Hello everyone this is Jim and I welcome you to Navaratri 2014. We're going to perform a ceremony today; we're outside before the Navaratri Fire. Take a deep breath and imagine yourself standing before the Navaratri 2014 Sacred Altar, Sacred Fire of Navaratri, a fire which pulls the ability to burn away all dross and bring purification. As you take a deep breath and ground yourself to Mother Earth, we will do our grounding meditation. Be aware that you are standing before the Sacred Navaratri Fire with everyone who's taking this course, with everyone who's doing this meditation now with us. Divine Mother is standing with us, the flames are jumping high.

As we do our grounding feel Uluru beneath your feet. Feel yourself slowly glide into Uluru, the Warm Clay Red colored Light of Uluru surrounding you, nurturing you. Send down around your Hara Line, the Pillar of Light which extends all the way to the center of Earth, extends roots down from the bottoms of your feet and tailbone down, all the way down to the Earth's Core. See those roots wrap around the Core Crystal of Mother Earth and see a tree trunk form around you with its roots surrounding your roots and extending also down all the way to the Core of Mother Earth and surrounding the Core Crystal and surrounding your roots holding you even tighter to Mother Earth.

See that this tree trunk as it extends up around you, the outer coat of the cylinder is like the bark of the tree and it is an Emerald Green color bathing everything that moves up and down through this tree trunk in the Emerald Green Qualities of Healing and Wholeness and Abundance. Visualize that this tree trunk continues all the way up through the heavens until it spreads out into the Pool of Creation and its branches and leaves filling the Pool of Creation.

Now as we pull the Amber colored Life Force Energy from Mother Earth up through our roots from the Core Crystal. The Core Crystal is a bright Amber colored Light and we pull it up through our root system, all the way up to the bottoms of our feet and feel that Amber colored Life Force Energy moving up into your ankles and your calves, legs, filling your body, your torso, all the Chakras of the body and all the 5 Body System with the Amber colored Light from the Core Crystal, all of this happening within the Emerald colored cylinder of the tree trunk.

As this Amber colored Light fills your body and being and it pours out of your Crown up through the tree trunk all the way to the Pool of Creation and pouring into the Pool of Creation we ask Mother of the Cosmos to pour her Cosmic Life Force Energy into the Pool of Creation which is also an Amber colored Light. It's more vibrant and a bit darker and as it fills the Pool of Creation it pours down through the tree trunk mixing with the Earth's Life Force Energy moving up as the Cosmic Life Force Energy moves down into the Crown and into your body revitalizing your body, energizing your body, 5 Body System, the Chakras of the body, filling your Physical Body and all the bones, circulatory system, nervous system, muscle tissue, organs of the body as it moves all the way down through the bottoms of your feet, pours down through the root system and reaches the Core Crystal where the Cosmic Life Force Energy from Mother of the Cosmos pours into the Core Crystal raising the vibration of the Life Force Energy of Mother Earth as well as Mother Earth, the Five Elements, the Sacred Metals, and together moves back up through the roots to the bottoms of your feet.

We will move with this mixed Life Force Energy of the Cosmos and Mother Earth all the way up through the tree trunk, as it moves all the way up and pours into the Pool of Creation and you find yourself swimming in the Pool of Creation, Amber colored Light all around you and you see on the wood deck your two Angels standing with their trays as you pull yourself out of the Pool of Creation to stand and receive your robes and your cape, and your crown, and your Scepter of Power.

We turn to face Divine Mother's Throne in the distance, moving towards Divine Mother, she stands, holds her arms outstretched, her cape of Copper Gold pouring the Copper Gold Light on you, and we step into the bosom of Divine Mother and let her wrap her arms around us, holding us in her bosom, holding us within her love, her Copper Gold Light on this auspicious day, this auspicious celebration of Navaratri.

