pool of Creation into the tree trunk which is protecting you, into the consciousness of your body and moving back down from your roots to the Core Crystal, shooting up, and as you're setting that grid with the tree trunk ask those Beings, Great Silent Watcher, Mother of Compassion, Divine Mother, Goddess Victory, Mother of Cosmos to send their healing and their Lights, and to protect you, and you start the day, it's as simple as that.**

**Then at night before you fall asleep you can either sit and meditate with these Beings or just as you lay to sleep you call upon the triangle and the Hosts of Devas and Fairies and the Hosts of Elementals, and you invoke Great Silent Watcher and ask for the healing to be administered to your Body, 5 Body System, Light Body and you call upon all the Beings, Goddess Victory, Divine Mother, Mother of Compassion, Great Silent Watcher, Mother of Cosmos to pour their Lights, and you fall asleep.**

**Any time that you have a few minutes to sit and meditate you can meditate by envisioning yourself inside of the triangle, and imagining that those three Angels are actually sending you Lights, and specifically sending those Lights to those areas of your Body, your Mind, your Emotions, your Soul, your Spirit that really need it. That's the extra meditation if you have 5-10 minutes during the course of the day to just sit with them and say, " please put special focus in these areas"...(state whatever area you want them to focus on, whether it's emotional, mental or physical as well as spiritual), and even if you're not meditating but in the course of the day you come across a situation and you feel the need to reach out, then do that and if you do that 10 times or 20 times a day it's not an issue. The more you give them a chance to help you the happier they are to be in service. They have been installed in these positions to be of service to you for the rest of this year and beyond if you choose to continue with them. So take advantage of their presence and the gifts that they bring you. You can always come to Divine Mother and sit with me and talk to me.**

**Right now I would like to ask you to lay down, or sit in meditation. Envision this scene of yourself inside of the triangle and the Beings that I have recommended you call Mother, Mother of Cosmos, Mother of Compassion, Great Silent Watcher, Goddess Victory, I'm calling them on your behalf and I'm asking them to administer healing on you and work with the three Angelic Watchers and the Hosts of Elementals. I'm asking them to help you by telling the Angels exactly what your needs are according to what's the best and highest plan for you.**

**So 10 minutes, if you can, 15 minutes is even better, if you can lie down or sit in meditation for that length of time, and if you fall asleep that's even better. If you can't do it right away then when you get a chance to lay down at night call upon Divine Mother, these Beings, your three Angels and the Elementals and say Divine Mother, I ask you to administer the healing you were planning for me now, and you can do this every night from now on. You can lie down and say Divine Mother, I call upon you and I ask you to administer the healing with the help of the other Beings upon the Angels and instruct the Angels and the Elementals to do what is best for me. This is a great gift I am offering you. It's a simple one to remember, but it can make a huge difference in your lives, to your body, to your outlook and for your future.**

**I hold each and every one of you in my own heart and I am very happy that we have come together this far, this fast. I have great plans for this year for each of you and I know you will all rise up to the occasion and we will do this together. I Am your very own Divine Mother. So It Is.**

**Jim: Thank you Nasrin, thank you Divine Mother and I thank all of you until next month. So It Is. Goodnight.**
