Hello everyone this is Jim and welcome to the 3-3-2016 Gateway Portal Channeling. I thank you all for being here and offering yourself in this great service.

Grounding Meditation-Take a deep breath and visualize that you're standing on top of Uluru. Uluru's a great red rock in Central Australia; it's a very sacred site. Imagine yourself standing with your feet flat against the red rock of Uluru, the clay red colored rock. Be aware that everyone listening to this meditation is also standing there with you, and together we all form a group entity, a group energy. You can feel the presence of everyone standing around you as you connect with Uluru. Let yourself slide down into the red rock of Uluru and feel the nurturing Light of Uluru all around you.

Imagine your Hara Line- the Pillar of Light that extends from the bottoms of your feet all the way to the Core of Mother Earth- imagine it being energized and the Pillar activated.

Now send down your roots from the bottoms of your feet and your tailbone, your Root Chakra and imagine you're sending a root system down around the Hara Line all the way to the Core Crystal, wrapping your roots around the Core Crystal holding you grounded to Mother Earth. Imagine all the Deities, Divine Mother, the Cosmic Council of the Divine Feminine and all those Deities wrapping themselves around you and sending roots down around your roots to hold you tighter to the Earth Core Crystal.

Imagine that a tree trunk forms around you and this tree will extend all the way up through the heavens to the Pool of Creation where the branches and the leaves of the tree spread out through the Pool of Creation. This tree trunk extends its roots down around yours, around the Divine Feminine Deities root system to be the final layer wrapping around the Core Crystal and holding you even tighter grounded to Mother Earth.

Visualize the tree trunk that is around you extends up through the heavens; the moss on the outside of the bark of the tree is an Emerald Green color. Imagine that this Light is beaming Abundance & Healing into the cylinder and everything that flows up and down through the cylinder; and around that see the Plum colored Light of Divine Mother's Energies of Rejuvenation.

Now focus on the Core Crystal of Mother Earth, your roots wrapped around it, and see the Amber colored Life Force Energy of Mother Earth; it is beginning to move up through the Hara Line, up around the root system, all the way up to the bottoms of your feet. See it move up through your feet and up through the body. Amber colored Life Force Energy is moving all the way up through your body to the Crown, into the cylinder that is the tree trunk and filling the cylinder, filling your 5 Body System and your

Chakras within the body; it moves all the way up to the Pool of Creation and pours into the Pool of Creation.

See Great Silent Watcher standing beside the Pool pouring from her huge jar Turquoise Blue mixed with Gold Light. It pours down through the tree trunk and see Mother of the Cosmos pouring her Vibrant Amber colored Light mixed with Gold into the Pool of Creation and down through the tree trunk. And we see the Pearlescent Beige and Peach colored Light of the Guardian of Compassion pouring it into the Pool of Creation and into the Cylinder, the tree trunk, and finally Divine Mother pouring her Golden Brown Light into the Pool of Creation, into the tree trunk. All of those 4 Streams of Light pouring down the tree trunk into the Crown Chakra, through the body and down the Hara Line, all the way to the Core Crystal.

You brought the Energy, the Life Force Energy of Mother Earth to the Pool of Creation and now you've brought those 4 Streams of Light from the Pool of Creation all the way down to the Core Crystal where it mixes with the Life Force Energy of Mother Earth; rejuvenating it; regenerating the Energies; pulsing them through the Body of Mother Earth and the Light Body and Energy Bodies of Mother Earth; and now mixed together it comes back up through the root system to the body; up all the way to the Pool of Creation, mixing once again with the 4 Streams of Light: the Turquoise & Gold of Great Silent Watcher, the Vibrant Amber Cosmic Life Force Energy of Mother of the Cosmos with Gold, the Pearlescent Beige Peach Light of Compassion. The Golden Brown of Divine Mother mixed with the Earth Energies pours down through the tree trunk again; moves all the way through the body; down to the Core Crystal, mixing once more and a third time moves all the way up; and as it moves into the body we send our consciousness with it, and it goes all the way up through the cylinder to the Pool of Creation.

We see ourselves standing in the Pool of Creation, swimming in the Pool of Creation, with the Cosmic Council of the Divine Feminine, all of the Great Beings standing around the side of the Pool. We step out next to the two Angels, who have our ceremonial robes which we put on, and our Scepters, and turn to look at Divine Mother sitting on her Throne. We move towards her and as we get close she stands, opens up her arms, and the nurturing loving Energy of Divine Mother pours out: Copper Gold wrapped within the Golden Brown Light of Divine Mother. She wraps her arms around us, holds us in her bosom as we feel these Lights effects on our body, nurturing, loving, clearing and cleansing Lights and Energies from Divine Mother.

We send all our love and gratitude to Divine Mother, and she takes us now within her bosom, slides down through the heavens, through the dimensions and realities to the 5th Dimensional Reality. We find ourselves standing next to the Sacred Altar in the center of the first level of Divine Mother's retreat in the 5th Dimensional Octave where we see the Warm Orange colored Lights beaming from the walls, the onyx with streaks of red and green on the floor. We stand before the Sacred Altar. All of the Great Beings, all of the Cosmic Council of the Divine Feminine Deities are standing around this Altar- the Sacred Fire- with us; all of those in our group entity standing with us; Divine Mother

across from us is sitting on her Throne. On either side are Lord Shiva & Goddess Shakti sitting on the Thrones on either side of Divine Mother.