We send her an extra special outpouring of love and gratitude and together with Divine Mother as she holds us in her bosom we will move down through the Thrones, through the heavens above until we reach her retreat in the 5th Dimensional Octave and we stand within the great hall in the first level of Divine Mother's retreat, Warm Orange Light emanating from all the surfaces and in the air. All the Angelic Beings standing in rows upon rows around the Sacred Altar at the 5th Dimensional retreat of Divine Mother ready for this auspicious ceremony, this amazing ceremony that Divine Mother is about to bring us and we see as she takes her place on her Throne. On either side of Divine Mother Lord Shiva and Goddess Shakti are sitting on their Thrones in their ceremonial robes and all around the Sacred Altar are all the Great Beings, Great Silent Watcher, Victory, Mother of the Cosmos, Mother of the Universe, Guardian of the Divine Plan all standing around the Sacred Fire.

Now as you find yourself here in this amazing setting before the Fire as we also are aware that we are standing outside in the Elements before our own Sacred Fire of Navaratri burning, take a few moments, set your intentions, make your offerings to the Fire of Navaratri. Make your offerings for all that you want released, all that may be holding you back, all that you wish to be released from your loved ones, your family that may strip away the cobwebs, strip away the dust, and the dullness and reveal a bright shining gem that each one of us can be. Take a few moments, make your offerings, say your prayers and the next voice you hear will be that of our Beloved Nasrin. So It Is. I thank you with all of my heart.

Divine Mother begins: 10:10

My Beloved Children of Light I'm your very own Divine Mother.

I ask you to envision that you are in the 5th Dimensional Octave of Divine Mother around the Sacred Fire, I ask you to imagine that the Sacred Fires of Navaratri- in honor of Divine Mother conquering on behalf of forces of Light and battling the forces of darkness, those **Sacred Fires -are jumping up high as we all stand together.**

Be aware that **Lord Shiva and Goddess Shakti are seated upon their Thrones and they are weaving the filaments of Primordial Light to be brought to celebrate this Navaratri. They are offering their Primordial Light for the benefit of humankind. They're offering their Primordial Light to imbue the Sacred 5 Elements and the Sacred 5 Metals. The 5 Elements being the Element of Earth, Water, Fire, Air and Ether, the Sacred Metals being Platinum, Gold, Silver, Copper and Pewter, Lord Shiva Goddess Shakti are working with the 5 Sacred Metals. The 5 Sacred Metals will become the scaffolding that the Sacred Elements need in order for the return of purity to the 5 Elements. The Sacred Metals will become the structure that brings the 5 Elements into peace and harmony.**

Our specific intention for this Navaratri in the year 2014-2015 is twofold:

1- is the return of the 5 Elements into their sacred and pure substance and we do this by asking Lord Shiva and Goddess Shakti to bring their Primordial Light and seal their Light inside the 5 Metals and feed the filaments of this Sacred Light into the warp and weft of the 5 Elements, into the Earth, into the Waters of Earth, into the Fires of Earth, into the Air of Earth and into the Ether, the most sacred of the 5 Elements of Earth, to restore the 5 Elements into perfection. To make the container of the 5 Elements into a worthy container, to release the leak, to release the karma, the second intention is to help the 5 Elements to embrace the Elementals and by embracing the Elemental Kingdom to allow the return of that purity and innocence and the perfection that is the responsibility of the Elementals.

2-We are performing ceremony to ask- in the course of this year- for the 5 Elements to be receptive to the Elementals. You see, they are called 5 Elements, why? Because the Elementals and the Elements are family members, the Elementals are made of the 5 Elements. In a sense you can say everything that springs from the 5 Elements is of the Elementals and everything that is of the Elementals carries the 5 Elements. So, there is a family relationship, a family tree that contains the minerals, the plants, the animals, the human species all as family members together with the Elementals.

Together with the Elementals! The Elementals are part of this family tree and imagine that part of this family has been missing and we are now asking for their return. Obviously those are our intentions for this year.

Long term Intentions-Our overall intentions for every year for many thousands of years to come is the success of Divine Mother and the Divine Feminine in bringing peace and harmony back to Earth, in taking the reins and restoring balance.

The electromagnetic force field of Earth is out of balance. We are working on restoring that balance, it's something that has taken many thousands of years to get to this place of this harmony and we're hoping that it won't take many thousands of years to be returned to perfection, but that with your love and with our guidance together we can anchor the Energies so we will bring peace and harmony back to Earth. That is our overall intentions.

