Hello everyone this is Jim and welcome to the 11-11-2016 Gateway Portal Channeling. I thank you all for being here and offering yourself in this service.

Grounding Meditation

Everybody take a deep breath and visualize yourself standing on Uluru, the great sacred site in Central Australia. Be aware that everyone on this call is standing there with you, and begin to feel your heartbeat beat in sync with the heartbeat of the rock, of this sacred vortex and with Earth. Now as you feel yourself becoming more in tune with the vibration of Earth, let yourself glide into the red rock that is Uluru. See it all around you wrapping its Clay Red color around you. Feel its nurturing presence and begin to activate your Hara Line; the Pillar of Light beneath your feet. It extends all the way from the bottoms of your feet to the Core of Mother Earth.

We send our roots down around the Hara Line. Let them wrap themselves around the Core Crystal and we feel the presence of Divine Mother wrapping herself around us, Mother of the Universe, Mother of the Cosmos, Victory, Guardian of Divine Plan, Great Silent Watcher - all wrapping themselves around us and extending their roots down around ours.

Now visualize the tree trunk wrapping itself around you; sending the roots down to the Core, wrapping around the Core. See the Emerald Green color of the outside layer of the tree trunk. See it activated, vibrating the Emerald Green Light of Abundance & Healing into the tree trunk, and see that the tree extends all the way up through the heavens to the Pool of Creation where it extends its branches and leaves into the Pool of Creation.

Around the outside of the tree trunk you see the Plum colored Light of Divine Mother's Light of Rejuvenation. Around that we ask Great Silent Watcher to put the Tornado of Turquoise Blue Light around us. Let it spin all the way from the Core Crystal, all the way up to the Pool of Creation, and around that we ask Cosmic Guardian of Stability to send her Light which is the color of the outside peeling of the eggplant, and we call on Topaz Blue Cosmic Guardian of Protection to also wrap her Sky Blue Light around Great Silent Watcher's Tornado of Turquoise Blue.

Now we focus on the Amber colored Light at the Core Crystal, and we send our love and our gratitude to Goddess Gaia. We pull the Amber colored Life Force Energy of Mother Earth up through the root system, the bottoms of the feet, filling our body and our Being, and sending it up through the tree trunk all the way to the Pool of Creation. It pours into the Pool of Creation.

We see Great Silent Watcher standing on the edge of the Pool of Creation pouring her Turquoise Blue Light mixed with Gold into it, Guardian of Divine Plan - Warm Orange & Gold, Cosmic Mother's Vibrant Amber colored Light & Gold, Mother of the Universe -Vibrant Pink & Gold, Victory's Champagne colored Light & Gold, Divine Mother's Golden Brown and Guardian of Compassion's Peach colored Light. All of them into the Pool of Creation and down through the tree trunk, through your Crown Chakra, filling your body and your Being and moving all the way down to the Core Crystal, mixing with the Core Crystal.

Second round you move all those Lights mixed together up through the bottoms of your feet, filling your body and your 5 Body System & Light Body, and moving up to the Pool of Creation mixing all the Lights of all the Great Beings in the Pool of Creation and pouring back down all the way to the Core Crystal, mixing and sending back up one last time, and as it fills your body and your Being, move your consciousness with it all the way up to the Pool of Creation, and see all of these Great Beings standing around the Pool of Creation.

We see the two Angels standing with their trays with our ceremonial robes and our scepter and we stand up out of the Pool of Creation taking our robes, putting them on, taking our scepter and turning to see Divine Mother sitting on her Throne in the distance. Goddess Shakti & Lord Shiva sitting on either side of her, behind her Great Silent Watcher and we move to Divine Mother. As we come close she stands, Golden Brown Light pouring from her cape. As she opens her cape, opens her arms, we are pulled inside her bosom and we see the Golden Brown Light of Divine Mother wrapped all around us. We feel the love of Divine Mother wrapped all around us and in the safety and love of Divine Mother.

Take a few moments, feel that love and nurturance, feel that warming nurturing embrace of Divine Mother. Set your intentions; say your prayers and the next voice you hear will be that of our Beloved Nasrin, I thank you, So It Is.

