Hello everyone this is Jim and welcome to the 12-12-2016 Gateway Portal Channeling. I thank you all for being here offering yourself in this service, I wish you all a happy holiday season.

Take a deep breath and visualize that you're standing on top of Uluru, the great red rock in Central Australia. Be aware that everyone on this call and listening to this in the future is standing there with you.

Feel Uluru beneath the bottoms of your feet, and as you connect with Uluru allow yourself to slide into the clay red colored rock. Let the Light of Uluru surround you, clear and cleanse and relieve you of any static as you relax and activate the Hara Line, the Pillar of Light beneath the bottoms of your feet that extends all the way down to the Core of Mother Earth. As that is ignited we send our roots down from the bottoms of our feet and our tailbone, our Root Chakra, all the way down around the Hara Line to wrap themselves around the Core Crystal at the center of Earth, to help us ground to Mother Earth and to connect to Mother Earth. And we ask Divine Mother, Mother of the Universe, Mother of the Cosmos, Goddess Victory, Guardian of Divine Plan and Great Silent Watcher to wrap themselves around us and send their roots down around our roots to further secure us to the Core of Mother Earth.

Visualize the tree trunk forming around you that sends its roots down around all the other roots to wrap around the Core Crystal. Feel yourself grounded to Mother Earth through your own root system and the root system of the Deities and the tree trunk, see the trunk around you. The cylinder of the tree trunk, the outside layer is Emerald Green, bathing this cylinder and you in the middle with the Energies of Abundance & Healing. Around the tree trunk see the Plum colored Light of Divine Mother's Energy of Rejuvenation. Around that we create Great Silent Watcher's Tornado of Turquoise Blue Light that extends all the way from the Core Crystal up around you, around the tree trunk, all the way up to the Pool of Creation. Visualize this tree trunk and the tree that extends all the way up to the Pool of Creation spreading its branches and leaves into the Pool of Creation.

Around the Tornado of Turquoise Blue that Great Silent Watcher brings with the Energies of Power & Protection, we call the Guardian of Stability with the Purplish colored Light of the outside of an eggplant. Visualize that Light spinning along with the Light of the Turquoise Blue Tornado stabilizing everything within it, the tree trunk, and your energies as well inside.

Now we focus on the Core Crystal and the Amber colored Light of Mother Earth, and we pull that up through the root system and the Hara Line all the way up to the bottoms of our feet and fill our body and being, our 5 Body System & Light Body with the Amber colored Light as it continues to move up through the Crown, our Crown Chakra, up into the cylinder of the tree trunk, all the way up to the Pool of Creation mixing with the Energies of the Pool of Creation.

We see Great Silent Watcher pouring her Turquoise Blue mixed with Gold Light into the Pool of Creation. Mother of the Universe – Vibrant Pink & Gold, Cosmic Mother – Vibrant Amber colored Light and Gold, Divine Mother's Golden Brown, Victory's Champaign colored Light with Gold, Guardian of the Divine Plan – Warm Orange & Gold and Guardian of Compassion her Creamy Peach colored Light pouring all their Lights into the Pool of Creation. And they pour down through the tree trunk to our Crown and into our body, and having mixed with the Energies of Earth, filling our 5 Body System Light Body, all our Chakras, energizing them, clearing and cleansing them from all dross, moving down through the bottoms of our feet, all the way down to the Core Crystal where you as the catalyst to

have brought the Energies of Earth to the heavens above and the Cosmic Energies of the heavens above down to Earth.

These Feminine Deities, the Feminine Energies moving to the Core of Mother Earth, mixing once again with the Life Force Energy of Mother Earth, and we give our blessings to Goddess Gaia as this is happening, the Deity of Mother Earth bathing in these Lights from the Cosmic Feminine Council, and these Energies now move back up through the root system to the bottoms of the feet, filling our body and being and moving up to the Pool of Creation.

The Energies of all those Feminine Deities once again invigorating the Energies from the Core Crystal and moving down through the tree trunk to our Crown into our body and being, and out the bottoms of our feet all the way down to the Core Crystal, mixing again and coming back up. And this time as they fill our body and being we move our consciousness with these Energies all the way up to the Pool of Creation where you find yourself floating in the Pool of Creation with all these amazing Cosmic Beings standing along the sides.