Now I will talk for a moment -as you see this scene and you see that Divine Mother and all the Cosmic Beings that you are now familiar with since we have performed various grids and ceremonies during the phases of Divine Mother's Healing and Manifestation course; **the 18 layer grid that we set up, that 18 layer grid is in place and that's what we together offer to the Fires of Navaratri this year by inviting the 18 layers of Beings to all be present.** I am going to quickly mention them all, not so much in the order they appear but as members of the 18 layers starting with you.

- **You and your soul lineage are an important integral part of this 18 layer grid. Imagine yourself, imagine your soul, your oversoul, members of your soul lineage, heads of your soul lineage then imagine Divine Mother and everyone she represents standing with you.**
- **We also invite Christ Maitreya and Sanat Kumara to be part of this ceremony and we're not so much counting them as part of the 18 layers but I am inviting them and you are inviting them because they represent an important aspect for the balancing of the electromagnetic force field, balancing of the masculine and feminine polarity.**
- **We have Goddess of Prosperity,**
- **we have Goddess of Life & Nurturance,**
- **we have Goddess of 5th Dimensional Health & Abundance,**
- **we have Goddess of Joy & Gratitude,**
- **we have Goddess of the Lilac Light of Balancing the Polarity of Male & Female,**

- we have **Mother of Universe,**
- we have **Mother of Cosmos,**
- we have **Goddess Victory in her Aspect of Love with Pink & Gold & Platinum,**
- she also comes with **Frosted Blue & Platinum to bring back Abundance from the higher Dimensions,**
- we have the **Pearlescent Gray with a drop of Purple for Empowerment that is overlit by Great Silent Watcher's Energies,**
- we have the **Cinnamon Goddess that carries the Energies of Sweet, Gentle Nurturing Love and the sweet aroma of Cinnamon with that color,**
- we have the **Goddess of Earthly Abundance carrying the Energies of Abundance for Earth from its Cosmic source,**
- we have **Goddess Liberty who is liberating everyone from the karma and karmic entanglements that Earth and all species of all souls have been involved in for the many past thousands of years.** Please be aware that the presence of Goddess Liberty and what she offers to this 18 layer grid is of utmost importance. So **be mindful of Goddess Liberty during this time of Navaratri because her job, the service, the Sava, selfless service which Goddess Liberty offers is the removal of the karma.**

At any time that you start you can connect to the Energies of Navaratri. What I ask you to do is to be mindful that everyday, you're working with day 8, day 9 and day 10 this is different from previous years and the reason is each day has a cumulative effect so rather than starting with day 1; I want you to **constantly envision you're in day 8, 9, and 10 simultaneously.**

So to finish off the Beings I am going to go to

- **Cosmic Guardian of Divine Plan and ask for her to be present and to specifically choose the highest Divine Plan especially from this Navaratri to the next Navaratri for all of you who are mindful of the Navaratri and Divine Mother Energies and on behalf of the 5 Sacred Metals becoming successful in building a strong foundation for the 5 Elements, clearing Earth, clearing waters, clearing Fires, reminding fires where they're needed and where they shouldn't be active, clearing the Air and releasing the pollution from the air and restoring Ether to embrace the 4 base Elements, being the godparent to the 4 Base Elements. It's the job of Ether to take care of Earth, Water, Fire, Air.**

Why would Ether abandon that job? Because when the container of the 4 Base Elements becomes this polluted- as indeed the waters, the fires, the air and the earth is at this present time in the history of Earth in this 3rd Dimensional realm, - Ether cannot alone accomplish the task of embracing and uplifting those 4 Elements, so in a sense this Ether will end up abandoning the Base Elements because it is a question of saving its own integrity. We have brought it the 5 Sacred Metals and we have brought it the 18 layered grid with 18 very strong Cosmic Beings- actually it's more than 18 because we have added other Beings such as **Sanat Kumara and Christ Maitreya who are also Great Cosmic Beings who are responsible for Earth's destiny.** You can have very, very powerful Beings who are neutral and they may not be able to do as much as having the kind of powerful Beings who are so attached to Earth and its destiny- like Sanat Kumara and Christ Maitreya. These two and their love and their selfless service, their consciousness embracing Earth means such a great deal and can do such an enormous, enormous service.