Nasrin: 8:04

Hello everyone and welcome to 11-11. Both Jim and I have a little bit of a cold and flu. I want to say to all of you who are feeling these energies, the friction, the disappointments, for those who feel disappointed as a result of the recent events of elections, the hurt, I do want to say that we've got to exercise patience; we've got to exercise surrender. As hard as it is, anytime that people are in turmoil, whether it's through wars or natural disasters, even sometimes when people are in the frenzy of shopping for Christmas and New Year's you feel that frenetic energy and it affects you. It affects your Energy Bodies. We do this work of extending our Energy Bodies outward beyond where they normally go, that means that we all experience more than the average person does. So if you feel worn out, if you feel depressed, if you feel uncertain, worried, if you feel this energy - I don't know what to label it - in the air that is affecting you, please know that we are loved by the Deities, that they are watching us, that they're loving us and that they are letting us learn our lessons.

I asked Divine Mother about why things are the way they are, and she said, we asked the Cosmic Councils to intercede on behalf of humankind and the answer was, it's time to let humanity grow up, let them fall, graze their knees and learn about what it's like to have those experiences.

Sometimes disagreements, disorder and disruption is a means by which we all come together and learn to have mercy and compassion and let go of prejudice and mistreating one another. We will all grow from all of the experiences, and this wave has started all over the world. All over the world there are disagreements between people of all cultures about how to run our world, our countries, our cities, our families.

The young ones are learning to rebel against our ways, the older people's ways, and they haven't yet found their own footing. They haven't got wind beneath their wings, so they're not stable yet. We, the older generations, need to be patient with them and be good role models. The older generations may seem to the millennials, to the young generations who are coming of age and want change and want it fast, we may seem too rigid and too established in our ways, and perhaps we are teaching the younger generations to be patient and to have mercy on us.

If we were able to look at our world through the eyes of Divine Mother and all these Cosmic Deities, all we would see would be love. Are they disappointed that we can't agree, that we can't see the picture, the

bigger picture, what's good for us from the larger perspective? Yes they are. Have they written us off? No they haven't. Are they mad at us? No they're not. But sometimes you just say, I'm going to let my children learn and grow at their own pace and learn from their mistakes; and this is one of those times when that's exactly what they're doing. They are telling us, in less word - more actions, that we need to take responsibility for our own actions. We need to watch what we're doing. We need to see the benefits and weigh the pros and cons of every action, and understand the whole concept of karma, cause and effect.

So being aware that we've called this Reality, as it is unfolding, to ourselves, including everyone who's happy with all the results, and everyone who's unhappy with the results. We have together called this Reality to ourselves. We have chosen this Reality. We did this out of our freewill. Some of that freewill has caused the ability of the Cosmic Beings and the Deities to become limited by using our freewill, and when I say our free will I am including all the people of the world.

So if the majority of people of our world are unawakened and are unaware of what's good for them, then those of us who are in minority and know what's good for us, and what's good for our world, and what is in Divine Order, and what is in opposition to Divine Order, we need to exercise patience and remind ourselves and each other that we have come ahead of our own time to shine the Light upon those who are not awake in the hope that we would help them, our world, the 5 Elements to awaken and to do the right thing, and to surrender their free will and their mistakes to the higher-ups, to the Divinity, the Guides, the Angels, the Beings, Divine Mother, to the Divine Feminine whose intention is only love and the highest order for all of us.

So my prayer, Jim and my prayer, everyone at Waves of Bliss, everyone at the Mystery School and Indigos Awaken, our prayer is that we can all come together and learn as fast as possible from all the mistakes, past, present and future, and wise up to surrender our freewill to the will of the highest and the most Divine intentions and plans.

We call upon Cosmic Guardian of Divine Plan. Jim and I looked at our past sessions and in the last session which was 9-9; Divine Mother gave us a paste that was brought in by Cosmic Guardian of Divine Plan for the highest and the best Divine Plan to unfold. The highest and best Divine Plan may be a painful one for many of us.

Divine Mother also invited Great Silent Watcher and the Topaz Blue Goddess of Protection to mix their Energies of Protection, Fearless, Empowerment, the Turquoise Blue and the Topaz Blue together into a paste, and then called all the Silent Watchers and Angelic Watchers and Guardians, and Divine Mother herself put her Energy, and all these Angels and Guardians and Watchers and Silent Watchers put their Energies, and Great Silent Watcher poured from her Scepter of Power, and Topaz Blue Goddess poured from her Light of Topaz Blue to give us Protection, to bring us Empowerment, to make us Fearless.

So being upset, being disappointed, being sad, feeling grief, feeling betrayals, all of those may be how some of us feel right now, but alongside of that we need to get grounded and remember that we are the ones who have the power to surrender and to trust. This is what Divine Mother gave us in 9-9. She was preparing us for what's ahead of us. Let's call upon all those gifts that over the past many months Divine Mother has given us.