We pull ourselves up before the two Angels who have our ceremonial robes and scepter. We place the ceremonial robes around us, our cape, we reach for our scepter with gratitude and blessings to these Angels and we turn to face Divine Mother sitting on her Throne in the distance. Shiva & Shakti on either side of her, Great Silent Watcher standing behind her, her Scepter raised, holding them all in a Sphere of Turquoise Blue Light. We glide to Divine Mother standing before her, she stands and raises her arms and we're pulled into her bosom, Golden Brown Light all around us.

Take a moment and sit with Divine Mother bathing in her love, her nurturance, and invite your family members into the bosom of Divine Mother. Set your intentions, say your prayers, express your gratitude and the next voice you hear will be that of our Beloved Nasrin. I thank you all, I wish you a great holiday season and we'll speak again in 2017. So It Is.

Nasrin: 9:18

Hello everyone and welcome to 12-12-2016, the last session of the year. May this be a new beginning for all of us as we move into the year 2017, and new positive and happy beginnings for all of us.

Divine Mother: 9:47

My Beloved Children of Light I'm your very own Divine Mother.

I will give you the message for the year 2017 in our January session which will come to you sometime in the first week of January.

Now to close the loop on this year and to offer a burning of all the karma and karmic entanglements for this year, to go into the New Year from a place of upliftment without any entanglements, I would like to offer you a gift. This is a gift from Great Silent Watcher.

Great Silent Watcher is the Cosmic Source of the Light for this entire universe. Everything that is in form, everything that is in creation takes its Light from that Turquoise Blue Light which is the source of its existence, and it comes from our Beloved Great Silent Watcher's Heart Core. It is the Signature Energy. It is the Life Force of Great Silent Watcher.

Great Silent Watcher has explained to us that there is a higher aspect of that Light. The Turquoise Blue Light applies to her and everything that she has created throughout the universe. There's a higher source, a higher purer source that applies to the higher dimensional realms and higher intentions, and goes all the

way from the Pool of Creation, through the layers that are nonmanifest to Etheric manifest, which is just Light with a little bit of form, and comes all the way to the edge of form, and that is the Topaz Blue Light.

Great Silent Watcher has given us the grace of introducing us to an aspect of herself. You can even say, her higher self, her higher Life Force Energy through a female Being whose name we have called the Topaz Blue Cosmic Guardian of Protection. We sometimes call her the Topaz Blue Goddess of Protection. Both are the same Being, and this Being is the pure aspect of Great Silent Watcher.

If you imagine that the Turquoise Blue is the aspect that has gained density to withstand these lower dimensions and the slowness, the slowness, the snail pace of time and space in the 3rd, 4th, 5th dimensions and all the way to the 13th that Turquoise Blue is your go to Energy. But if you are working with higher Energies above and beyond the 13th dimension and you want to accelerate yourselves in those realms and dimensions and penetrate your Energies and work on behalf of your soul, then you want to introduce the Topaz Blue Light, and you want to work with Great Silent Watcher as well as the Topaz Blue Cosmic Guardian of Protection.

The reason why we have called her Light the Light of Protection is that it protects you from the slowness and the distraction that exists in the 3rd Dimension, and I can extend that all the way from the 3rd to the 13th. So all these levels and dimensions of reality where you need your Physical Body and your physical energy to operate in which extends from the 3rd to the 13th you need to work with Great Silent Watcher's Turquoise Blue Light, but calling on the Topaz Blue Light and the Topaz Blue Cosmic Guardian to overlight and extend that Topaz Blue Light to the higher dimension to allow you to do more, as well as extending it to these lower dimensions is a positive and beneficial exercise. It's a good exercise because it allows you to bring those pure and fast resulting Energies of the Topaz Blue Light to your realms of reality. It is also positive and beneficial because it helps you to ride with your soul to the higher realms of reality. So I want you to please take this gift very seriously.

First I will invite our Beloved Great Silent Watcher. I ask you to imagine her standing emanating her Turquoise Blue Light, holding her Scepter of Power above your head as you stand before her, pouring the Turquoise Blue Light creating that dome which you are by now quite familiar with. I want you to become aware that all the Deities & Beings who are familiar to you are present. Cosmic Guardian of Divine Plan sending her Energies to enhance this experience with her – Warm Orange Light. Goddess Victory, Goddess Liberty, Mother of Universe, Mother of Cosmos, the Grid of 4, the Grid of 6, the 12 Cosmic Guardians, and those of you who have been participating in the latest course entitled Past Life Regression, become aware of the new Cosmic Guardians that have complex colored Lights who are also present. Great Silent Watcher is pouring her Turquoise Blue Light creating a dome around you. Inside the dome you are bathing in the Turquoise Blue, allowing your body to absorb, your 5 Body System to absorb, and your Light Body to absorb the Turquoise Blue Light.