We further have all of these Beings: **we have our Beloved Great Silent Watcher, Silent Watchers and Angelic Watchers and now we have petitioned in very recent times the presence of the Elementals. We have petitioned Great Silent Watcher and the Silent Watchers as well as Angelic Watchers who will watch over many categories of Elementals and that is in itself a feat of achievement.**

In the course of this year as we move into the Energies **I ask you to be extremely mindful that you're working with the Elementals that Great Silent Watcher has commissioned specific Silent Watchers and Angelic Watchers to pour their Energies into creating a container for the return of the Elementals. Be mindful that we have together fashioned from the Elemental Kingdom the type of Beings that are most influential in bringing back the best that the Elementals can offer. The Elemental Beings are now assembled around the Sacred Fire. They come in all shapes, forms and sizes, they also come in formless like Spheres of Light, like soap bubbles except they are Light Bubbles and they too represent the Light that will overlight the 5 Elements, very specifically the Light that will help clear the Earth, the Waters, the Fires, the Air, and help Ether to embrace the other 4.**

Standing around the Sacred Fire offering prayers to the Divine Mother in her Aspect of Sri Lalita, she is the patroness of day 9: the last day before Divine Mother conquers. Imagine that you are standing before Sri Lalita and you are asking the Aspect of Divine Mother as Lalita who is responsible to remove karma, karma and karmic entanglements. So I am going to sing to Lalita and I am going to ask you to sing with me or just listen and go into the Energies. As I sing the Energies, the Light, the language, the song I ask you to set your intensions, your personal intensions. So here you are day 9 singing to Sri Lalita. We've set you up on day 9 before Sri Lalita.

I ask you also to envision that you are standing before the same Sacred Fire, with the same entourage of Beings and it is day 8 and we are specifically calling upon the Aspect that we celebrate as Goddess Victory. This may not be in the ancient rituals using the name Victory but Goddess Durga is the Victorious Aspect of Divine Mother so you may imagine that both Goddess Victory and Goddess Durga are present in the Aspect as you know Goddess Victory as well as the Aspect you know as Goddess Durga. Remember that some of you know Goddess Durga as the Destroyer of Karma and it is true that it is the job of Goddess Durga to destroy karma and it is good that we represent both in the 8th and in the 9th a representation of Divine Mother as the Destroyer of Karma. Of course Goddess Victory is the one who removes the karma and feeds and fills the place that has become ready and vacant with the Energies of Victory so we need both Goddess Durga as the Destroyer of Karma and Goddess Victory as the replacer of karma with victory. So imagine that you are also present with Goddess Durga and Victory on day 8,

Then day 10: day 10 is the final day when Divine Mother has won the battle by the nightfall on day 9. Divine Mother has conquered and the table has turned and the forces of darkness have given in and they have set their weapons at Divine Mother's feet and are paying obeisance to Divine Mother who then goes and sits upon her Throne with Lord Shiva on one side of her, Goddess Shakti on the other side of her. So Shiva Shakti are present, you are present on day 10 and you see Divine Mother- whatever image you have of Divine Mother- and I suggest that you see Divine Mother in that Signature Energy that I have brought and called the Copper Gold Light. Divine Mother seated upon her own Throne with Lord Shiva to her right, Goddess Shakti to her left and you standing smack in front of her, facing her and to the side of you, the way you're standing it's your right side is to the Fire and your facing Mother and you take from the Sacred Fire the Sacred Ashes and you offer it to Divine Mother, Lord Shiva, Goddess Shakti and ask for their blessing. You ask to be successful, to be conquerous, for you to be the warrior, accomplisher of all feats and that is day 10; that is day 10.

So you're standing with this entire entourage, day 8 is represented with you standing, Goddess Victory, Goddess Durga present. Day 9 is represented with you standing, Sri Lalita is present, Day 10 is represented with Divine Mother completely conquered forces of darkness with their heads on the floor, their weapons at Divine Mother's feet with you standing and offering prayers and Sacred

Ashes to Divine Mother with Lord Shiva Goddess Shakti standing to either side of Divine Mother and together we will sing

Shri Lalitham bika yai Namaha

(repeat this mantra for any number you desire- sacred numbers to divine Mother are 9, 21, 54, 108 - any numbers which add up to 3 or 9

in the name of Divine Mother, in the name of Sacred Lalita the giver of booms, the giver of happiness, the giver of joy, the remover of karma. We will do that which is for day 9.