Let's also remember that as we moved into November, first, second and third week, we entered into the new Spiritual New Year, and let's remember that Diwali, the Festival of Light, that is spearheaded by Goddess Lakshmi, the Goddess whose responsibility it is to give us spiritual attainments and material possessions, worldly success, and balance those two together. That Lakshmi during the Festival of Diwali that ended and came to its completion on the first, second and third of November gave us the Light with which to enter into this New Year. So we are beginning a new year, let us be hopeful that this new

year be filled with Light, even if it has started with pain and discomfort, that it will give us the strength to endure and become greater than ever, opening our hearts to greater compassion and mercy for all those who are unawakened.

Let us remind each other that we are here to be the Light to shine on the path of everyone else. We are the elders; we are the wise people, even if some of you are very young. In fact the millennials and everyone born since the turn of the century carries the Wisdom Flame, carries the Torch of Wisdom. They are going to lead us into a wiser, safer, more protected New Age, at least we have that to look forward to, and our world will change for the better. This is just a hiccup, and we will move forward, and we will learn to love one another, to work as one, to help awaken all souls, to raise the consciousness of the 5 Elements, to help every creature rise up and look to the Light.

So let's pray that the Light shall prevail, that love shall span the hearts and minds of every creature and penetrate throughout the 5 Elements. Let's pray that we have patience to continue to be the Beacons of Light. Let us pray that we do not lose our patience, we do not lose sight of why we are the spearheads. We do not lose sight of having the foresight that will help us trust and surrender to the Divine Will. That we will be able to help all these awakening souls to learn about the importance of trusting and surrendering to the Divine Will, it is only then that we can let go of the small limited freewill perspective and honor the great realm of possibility that is Divine Will. Let's continue to remain focused on the Divine Will. Let's remember that Divine Mother is there for us, she's protecting us, she's holding us in her bosom, she knows what's ahead of us, and even before we find out what's ahead, she prepares us. Let's remember every day to use the paste from Cosmic Guardian of Divine Plan, the paste from Great Silent Watcher and Topaz Blue Goddess of Protection, every day as you awaken, during the day as you remember and feel the need for extra protection, for extra patience, for extra endurance, for extra mercy, for extra compassion, and every night as you clean yourself to have a good night's sleep and you protect yourself.

I ask you to remember that when there is friction, when there are problems, when there is misunderstanding and disruption in the energy of a culture, a country, the world, that's when forces of opposition gain power. That's when those who have energy of harm towards us gain power to use their own power, use their ability to penetrate and divide us. So energies and entities that have intentions of harm would be attracted when there's hatred and anger and sadness and grief, when there is disruption in the flow of Shakti, disruption in the flow of good will, and we have to be careful with that.

So at night when you go to bed please protect yourself. Please put your protection on. Call on Great Silent Watcher. Call on Cosmic Guardian of Divine Plan. Call on Divine Mother. See five Tornadoes of Aqua Blue, one in each corner of the bedroom where you sleep, and one right over your bed. And do that for every member of the family, for every bedroom in your home, and then imagine that the largest and the tallest one is erected, and call Great Silent Watcher to fill that one with her own Energies. At the very center of your home at the highest point of your home where the roof is the highest and the tallest, that's where a huge vortex, a huge tornado is spinning, spiraling. A vortex of Turquoise Blue Light mixed with Topaz is spinning and spiraling and empowering everyone in the home, protecting everyone in the home, making everyone fearless, and helping everyone to surrender to their own Divine Will, to their Higher Self, to their Higher Power, to Divine Mother, to the Divine Feminine, to your Guides and Angels of Light, to the Masters of Light. With all our love and our prayers let's go to Divine Mother.

Divine Mother: 28:08

My Beloved Children of Light I'm your very own Divine Mother.

Today I would like to briefly offer you a healing. A healing that would be a balm, a healing balm, for your minds, your bodies, your emotions, your souls, but also for the Body of Earth, for Goddess Gaia.

The whole world looks up to United States as the big brother, big sister. The country that would lead everyone to the Light, the country which is most free, most democratic, most fair, most powerful, I'm asking you to remember that and act wisely and think of everyone in the world and how the events, as they are unfolding, affects every single creature around the globe. How the Energies impact the 5 Elements everywhere - affect every sentient and insentient Being, impact all the kingdoms.

