Hello everyone this is Jim and welcome to the 5-5-2016 Gateway Portal Channeling. Thank you all of you for being here and offering this service. Take a deep breath and we'll begin.

Imagine you're standing on Uluru, the great red rock in Central Australia. Be aware that everyone listening to this audio is also standing with you. Feel yourself glide into Uluru and see the Clay Red colored Light of Uluru all around you nurturing you, removing all of the static and all of the distractions of the day.

Now we activate our Hara Line, the Pillar of Light that extends from the bottoms of our feet all the way to the Core Crystal of Mother Earth. Imagine all of the Cosmic Deities, the Goddesses, the Cosmic Council of the Divine Feminine, Divine Mother and all of the Deities wrap their roots around your roots, as you send your roots down from the bottoms of your feet around the Hara Line, all the way to the Core Crystal. Divine Mother wraps herself around you, extends her roots down around yours as do the rest of the Goddesses.

Visualize a tree trunk forming around you and the tree extending its roots around all of the Deities' roots and your roots to the Core Crystal, wrapping them around the Core Crystal holding you grounded to Mother Earth. The outer layer of the tree trunk is an Emerald Green color, the color of Healing & Abundance. Visualize this tree trunk extending up where the branches and leaves of the tree flow into the Pool of Creation. Around the outside of the Green surrounding the tree trunk see Divine Mother's Plum colored Light of Rejuvenation & Regeneration.

Now focus on the Core Crystal and pull the Amber colored Life Force Energy of Mother Earth up through the roots of the tree trunk and your Hara Line all the way up to the bottoms of your feet into your body filling your Physical Body and your 5 Body System with the Amber colored Life Force Energy. It moves all the way up through the Crown, out the top of the head filling the Cylinder of the tree trunk and moving all the way up to the Pool of Creation where it pours into the Pool of Creation.

We see all of the Cosmic Council of the Divine Feminine standing around the Pool of Creation. Great Silent Watcher in her Turquoise Blue pouring the Gold into the Pool of Creation, so the Turquoise Blue and Gold are pouring down through the tree trunk. Next to her the Cosmic Mother pouring her Vibrant Amber colored Life Force Energy mixed with the Gold into the Pool of Creation, Mother of Universe in her Vibrant Pink with Gold pouring it into the Pool of Creation. Divine Mother pouring Golden Brown Light into the Pool of Creation, Guardian of Compassion pouring the Beige Peach colored Light into the Pool of Creation and Cosmic Guardian of the Divine Plan pouring Warm Orange & Gold into the Pool of Creation. All of these Lights going down through the tree trunk into your Crown Chakra, into your Body, your 5 Body System & Light Body, and down through the bottoms of your feet all the way to the Core Crystal mixing with the Life Force Energy of Mother Earth.

That mixture of all the Lights comes back up through the root system to the bottoms of the feet, through your body and being all the way up to the Pool of Creation, mixing again with the Lights of these Deities and pouring back down through the tree trunk, through your Crown, through your body, down the root system and the Hara Line to the Core Crystal, and one last time mixing with the Life Force Energy of Mother Earth and coming back up.

As it moves up we move our consciousness with it to the Pool of Creation and you find yourself in the Pool of Creation. All the Deities are standing by the side of the pool. We step out, our two Angels are standing and we take our ceremonial robes, we put them on, we take our Scepter and we turn to face Divine Mother sitting on her Throne, Lord Shiva Goddess Shakti sitting on either side of her, Great Silent Watcher towering over her standing behind her Throne. We move towards Divine Mother, as we get closer she stands, she spreads her arms, the Golden Brown Light which holds within it the Copper Gold Light is pouring to us and we are pulled into her bosom.