Then we will sing to Durga which is day 8 and ultimately we will sing to Divine Mother and I ask you to do this, I ask you to listen to the song and as you're listening to offer your own intentions to the Sacred Fire and I ask you to repeat my intentions to the Sacred Fire.

As I sing it I ask Jim to join me and then I will set my intentions as we sing together

Shri Lalitham bika yai Namaha I pay salutations to the Beloved Lalita. I pay salutations to Beloved Durga, I pay salutations to Beloved Victory, I pay salutations to Beloved Mother of all Mothers, I pay salutations to Shiva Shakti, the Primordial Light, I pay salutations to Love, I pay salutations to Divine Light, I pay salutations to Navaratri Fire, I pay salutations to the 8 of Navaratri to be victorious, to remove all karma, I pay salutations to day 9 of Navaratri for Lalita to remove karma and to replace it with joy and happiness, I pay salutations to day 10 of Navaratri to conquering on behalf of Light to success, to joy, to peace, to the Primordial Light under Shiva Shakti Light, Primordial Life Force. OM Shiva Shakti yai Namaha

Now we go to Goddess Durga and sing

Shri Durga yai Namaha

(repeat this mantra for any number you desire- sacred numbers to Divine Mother are 9, 21, 54, 108 - any numbers which add up to 3 or 9

Now in the name of Victory, Durga, Lalitah, Divine Mother, Shiva and Shakti we will complete this series by singing to Shiva and Shakti and we will sing by calling them and paying obeisance:

Om Shiva Shakti yai Namaha.

(repeat this mantra for any number you desire- sacred numbers to divine Mother are 9, 21, 54, 108 - any numbers which add up to 3 or 9.

You may join me in finalizing this Navaratri and every day through this year until we come back. Every one of these mantras whatever you remember of these mantras are valid and they can connect you to the Energies of Navaratri, to the Energies of all these Beings and to the blessings that are offered in removal of karma in return of peace and harmony, in intentions for each of you in your personal lives, success and happiness, in intentions for Divine Mother and the success of the Divine Feminine in restoring peace and harmony on Earth and to all species and for all species to live in peace and harmony. All of that is valid. Let us sing to finalize and complete this ceremony.

Shri Lalitham bika yai Namaha

Shri Durga yai Namaha

Om Shiva Shakti yai Namaha.

Now come forward and stand before Divine Mother with Shiva and Shakti on either side of you, with Victory and Durga and the entire 18 layer grid standing around you and receive the paste that everyone of these Beings has blessed from the Sacred Ashes that you offered to each of them and

receive the paste in your hands and rub it on your face and rub it on your body and rub it envisioning the bodies of all your loved ones and rub it on the 5 Elements, rub it on your pets, rub it on all the extinct species, all the species of animals, plants, minerals, of all species of every creature in creation, rub it on the 5 Body System of Earth, rub it on your own 5 Body System and your loved ones 5 Body System, rub it on the Light Body of Earth, on your own Light Body, on the Light Body of your loved ones

Then take 10 minutes to go and lay down and let Divine Mother, Lord Shiva, Goddess Shakti, Goddess Victory, Goddess Durga, Sri Lalita, the 18 Beings, Christ Maitreya, Sanat Kumara, members of your own soul lineage and the heads of your own soul lineage and aspects of you in other lifetimes all receive and exchange the love, the Light, the blessing, and the victory that is imbued in the ceremonies of Navaratri.

May this Navaratri bring you great joy, great success, great contentment. May this Navaratri bring Earth great peace and fill your lives with abundance. May all creatures live happily ever after in peace and harmony.

May each of you receive from eternity to eternity for all that you do on behalf of Divine Mother and in service to Light. I thank each and every one of you. I open my heart to each of you. I bathe you in Divine Mother's Love.

I Am your very own Mother. So It Is.
