Grid of Light Meditation with Divine Mother

Hello everyone this is Jim and welcome to the 4-4-2016 Gateway Portal Channeling. I thank you all for being here and offering yourselves in this service.

Take a deep breath and visualize yourself standing on top of Uluru. Be aware that everyone that will listen to this audio is standing there with you. Feel their presence. As you connect with Uluru, let your heart beat in sync with that of Uluru and Mother Earth. Now slide into Uluru and see the Clay Red color of Uluru all around you. Feel its nurturing love as it begins to clear all the cobwebs of the day, the static of the day.

Now activate your Hara Line just beneath the bottoms of your feet all the way to the Core of Mother Earth. The Pillar of Light is illuminated. See all the Deities, the Cosmic Council of the Divine Feminine, Divine Mother, Goddess Victory, Goddess Liberty, Mother of the Universe, Mother of the Cosmos, Guardian of the Divine Plan, Great Silent Watcher wrapping themselves around you as you send your roots down around the Hara Line wrapping themselves around the Core Crystal. See all of these Deities overlighting you and sending their roots down as well.

See the tree trunk forming around you and sending the tree's roots all the way down around your roots and around the Core Crystal. The tree trunk is going all the way up spreading its branches and leaves into the Pool of Creation. The outer layer of the tree trunk is an Emerald Green color bathing the cylinder of the tree trunk in the Energies of Healing & Abundance. Around the outside of the tree trunk and the Green Light is the Plum colored Light of Divine Mother's Rejuvenation & Regeneration and around that the colors of the Guardian of Stability, the same color as the skin of an eggplant.

We pull up the Energy through our roots from the Core Crystal, the Amber colored Light, all the way up through the Hara Line to the bottoms of our feet, into our body filling all the Chakras of the body and the 5 Body System & Light Body with the Amber colored Light as it pulls up through the Crown all the way to the Pool of Creation.

Great Silent Watcher pours her Gold & Turquoise Blue Light into the Pool of Creation. Mother of the Cosmos pours her Vibrant Amber & Gold. Guardian of Compassion pours her Beige Peach colored Light into the Pool of Creation, and Mother pours her Golden Brown. All of those Lights stream down through the tree trunk to the Crown Chakra, through your body, all the way down to the Core Crystal mixing with the Energies of Mother Earth and coming back up again, all the way through the bottoms of the feet up to the Pool of Creation.

All of the Lights down again through the body, all the way to the Core Crystal, mixing with the Energies of Mother Earth and all the Lights mix together coming back up one last time, and we move with these Energies all the way to the Pool of Creation, our consciousness in the Pool of Creation.

We see all the Deities standing around the outside, and we see our two Angels, personal Angels with our robes standing by the side of the Pool of Creation. We jump out put our ceremonial robes on, take our Scepter, we turn to face Divine Mother in the distance, and we move towards her. As we get close she stands, raises her arms, the Copper Gold inside the Golden Brown Light pours to us. We're magnetized to her bosom and she wraps her arms around us and we find ourselves in the bosom of Divine Mother in

the Golden Brown Light of Divine Mother. Take a moment, feel her presence, send her your love and your gratitude for all that she's doing for you and for this Earth, state your intentions, say your prayers, and the next voice you hear will be that of our Beloved Nasrin. So It Is.

Nasrin: 6:00 min

Hello everyone and welcome to 4-4. Beautiful days ahead of us, it's nice to have spring for those of us who live in the northern hemisphere and thawing of the cold and snow.

So imagine that you are in the bosom of Divine Mother bathing in her Copper Gold Light that is encased in her Golden Brown loving every moment of this experience of being embraced by Divine Mother. Let's take a moment to pray for our loved ones and bring them in so they can bathe in this love as well.

Divine Mother: 7:19min

Grid of Light Meditation by Divine Mother- Channeled by Nasrin Safai on 4/4/2016

My Beloved Children of Light I'm your very own Divine Mother.