**At Divine Mother's Throne-** Take a deep breath and spend a moment with Divine Mother giving her our love and appreciation and our gratitude for everything that she has done and is doing. We **step in front of her and we turn to face her and face Great Silent Watcher standing behind the Throne. We see Great Silent Watcher point her Scepter of Power at our Soul Chakra just above the Crown Chakra. Just 10-12 inches above our Crown Chakra is our 8<sup>th</sup> Chakra, it has the six pointed star inside a small sphere and Great Silent Watcher shines her Turquoise Blue Light on the star and it begins to spin.**

**She points her Scepter at our Earth Crust Chakra just below the bottoms of our feet. The star begins to spin, the 6 Pointed Star begins to spin inside a sphere, and the two spinning stars within the Chakras create a Turquoise Blue cocoon around our bodies, our 5 Body System & Light Body, holding us in her protection, Great Silent Watcher's protection.**

**Feel the presence of this cocoon, feel the 6 Pointed Stars spinning in each one of the Chakras pouring that Turquoise Blue Light into all of your Chakras between the 8<sup>th</sup> and the Earth Crust Chakra, activating them and clearing and cleansing our 5 Body System Light Body, Physical Body. Take a moment to get set within this cocoon, setting the cocoon around you and establishing it, the Turquoise Blue cocoon of protection of Great Silent Watcher around you.**

I'll give you a moment to set this in place, set your intentions and the next voice you hear will be that of our Beloved Nasrin. So It Is.

**Nasrin: 9:37**

Hello everyone and welcome to 5-5-2016. We offer love to Lord Buddha on this Wesak Festival that happens on 5-5. We also offer our love to Mother Mary who is celebrated in the month of May. The whole month is dedicated to her. So remember to call upon her during the entire month for all the things you would like to manifest, and to offer prayers for your loved ones, and also to offer for Divine Mother and Mother Mary on this month. While we go to them to ask them for favors, we can also go to them and pray for them.

I once said to Mother, you ask me to pray for you, who do I go to, to pray for you? She said you come to me to pray for me. So I said to myself, ok I make it my mantra, "I go to Divine Mother to pray for Divine Mother". It still counts; you don't have to go to a higher power than the Being that you are praying for. In a sense, **when you pray for these Deities you're giving them power to do more for us. You're offering them love to use as fuel that they need to energize them to do more for us. So we can pray to Divine Mother for Divine Mother. We can pray for Mother Mary for herself. We can pray to Lord Buddha for all that he needs to accomplish. Lord Buddha has always asked that we pray for non-violence, mercy and non-violence.**

**So let's take a moment and send love to everyone in the month of May, from the Deities to our group members, as well as to our loved ones, family members, friends, social acquaintances, coworkers, even the people we don't necessarily care for too much, they're the ones who need the most prayers and the most forgiveness. Then loving and praying for ourselves, our personality**

aspects, and being gentle with ourselves, sending love to our own personality aspects, our own conscious self, being gentle and kind to ourselves individually.

**Divine Mother: 13:21**

**8 Layered cocoon of Topaz Blue and Platinum Light for Empowerment and Protection-  
Gifts from Topaz Blue goddess of protection and Goddess Victory**

My Beloved Children of Light I'm your own Divine Mother. My gift to you for this month is to continue with the meditation from last month. I'm going to go over all the steps for clarity.

Imagine that **you are now standing before Divine Mother and Mother is seated upon her Throne, and Great Silent Watcher is holding her Scepter above your head creating a cocoon around your body. This cocoon has one star above your head, approximately 12 inches above your head. A 6 Pointed Star that is encased inside a sphere, another star 12 inches below your feet corresponds and coincides with your Earth Crust Chakra, 6 Pointed Star sits inside of a sphere. Both the sphere on top of your head and the sphere on the bottom of your feet are illuminated with the Turquoise Blue Light of Great Silent Watcher, and as she pours her Light upon you, the stars become activated creating a cocoon around your Physical Body.**

See (imagine) a cocoon around your Physical Body with one star on top, one star on the bottom, then a cocoon around your Etheric Body with one star corresponding to the top of that, and one star corresponding to the bottom. Then a cocoon around your Emotional Body with one star on top, one star at the bottom of your feet, then a cocoon around your Mental Body with one star above, one star below. Then a cocoon around your Spiritual Body with one star above, one star below, these stars are all aligned. If you were to draw a line that comes from the heavens above and goes through the spheres that encase each of these stars, it goes down the consciousness of the body from the top of your head, shooting the Turquoise Blue Light into your body and coming out at your Earth Crust Chakra where there is the star and the sphere around it, and it continues to go down as if it's going to reach to the Core Crystal of the Earth, so each star above your head and each star below your feet lines up on each of your cocoons around each of your 5 Body System.