Now I ask you to envision that Cosmic Guardian of Protection who carries the Topaz Blue Light arrives in the scene, the Topaz Blue Guardian of Protection. I ask you to imagine this beautiful tall female Being entering inside the dome and filling the dome with her Energy, and picking you up and placing you in her bosom. She's very tall and her Sky Blue Topaz Light is very vibrant. I ask you to bathe in those Energies and fill your heart with the Topaz Blue Light. Fill your Physical Body, and let the Topaz Blue Light be absorbed from the surface of your skin immersing your entire body, all your organs, your bloodstream, your muscles, your skeleton all the way to the bones and the bone marrow, every organ, every cell down to every atom, and the DNA/RNA within each cell is now absorbing the Topaz Blue Light.

The Physical Body is filled with the Topaz Blue Light. Now it moves into the layers of your 5 Body System.

Your Etheric Body, the second layer of your 5 Body System is now filled with Topaz Blue Light, breathe it in.

Your Emotional Body, the third layer is now filled with the Topaz Blue Light, breathe it in.

Your Mental Body, the fourth layer of your 5 Body System is now filled with Topaz Blue Light, breathe it in.

Your Spiritual Body, the 5th and last layer of your 5 Body System is now filled with Topaz Blue Light, breathe it in.

Now imagine the next layer which is your Light Body. It forms a beautiful sphere around all the layers and it is filled with Topaz Blue Light. Your Light Body is also your Vehicle of Light in the form of a Sphere. It becomes your Merkaba Field or the vehicle with which you do time travel, realm travel, travelling into the realms that are not accessible while you are in Physical Body. They are not accessible by the Physical Body yet, but they are accessible by your consciousness. So you put your consciousness inside this Sphere of Topaz Blue and you go into those realms. That is the best and the highest protection. It protects you from overstretching yourselves. It protects you from dispersing your Energy. It protects you from draining yourselves, and it protects you from overloading yourselves.

When you go to the higher realms it's possible that you could pick up too much Light and then you get drained, your nervous system becomes overworked. Having this Topaz Blue illuminate your Light Body at all times gives you the protection that you need because it steps down those higher Lights to become exactly right for your body, to become exactly right for your needs. It gives you the exact amount of Light, at the right pace, the right consistency, the right resonance to do exactly what you need to do. It combines that whole concept of transmuting karma, transmuting obstacles, removing, resolving resistance, distractions and delays, clearing the path ahead of you, clearing the path from old fears and worries and concerns that might become hooks that hold you back from moving ahead. It fills you up with hope and positive outlook.

As I said, this is the best gift I could give you and the best tool to embark upon the new year of 2017. We have just entered the Spiritual Year. You may feel the level of acceleration that your soul is embarking upon, so as we move to the Gregorian Year and the beginning of the year 2017 you're combining the purpose of your soul and your spirit with your mundane level purpose. Those of you around the globe who work with the Gregorian Year, the year 2017, live your mundane life, live your worldly lives based on the workings of that year,

At the beginning of the year the year is new, like a baby it's pure, and as it goes through the year it gains heaviness. It's not meant to be that way but it is that way because of the fact that 3rd Dimension is so slow, and because invariably the year is behind, meaning everything that you want to achieve, everything that is meant to be achieved globally ends up being behind, so that becomes a drag force that pulls you down. Many of you are very familiar with how tough the Months of October, November and December become, and in a year like this when the world is going through a lot of changes both natural and manmade, it would weigh even heavier.

So moving yourselves inside the dome of Turquoise Blue and this Sphere of Topaz Blue would be a way for you to accelerate yourself. A way for you to nullify, neutralize that drag, the drag of the year, but also I want you to please be aware as you move into the beginning of the New Year that since it's pure and new it has the potential to be much more malleable, much more easy to work with. So put your intentions for what you want to achieve inside of this Sphere and pour the Topaz Blue Light, inviting the Cosmic Guardian of Protection and her Topaz Blue Light to protect you and to protect your intentions. To bathe

you and to bathe your intentions with success, with the purity of her Topaz Light, and start making notes, start writing your intentions for what you want to achieve in the New Year.