Let us take a moment to make our offerings to the Sacred Fire and set our intentions for this coming year, for ourselves, our loved ones, for this Earth, and also for Divine Mother and for all of these Deities. Great Silent Watcher is standing behind Divine Mother as she sits on her Throne, Goddesses Victory, Liberty, Guardian of Divine Plan and all of the Great Cosmic Deities are standing with us. Take a moment, set your intentions, make your offerings and the next voice you hear will be that of our Beloved Nasrin. So It Is. I thank you.

Nasrin begins: 10:48 min

Hello everyone and welcome to 3-3-2016. This is an auspicious moment for all of us to come together, because this month we go through the Energies of Shivaratri. Lord Shiva the Destroyer of Karma, Goddess Shakti the Giver of Boons & Gifts are celebrated during the first seven days of the month of March this year. Shivaratri is calculated based on the lunar calendar, and the final day of the seven day celebration falls on 7th of March.

It's interesting that 3 is the number of creation and Divine Mother's own numbers, so this is an auspicious month. Then on the 20th we have Spring Equinox and the new cycle of the year from Earth's perspective. The New Year always starts with the first day of spring, so Divine Mother is offering us this meditation to move into the new cycle bringing the grace and blessings from Lord Shiva Goddess Shakti, the Creative Force of Divine Mother herself who works through number 3 as her signature number, and the Energies of Spring Equinox.

Let's stand for a moment before the Sacred Fire in the presence of Lord Shiva, Goddess Shakti, Divine Mother and all the Deities and make a sacred offering and say a prayer for Earth, for humankind, for all souls and creatures; for our loved ones and for ourselves and each other.

Divine Mother begins: 13:34 min

My Beloved Children of Light I'm your very own Divine Mother.

It is with great pleasure and joy that I invite you to this celebration and I ask you to offer your prayers and intentions to the Sacred Fire during these auspicious days. I'm offering you this meditation early so every day of Shivaratri can count as a blessing for you. Prayers offered to Lord Shiva & Goddess Shakti during the 7 days of Shivaratri count a thousand times more effectively than any other day of the year. Make use of these 7 days where everything is multiplied a thousand times.

I ask you to envision yourselves standing with the palms of your hands held in front of Divine Mother. As I take each hand and I place a mixture of a paste that has been blessed by Lord Shiva & Goddess Shakti taken from the Sacred Fire Altar. All the Deities and

members of Angelic, Archangelic, Watchers, Silent Watchers and Great Silent Watcher have blessed it with all the Earthly Deities and Guardians, as well as the Cosmic Guardians from the Divine Feminine family of Light. They have added their own Signature Energy and their intentions for Healing & Light. I will rub this paste deeply into the palms of your hands, into each of the fingers of your hands. Then I will turn your hands and rub it on the back of your hands all the way to your wrists, left hand and then right hand. The left symbolizes the Feminine. The right symbolizes the Masculine.

This paste is intended to administer healing to your hands and be absorbed through your hands; moving into your forearms, your arms and shoulders; then entering your chest cavity, your heart Chakra, organ of the heart and all the organs in your chest cavity. Also into the Chakras of your body. Then moving up into the top of your head and your Antahkarana Cord and rising through the cord to the Pool of Creation. It also moves down your body into your legs, to the bottom of your feet, and from there to your Earth Crust Chakra and down your Hara Line to the Core Crystal in the center of Earth. In this way connecting you to the heavens above and to the Earth below. Sending the Healing Energy and the Transmutational Power that is inherent in this paste from my hands to yours, and from your body to your 5 Body System & Light Body; and to the 5 Body System & Light Body of Mother Earth; and through your Antahkarana Cord all the way to the heavens above.

This process continues and the paste is absorbed. The paste is a pearlescent color like an off-white Egg Shell Colored Light but it has shinning Shimmering Pearlescent Light to it. As I rub it, first it sits on the surface of your skin and then it gets absorbed into your skin; and your hands become shiny and vibrant. You might feel a throbbing sensation in the palm of your hands and a tingling sensation in your fingers; and that sensation moves into your forearms, your arms, and shoulders and into the chest cavity. Then moves up and down your body, into your 5 Body System, into your Light Body, through the heavens above and into the Earth below you. And from the Earth below you reaching to multitudes and masses, and from the heavens above pouring back down like the rays of the sun bathing all creatures of the world in its blessing.

Meantime, I would like to thank you for all we have accomplished together. I would like to thank all of you who come from the 4 corners of the world to participate in these Gateway Portal sessions. We are going to expand these sessions and reach out to more people; and I ask each of you to pray for that to become a reality. As we move into the Energies of Equinox and enter the new Earth year, the first of the new year from Earth's perspective. I ask you to pray for new life, new people, new Life Force to move through each of you and reach to people, places and things; attracting those people, those places, and those things to rise up to the occasion; to raise their own consciousness to receive the grace from Divine Mother, from the Deities, from Lord Shiva & Goddess Shakti.