Then after the 5 Body System is your Light Body. That Light Body is your Vehicle of Light. Inside of that vehicle you travel into the realms. It keeps you protected, it maintains your consciousness intact, it helps you to journey taking your consciousness to the higher realms while your body stays in the 3<sup>rd</sup> Dimension. So **another cocoon with one star encased in a sphere above your head, lining up with the five below it. One star corresponding to the Earth Crust Chakra and it's lined up with your Hara Line below your feet. This is the sixth layer.**

**Imagine Great Silent Watcher filling each of these cocoons with her Turquoise Blue Light. Imagine her activating the last and final one which is your Light Body that acts as your Vehicle of Light for traveling in the realms.** It is also called your Merkaba Field. Merkaba literally means vehicle. Imagine all these layers fully illuminated.

**Topaz Blue Goddess of Protection and Empowerment-** Now I am going to introduce you to a new Being. This new Being is from the soul lineage of Great Silent Watcher herself. **Great Silent Watcher has requested this female Being, a Cosmic Guardian that comes from one of the sister stars that Great Silent Watcher is involved with in our Cosmic Conglomerate. She is very close to Great Silent Watcher. Her expertise is to protect you and your Energy Bodies and to empower you to do things that you would not normally be able to do without her help. She's taking some of the**

responsibilities from Great Silent Watcher in order to get closer to each of you individually and get involved in your day to day lives.

**Great Silent Watcher is a Cosmic Being of enormous power and she has enormous responsibilities to go with that power. This Cosmic Guardian is also one with enormous powers. She has agreed to step down her Energy in order to be able to get closer to those of you who work with Divine Mother and Great Silent Watcher in order to help you do the things you wish to do in service to the Light. In a sense she creates and builds a bridge for you to do things you weren't able to do before this bridge was built. This bridge allows you to connect with your own Higher Self interdimensionally and gain the power that you have in the Higher Realms and use it in the 3<sup>rd</sup> Dimension.**

**The more powerful you are in your day to day lives, the more helpful you can be to us. At the same time the more powerful you are the easier it is to accomplish your day to day activities. It frees you from spending time spinning your wheels getting nowhere. It helps you to get focused to get things done in a shorter period of time than is normal. She will help to remove stumbling blocks on your path, and help to empower you in situations where those blocks may cause disempowerment and delays. So her job is to walk ahead of you and have the foresight to see what's ahead of you, and to help to remove everything that will delay you, and pave the path for everything that would give you momentum, everything that helps you move faster, smoother, easier, with less Energy discharge, with less exhaustion.**

The past few months have been exhausting. Many of you are feeling the Energies, while you are accomplishing quite a bit from one day to the next you feel its drain on your body. One of the reasons why Great Silent Watcher has requested this new Cosmic Guardian to join her and to help you is to help you feel more refreshed and rejuvenated by spending less Energy, spending less time spinning your wheels trying to get things done. Her job is to pave the path. Her job is to protect you from wasting your Energy. Her job is to empower you to see the higher road and to take it.

We have discussed with Jim and Nas and some members of the group as to what we call this Being, and because the color of Light that she illuminates is a beautiful transparent, translucent Topaz Blue, Sky Blue Topaz color, we've decided to call her the Topaz Blue Cosmic Guardian of Protection. So **Topaz Blue Goddess of Protection is what we will call her from now on. Remember that she brings you protection in two ways.**

- 1. By empowering you to do more with less effort.**
- 2. By protecting you from wasting your Energy and your time.**

She does the protection by **smoothing out the path for you, by releasing the negativity on your path, by helping you get focused on what is the best course of action, and by helping you to constantly choose that highest path, that highest choice. She is very present once you make your connection with her.**

So now I ask you to envision standing with Great Silent Watcher and Divine Mother. **A beautiful tall Being, her body emanating a Sky Blue Topaz colored Light, just like a pure piece of topaz blue gem. Emanates that Sky Blue Light, and the Light shines through the Topaz and brightens everything. Imagine that her whole body is emanating this Light. She has long dark hair, big beautiful topaz blue colored eyes, a pointed chin, a tall neck, a slender body. Her entire body is encased in flowing Blue Lights. It's difficult to see the silhouette of her body because of the Light that she emanates.**

Now imagine that you kneel down with one knee down and one knee up holding your Scepter. Or you can have both knees down kneeling and hold your Scepter above your head, and let her stand over

you as she places both her hands on the golden globe of your Scepter of Power. She will begin to charge your Scepter with her Topaz Blue Light, and the Energy goes from the golden globe of your Scepter to the rod where you have your hands wrapped around the rod. Through your fingers and the palms of your hands you receive the Topaz Blue Light. It travels up your arms to your shoulders, enters your chest, spreads down your chest while it also enters your neck and goes up your head.