Become firm and focused on what you want to achieve. And the first three months of the year push, push hard to connect these higher Lights to your mundane life, to all aspects and walks of your day to day lives, and the lives of your loved ones. Better school for your children and grandchildren, better health for all members of the family and loved ones, better available resources, better outlook to life, better stepping stones, better friends, better associates, better jobs and job and working environments, better standard of living, better quality of life, and then specific things.

Sit down and write the specific things and see those things you want to manifest bathing in the Topaz Blue. Pull those things you want to manifest, those ideas and thoughts, those specific and general things, pull those things under the dome into the bosom of the Topaz Blue Cosmic Guardian, and include in that the Physical Body, the 5 Body System and the Light Bodies of all your loved ones, of all events and circumstances that are ahead of you in the New Year. All intentions you want to manifest, all things you wish to accomplish, pull into the dome and into the bosom of Cosmic Guardian of Protection. The health and wellbeing of Earth and all 5 Elements pull it into the dome and into the bosom of Topaz Blue Cosmic Guardian of Protection, and let Great Silent Watcher and the Cosmic Guardian of Protection do the work for you, do the work on your behalf for your loved ones, do the work of manifesting your intentions, do the work of raising the vibration globally.

You on your own would be stretching yourselves too thin to try and do any of this alone, but you bringing those thoughts, those ideas, intentions and your focus on those materials, those resources and your loved ones, pulled into the dome for the protection of Great Silent Watcher and into the bosom of Cosmic Guardian of Protection under her Topaz Blue Light will allow you to then offer it and ask for their grace and their ability to accelerate its manifestation. That will not stretch you too thin. That will empower you in leaps and bounds by exponential measures. You will gain much greater empowerment from pulling the Energy into the dome where you stand with Topaz Blue Cosmic Guardian of Protection. And bringing everything into her bosom will empower all those things, all those people, all those places and things, all those thoughts and ideas, all those loved ones, all those events and circumstances, empowering you and empowering all those things to render their best. You are asking for the magnification of all those intentions, for everyone and everything to render their best potential, simply by bringing them into the dome and the bosom of Cosmic Guardian of Protection.

Recently I have been asking you to just pray for yourselves, and if you had a need to pray for others, for the globe, for people, places and things, to do it through the Deities. If you have a need to send healing to someone, instead of sending the healing from yourselves, come and stand inside the dome. Bring the person, the place, the thing, the situation, the issue that needs healing under the dome and into the bosom of Topaz Blue Cosmic Guardian, and then state your intention for healing to be given by the Cosmic Guardian and Great Silent Watcher, and then you have magnified the impact exponentially.

I give you a moment now to think of three things that you would like to manifest in this year. It can be things that you want to manifest for yourselves, for others, for the globe, and apply the steps as I explained to you. First think of the issue or the thing or the person. Bring that thing, that issue, that person under the dome. Then pull that thing, that person, that issue into the bosom of Cosmic Guardian of Protection, into the Topaz Blue Light and then release it. Don't take ownership of it. Offer the ownership of it to Great Silent Watcher, to Topaz Blue Goddess. Let it become their issue, their tasks, their responsibility. You bring it in, you focus on it, you offer it, surrender it and know it's done. Know from the core of your being that it is done. It is done ten times, a hundred times, a thousand times, a million times better that you could ever imagine doing it yourself, and know and trust that the results are there.

Your job is to pull it in. Your job is to focus on it. Your job is to clarify within your own heart and mind what it is that you want to manifest. And then after you have brought it in, your job is to surrender it and know it's already done, because you've brought it in, you've brought it to their attention, you've brought it under their protection, and then apply it to everything and anything.

So the way to approach this from this day forward, and most importantly remembering that these days are precious, especially as we turn a new leaf moving into the New Year bring your thoughts, bring your ideas, bring your loved ones, bring Earth, bring all issues and circumstances from global to personal, first inside the dome, calling for the grace of Great Silent Watcher, then inside the bosom of Topaz Blue Cosmic Guardian of Protection say, I now surrender it to you, I know that you will give it the best possible outcome, better than I could even imagine. I trust that the outcome has already unfolded in the most positive, benevolent and beneficial way. You do this every morning, you do this every evening. Do this whenever you sit to meditate with your list.

Now put this dome in the center of your homes, and if you have more than a home, and where you want to include your office, you want to include your children and grandchildren, your nieces and nephews, your siblings, your parents' homes, offices you may do so. Put this dome over your home and the homes of your loved ones. Put this dome over places of business, over university campuses. Again I'm not asking you to run it through you, stretching yourselves. I'm asking you to put the dome of Great Silent Watcher and the body of Cosmic Guardian of Topaz Blue Light of Protection over university campuses, over high schools, middle schools, elementary schools, kindergartens, even daycare centers.