The ripple effect of everything that is happening will be felt. It is a mistake to think that this is a waste, this it is disappointing, this is depressing, so pull in the Energy and forget about it. It is a mistake to give in. It is a mistake to think there is discomfort so I am going to block it. It's really good to embrace the pain and pray for everyone to grow up and to learn, learning to surrender, learning to take responsibility. At the same time it's very important that you remember that you are protected, that you are loved, that you are the spearheads. What you do matters enormously. What one of you does matters more than a thousand unawakened souls. What one of you does matters more than 100,000 unawakened souls. So I ask you to be brave. I ask you to be compassionate. I ask you to be merciful, and I ask you to use the power of prayer and the power of all these grids and all these Beings that I have brought in service to you. I ask you to take full advantage of all these Beings, all these Deities and the Lights they offer you, the Lights they shower upon you. Use those Lights for the benefit of your loved ones, for the benefit of people you come across, even if they don't know you well.

When you have the ability to see the pain in someone else's life, that's when you call on these Deities to go directly to that person, even if you are helpless to help them, you can call upon Great Silent Watcher, Divine Mother, Cosmic Guardian of Divine Plan, Goddess Victory, Mother of Universe, Mother of Cosmos, the 4 Cosmic Guardians of Balancing, the 6 Cosmic Guardians that make the Six Pointed Star, the 12 Cosmic Guardians with the 12 Qualities that are needed in this world, and all the Beings that you don't know by name but are here to serve you, all the Angelic Beings, all the Watchers, all the Cosmic Guardians- they're all here.

I am going to call upon Goddess Gaia, and once again I am going to ask Goddess Gaia to give me her Orange and Burnt Amber. Today she has brought us a Burnt Amber colored Light to mix with her Orange Light.

I am going to ask Cosmic Guardian of Divine Plan to give us her Warm Orange. I am going to pour into that, that mixture of the two, the Burnt Amber mixed with Orange and the Warm Orange, I will add my Golden Brown Light, and the combination comes to a spinning, swirling Gold, Burnt Amber, Burnt Orange and Brown that mixes together but doesn't lose all the Qualities. The Quality of bringing the Divinity that you deserve. The Quality of keeping you connected to Goddess Gaia's heart and the heartbeat of Mother Earth. The Quality of Life & Nurturance, Love & Nurturance that is Divine Mother's, and I pour that, and I ask these Lights to come together and I add from the Sacred Fire the Sacred Ashes and together we make this into a paste and we rub it on your bodies.

And I ask you to imagine that the surface of your skin absorbs this paste and every organ, every cell throughout your body all the way to the atomic and subatomic substance, your DNA/RNA absorbs it and feels the love, the nurturance, the divinity, the connection to Earth, the gratitude that Gaia feels because you walk on Earth, because your Light is shining on Earth. I want every pore of your body to absorb this Light, and then I want from the core of your being for it to emanate outwards and go into the layers of your 5 Body System, and go all the way outwards into your Light Body, and go all the way outwards beyond your Light Body to those layers of protection.

The seventh layer was Goddess Gaia and Goddess Victory, remember, and the eighth layer is Great Silent Watcher and Cosmic Guardian of Topaz Blue or Topaz Blue Goddess of Protection. Five layers, your 5 Body System, sixth layer your Light Body which is always Turquoise Blue with Great Silent Watcher

protecting it. The seventh layer is Goddess Victory and Goddess Gaia with their Light, Goddess Victory's Frosted Blue & Platinum, Golden Pink & Platinum, Goddess Gaia's Burnt Amber and Orange.

The eighth layer is yet another layer of protection, Topaz Blue for complete protection, and Turquoise Blue of Great Silent Watcher for Fearlessness, Empowerment & Protection. Spread this into the eight layers and please, from today, from tonight when you go to bed see this.

First and foremost see yourself at Divine Mother's Throne. See Goddess Gaia standing with Cosmic Guardian of Divine Plan and Divine Mother. The three of us make this paste, put our individual Lights in it. The paste becomes a Burnt Amber, Orange, Warm Orange, Golden Brown carrying the Energies of Divine Plan, connection to Mother Earth and her heartbeat at its highest frequency, gift of Goddess Gaia, and Life & Nurturance, Love & Nurturance from your very own Divine Mother.