**1<sup>st</sup> layer, the Physical Body Cocoon-** It reaches to the first star above your head, which is the cocoon around your Physical Body that's from the top, and it reaches from your torso, down your legs to the bottom of your feet also filling the cocoon that is around your Physical Body, reaching to the 6 Pointed Star inside the small sphere that sits over your Earth Crust Chakra. It creates a layer overlapping the first cocoon of Turquoise Blue Light of Great Silent Watcher. Sit for a moment and breathe that Light in.....

You may feel a throbbing sensation or a tingling sensation in your body. This first layer is important because everything then radiates from the layer of Physical Body into all the layers of your 5 Body System and your Light Body.

**2<sup>nd</sup> layer, the Etheric Body Cocoon-** Now the Energy continues to radiate from the layer she has placed over Great Silent Watcher's around your Physical Body to go into the next layer which is your Etheric Body. It penetrates as she places her own cocoon over Great Silent Watcher's cocoon on top of your Etheric Body bathing the two stars, one on top of the Etheric Body cocoon, one on the bottom, and the sphere that encases each star. Take a moment, breathe deeply, let the Topaz Blue Goddess of Protection fill your Etheric Body cocoon layered on top of Great Silent Watcher's cocoon with her Topaz Blue Light....

**3<sup>rd</sup> layer the Emotional Body Cocoon-**Now we go to the next layer. She helps to send another beam of her Light from her hands placed on top of the golden globe of your Scepter to reach to the rod, your hands, your arms, your shoulders, to move up and down your body, to enter the cocoon of your Emotional Body, and reaching to the star that spins on the top of your head, the third one aligning with the two before it and the star below your feet, again the third one aligning with the two before it. This one completely emanating into your Emotional Body cocoon and the Turquoise Blue Light of Great Silent Watcher layering it, radiating from the center into the edges with Topaz Blue Light from the Topaz Blue Goddess of Protection, protecting your emotions, protecting you from losing your balance, from spilling too much emotions, from spewing too much sensitivities, containing your Emotional Body in a beautiful cocoon of empowerment which allows you to feel nurtured. Take a deep breath and let this third cocoon fully bathe in the Topaz Blue Light....

**Mental body cocoon, the 4<sup>th</sup> layer-**The next layer is the Mental Body. She will send another blast of her Topaz Blue Light to radiate from the center of your body outward to the fourth cocoon and the fourth set of stars inside spheres on top of your head and below your feet, lining up with the other three above and the other three below. Mental Body cocoon being filled to overlap Great Silent Watcher's Mental Body cocoon and provide you with empowerment and protection, pulling your Mental Body to a place of complete focus, grounding all ideas, designs, concepts that you might have or that you might begin to retrieve with her help from the Higher Realms, ideas that will help you see the bigger picture in the higher Light. Ideas that will help you to move to bigger, better things. Ideas that will mentally, emotionally, spiritually, financially place you in a better setting, in a better position to do greater things better and faster, to complete all tasks in less time with less effort with greater joy and smoothness.

Mental Body is very important. Mental Body can get porous and disburse energy easily. When that happens you keep losing things, you keep forgetting things, you lose your train of thought, you lose your

grounding, you lose your focus. This new Cosmic Guardian, the Topaz Blue Goddess of Protection will help you to keep your Mental Body in a state of balance and clarity, clarity of focus, clarity of intention, clarity of mind. When your mind is clear you always find the best solution, the best action, the best idea. When your mind is clear you can do great things in very little time.