Every prayer that you put out on behalf of Earth and humankind or for your loved ones and for yourselves and for each other in these groups is magnified a thousand folds; and I give you the blessing to put into your heart and mind ideas for greater intentions and prayers that will benefit you individually; benefit your loved ones; benefit Earth and

humankind; and bring you back merits also a thousand folds. What you set in intentions is multiplied and magnified a thousand folds. In the same way what you receive in merits is also multiplied a thousand folds.

I ask you to **reach deep in your own heart and pray for everyone you know**. Pray for everyone you love, and pray for everyone that you no longer love, even those you would rather not think about, because those ones need your prayers the most, and think of ways to allow forgiveness to seep into your heart. Forgiveness is a great healer. Forgiveness is a healing balm that heals all your ailments, your aching hearts; it clarifies your mind and your thoughts; it opens your heart to new possibilities.

Self-forgiveness is the crowning glory of all levels and layers of forgiveness. I have said this before and I remind you again, every one of you is harder on yourself than you are on others. On the day that you allow yourselves, your own self to be rid of all the guilt and the blame that you put on yourself and true forgiveness to penetrate into your own heart where you stop being so hard on yourselves, that day is a glorious day. That day you allow the healing properties of forgiveness to heal all your ailments.

For as long as you are hard on yourselves you will have difficulty forgiving others. **Forgiveness has to start with you**. You have to be more accepting of yourselves in all areas of your life, be more accepting that you didn't manage to do everything on your list in a day, be more accepting that you didn't feel like doing certain things in a day; be forgiving of yourselves for saying the wrong thing once in a while; for judging once in a while; for being critical of yourself and of others and asking Divine Mother to help you.

In this process of moving through forgiveness, moving through the Energy of Forgiveness, forgiving all the pain, all the struggle that everyone of you have suffered in childhood and allowing all the grooves, all the scars that remain from childhood and have been brought as painful memories into adulthood, and let them be washed away, as I take another round of the Paste and rub it into your hands; the palms of your hands and your fingers; the back of your hands and allow it to move up energetically from your wrist to your forearm; upper arms, shoulders, enter your chest and also be absorbed deep into every tissue, every cell, into the DNA of every cell.

As you receive this healing balm look up to Lord Shiva & Goddess Shakti and say a prayer, set an intention that they give their blessing for self-forgiveness and forgiveness of others, to wash away all the pain from the moment of birth to this present time and extend into your future. Ask them to extend it to your parents at the point where you were conceived through your birth, your childhood, into your adulthood. Ask Lord Shiva & Goddess Shakti for the flow of that loving Energy that washes away all the pain and struggles to continue through you to generations who come after you; to your own children, your grandchildren and their children; moving on generation after generation.

If you do not yet have children of your own, ask for it to extend into the future for as long as necessary, even into future incarnations in case in this lifetime you do not end up having generations of children and grandchildren. Ask it to extend into future

generations of children, even if they are not born from your vessel, and into the future generations of all children of Earth wherever they may be born.

Let the vibration of Earth be raised on this auspicious moment as we move into the Energies of Shivaratri, Gateway Portal of 3-3, Spring Equinox of 2016, through the year into the next and to the following years, and to the completion of the second decade into 2020 and the third decade after that; all the way into the first century of this millennia and beyond.

See the Streams of Light that emanate from your body blessed by Lord Shiva & Goddess Shakti. They are magnified through their intentions and their grace a thousand times. They are blessed and magnified by Divine Mother and members of the Divine Feminine Council, Angels, Archangels, Watchers, Silent Watchers and our Beloved Great Silent Watcher. She is the source of Light for our entire universe. See it spreading throughout this planet and move beyond the planet to the solar system; beyond the solar system into the galaxy; beyond the millions and billions of star systems within the galaxy into the universe; and move even beyond the universe into all levels and layers of the Cosmic Conglomerate. Set the intention that the Energies of Forgiveness vibrate throughout the entire Cosmic Conglomerate in whatever way they will be most affective through the grace of Shiva & Shakti, Divine Mother and her Creative Force; and Great Silent Watcher and her Light which shines through the entire Cosmic Conglomerate.

I ask you each to give me 10 minutes by lying down and meditate. This allows myself, Lord Shiva, Goddess Shakti, Great Silent Watcher and all the Angelic Beings, together with the Divine Feminine Council members to administer healing and wash your body, 5 Body System Light Body with the Light of Forgiveness.

I thank you for gathering on this day and for repeating this exercise through the month. I hold you in my own heart and I wish you a happy Shivaratri, happy Spring Equinox, happy year of 2016, moving all the way one year in a circle until we come back together for Spring Equinox in 2017. Give me a chance to work on you individually and give you what you need in your own unique way that will help you on your path to the raising of the vibration of Earth and reaching out to the multitudes and masses.

I hold you in my own heart; I Am your very own Divine Mother. I stand with great joy and gratitude; I celebrate your Light, your love, your glory. So It Is.

Jim concludes: Thank you Nas, thank you Divine Mother and I thank all of you, goodnight.