Pull it over places of commerce, places of transportation, in airports, in train stations, in bus stations. Put it over highways. Pull it over your cars and the cars of your loved ones, a dome of Turquoise Blue Light, inviting the grace of Great Silent Watcher and the Body and Life Force of Topaz Blue Cosmic Guardian of Protection. Surrender to Great Silent Watcher and Topaz Blue Goddess all the issues, all the situations and see how relieved you will feel after doing these exercises.

You leave your home to go on a vacation or a business trip and that feeling of what might happen should subside if you do it with full trust, if you do it with full surrender, if you truly go into the Energy of the dome and the bosom of Topaz Blue Goddess of Protection. If you fully embrace the knowing that the house is protected, the job is protected, the children and grandchildren, the nieces and nephews, the parents, the siblings, the loved ones, the spouses, the friends, the associates, the leaders.

Pull it over the flood zones, pull it over volcanic mountains, pull it over areas where earthquakes are prevalent, pull it over the oceans to purify the water. Don't do it yourself, ask them to do it. Your job, your service is to bring it to their attention. Your job in helping your soul is to involve them into your day to day lives, into the future of Earth and all species, into the creative force that moves every part of creation. Your job is to call for their grace to be present, and then your job is to know it's done, therefore, trust and surrender.

So when you wake up in the morning, the first thing you do is you see yourself inside the dome and you call on Great Silent Watcher. Then you see yourself inside the bosom of Topaz Blue Guardian of Protection and you pull whatever you want to manifest on that day, and if you don't know what you want to manifest on that day you say, I bring in all events and circumstances, all people, places and things that I will be dealing with today, and I offer it to the bosom of the Topaz Blue Goddess of Protection and I surrender it for the highest and the best outcome to unfold.

Then when you go to bed you put yourself inside the dome, inside the bosom of the Topaz Blue Cosmic Guardian and you say, let's go, let's go together and roam the realms and do good, and see how your dreams will be enhanced. See how your sleep becomes full and your body becomes rested.

Some of you know this very well, that you go to bed and you have bizarre dreams and you wake up many times, and you get up finally in the morning glad that the night is over and the nightmares are over but your body is not rested, your body is exhausted. Do this now and see the difference. Pull yourself inside the dome knowing that nothing makes Great Silent Watcher happier than to give you that dome, something that she has been offering you for years now. Every exercise, every meditation we have invoked the dome. Do it now at the level where you imbed it, you enmesh it into every aspect of your lives, every moment of living, every breath that you take and then take that next step, involve the Topaz Blue Cosmic Guardian, pull everything into her bosom. Let her pure Topaz Blue Light shine upon everything. Let it penetrate into the darkest and the most polluted situations and clarify, cleanse, purify it. The best part of it is that her Energy is so pure that it purifies instantaneously, transmuting anything and everything that is of lower vibration.

So by calling it over the oceans you clear the oceans, by calling it over your homes you clear the 5 Elements around your home. You transmute the Energy of anger and hatred and upset and depression from your homes from the people who live in the homes, but also the people who come. The person who comes and plows the snow for you, the person who comes and cuts your grass for you, the person who comes and delivers your mail and drops your packages, they will benefit. Imagine how fast you can reach multitudes and masses without even lifting a finger or extending your own Energy and Life Force, by simply making one intention.

Putting the dome over your homes, putting the dome over your cars, putting the dome over the university campuses, places of work, and you can be creative and think of multitudes of places, multitudes of people. Put it in all those zoos for all the animals in the zoo, and all the people who visit. Put it over everyone's personal computer. Put it on every TV show and let it be a subliminal energy that vibrates through your favorite TV shows. Put it over every cinema and every theatre. Put it on every hotel, hotel room and function room and conference room and ballroom, and most importantly put it over your 5 Body System and Light Body and the 5 Body System and Light Body of your loved ones.

You are my loved ones. I hold you in my own heart with great joy and love and celebration. Happy 12-12, happy entry into the year 2017, may we work together with greater zest and fervor and love as we move to conquer the next year. I Am your very own Divine Mother. So It Is.

Jim concludes: Thank you Nasrin, thank you Divine Mother, and I thank all of you, until next year. Have a wonderful holiday season. So It Is.