So breathe and feel this cocoon with the star above and the star below lining up as **Topaz Blue Goddess sends another blast to fully align and overlight your Mental Body cocoon, and overlap the cocoon of Great Silent Watcher. Breathe and bathe, we don't need to rush you. You don't need to rush yourselves, especially the first time that you do this. So many levels and layers of clearing and cleansing take place that take you from wherever you are in life right now, backward to birth, and go even further to past lives, and also go forward from where you are in this present moment into your immediate future, and then to the decades ahead and even to the lifetimes ahead.**

**The 5<sup>th</sup> layer, the Spiritual Body- Now the last cocoon of the 5 Body System is the Spiritual Body. So imagine as she is holding her hand over the golden globe, that she sends another blast to your Scepter of Power, reaching into your body, radiating from the center of your body up and down and in every direction, reaching from each of the layers of the 5 Body System to the last layer which is your Spiritual Body, overlapping with Great Silent Watcher's cocoon of Turquoise Blue Light, emanating the two stars above and below, lining up those stars, all five stars on top of your head relating to the 5 Body System. All five stars below your feet relating to the 5 Body System are now spinning simultaneously in synchronicity and in harmony with one another.**

**All the dust and debris from this lifetime and many lifetimes of forgetting who you are and disconnecting from your Soul is being cleared and cleansed from this one exercise, a very simple exercise. Your 5 Body System is now complete and it is all overlighted by the protective layers from the Topaz Blue Goddess of Protection.**

**Light Body Cocoon, the sixth layer-The next layer is that of your Light Body, it makes the sixth layer. She sends a big blast of Light to reach the golden globe of your Scepter of Power, enter into your body, radiate through all the five layers and enter into the Light Body, overlighting the entire Light Body, aligning the two stars above the head, below the feet with other stars from your 5 Body System and creating a very safe and protected environment around your Light Body which is your Merkaba Vehicle.**

Your Merkaba Field, a Field of Light which allows you to spin out of the consciousness of this realm and have out of body experiences moving in the Higher Realms. It protects you from going into any realms that are detrimental. It only guides you to Higher Realms to where the Angels and Guides and Divine Mother, and all the Beloved Deities that you so wish to communicate with reside. All the Deities reside in the Higher Dimensions from the Celestial Realms on up. The Celestial Realms start from above the 13<sup>th</sup> Dimension and continue on into the heavens. Then above that are the Realms of the different Deities.

**The seventh layer -Now to give you extra protection she's going to put another cocoon, a seventh layer that will sit over your Light Body to fully seal in the Light Body, the 5 Body System, and then she will put another layer that would be the eighth layer. This time she will mix her Energies with the Energies of our Beloved Goddess Victory whose number, and the number for victory is number eight.**

**The eighth layer- This eighth layer will be a mix of a Shimmering Platinum colored Light that is a gift from Goddess Victory, and the Topaz Blue of Goddess of Protection. The eighth layer has the Topaz Blue with Shimmering Platinum Light. The Shimmer of Platinum is a gift from Victory. I keep repeating these sentences because each time I repeat it you receive a new blast of it, a higher frequency of it. Each time I repeat the visual guidance you are able to see it more clearly and the**

Energies are able to penetrate and establish themselves more fully. Eighth layer a mixture of Platinum Shimmers inside a fluid transparent, translucent Topaz Blue Light.

I'm going to ask you, when I end this session to **lay down for ten minutes so Goddess Victory, Topaz Blue Goddess of Protection, Great Silent Watcher and myself can work with you in balancing and aligning your layers in ways that are unique for you. In this way you will receive a very special personal healing.**

**Repeat this grid of light daily-** I ask you to repeat this meditation, if possible, daily. All you need to do is to **envision you're with Divine Mother, Great Silent Watcher, Topaz Blue Goddess putting the layers around 5 Body System, Light Body, and then the extra layers over the Light Body. And then Goddess Victory coming in and putting the eighth layer by adding her Platinum Shimmers.** What it does as you repeat it daily is it goes deeper in administering healing. **It goes deeper in raising your vibration so you are successful in all your worldly activities as well as helping you to attain greater accomplishments in journeying into the realms and communicating with your guides.**

So I hold you in my own heart, on your **behalf I thank Goddess Victory, Topaz Blue Goddess of Protection and Great Silent Watcher for these amazing gifts and all the ways in which they bestow their love and support upon you and your very own Divine Mother. I am grateful to you for all you do. I am grateful to these Deities for the love they bestow upon you and I. I hold you in my own heart with great love. So It Is.**

Jim concludes: Thank you Nasrin, thank you Divine Mother, Topaz Blue Goddess and I thank all of you. Goodnight.