Cocoon of Turquoise Blue Light of Great Silent watcher for protection and empowerment

My gift to you for this beautiful day and this month of April is a special grid that has been requested by Great Silent Watcher. So I ask you to **imagine that you are standing before me at Divine Mother's Throne, and that Great Silent Watcher is present towering over you and I, and that she holds her Scepter of Power pouring down her Turquoise Blue Light.**

As the Turquoise Blue starts pouring down upon you, first **envision your Soul Star Chakra. It is a Six Pointed Star on top of your head above the Lotus of your Crown Chakra. Imagine it encased in a beautiful Turquoise Blue Sphere. Imagine that the Turquoise Blue Light that is pouring down from Great Silent Watcher's Scepter is absorbed into this Star and Sphere and then begins to form a cocoon around your body. And the cocoon protects you with Great Silent Watcher's Turquoise Blue Light of Fearlessness, Empowerment & Protection. And the cocoon continues to form from the top of your head, going to the bottom of your feet, all the way to your Earth Crust Chakra where another Star sits inside another Sphere and absorbs the Turquoise Blue Light closing this cocoon. Then this Energy of Turquoise Blue Light of Fearlessness, Empowerment & Protection keeps spinning and spiraling and twirling inside the cocoon, inside your body.**

The size of this cocoon is such that your entire body, your 5 Body System and your Light Body is encased inside. So this beautiful Turquoise Blue cocoon with one Star above your head, one Star below your feet protects your Physical Body, your Etheric Body or your Aura, your Emotional Body, your Mental Body and your Light Body. As it spins and spirals, twirling around from the top Star to the bottom Star, it also expands from the center core of your Physical Body and goes outward in every direction and spins and spirals to enhance and nurture your 5 Body System & Light Body.

I ask you to add this to your daily meditation so I'm going to do a summary of your daily meditation in steps to make it easier for you.

Recap of Your daily meditation routine with the cocoon of Turquoise Blue

From Great Silent Watcher

When you get up in the morning **start your day by putting your protection grid- your daily grounding meditation:** Imagine yourself on top of Uluru. Feel yourself being pulled inside the boulder sized Uluru Rock absorbing the Red Life Force Energy; that Clay Red colored Life Force Energy which carries the heartbeat of Mother Earth and the abundance, the life, the love, the nurturance that Mother Earth has for you.

Send your roots down your Hara Line to the Core Crystal pulling Amber Light up your roots, go down, pull the Amber Light up, it comes up your Hara Line, reaches your Earth Crust Chakra, goes all the way up your body, top of the head, up the Antahkarana Cord to the Pool of Creation.

At the Pool of Creation you collect the Energies from Divine Mother and her Golden Brown light; Goddess Victory with her Platinum Pewter Light, Mother of Compassion with her Pearlescent Peach and Great Silent Watcher with her Turquoise Blue Light; all that pours down. Meantime a towering image of Great Silent Watcher is standing with you before Divine Mother, you and Divine Mother standing together. She's holding her Scepter up pouring her Turquoise Blue, creating a cocoon that goes from above the top of your head inside a Six Pointed Star which is encased in a nice large Sphere. You can imagine the size of the Sphere to be the size of a grapefruit and the Star fits right inside of that Sphere, one on top of your head. The pouring of the Turquoise Blue expands from the Star to create a cocoon around your body and reaches down to the bottoms of your feet in the area of your Earth Star Chakra where another Star inside another Sphere receives the final part of this Turquoise Blue and magnifies the Energies to spin and swirl and twirl, to then spread into your Physical Body, your Etheric Body, Emotional Body, Mental Body and Light Body.

Imagine that this Turquoise Blue Light is throbbing and pulsing through your 5 Body System Light Body and spinning and twirling from below your feet to the top of your head, and from top of your head down to below your feet. You are bringing the Energies from heaven to Earth. You are grounding yourself. You are receiving Energies from the Pool of Creation and letting that go up and down. You're building the tree trunk around you. You are putting a cylinder of Light, it is a Platinum colored cylinder which carries the Energies of all the Deities over the tree trunk. The cylinder is shiny and it wards off any negative energies.

So if you were to look from outside in you would see the cylinder covering the tree trunk, which covers the Turquoise cocoon and inside of the Turquoise cocoon you stand.

Now I ask you to go lay down for 10 minutes and give a chance to myself and all these Beloved Deities to do a recalibration of your body and adjust this Turquoise Blue Light with the help of Great Silent Watcher, healing all the Chakras of your body, recalibrating, reactivating, realigning all your Chakras with your 5 Body System & Light Body. Do this for the whole month until we come back together the following month. I hold each of you in my own heart with great love. This is my gift to you; please repeat it daily as part of your grounding meditation. So It Is.

Jim concludes: Thank you Nasrin, thank you Divine Mother and I thank all of you. Until next month be sure to do the protection grid, goodnight.