See this being rubbed by the three of us on your body, Divine Mother, Cosmic Guardian of Divine Plan, Goddess Gaia vigorously rubbing it on your body. Every pore of your body, every surface of your skin absorbing it to itself, going into the core of every cell of your body, and then penetrating from your Physical Body to the five layers, Physical, Etheric, Emotional, Mental, Spiritual, then to the sixth layer which is Light Body, going into the Light Body which is usually Turquoise Blue of Great Silent Watcher, mixing with that, then the seventh layer which is Goddess Gaia and Goddess Victory mixing with the Energies of Gaia and Victory to make you victorious and connect you even further and deeper in Victorious Light to Goddess Gaia. So whenever you walk on Earth you carry the Victory of Goddess Victory and the Love of Gaia and the Life Force & Nurturance of Divine Mother, and then the eighth layer to completely seal all of this protection is the Topaz Blue extra layer of Protection, and Turquoise Blue for Empowerment and Fearlessness.

Fearlessness means you advance to that level where disappointments, where grief, where sadness, where anger, where betrayal don't affect you in a derogatory manner, don't affect you, don't paralyze you, don't incapacitate you, but make you stronger, make you see that you are so very, very special, and that you have a very important role to play, especially at times like this.

This is not a moment to be proud of in terms of what the world is doing to itself, and the ripple effect is going to continue, other countries are going to make decisions that are not in their best interests, following suit as they have done before you, and they will continue to do, because this is the state of the world. The world is in turmoil. It is growing pains. It is a teenage world in the 3rd Dimensional Realm learning to grow up to a responsible young adult, and then the responsible young adult will allow all of you to move to the 5th Dimension, leaving the 3rd Dimension just for the animals, the plants and the minerals and no longer tampering or destroying the beauty of those three kingdoms.

So because of that I ask you every day, put this paste on you, remind yourself that these three Beings, Cosmic Guardian of Divine Plan, Goddess Gaia and Divine Mother are loving you and protecting you, giving you their Light and the paste. The paste penetrates into the core of your being and extends to your 5 Body System, Light Body, 8 layers with the 7th bringing Goddess Victory in and the 8th sealing it all in Topaz Blue and Turquoise Blue.

Then go through the day remembering this is your grid. This is the grid that's around you. This is the Protection, Empowerment, Fearlessness that is around you and at all times your homes, your offices, your cars, your place of business needs to have at every corner of every room, at the 4 points, and in the center a twisting, twirling, spinning tornado that is a mixture of Turquoise and Topaz Blue in every room, in every bedroom, and specifically when you go to bed you see that Tornado in the 4 corners and on your bed, so your entire bed is inside one large tornado. However many people sleep in that bed are protected, and then you repeat that for each bedroom, and then you see a huge tornado in the center of that house that spins and swirls taking the entire house in its bosom, in its Light, in its protection.

I ask you to do this every day, not just this month but every day from now on until I give you something better than this, until I tell you you've anchored this, you're done with this, you don't need it anymore. It will not be anytime soon that I would say those words. I may add something to it but for a very long time, perhaps from now until 2022 this is something I very much would like you to do every day.

Why 2022? Because Great Silent Watcher has an agreement with all of you to protect you until 2022, and then to bring a Higher Aspect of herself sometime around 2022, so how many years is that? (17, 18, 19, 20, 21, 22 that's about 6 years) 6 years and a little bit, 6 years and 2 months from today. That's how important this grid is, and it remains to be seen in 6 years and 2 months from now when the promised event is going to happen, what else is going to be added? Great Silent Watcher is not going anywhere. She's bringing extra reinforcement; it's the kind of reinforcement that we have to work together to gain. It remains to be seen by end of 2022, how much improvement there is in the worldly realms in the gaining of the Higher Power, a Higher Aspect of Great Silent Watcher to come in.

So the importance of this grid, of putting this paste on your bodies and seeing that Mother, Gaia, and Cosmic Guardian of Divine Plan are devising a new plan for us, for you, for Earth, for 5 Elements, for all the kingdoms, for the entire alternate realities that unfold ahead of us and going through the next 6-7 years and beyond.

I love every one of you from the core of my heart, and I protect you and I hold you in the Life Force Energies, and I promise you, this too shall pass and the outcome will be good. The outcome will be wisdom, knowledge, strength, courage, purification, and it will happen fast.

Happy Stargate opening 11-11, this indeed is a Stargate opening and the stars in the whole cosmos are opening their Light to send to each and every one of you who are awake and connected. The stars are opening their grace and showering each and every one of you with their grace. This is the most important portal of the year so I wish you great healing, great love, great patience and mercy, compassion and love. I'm your very own Divine Mother. So It Is.

Jim concludes: Thank you Nas. Thank you Divine Mother, Goddess Gaia, Guardian of Divine Plan and I thank all of you, until next month. So It Is.
